General Information

RDS is an acronym for Report Distribution System. RDS was installed in SAMAS in 1994.

RDS allows users to:

1. Access reports on-line
2. Print an entire report
3. Print parts of a report on a local printer
4. Search for codes within a report
5. "Store" reports for later viewing.

RDS was implemented in part to reduce the amount of paper required to print reports.

State of Florida employees through RDS have quicker access to reports, and more flexibility in the use of information contained in the reports.

RDS is maintained by the Division of Information Systems within the Department of Financial Services. The DIS Help Desk is available to assist users with questions or problems related to RDS. The DIS Help Desk phone number is: (850) 413-3190.

Many kinds of reports may be "sent to" and accessed through RDS. Some reports are only available in RDS.

Categories of reports that may be accessed through RDS:

FLAIR (SAMAS) Reports (from the state standard library or agency library)
Payroll Reports
Central Accounting Reports
Information Warehouse Reports

Each RDS Agency Administrator is given the authority within the system to:

1. Facilitate which reports will be available to the users within his or her agency
2. Determine which employees will have access to these reports.

Sign-on Procedures

NASSAM – Netview Access Services

To access RDS, a user must sign-on to the Chief Financial Officer's Financial Information Network.

The screen may be accessed by:

1. Typing NASSAM on a blank VTAM (FLAIR log-on) screen
2. Pressing ENTER.

On the next screen:

3. Enter a **RACF Userid** given to you by your RACF Administrator.
4. Enter a **Password**.
5. Press **Enter**.

```
EMSP00                                HELP DESK: 850-413-3190      Terminal: SAMI3415
                                         Date . . . : 10/13/08      Time . . . : 10:04:55

State of Florida, Department of Financial Services

Enter Logon Information:
  ==> User . . . . . DISCL01      (User ID/LOGOFF)
  ==> Password . . . . _         New Password . .
Application . .
Group . . . . .
Location . . . .

PF 1=Help 2=Language
[4]B :00.1 17/36
```

Note: A user's RACF ID will consist of a three character prefix which has been determined by the Dept. of Financial Services identifying each agency and 3-4 characters unique to that person, assigned by the RACF Administrator in each agency. See **Appendix A** for a listing of RACF agency prefixes.

Passwords

A password is assigned by the user when first signing on to the Chief Financial Officer's screen.

Passwords must be made up of **at least four** and **not more than eight** alphanumeric characters.

If Signing on for the First Time

To assign himself a password (the first time a new user signs on) he will type in his:

1. **RACF ID**
2. The default password and
3. Depress **ENTER**.

[The default password is **D**XXX, where **XXX** represents the three character prefix assigned to the agency.]

Example: A user from **DFS** would use **DDFS** as the default.
A user from **Health** would **DDOH** as the default.

The system will bring back the following message, "The password has expired; enter a new password."

The user will then enter a new password in the New Password field and depress ENTER.

The message, "Reenter the new password for verification" will appear at the bottom of the screen.

The new password must be typed again in the New Password field and then ENTER is again depressed to log completely onto the network.

Note: This procedure is only necessary the first time a user signs on to this screen, or if the user's password has been reset (when expired or revoked.)

RACF Passwords

*Once the user has established a new password, that password is "good" for 30 days. **ALL passwords expire every 30 days** and cannot be reused for 15 cycles.*

To assign a new password at the end of a 30 day period, the user will:

1. Type that new password in the appropriate field
2. Depress ENTER and
3. Verify it when prompted.

This should be done every **30 days** to prevent a user from being denied access to RDS.

If a user's password expires or is revoked, he should contact the RACF Administrator within his agency to have it reset. If the RACF Administrator needs his password reset and there is no one else with that authority within the agency, he will have to call the DIS Help Desk to have the password reset.

Once the user has cleared the security screen (with a correct user name and password), the **Application Selection Menu** will appear.

```

```

Help Screens

In RDS there are help screens available.

To access a help screen the user will depress the **PF1** key while viewing any RDS screen.

The information displayed will depend on the screen from where the user requested help from.

It will also show Information about the PF keys.

Keep pressing the **PF1** key to scroll through the **Help** screens.

Help Screen Example 1

```
PF 1/13 HELP-COMMAND ==>
-REPORT DIRECTORY - HELP (FRAME 1/5)

***** KEYS AND PFKS (commands) *****
PFK 1/13 (HELP)      = Help
PFK 4/16 (EXIT/END)  = Exit from EOS
PFK 3/15 (RETURN)   = Process or return to the previous menu
PFK 5/17 (RCMD)     = Repeat last command
PFK 8/20 (DOWN)     = Scroll FRWD/DOWN frame
PFK 7/19 (UP)       = Scroll BKWD/UP frame
PFK 11/23 (RIGHT)   = Scroll right
PFK 10/22 (LEFT)    = Scroll left
PFK 2/14 = Split the screen at the position indicated with the cursor
PFK 9/21 = Swap the two halves of a previously split screen
ENTER    = Process
CLEAR    = Erase all input and redisplay

***** FUNCTIONS *****
Allows the user to:
- Scroll the directory, using the PFKs, or a positioning command.
- Request action on one or more reports in the action column.
  - Press the HELP PFK for next page ../..
  - ENTER to return to the display in progress-
```

blank  The report is active.

      - Press the HELP PFK for next page ../..
      - ENTER to return to the display in progress-
```

4B :00.1 01/27

Setting Up a New User to Access RDS Reports

Responsibilities of the RDS Administrator:

- Provide access to RDS to agency employees
- Determine the levels of authority assigned to individual users within RDS
- Decide which reports should be available to which user.

The following is a list of items that need to be accomplished for each user in order for that user to have access to reports in RDS.

1. Make sure that each user has a **RACF ID** – as discussed on the previous pages, a RACF ID must be set up for a user as a first step in the process.
2. **Create a Profile** – a user profile is established for the user, which indicates:
 - a. The authority of the user
 - b. The print capabilities of the user
 - c. The users name and address and other items related to that user.
3. **Forms** - Determine the forms (reports) to be accessed by the user. The user may have access to all agency reports or only reports specific to his/her job. This is determined by each agency and each RDS administrator. Add the new user (profile) to the appropriate forms.

Steps to Adding a User to RDS

1. Have a **RACF ID** set up for the new user, through the agency RACF Administrator.
2. Type **PROF** (for profile) on the COMMAND line of any RDS screen and depress ENTER to get to the **Profile Management Menu**.

                          5 - DELETE USER PROFILE
                          6 - RENAME USER PROFILE

      MEMBER NAME       ==> DISCL500 ←
  
```

01/27

Note: When creating a profile, always copy another valid profile. Each agency has **default** profiles set up for purposes of copying for new users.

7. On the Command Line of the Create User Profile Screen type:

COPY△(valid existing profile)

8. Press Enter.

*** △ denotes a space ***

```

PF 1/13 HELP-COMMAND ==> COPY DISCLUSE
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-CREATE USER PROFILE-                                     MEMBER-> DISCL500 LOGGED ON-> ES2
-----
USE DEFAULT AUTHORIZATIONS ==> NO          AUTHORIZATION PROFILE ==>
GLOBAL AUTHORIZATIONS     ==> SPECIFIC

----- COMMON AUTHORIZATIONS -----
COMMON AUTHORIZATIONS ==> SPECIFIC

PFK UPDATE      ==> NO    VIRTUAL KEY UPDATE ==> YES  UNAME CHANGE ==> NO
PRT/TR. QUEUE   ==> YES   PRINTER ONLY      ==> YES  USER ONLY    ==> YES
FILE PRINT      ==> NO    DYNAMIC ALLOCATION ==> NO   VERIFY QUEUE ==> NO
SCREEN HARDCOPY ==> NO

  
```

This copies the profile already set up for agency use (DISCLUSE) and makes a copy to use for the new user DISCL500

01/40

The message “COPY SUCCESSFUL” will display.

```
PF 1/13 HELP-COMMAND ==> COPY SUCCESSFUL *-*-*-*
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-CREATE USER PROFILE- MEMBER-> DISCL500 LOGGED ON-> ES2
-----
USE DEFAULT AUTHORIZATIONS ==> NO AUTHORIZATION PROFILE ==> #CLSUSER
GLOBAL AUTHORIZATIONS ==> SPECIFIC
----- COMMON AUTHORIZATIONS -----
COMMON AUTHORIZATIONS ==> SPECIFIC
PFK UPDATE ==> NO VIRTUAL KEY UPDATE ==> YES UNAME CHANGE ==> NO
PRT/TR. QUEUE ==> YES PRINTER ONLY ==> YES USER ONLY ==> YES
FILE PRINT ==> NO DYNAMIC ALLOCATION ==> NO VERIFY QUEUE ==> NO
SCREEN HARDCOPY ==> NO
```

The Profile that was copied will still contain the information of the prior user.

You will have to change the information in the **HEADER LINES** for the new user because it still identifies the “copied” user on print requests

9. From the COPY SUCCESSFUL screen, press the **PF8** key **seven** times to page to the **EOS MAIN PROCESSING OPTIONS (1 of 2)** screen.

