

# Rapid Response

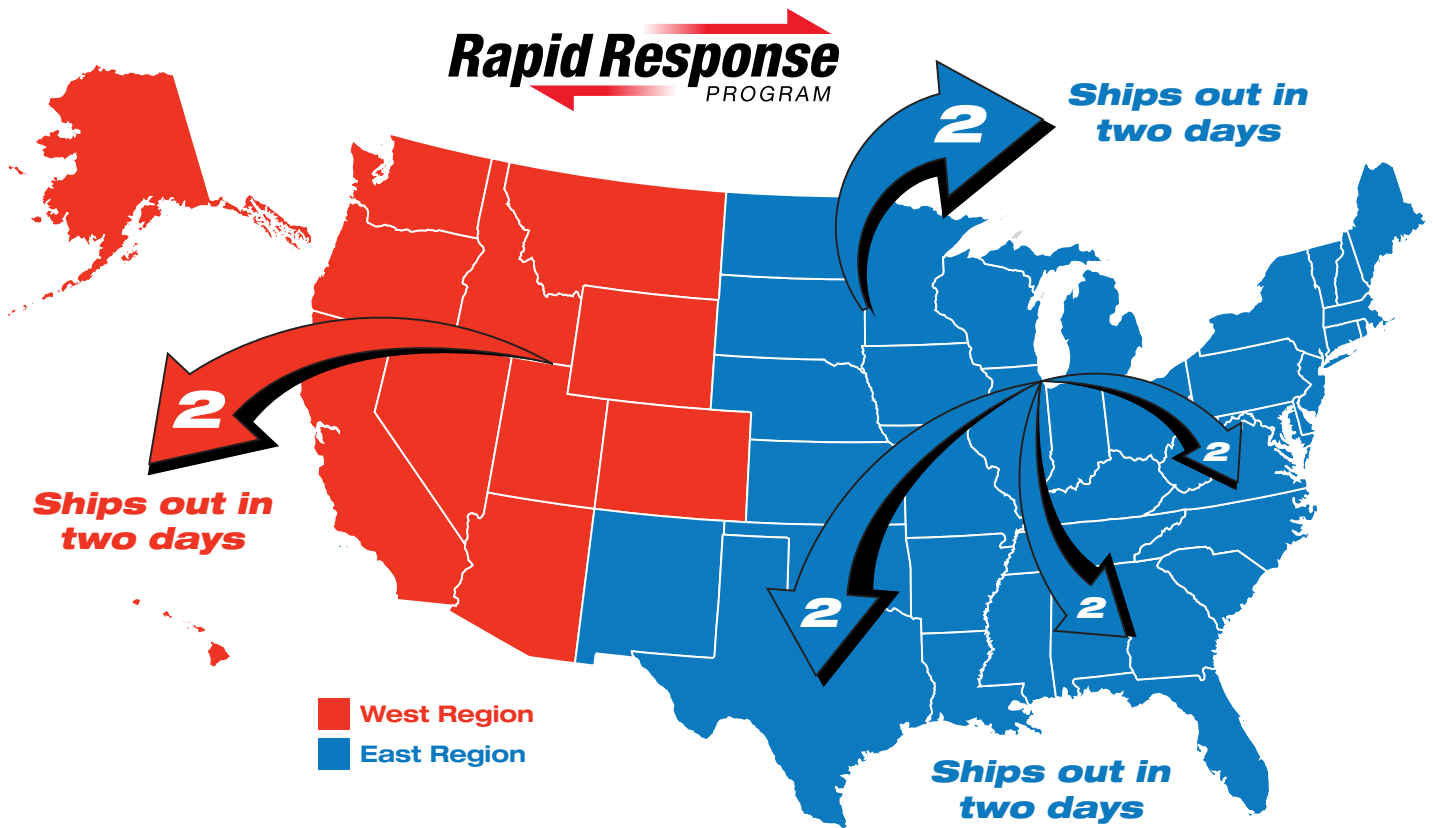

X1000RPM

*Powering Business Worldwide*

The Rapid Response Program from Eaton's Lighting division is designed to keep key ambient industrial and commercial lighting products flowing to your customers. With Rapid Response, completing projects has never been easier. Rapid Response provides flexibility through customizable options that makes ordering the most popular ambient products simple. Combining easy-to-order modifications and quick-turn service, Rapid Response allows you to deliver products faster, so projects are completed sooner.

## Program Guidelines

### Product and Options

Choose from stocked ambient products and customize these products by selecting a wide range of popular options, including lamps and emergency battery pack installation by using the Options Matrix inside this brochure.

### Order Requirements

Use Rapid Response ordering logic located inside this brochure to access all the available products in this program. All Rapid Response orders are limited to a maximum order quantity of 200 pieces.

### Order Ships In Two Days

Products will be ready to ship within leadtime as noted on map on all Eaton Rapid Response program orders received by noon local time. It's that simple! Quick-turn service that allows you to deliver products faster, so projects are completed sooner.

### Warranty and Shipping

Standard Eaton warranty and shipping terms apply. All Rapid Response orders are MTO and fall under the MTO return policy.

# Deliver Products Faster

## Encounter LED Series

- Leverages our patented WaveStream™ Technology with AccuAim™ optics
- Advanced optical control with optimal illumination
- High performance efficacy up to 143 lumens per watt
- Over 60% energy savings when compared to fluorescent troffers
- Standard 0-10V continuous dimming driver
- L92 at 100,000 hours with 5-year warranty

**WaveStream™ LED**  
Taking Control of Light.

NOTES: 1. Chicago rated version does not allow for row mounting. 2. DesignLights Consortium™ Qualified and classified for DLC Standard (all lumen packages), refer to www.designlights.org for details. 3. Products also available in non-US voltage and frequencies for international markets. 4. With non-integral test switch/indicator/laser test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available.

## SkyRidge LED Series

- Leverages our patented WaveStream™ Technology with AccuAim™ optics
- Advanced optical control with optimal illumination
- High performance efficacy up to 146 lumens per watt
- Over 60% energy savings when compared to fluorescent troffers
- Standard 0-10V continuous dimming driver
- L92 at 100,000 hours with 5-year warranty

## Cruze LED Series

- Advanced optical control married with contemporary styling
- High performance efficacy up to 157 lumens per watt
- Standard 0-10V continuous dimming driver
- Shallow depth housing (3.25") with access from below with hinged door
- 2' x 2': L79 at 60,000 hours; 2' x 4': L80 at 60,000 hours with 5-year warranty

## AC Accord Series

- Attractive contemporary design
- High performance visual perception and increased comfort levels
- Shallow depth and structural integrity for quick installation
- Removable refractor for simple lamp maintenance
- Tool-less ballast access from below plenum
- Powered by Fifth Light 0-10V dimming ballasts available

## 2RDI Ovation Series

- High-reflectance, matte-white finish painted after fabrication
- Center-mount lamp shield configurations
- Lamps and hardware are completely shielded from view
- Direct-Indirect design provides optimum brightness and glare control
- 2- and 3-lamp configurations available
- Powered by Fifth Light 0-10V dimming ballasts available

For EBP450F only, indicate UNV for 120V or 277V. 4. Fixtures equipped with "EL" option may require a 5-1/2" housing depth. If installing in field, must use low profile battery pack. 5. An EQ Grid Clip is recommended for all 9/16" ceiling systems. Four required per fixture. 6. See fixture specification sheet for dimming ballast notes. 7. 2-lamp only.

## GRLED Series

- Energy savings options versus traditional fluorescent troffers
- Correlated Color Temperatures 3500K, 4000K and 5000K
- Multiple lumen packages for each configuration
- Class 2, 24V DC constant driver with standard 0-10v dimming
- Typical CRI 85
- Lumen maintenance of L70 at 60,000 hours
- DLC qualified
- Five-year warranty

## GR8/GC8 Series

- Optimized for T8 lamps
- CEE listed energy-saving ballasts
- Superior lens brightness uniformity
- Reinforced flat steel door or regressed aluminum door available
- Positive spring-loaded steel latches and safety lock T-hinges
- 90% reflective white enamel finish for superior performance (GC8)
- Powered by Fifth Light 0-10V dimming ballasts available

## 2EP3 Series

- CEE-listed energy-saving ballasts
- Computer-designed, 3" nominal precision-cell parabolic louver
- Die-formed, para-contoured body with stiffeners for rigidity
- Positive cam latch, safety lock T-hinges allow hinging on either side
- Floating louver with black reveal
- Efficient air-handling option with air control vanes