10. In the section under HEADER LINES, type in the new user’s name, office address, phone or bin number. This information identifies the correct user on print requests.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-CREATE USER PROFILE-      MEMBER-> DISCL500 LOGGED ON-> ES2

4B  :00.1  06/17
```

The new user’s profile is now established.

The steps above are the **minimum steps** needed to set up a user profile. However, an individual agency may require steps in addition to the above to set up its user profiles.

The set up process continues on the next page.

Attaching a User to a FORM

After you have established a user with a PROFILE in RDS, the next step in the set up process is to “**attach**” this new user to a **FORM** (report.).

This is done by retrieving the Primary Menu.

1. Depressing **PF3** multiple times will bring you to the **Primary Menu**.
2. Once on the **Primary Menu**, type a **6** (**Form Index Management**) in the Select Option field.
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==> -  
-REPORT INDEX --> RINDX - RDSP61 D.SYP.RSDEOS.RINDX.UD001  
-PRIMARY MENU-          USER-> ES2          TR-> 7          TP-> 3154          TL-> 166267  
  
SELECT OPTION ==> 6  
  
1 - LATEST REPORT DIRECTORY  
2 - OLDEST REPORT DIRECTORY  
3 - DIRECTORY SELECTION  
4 - REPORT EXTRACTION  
5 - SPOOL MANAGEMENT  
6 - FORM INDEX MANAGEMENT  
7 - REPORT INDEX MANAGEMENT  
  
4B  :00.1 01/27
```

4. On the **Form Index Management Screen**, type **4 (Edit Form)** in the Select Function Field.
5. Input the name of the **FORM** (report) to which this user needs access.
6. Press **ENTER**.

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX      SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT-  FORM ENTRIES --> 26047 OCC --> 56 %

05/50

The Profile Function

Profiles:

1. Define Authorizations
2. Define Processing options
3. Define Printing requirements
4. Identify users
5. Separate one agency's users from another agency's users
6. Separate one agency's reports from another agency's reports

The Profile Function is also used to inquire into **Form Group Profiles**, and to set up and maintain User Profiles.

Accessing the Profile Function

1. Type **PROF** on the COMMAND Line of any RDS screen
2. Press **ENTER**.

Note: If a user does not have access to the Profile Function, a Syntax Error message will display on the command line.

The Profile Management Screen will display.

Two select types are available to agency administrators.

The screenshot shows a terminal window with the following text:

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-PROFILE MANAGEMENT-          LOGGED ON-> ES2

SELECT TYPE ==> _

3 - USER PROFILE
4 - FORM GROUP PROFILE
```

Select Type 3 (User Profile) retrieves the User Profile Management screen which lists **6** options for displaying, modifying and creating individual User Profiles within the system.

Select Type 4 (Form Group Profile) retrieves the Form Group Profile Management screen which lists **2** options. One option allows the user to inquire into the Form Group Profile Directory and list all form group profiles, the other allows the user to select just one particular profile.

At the bottom of the terminal window, there is a status bar with "4B" and ":00.1".

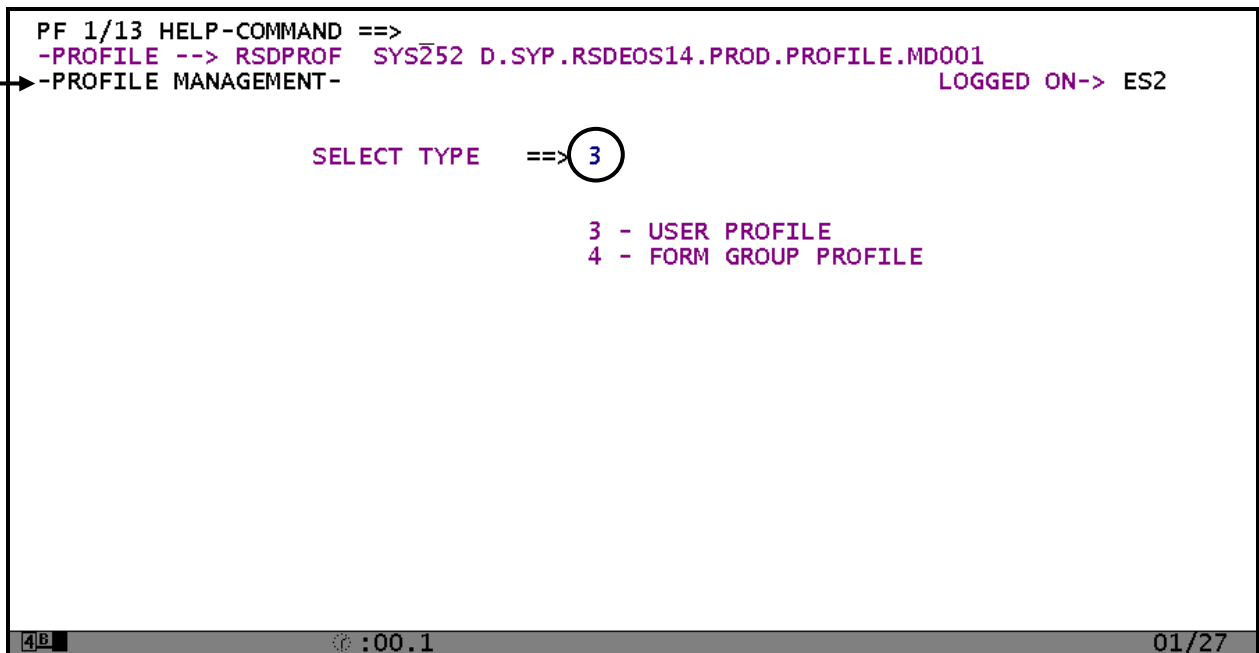

Select Type 3 - Individual User Profiles – Profile Management

From the **User Profile Management** screen, an RDS administrator may:

1. Create a new profile
2. Browse the list of users, and
3. Delete or Update individual user profiles

Each user profile consists of 11 screens of information related to the agency, the system itself and the individual user. The “Edit User Profile” section of this manual describes in detail these 11 panels and defines the fields of the panels.

1. Type a **3** in the Select Type field (on the **Profile Management** screen)
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-PROFILE MANAGEMENT-          LOGGED ON-> ES2

      SELECT TYPE ==> 3

      3 - USER PROFILE
      4 - FORM GROUP PROFILE

4B  :00.1 01/27
```

The **User Profile Management** screen is shown next.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE MANAGEMENT-          LOGGED ON-> ES2

      SELECT FUNCTION ==>
      1 - USER DIRECTORY
      2 - CREATE USER PROFILE
      3 - EDIT USER PROFILE
      4 - SELECT USER PROFILE
      5 - DELETE USER PROFILE
      6 - RENAME USER PROFILE
      MEMBER NAME          ==>
```

The User Profile Management Screen offers **six options**

1. **User Directory** - Lists of all users within your security clearance.
2. **Create User Profile** - To create a new user profile.
3. **Edit User Profile** - To change a user profile.
4. **Select User Profile** - To browse a user profile.
5. **Delete User Profile** - To delete a user profile.
6. **Rename User Profile** - To rename a user profile.

To access one of the function codes, the user will type an option number in the Select Function field, and depress ENTER.

Note: If you use options 2 through 6, you must also input a user Profile Name in the **MEMBER NAME** field.

Option 1 – The User Directory- User Profile Management

The User Directory allows the RDS administrator to view a list of all users (referred to as members) within his/her security clearance.

To access this function:

1. Type **1** in the Select Function field on the User Profile Management screen.
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE MANAGEMENT- LOGGED ON-> DISCL01

SELECT FUNCTION ==> 1
1 - USER DIRECTORY
2 - CREATE USER PROFILE
3 - EDIT USER PROFILE
4 - SELECT USER PROFILE
5 - DELETE USER PROFILE
6 - RENAME USER PROFILE

MEMBER NAME ==> _
```

If, when accessing this function, a member name is also entered in the Member Name field, the system will begin the list with that name.

An alphabetical listing of users or members will display:

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE DIRECTORY- 15470 ENTRIES LOGGED ON-> DISCL01

| T | Type of Group, not used. This should remain blank |
| Created | The date and time a profile was created |
| Last Update | The date and time the profile was last updated |
| By User | The last user to update the profile |

Option 2 – Create User Profile – User Profile Management

User profiles define the abilities and limitations of individual users within RDS. An individual user profile is comprised of **11 screens** of information which identify technical, system information as well as unique information related to the specific user. Because of the number of screens and the many items of information necessary to complete a user profile, **the RDS Administrator (when setting up a new profile) SHOULD ALWAYS COPY AN EXISTING VALID USER PROFILE.**

Copying a Profile

There are **two profiles** that DFS has established for the RDS Administrator to use when setting up new users and for setting up of an additional or new RDS Administrators.

(XXXMGR) – Profile to copy for New or additional RDS Administrator.

(XXXUSER) – Profile to copy for new end user of the RDS system.

Note: **XXX** = the agency RACF prefix)

Any necessary changes may be made to the new user's profile once the copy command is successfully completed.

To copy a profile:

1. Type 2 in the Select Function of the User Profile Management screen
2. Type in the New User **RACF ID** in the Member Name.
3. Depress **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252  D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE MANAGEMENT-                               LOGGED ON-> DISCL01

SELECT FUNCTION ==> 2
1 - USER DIRECTORY
2 - CREATE USER PROFILE
3 - EDIT USER PROFILE
4 - SELECT USER PROFILE
5 - DELETE USER PROFILE
6 - RENAME USER PROFILE

MEMBER NAME      ==> DISCL16_

Enter the RACF ID of
the new user.
```

4B :00.1 14/45

4. On the Command Line Type:
COPY△ (valid existing profile).
5. Depress **ENTER**.

△ - Denotes a space.

```
PF 1/13 HELP-COMMAND ==> COPY DFSUSER
-PROFILE --> RSDPROF  SYS252  D.SYP.RSDEOS14.PROD.PROFILE.MD001
-CREATE USER PROFILE-                               MEMBER-> DISCL16  LOGGED ON-> DISCL01
-----
USE DEFAULT AUTHORIZATIONS ==> NO      AUTHORIZATION PROFILE ==>
GLOBAL AUTHORIZATIONS      ==> SPECIFIC

----- COMMON AUTHORIZATIONS -----
COMMON AUTHORIZATIONS ==> SPECIFIC

PFK UPDATE      ==> NO  VIRTUAL KEY UPDATE ==> YES  UNAME CHANGE ==> NO
PRT/TR. QUEUE   ==> YES PRINTER ONLY      ==> YES  USER ONLY      ==> YES
FILE PRINT      ==> NO  DYNAMIC ALLOCATION ==> NO  VERIFY QUEUE    ==> NO
SCREEN HARDCOPY ==> NO
```

4B :00.1 01/39

A message, "**COPY SUCCESSFUL**" will display.

```

PF 1/13 HELP-COMMAND ==>
-COPY SUCCESSFUL *-*-*-*
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-CREATE USER PROFILE- MEMBER-> DISCL16 LOGGED ON-> DISCL01
-----
USE DEFAULT AUTHORIZATIONS ==> NO AUTHORIZATION PROFILE ==>
GLOBAL AUTHORIZATIONS ==> SPECIFIC
-----
COMMON AUTHORIZATIONS -----
COMMON AUTHORIZATIONS ==> SPECIFIC
PFK UPDATE ==> NO VIRTUAL KEY UPDATE ==> YES UNAME CHANGE ==> NO
PRT/TR. QUEUE ==> YES PRINTER ONLY ==> YES USER ONLY ==> YES
FILE PRINT ==> NO DYNAMIC ALLOCATION ==> NO VERIFY QUEUE ==> NO
SCREEN HARDCOPY ==> NO

```

The system will establish the new profile with the same authorizations as the one copied. If the newly created profile needs more or less authorization than the one copied, depress the PF 8 key to page forward through the CREATE USER PROFILE screens to the appropriate field and make the necessary change(s). (Changes can only be made within the administrator's security clearance.)

Option 3 – Edit User Profile – User Profile Management

As stated earlier, eleven screens make up the User Profile.

Note: Depressing the PF 8 key will page forward one screen at a time through the eleven screens.

Once a profile has been copied (or created) it may be edited (updated).

To edit an established User Profile:

1. Type **3** in the Select Function field on the User Profile Management screen.
2. Type the **RACF ID** in the Member Name field.
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE MANAGEMENT-          LOGGED ON-> DISCL01

SELECT FUNCTION ==> 3
                        1 - USER DIRECTORY
                        2 - CREATE USER PROFILE
                        3 - EDIT USER PROFILE
                        4 - SELECT USER PROFILE
                        5 - DELETE USER PROFILE
                        6 - RENAME USER PROFILE

MEMBER NAME           ==> DISCL01
                        ↑
                        [Profile record to be modified.]

4B  :00.1 14/43
```

The first **EDIT USER PROFILE Screen** will be displayed.

```

PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-EDIT USER PROFILE-      MEMBER-> DISCL10  LOGGED ON-> DISCL01
-----
USE DEFAULT AUTHORIZATIONS ==> NO      AUTHORIZATION PROFILE ==> #CLSUSER
GLOBAL AUTHORIZATIONS      ==> SPECIFIC

----- COMMON AUTHORIZATIONS -----

COMMON AUTHORIZATIONS ==> SPECIFIC

PFK UPDATE          ==> NO   VIRTUAL KEY UPDATE ==> YES   UNAME CHANGE      ==> NO
PRT/TR. QUEUE      ==> YES  PRINTER ONLY       ==> YES   USER ONLY        ==> YES

SCREEN HARDCOPY    ==> NO

4E :00.1 05/34

```

Many of the fields on the Profile screens have **YES**, **NO** or **SPECIFIC** displayed. These have different meanings depending on whether the profile displayed is set up for an RDS Administrator or for a “regular” user.

RDS Manager (Administrator)

| | |
|-----------------|---|
| YES | Can use this function. Can assign this function to any existing or new User Profile that is created. |
| NO | Does not have the authority to use this function. Can not assign the function to a User Profile. NO is the only option allowed. |
| SPECIFIC | The User Profile that is displayed has access to some, but not all functions within that function group. |

Regular User

| | |
|-----------------|--|
| YES | User has been given the authority for the specific authorization or function. User does not have the authority to delegate that authority to other users or to update his/her own profile. |
| NO | The authority for the particular option for this user is not allowed at the present time. If the RDS Administrator has the ability (within his own profile) to allow this user to have access to this option, this could be changed to YES in the future. |
| SPECIFIC | This User Profile has access to some, but not all functions within the function group. |

| | |
|-----------------------------------|--|
| Use Default Authorizations | Always set to NO by FLAIR. All Agency Report Distribution Administrators will be defined by FLAIR with SPECIFIC authorizations within RDS. |
| Authorization Profile | The format is #XXXMGR or #XXXUSER, where XXX = the Agency RACF prefix |
| Global Authorizations | Always set to SPECIFIC by FLAIR. Global Authorizations allow a user to access reports that are defined to all users within the established security clearance |

Common Authorizations:

| | |
|------------------------------|---|
| Common Authorizations | Represents authorizations that are common to all functions within RDS. It will be set to <u>SPECIFIC</u> by FLAIR. |
| PFK Update | Should be set to <u>NO</u> . Not available |
| Virtual Key Update | should be set to <u>YES</u> , to allow users to set virtual keys within RDS |
| Uname Change | Not available. Should be set to <u>NO</u> |
| PRT/TR Queue | If <u>YES</u> , it allows access to the printer queue to cancel a print request. (This will be used in conjunction with PRINTER ONLY and USER ONLY to restrict users to their reports only.) |
| Printer Only | If <u>YES</u> , it allows access only to the user's printer |
| User Only | If <u>YES</u> , it allows access only to the user's reports |
| File Print | Not available, should be set to <u>NO</u> |
| Dynamic Allocation | Not available, should be set to <u>NO</u> |
| Verify Queue | Not available, should be set to <u>NO</u> |
| Screen Hardcopy | Not Available, should be set to <u>NO</u> . (Use keyboard screen print keys or screen print through mainframe software "pull down" menu.) |

|---------------------------------------|--|
| Use Default Processing Options | Set to <u>NO</u> . FLAIR has established agency level profiles |
| Reference Profile | A user profile can act as a reference to supply all authorizations and processing options; any modifications must be made to the reference profile. The ID of the profile referenced to this user would be entered here. Left blank means no user is referenced |
| Form Group Profile | Defines the forms' group for each agency and will be represented here as: ϕXXX (where XXX = an agency's RACF prefix.) |
| User Group Profile | Defines the user group for each agency and will be represented here as: UXXX (where XXX = the agency RACF prefix.) |

SCREEN #2 - FIELD DESCRIPTIONS - continued

Common Processing Options:

| | |
|------------------------------|--|
| Caps | ON: displays all upper case letters on user screens OFF: displays upper and lower case letters on user screens |
| National Language | set to E for English |
| Indexed Search Result | YES is the default setting, which means that line and page numbers will be displayed when using the Search Command within a report |
| Search / Find Limit | The maximum number of report lines processed each time a Find or Search command is given. The default is 5000 |
| Envir. Group Profile | the name of the RDS working environment established by DBF and preset to &PGRDS for every agency |
| Skip Menu Character | The character (.) inserted between menu item numbers in order to skip a menu and go directly to the desired screen. Example: 3.2.1 may typed on the COMMMAND line |
| Cmd Chaining Char. | Used to chain multiple commands together. A semi-colon (;) should be inserted between commands |
| Virt K Char (A/C) | Characters used to recall a recorded virtual key. The default for activate (A) is a forward slash (/). The default for conversational mode (C) is a back-slash (\) |
| Batch Error Msge To | Not available, should be left blank |

General Output Options

| | |
|---------------------|---|
| Output Limit | Maximum output limit, should have a value of 0 |
|---------------------|---|