## HBLED Series

- LEDs available in 4000K and 5000K CRI ≥ 80
- Optional 0-10V dimming driver
- Multiple lumen packages
- Optional door frames lens options
- Available with modular power supply
- Aisle and wide distributions

SAMPLE NUMBER: RR-HBLED-LD5-18SE-W-UNV-L850-ED2-U

Includes V Hangers for rapid installation

NOTES: 1. Voltage must be specified when ordered with plugs or emergency drivers. 2. When ordering MS option, specify as UNV (for 120 or 277V). 3. Requires use of MC or MPC cord accessories, specify voltage for plugs. (MP). 4. EM options available in 0°C - 40°C ambient. 5. Lumen output will vary depending on dimming or fixed output drivers. Refer to IES files for delivered lumens. 6. Rated for 40°C ambient. 7. Not available with narrow distribution. 8. CD driver not available in 12SE-L850, 18SE-L850 and 36SE. 9. DesignLights Consortium™ Qualified and classified for both DLC Standard and DLC Premium. Refer to www.designlights.org for details. 10. With integral test switch/indicator/laser test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available. 11. Not available with lens insert options AI and CL or doorframe options A and CL. 12. L850 not available in 36SE.

## F-Bay HBI Series

- Full-bodied and enclosed steel housing for rigidity and strength
- Segmented optical design optimizes performance
- Five-year, 55°C or three-year, 65°C ballast warranty
- Door frame and lens available in clear and prismatic acrylic
- F-Bay modular power supply available for quick power disconnect

SAMPLE NUMBER: RR-HBI-632-W-UNV-L8841-EB82/PLUS-UPL-U

NOTES: 1. Includes V Hangers for rapid installation. 2. EHT standard with T5HO lamps. 3. Voltage must be specified when ordered with plugs or emergency ballasts. For EBP450F only, indicate UNV for 120V or 277V. 4. EHT/HT5/HCT5 ballast systems suitable for ambient environments not to exceed 149°F (65°C) in open upright configurations and less lens option. 5. ER8 and EB8 ballast systems suitable for operation in ambient environments up to 122°F (50°C) in open upright configurations. 6. Recommended when using motion sensor options or accessories. 7. Requires use of MC accessories.

## F-Bay HBL Series

- Outstanding value for high mounting height applications
- Segmented optical design optimizes performance
- F-Bay modular power supply available for quick power disconnect
- Single monopoint-mounting also available with SPM hanger

## SNLED Series

- 8' and 4' Base, Lensed and Reflector configurations
- Three different lens types
- High efficiencies to 153 lumens per watt
- Typical 80+ CRI
- Class 2 with standard 0-10V dimming
- UL listed up to 40°C ambient temperatures

## SNF/SSF Series

- Flip-up socket feature for faster installation
- Die-formed, cold-rolled steel channel construction with numerous KOs
- Easy wireway access via removable wireway cover
- Tandem 8' lengths
- Use in storage, utility, display case, cove, task and general applications

SAMPLE NUMBER: RR-8TSSF-232-120V-EBP1400F-EB81-U

## WS Series

- Specification wraparound for commercial, school and dormitory spaces
- Steel end plates with 7/8" knockout and light seal embossment
- Ballasts are CBM/ETL Class P and CEE listed
- Rotor-lock lamp holders enable easy lamp engagement
- 100% clear, full-thickness, virgin acrylic prismatic refractor
- Internal side linear and bottom pyramidal prisms for even illumination

SAMPLE NUMBER: RR-WS-232A-UNV-EL4-EB81-U

## WN Series

- 100% clear, acrylic prismatic lens provides excellent illumination
- Lift-and-shift lens offers easy re-lamping
- Ends formed with housing for strength and row alignment
- CEE listed energy-savings ballast
- Rotor-lock lampholders enable easy lamp engagement
- Embossed steel end plates with 7/8" knockout

## VT3 Series

- Suitable for harsh commercial and industrial environments
- Polyester and self-extinguishing (ASTM-D635-74 5VA rated) plastic
- Ballasts are CBM/ETL Class P certified and CEE listed
- New contemporary-styled, clear acrylic, impact-resistant lens
- IP65 certified and NSF listed
- Optional damp location listed motion sensor installed