SCREEN #2 - FIELD DESCRIPTIONS - continued**Local Output:**

| | |
|--------------------------------|--|
| Local Printer | May read: LOCAL , may be blank or have a printer indicated. The system does not recognize the local printer from this field. Anything entered in this field is not relevant to local printing, because system printing is used for ALL printing within RDS. <u>The user's local printer ID (where applicable) will be entered on screen 9 in the DEST field</u> |
| Max Lines/Page | Maximum number of lines per page should have a value of 0 |
| Alignment Lines / Pages | Number of lines or pages of local output to print in order to align the paper. Defaults to report JCL |
| Number Of Alignments | Number of trial prints to process before actually producing output. Defaults to report JCL |
| EOS/PC User | RACF User ID when EOS/PC is in use. (EOS/PC is software that allows downloading of RDS reports to an accounting spreadsheet.) Will be blank when user is not an EOS/PC user |

```

4B :00.1 01/27

Press PF3 to return to the Profile Management Menu

Canceling a Request for Deletion

To cancel a request for deletion:

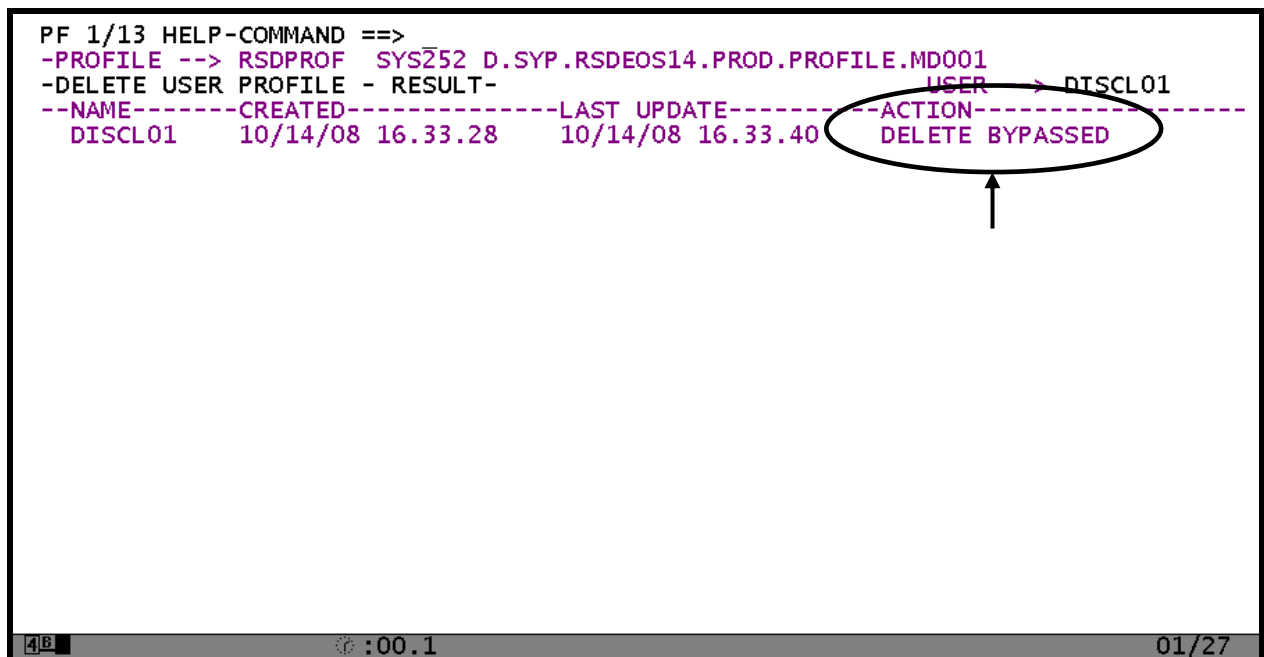

1. Type **C** or **CANCEL** on the Command line if you are on the **CONFIRMATION** screen.
2. Press **Enter**.

```
PF 1/13 HELP-COMMAND ==> C
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-DELETE USER PROFILE - CONFIRMATION-          LOGGED ON-> DISCL01
--MEMBER-----CREATED-----LAST UPDATE-----
DISCL01    10/14/08 16.33.28    10/14/08 16.33.40
```

If Cancelling a Deletion request, the screen shown below will display:

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-DELETE USER PROFILE - RESULT-                USER > DISCL01
--NAME-----CREATED-----LAST UPDATE-----ACTION-----
DISCL01    10/14/08 16.33.28    10/14/08 16.33.40    DELETE BYPASSED
```

Press PF3 to return to the Profile Management Menu.

Option 6 – Rename User Profile – User Profile Management

The last option available on the User Profile Management menu is to rename a User Profile.

1. Type a **6** in the Select Function field
2. Input a **User ID** in the Member Name field
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-USER PROFILE MANAGEMENT-                               LOGGED ON-> DISCL01

SELECT FUNCTION ==> 6
                    1 - USER DIRECTORY
                    2 - CREATE USER PROFILE
                    3 - EDIT USER PROFILE
                    4 - SELECT USER PROFILE
                    5 - DELETE USER PROFILE
                    6 - RENAME USER PROFILE

MEMBER NAME      ==> DISCL10_
                    ↑
                Profile Record to be Renamed
```

The **Old Name** and **New Name** will display as the same:

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-RENAME USER PROFILE-                               LOGGED ON-> DISCL01
-----

OLD NAME ---> DISCL10 ←
NEW NAME ==> DISCL10 ←
```

4. Type over the New Name with the name change desired.
5. Press ENTER.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001

-RENAME USER PROFILE-          LOGGED ON-> DISCL01
-----
OLD NAME ---> DISCL10
NEW NAME  ==> DISCL17
***** RENAME BYPASSED *****
```

RENAME BYPASSED

4B :00.1 01/27

Press PF3 to return to the Profile Management Menu.

Select Type 3 – Form Group Profiles – Profile Management

1. Form Group Profiles have been pre-established by the Dept. of Financial Services for each agency.
2. Form Group Profiles limit the form names that can be used by an agency, and by doing so, identify forms unique to each agency.
3. Form Group Profiles are established to ensure that each agency receive only its reports via RDS.
4. Agencies have the **ability to inquire** into Form Group profiles, but **no update** is possible.

To inquire into FORM GROUP PROFILES:

1. Type **PROF** on the Command Line at the top of any RDS screen.
2. Press **ENTER**.

The **Profile Management screen** will appear:

Note: If a user does not have access to the Profile Function, a Syntax Error message will display on the command line.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-PROFILE MANAGEMENT-          LOGGED ON-> DISCL01

      SELECT TYPE  ==>  _

                        3 - USER PROFILE
                        → 4 - FORM GROUP PROFILE

4B  :00.1 06/38
```

3. Type a **4** in the Select Type
4. Press **Enter**.

```
PF 1/13 HELP-COMMAND ==>  
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001  
-PROFILE MANAGEMENT-                               LOGGED ON-> DISCL01  
  
SELECT TYPE ==> 4  
  
3 - USER PROFILE  
4 - FORM GROUP PROFILE  
  
4B :00.1 01/27
```

The **FORM GROUP PROFILE MANAGEMENT** screen will display:

```
PF 1/13 HELP-COMMAND ==>  
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001  
-FORM GROUP PROFILE MANAGEMENT-                   LOGGED ON-> DISCL01  
  
SELECT FUNCTION ==>  
1 - FORM GROUP PROFILE DIRECTORY  
4 - SELECT FORM GROUP PROFILE  
  
MEMBER NAME ==>  
  
-  
  
4B :00.1 22/41
```

Function 1 - Form Group Profile Directory – Form Group Profile Mgmt

The **FORM GROUP PROFILE DIRECTORY** provides a list for the RDS Administrator of all the form group members that have been assigned for every agency.

To access the Form Group Profile Directory:

1. Type **1** in the Select Function field.
2. Leave the Member Name blank to get a directory of form groups for all state agencies, or enter a Member Name to display a list from that member forward.
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252  D.SYP.RSDEOS14.PROD.PROFILE.MD001
-FORM GROUP PROFILE MANAGEMENT-                               LOGGED ON-> DISCL01

SELECT FUNCTION ==> 1 - FORM GROUP PROFILE DIRECTORY
                    4 - SELECT FORM GROUP PROFILE

MEMBER NAME ==>

Enter a Member Name
or not - it's optional

4B :00.1 09/47
```

A directory of form groups for all state agencies will display, beginning with the first member name in alphabetical order.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252  D.SYP.RSDEOS14.PROD.PROFILE.MD001
-FORM GROUP PROFILE DIRECTORY-                               77 ENTRIES LOGGED ON-> DISCL01
A-MEMBER---T-CREATED--LAST UPDATE----BY USER--COMMENTS-----
***** TOP OF DIRECTORY *****
¢ACS      I 03/08/95 12/15/04 11.34 LFY

¢CLS      I 02/03/97 09/18/98 07.52 JBK
```

Most agencies have one member per agency.

The member name is represented by **¢XXX** where **XXX= the RACF ID prefix** of an agency.

For example, **¢DFS** will list the form group profiles for the Department of Financial Services.

To view the form group profile members for a particular agency:

1. Type **S** (for Select) in the Action (A) column beside the desired member.
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>

```

The group members for the agency selected, in this example, **Corrections**, will display:

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-SELECT FORM GROUP PROFILE- TYPE-> INC MEMBER-> ¢COR  LOGGED ON-> DISCL01
----- LIST OF GROUP MEMBERS -----
AA.. AB.. AC.. AD.. AE.. A8.. A9.. P70. Q70. RCOR R70. T0..
T1.. T2.. T3.. T4.. T5.. T6.. T7.. T8.. T9.. U70. ZZD. 70..
-----
-----
-----
-----
```

The (.) in the form name serves as a wild card.

When assigning a form names to reports, an agency RDS Administrator is limited to the Form Group Members assigned to that agency.

Function 4 – Select Form Group Profile – Form Group Profile Mgmt

Function 4 of the Form Group Profile Management screen is used to go **directly** to the List of Group Members assigned to particular member agency.

This essentially bypasses having to bring up the entire list for all agencies and then having to “Select” from the list to display that agencies Form Group Members.

To Go Directly to an Agency’s Group Form Members:

1. Input a **4** in the Select Function field
2. Input the **Member ID**: (**¢XXX** where **XXX** is the agency **RACF ID**).
3. Press **Enter**.

```
PF 1/13 HELP-COMMAND ==>
-PROFILE --> RSDPROF  SYS252 D.SYP.RSDEOS14.PROD.PROFILE.MD001
-FORM GROUP PROFILE MANAGEMENT-          LOGGED ON-> DISCL01

SELECT FUNCTION ==> 4
1 - FORM GROUP PROFILE DIRECTORY
4 - SELECT FORM GROUP PROFILE

MEMBER NAME ==> ¢DFS

This time the Member Name is required.
```

4B :00.1 01/27

The List of Group Members will display for that single agency.

In this example, for **DFS – Department of Financial Services**.

```
PF 1/13 HELP-COMMAND ==>

```

The Primary Option Menu

You may access the Primary Option Menu by first entering RDS into your default Report Directory and then pressing **PF3** one time.

Should you be anywhere else in RDS, you can retrieve the Primary Option Menu by repeatedly pressing the PF3 key.

The Primary Option Menu

```
PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX   RDSP61 D.SYP.RSDEOS.RINDX.UD001
-PRIMARY MENU-          USER-> DISCL01  TR-> 21      TP-> 2163   TL-> 78359

      SELECT OPTION ==>  _
                                1 - LATEST REPORT DIRECTORY
                                2 - OLDEST REPORT DIRECTORY
                                3 - DIRECTORY SELECTION
                                4 - REPORT EXTRACTION
                                5 - SPOOL MANAGEMENT
                                6 - FORM INDEX MANAGEMENT
                                7 - REPORT INDEX MANAGEMENT

4B  :00.1 05/27
```

There are **seven (7) options** available from this screen.

Note: The menu options are reflective of what access and authorities have been granted in a user's Profile so your menu might differ.

Option 1 - Latest Report Directory

The Latest Report Directory option will bring the user to the **bottom** of the list of his/her reports in his own personal directory and show **the most recent** reports to have run.

1. Type **1** in the Select Option field on the Primary Option Menu.
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==> -
-REPORT INDEX --> RINDX   - RDSP61 D.SYP.RSDEOS.RINDX.UD001
-PRIMARY MENU-          USER-> DISCL01  TR-> 21      TP-> 2163    TL-> 78359

SELECT OPTION ==> 1
                    → 1 - LATEST REPORT DIRECTORY
                      2 - OLDEST REPORT DIRECTORY
                      3 - DIRECTORY SELECTION
                      4 - REPORT EXTRACTION
                      5 - SPOOL MANAGEMENT
                      6 - FORM INDEX MANAGEMENT
                      7 - REPORT INDEX MANAGEMENT

4B  :00.1 01/27
```

The Report Directory display as seen below will start with the latest reports. Note the *******END OF DIRECTORY******* at the **bottom** of the display and the **C.DATE** in order of when the reports were created.

```
PF 1/13 HELP-COMMAND ==> -

```

Option 3 - Directory Selection

Option 3 allows you to specify **criteria** to “pull” all reports that match it.

This comes in handy if you have a lot of reports in your report directory and you only want to see the reports pertaining to just one form.

To access the Directory Selection screen:

1. Type a **3** in the Select Option field (from the Primary Menu).
2. Press **ENTER**.

```

PF 1/13 HELP-COMMAND ==> - RDSP61 D.SYP.RSDEOS.RINDX.UD001
-PRIMARY MENU-          USER-> DISCL01   TR-> 21   TP-> 2163   TL-> 78359

SELECT OPTION ==> 3
                    1 - LATEST REPORT DIRECTORY
                    2 - OLDEST REPORT DIRECTORY
                    3 - DIRECTORY SELECTION
                    4 - REPORT EXTRACTION
                    5 - SPOOL MANAGEMENT
                    6 - FORM INDEX MANAGEMENT
                    7 - REPORT INDEX MANAGEMENT

```

The **Directory Selection** screen allows you to **set the criteria** to find the particular report(s) you are looking for:

```

PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX      RDSP61 D.SYP.RSDEOS.RINDX.UD001
-DIRECTORY SELECTION- USER-> DISCL01  TR-> 21      TP-> 2163      TL-> 78359

FORM NAME          ==> -          APPL. (JOBNAME)    ==>
REPORT NAME        ==>          DEFERRED ONLY      ==> <- ENTER Y
REPORT ROOTNAME    ==>
NOTEPAD HEADER     ==>

REPORT VERSION     ==>          PRINTED REPORTS   ==> <- ENTER Y/N
REPORT STATUS      ==>          DISPLAYED REPORTS ==> <- ENTER Y/N

FROM DATE AND TIME ==>          /          EXPIRATION DATE  ==>
TO DATE AND TIME   ==>          /          ARCHIVAL DATE   ==>

DESTINATION        ==>          ROOM NUMBER         ==>
OUTPUT FORM        ==>          CLASS ==>          LOCAL PRIORITY   ==>

TOP SEARCH         ==> <- ENTER Y

WITH TOC ONLY      ==> <- ENTER Y          SELECTION ON TOC ==> <- ENTER Y

```

For example, here's a Report Directory with a lot of reports, but you only want to see the reports that have **LR01** as the **form**:

```

PF 1/13 HELP-COMMAND ==> -
-REPORT INDEX --> RINDX      RDSP61 D.SYP.RSDEOS.RINDX.UD001
-REPORT DIRECTORY-  USER-> DISCL01  TR-> 21      TP-> 2163      TL-> 78359
A-C-A-REPORT NAME-----TR-FORM-C.DATE-----TIME--V/E.DATE---PAGES-----LINES-NE-ND
A DTHR04                LR03 01/28/2008 16.13 02/27/08    279    12056 0 18
A DMAR054               LR01 02/11/2008 14.49 03/12/08     7       274 0 9

```

4B :00.1 05/27

The Report Extraction screen allows the user to:

1. Define certain criteria, as to what reports need to be extracted to print.
2. Print multiple copies of one form or report.
3. Limit the extract to a listing of the reports selected (as opposed to printing the reports themselves).
4. Sort the output in a specific sequence.

Defining the Extraction:

1. Input the **criteria** or leave the screen blank
2. Press **ENTER**

```
PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX   RDSP61 D.SYP.RSDEOS.RINDX.UD001
-EXTRACT SELECTION-  USER-> DISCL01  TR-> 21    TP-> 2163    TL-> 78359

      SUBMITTED AT : 10.39.40 10/16/08 (08290) TO SERVICE EXTRACT REQUEST.
```

You are returned to the Extract Selection screen.

Option 5 – Spool Management

If an agency user chooses option 5 on the Primary Menu he will get a screen like the one below.

This screen is **informational** only and is systems related information that is not relevant or not visible to agency users.

```
PF 1/13 HELP-COMMAND ==> -
-REPORT INDEX --> RINDX - RDSP61 D.SYP.RSDEOS.RINDX.UD001
-SPOOL MANAGEMENT - LIST OF SPOOLS- TOTAL -> 2
A-EOS SPOOL DATA SET NAME-----
***** TOP OF DIRECTORY *****
D.SYP.RSDEOS.SPOOL
D.SYP.RSDEOS.SPOOL3
***** END OF DIRECTORY *****

4B  :00.1 01/27
```

Option 6 - Form Index Management

The creation, update and maintenance of the Form Index is another crucial RDS administrative function. The smooth operation of RDS depends on the care and planning with which the Form Index is created and maintained.

For each report that an agency wishes to access via RDS, a form definition must be created in the Form Index.

This definition includes:

1. A description of the report,
2. the form's general characteristics and,
3. its distribution requirements (who will have access to the report and what is the report called.)

To access FORM INDEX MANAGMENT

1. Type a **6** in the Select Option field from the Primary Menu.
2. Press **ENTER**.

(Note: This option is restricted to authorized users, as set up on the user profile.)

```
PF 1/13 HELP-COMMAND ==> -
-REPORT INDEX --> RINDX   - RDSP61 D.SYP.RSDEOS.RINDX.UD001
-PRIMARY MENU-          USER-> DISCL01  TR-> 21      TP-> 2163   TL-> 78359

      SELECT OPTION ==> 6

                        1 - LATEST REPORT DIRECTORY
                        2 - OLDEST REPORT DIRECTORY
                        3 - DIRECTORY SELECTION
                        4 - REPORT EXTRACTION
                        5 - SPOOL MANAGEMENT
                        6 - FORM INDEX MANAGEMENT
                        7 - REPORT INDEX MANAGEMENT

      ←
```

4B :00.1 01/27

The Form Index Management screen displays as shown below:

```
PF 1/13 HELP-COMMAND ==>

```

4B :00.1 05/27

There are five functions available within the Form Index Management. These functions are described in detail in the following pages.

- Form Directory** – Listing of all the forms established by the Agency
- Create Form** – Creates forms for use by the Agency
- Select Form** – View Characteristics of a form similar to inquiry
- Edit Form** - Change attributes of a form, add users, change field information.
- Form Index Information** –The physical characteristics of the Form Index, and statistical information of its contents

Function 1 - Form Directory

The **Form Directory** is a list of the forms established by the agency.

To access the Form Directory

1. Type a 1 in the Select Function field from the Form Index Management screen
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT- FORM ENTRIES --> 26057 OCC --> 56 %

SELECT FUNCTION ==> 1
                        1 - FORM DIRECTORY
                        2 - CREATE FORM
                        3 - SELECT FORM
                        4 - EDIT FORM
                        5 - FORM INDEX INFORMATION

FORM NAME ==> _
REPORT NAME ==>

If a form name is input, the directory
will display from that name forward
in alphabetical order.
```

4B :00.1 17/27

If a **FORM NAME** is not entered, the **Form Directory** will display from the top listing in alphabetical order.

```
PF 1/13 HELP-COMMAND ==>

Descriptions of the fields on the Form Directory screen

| | | | | | | | | | | | | | | | | | | | |
|---------------------------------|--|-------------------|--|-----------------|---|-----------------|--|---------------|--|---------------|---|------------------------------|---|----------------|---|-----------------|---|--------------|---|
| <p>A = ACTION Column</p> | <p>the following actions may be indicated in this column:</p> <table border="1"> <tr> <td>A Activate</td> <td>To release the form from "HOLD" status</td> </tr> <tr> <td>B Bottom</td> <td>To display the directory of users for this form from the bottom</td> </tr> <tr> <td>D Delete</td> <td>To delete the form entry</td> </tr> <tr> <td>E Edit</td> <td>Retrieves the menu to allow edit of the form entry</td> </tr> <tr> <td>H Hold</td> <td>Inactivates the form, placing it in HOLD status</td> </tr> <tr> <td>I Information Display</td> <td>Additional information about the form entry</td> </tr> <tr> <td>R Reset</td> <td>To reset the USE status of the form entry</td> </tr> <tr> <td>S Select</td> <td>To select the form entry for display only</td> </tr> <tr> <td>T Top</td> <td>Display the directory of users for this form from the top</td> </tr> </table> | A Activate | To release the form from "HOLD" status | B Bottom | To display the directory of users for this form from the bottom | D Delete | To delete the form entry | E Edit | Retrieves the menu to allow edit of the form entry | H Hold | Inactivates the form, placing it in HOLD status | I Information Display | Additional information about the form entry | R Reset | To reset the USE status of the form entry | S Select | To select the form entry for display only | T Top | Display the directory of users for this form from the top |
| A Activate | To release the form from "HOLD" status | | | | | | | | | | | | | | | | | | |
| B Bottom | To display the directory of users for this form from the bottom | | | | | | | | | | | | | | | | | | |
| D Delete | To delete the form entry | | | | | | | | | | | | | | | | | | |
| E Edit | Retrieves the menu to allow edit of the form entry | | | | | | | | | | | | | | | | | | |
| H Hold | Inactivates the form, placing it in HOLD status | | | | | | | | | | | | | | | | | | |
| I Information Display | Additional information about the form entry | | | | | | | | | | | | | | | | | | |
| R Reset | To reset the USE status of the form entry | | | | | | | | | | | | | | | | | | |
| S Select | To select the form entry for display only | | | | | | | | | | | | | | | | | | |
| T Top | Display the directory of users for this form from the top | | | | | | | | | | | | | | | | | | |
| <p>FORM STAT</p> | <p>Form name Constituting an entry in the Form Index.</p> <p>Status of the form entry. Options are:</p> <table border="1"> <tr> <td>HELD</td> <td>Form is not active</td> </tr> <tr> <td>UPD</td> <td>Form is currently accessed for update by another user, and it cannot be accessed again, except in Select mode</td> </tr> <tr> <td>USE</td> <td>Form is currently consulted by the EOS writer or the batch utility program and it cannot be accessed again, except in Select Mode.</td> </tr> <tr> <td>BLANK</td> <td>The absence of any status indicates that the form entry is active.</td> </tr> </table> | HELD | Form is not active | UPD | Form is currently accessed for update by another user, and it cannot be accessed again, except in Select mode | USE | Form is currently consulted by the EOS writer or the batch utility program and it cannot be accessed again, except in Select Mode. | BLANK | The absence of any status indicates that the form entry is active. | | | | | | | | | | |
| HELD | Form is not active | | | | | | | | | | | | | | | | | | |
| UPD | Form is currently accessed for update by another user, and it cannot be accessed again, except in Select mode | | | | | | | | | | | | | | | | | | |
| USE | Form is currently consulted by the EOS writer or the batch utility program and it cannot be accessed again, except in Select Mode. | | | | | | | | | | | | | | | | | | |
| BLANK | The absence of any status indicates that the form entry is active. | | | | | | | | | | | | | | | | | | |
| <p>REPORT NAME</p> | <p>Name of the report associated to the form entry</p> | | | | | | | | | | | | | | | | | | |
| <p>USERS</p> | <p>Number of users currently associated to the form entry</p> | | | | | | | | | | | | | | | | | | |
| <p>VN/RETPD</p> | <p>Retention period for the report on this form. It Should read: +xx where xx = a number of days. The maximum is +30 This is the number of days the report will be in Active Status before changing to Archive Status</p> | | | | | | | | | | | | | | | | | | |

| | |
|--------------------|--|
| A.RETPD | <p>Retention period of archived reports for this form.</p> <p>It should read:</p> <p>+xY where x = the (maximum = +3Y) number of years</p> <p>xxM where xx = the (maximum = number of months +36M)</p> <p>xxD where xx = the number of days</p> <p>This is the number of years, months or days that this report will stay in the directory in Archived Status and therefore can be restored to Active status for viewing</p> |
| LAST UPDATE | Date and time of the last update of the form entry |
| BY USER | Name of the user who made the last update of this form entry |

The Locate Commands

Locate commands allow the user to go directly to a specific form within the directory without having to scroll to find that form paging one page at a time.

The locate commands are typed on the Command line, and may be activated by depressing the scroll keys (**PF7 or PF8**), or by depressing the **ENTER** key.

| LOCATE COMMANDS | |
|------------------------------|---|
| L Form | Used to locate the form name specified and display the Form Directory from that position. If not found the directory is displayed from the previous/next entry in the alphabetical sequence. (Note: there is a space between L and Form.) |
| LD Report Description | Locates the form with the report description specified and displays the Form Directory from that position. If no match is found the message <i>Criteria Not Found</i> will display. (Note: there is a space between LD and Report.Description) |
| LR Report Name | Locates the form with the report name specified and displays the Form Directory from that position. If no match is found the message: <i>Criteria Not Found</i> will display. (Note: there is a space between LR and Report.Name) |

Function 2 – Create Form

A major function of an RDS administrator is to create forms and then use these forms through their characteristics to reference the various reports within the system so that they may be accessed by various users.

To create a form:

1. Type a **2** in the Select Function field from the Form Index Management screen
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT-   FORM ENTRIES --> 26057   OCC --> 56 %

SELECT FUNCTION ==> 2

          1 - FORM DIRECTORY
          2 - CREATE FORM
          3 - SELECT FORM
          4 - EDIT FORM
          5 - FORM INDEX INFORMATION

FORM NAME ==> LR25
REPORT NAME ==> _
```

You must input a Form Name to create it. Cannot be blank.

4B :00.1 19/27

The first screen of the Create Form screens defines the general characteristics of the related report type:

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
CREATE FORM --> LR25   USERS --> 0
----- REPORT GENERAL INFORMATION -----
FORM STATUS ==> HOLD   IDENTIFICATION FOR VERIFY ==>

REPORT MODE ==> STDLINE
LASER PRINTER TYPE ==> 0
          0 - NO LASER PARAMETERS
          1 - IBM 3800
          2 - XEROX L.P.S
          3 - IBM 3800-3
```

4B :00.1 06/22

Field Descriptions of Create Form- (Function 2 Continued)

Note: *it is recommended that only the six fields described below should be entered or changed because report loss could occur.*

| Field | Description | Valid Entries |
|------------------------|---|---|
| 1.) FORM STATUS | Processing status of this form entry. When creating a new form, the form is by default in HOLD status. <u>A form must be changed to ACTIVE status for the form to be ready for use in RDS.</u> | Active – form is fully operational. Hold – Form is not active. (Default) |
| 2.) REPORT NAME | Specifies the name of the report and can be <u>16</u> alphanumeric characters. It is <u>required</u> . This is the name that will appear in the user's directory | |
| 3.) DESCRIPTION | Specifies the report description (32 alphanumeric characters.) This is the description that will appear in the user's directory | |

| Field | Description | Valid Entries |
|---|--|---|
| <p>4.) RET. PERIOD</p> | <p>Specifies the retention period of the report for immediate online viewing</p> <p>Maximum = +30 (30 days)</p> <p>(Does not have to be the maximum; it can be less)</p> | <p>+nn where nn = the number of days from the date of creation of the report.</p> <p>(Examples: +1; +5; +30)</p> <p>The error message “RETENTION EXCEEDS +00030” will display if a value greater than 30 is entered.</p> <p>At the end of this period, the report will be archived (if there is an Archive RETPD.) Reports without an archive retention period will be deleted.</p> |
| <p>5.)ARCHIVE/RESTORE GROUP NUMBER</p> | | <p><u>1</u> is the only valid input</p> |
| <p>6.) ARCHIVE RETENTION PERIOD</p> | <p>Specifies the retention period of the archived reports for this form. Reports in archived status may be restored for up to the <u>maximum of three years</u> and therefore viewed by the user. After the specified retention period reports will be deleted from archival support.</p> <p>(Retention periods do not have to be set to the maximum. Report content should be considered in whether the max is warranted.)</p> | <p>+nnD = Number of days this report is to be archived.</p> <p>+nnM = Number of months this report is to be archived.</p> <p>+nY = Number of years this report is to be archived</p> |

Here are some recommended retention periods for reports run at various times.

| | |
|------------------|-----------|
| Daily | 40 days |
| Weekly | 60 days |
| Monthly | 15 months |
| Quarterly | 18 months |
| Yearly | 3 years |
| Periodic | 90 days |

This example shows the completed six fields as described above:

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
  CREATE FORM --> LR25   USERS --> 0
-----
REPORT GENERAL INFORMATION
-----
FORM STATUS ==> ACTIVE   IDENTIFICATION FOR VERIFY ==>
TOC DEFINITION ==>     ATTRIBUTION TECHNIQUE ==> STATIC
REPORT NAME ==> DMAR054
DESCRIPTION ==> SCHEDU / ALLOT BAL LEVEL 4
PAGE FORMAT ==>     OUTPUT OPTIONS AT FORM LEVEL ==> NO
VERSIONS ==>
RET. PERIOD ==> +30 ← 4. ARCHIVE/RESTORE GROUP NUMBER ==> 1 ← 5.
ARCHIVE RETENTION PERIOD ==> +3Y ← 6.
FCB ==> _             PAGE LENGTH ==>
UCS ==>
REPORT MODE ==> STDLINE
LASER PRINTER TYPE ==> 0
                        0 - NO LASER PARAMETERS
                        1 - IBM 3800
                        2 - XEROX L.P.S
                        3 - IBM 3800-3
4B :00.1 15/22
  
```

After completing the six fields described above on the Create Form screen, you have to give access to the report it pertains to by linking it to a user in RDS via their RACF ID.

Press the **PF8** (or **ENTER**) once to let the system confirm your entries. Press the **PF8** again to page forward to the next screen in the process.

This screen is where the RDS administrator will “**attach**” a user to the new form just created.

To do this:

1. Enter a valid RACF ID in the User Name field
2. Press **ENTER**.

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
  EDIT FORM --> LR25   - GENERAL AND LOCAL OPTIONS FOR USER --> 1 OF 1
-----
USER NAME ==> DBFMARY
Form LR25 will be distributed to this user.
  
```

The corresponding processing options and authorizations of that user are then retrieved from that user's profile and will be displayed.

(**Note:** ALL is a special user name to define a public report available to all users)

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
  EDIT FORM --> LR25  - GENERAL AND LOCAL OPTIONS FOR USER --> 1 OF 1
-----
USER NAME      ==> DBFMARY   REPORT NAME    ==> DMAR054
DESCRIPTION    ==> SCHEDU / ALLOT BAL LEVEL 4      SPLIT REQUIRED ==> NO
PAGE FORMAT    ==>                               NOMAIL REPORT ==> NO
DISTR. 1       ==> MANUAL   /      DISTR. 2 ==> /
REFORMATTING   ==>

REPORT OUTPUT DESCRIPTION      ( FROM : PROFILE )
HEADER LINES                    NUMBER OF SEPARATORS
1 ==> *** CLASS *****        USER (TOP/BOT)      ==> 1 /
2 ==> DEPT OF FINANCIAL SVS     REPORT (TOP/BOT)   ==> /
3 ==> ROOM 250
4 ==> FLETCHER BUILDING        WITH PACKET INDEX  ==> YES
5 ==> *****                  OUTPUT LIMIT        ==>
DELETE AFTER EXTRACT ==> NO

LOCAL OUTPUT OPTIONS           ( FROM : PROFILE )
LOCAL PRINTER ID ==> LOCAL      EOS/PC USER        ==> DISCL02
MAX LINES/PAGE   ==>           HOLD REQUEST        ==> NO PRIORITY      ==> 2
COPIES           ==>           ALIGNMENT L/P        ==> ALIGNMENTS    ==>
PRINT FORMAT (REP/SEP) ==> /

```

There are four fields that may be entered or changed on this screen. It is recommended that the other fields on this screen not be changed, as report loss could occur.

1. DISTRIBUTION -There are **three** choices of options and each user may have one or two distribution options:

| | |
|---------------------|---|
| MANUAL | No system print, but will be distributed to the user's report directory for on-line viewing. |
| DEFERRED / S | Will system print and be distributed to the user's report directory for on-line viewing. |
| AUTOMATIC/ S | When entering the user's directory the report will also print to the local printer specified in the user's profile. |

2. SPLIT REQUIRED - Specifies whether this report will be split for this user.

Valid input in this field is:

| | |
|---------------|---|
| YES | Report must be Split, as specified, for this user. Split report criteria must be defined to determine the report section(s). (Defining split report criteria is described later in this section.) |
| NO | Report must not be split. The user will receive the entire report. |
| BUCKET | This user must receive any report sections which have not been distributed to any other users of the form, due to |

Unfulfilled split report criteria.

Notes: When this option is changed from yes to no or bucket, any existing split criteria will be deleted (after confirmation) for this user. The split bucket option causes a sizeable increase of space used by the EOS writer. For this reason, it is not advisable to use this option.

3. HEADER LINES – Specifies the user address in the message area of the banner page.

4. EOS-PC USER – This user’s EOS-PC ID (where applicable.)

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
  EDIT FORM --> LR25 - GENERAL AND LOCAL OPTIONS FOR USER --> 1 OF 1
-----
USER NAME      ==> DBFMARY   REPORT NAME     ==> DMAR054
DESCRIPTION    ==> SCHEDU / ALLOT BAL LEVEL 4   SPLIT REQUIRED  ==> NO
PAGE FORMAT    ==>
DISTR. 1       ==> MANUAL   /   DISTR. 2       ==> /
REFORMATTING   ==>
REPORT OUTPUT DESCRIPTION ( FROM : PROFILE )
HEADER LINES
 1 ==> *** CLASS *****
 2 ==> DEPT OF FINANCIAL SVS
 3 ==> ROOM 250
 4 ==> FLETCHER BUILDING
 5 ==> *****
NUMBER OF SEPARATORS
  USER (TOP/BOT) ==> 1 /
  REPORT (TOP/BOT) ==> /
WITH PACKET INDEX ==> YES
OUTPUT LIMIT      ==>
DELETE AFTER EXTRACT ==> NO
LOCAL OUTPUT OPTIONS ( FROM : PROFILE )
LOCAL PRINTER ID ==> LOCAL
MAX LINES/PAGE   ==>
COPIES           ==>
PRINT FORMAT (REP/SEP) ==>
EOS/PC USER     ==> DBFMARY
HOLD REQUEST     ==> NO   PRIORITY         ==> 2
ALIGNMENT L/P   ==> /   ALIGNMENTS      ==>
```

After completing the previous screen, Press **PF8** to page forward to display the second user definition screen below:

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX
EDIT FORM --> LR25 - SYSTEM OUTPUT OPTIONS FOR USER -----> 1 OF 1
-----
USER NAME -----> DBFMARY REPORT NAME -----> DMAR054

OUTPUT JOB SUBMISSION OPTIONS ( FROM : PROFILE )
JCL MODEL ==> WERDJCO0 JOBNAME ==> DCLASRM NOTIFY ==>
ROOM ==> CLASS ==> MSGCLASS ==>
ACCOUNTING ==>
PGMR NAME ==> 'CLSRM' CLASS FOR LOG ==>

OTHER SYSTEM OUTPUT OPTIONS ( FROM : PROFILE )
DEST ==> T4416 COPIES ==> OUTPUT CLASS (P/Q) ==> A / A
FORM ==> STD WRITER NAME ==>
OUTPUT REFERENCES ==> / / /
PRINT FORMAT (REP/SEP) ==> /

DATA SET NAME ==>
VOLUME SERIAL ==> SPACE (TYPE/PRIM/SEC) ==> / / /
UNIT TYPE ==> DISPOSITION ==> / / /
DCB BWD. REF. ==> CARRIAGE CTL ==> YES

```

NOTE: No updates should be made to this screen. All of the information shown has been pulled from the user's profile. Changing it on this panel, will not change the user's profile, but changing information on the user's profile will change the information here and on other reports for this user. The create form process for the new form is complete. To add another user to this form, depress the **PF8** key and another screen will appear where the next user name may be entered.

Splitting Reports

In RDS, reports may be split (separated into parts) and the separated portions of the report distributed to individual users.

For example, instead of an entire report being sent to a particular user, the report may be split and only the portion relevant to a particular user's job would appear in his/her report directory.

Note: ONLY INFORMATION DISPLAYED IN A REPORT'S HEADER RECORD CAN BE USED TO DEFINE A SPLIT FOR THAT REPORT.

Each report will have different header information.

A split may be set up when:

1. Initially creating a form record, or
2. When editing a form that's already been established.

To indicate in RDS that a report should be split, the **SPLIT REQUIRED** option should be set to **YES** on the GENERAL AND LOCAL OPTIONS FOR USER screen.

```

PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX
EDIT FORM --> LR25 - GENERAL AND LOCAL OPTIONS FOR USER --> 1 OF 1
-----
USER NAME ==> DBFMARY REPORT NAME ==> DMAR054
DESCRIPTION ==> SCHEDU / ALLOT BAL LEVEL 4 SPLIT REQUIRED ==> YES
PAGE FORMAT ==> NOMAIL REPORT ==> NO
DISTR. 1 ==> MANUAL / DISTR. 2 ==> /
REFORMATTING ==>

REPORT OUTPUT DESCRIPTION ( FROM : PROFILE )
HEADER LINES NUMBER OF SEPARATORS
1 ==> *** CLASS ***** USER (TOP/BOT) ==> 1 /
2 ==> DEPT OF FINANCIAL SVS REPORT (TOP/BOT) ==> /
3 ==> ROOM 250
4 ==> FLETCHER BUILDING WITH PACKET INDEX ==> YES
5 ==> ***** OUTPUT LIMIT ==>
DELETE AFTER EXTRACT ==> NO

LOCAL OUTPUT OPTIONS ( FROM : PROFILE )
LOCAL PRINTER ID ==> LOCAL EOS/PC USER ==> DBFMARY
MAX LINES/PAGE ==> HOLD REQUEST ==> NO PRIORITY ==> 2
COPIES ==> ALIGNMENT L/P ==> ALIGNMENTS ==>
PRINT FORMAT (REP/SEP) ==> /

```

Defining Split Criteria

Great care and thought must be used when defining split criteria to ensure that the desired split result is achieved. RDS follows Boolean logic when processing split criteria.

Remember, **ONLY INFORMATION DISPLAYED IN A REPORT'S HEADER RECORD CAN BE USED TO DEFINE A SPLIT FOR THAT REPORT.**

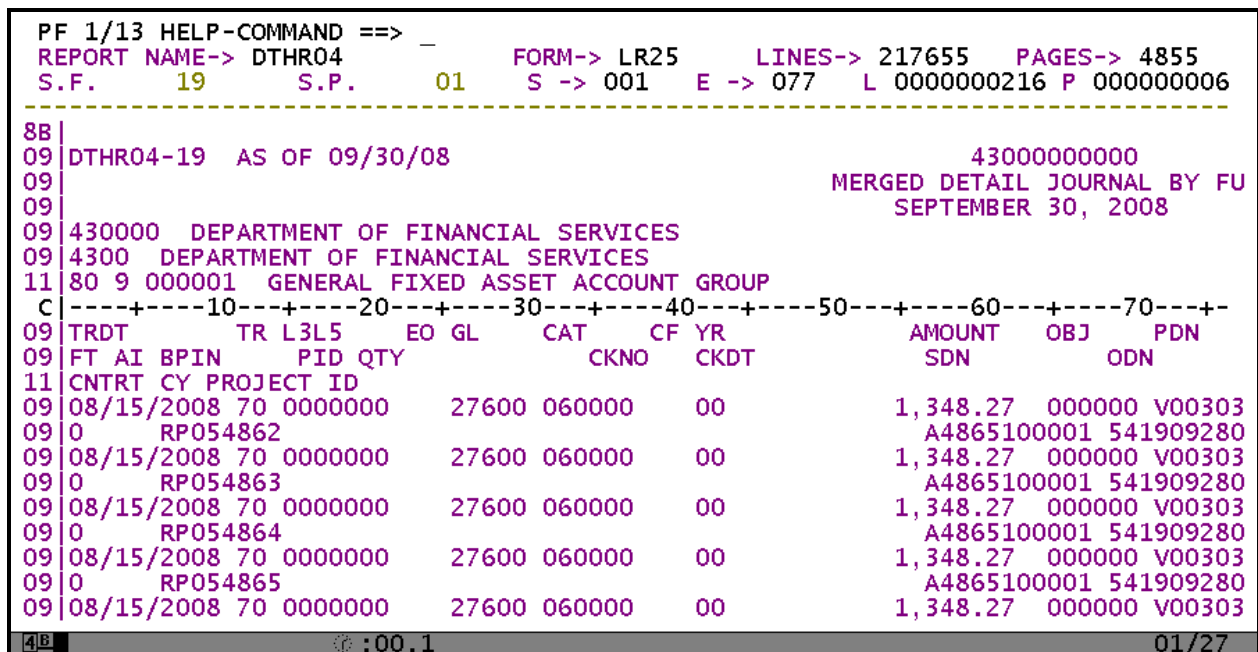

In order to program a split, it is necessary to set up the form and run the report once (an immediate report is fine) before defining the split criteria. The column and line position(s) of the split criteria may then be determined.

In order to determine the exact record (line) and column where the split argument resides, display the report online.

Once the report is displayed:

1. Type: **DISP CC;HR** on the Command line
2. Place the cursor in the report **below the line** where the ruler needs to be displayed
3. Press **ENTER**.

A **columnar ruler** will display across the page (for counting the columns) and a **grid** will display down the left side of the page (for determining the lines.).

```
PF 1/13 HELP-COMMAND ==> _
REPORT NAME-> DTHR04          FORM-> LR25      LINES-> 217655  PAGES-> 4855

4. Determine within the Header Information of the displayed report the item (a code, for example) that will be used in defining the split, and then determine, by counting, the column (across) and line number (down) where that item resides.

Note: *the code 8B (page break), and C (ruler) should not be counted. All other codes should be counted as lines.*

Example: This report needs to be split on the **third line** of the header where the fund information code **80 9 000001** is located.

Determine the Column where the code is located in the header line that is being set as the criteria for the split. **80 9 000001 begins in Column 1.**

Counting down on the left hand side, you don't include the **8B** but start on the next line for the count. **The 80 9 000001 code begins on line 6.**

| | | 11/01 | | | | | | | | | | |

80 9 000001 code begins in Column 1 beginning with the first dash to the right of the C |

So you now have the settings you need to set the split for the code for fund **80 9 000001**

Criteria = **80 9 000001**

Column = **1**

Line = **6**

5. Once completing step 4 above, the administrator should then retrieve the General and Local Options for User screen through the Form Index Management Function (Create User or Edit User) and make sure that the **Split Required** field reads: **YES**.

If the General and Local Options for User screen has the Split Required option set to **YES**, the Report Criteria screen will display when **PF8 is pressed (2 times.)**

On this screen the RDS Administrator will define one split criteria argument for the desired report. In this case, the FUND code location.

Note: The numbers correspond to the field descriptions on the following pages.

The screenshot shows the 'SPLIT REPORT CRITERIA FOR USER' screen. At the top, it displays 'PF 1/13 HELP-COMMAND ==>' and '-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX'. Below this, it shows 'EDIT FORM --> LR25 - SPLIT REPORT CRITERIA FOR USER -----> 1 OF 2'. The screen is divided into sections by dashed lines. The first section contains 'USER NAME -----> DBFMARY REPORT NAME -----> DTHRO4' and 'RECURSIVE ==> YES ← (1) SPLIT -> 1 OF 1'. Below this is a table with two main sections: 'AND / OR | COND. | START ARGUMENT | AT COL. | AT REC. | OFFSET' and 'AND / OR | COND. | END ARGUMENT | AT COL. | AT REC. | OFFSET'. The first section has one row with 'EQ' condition, '80 9 000001' start argument, '1' at column, '6' at record, and 'P' offset. The second section has one row with 'NE' condition, '80 9 000001' end argument, '1' at column, '6' at record, and '-1P' offset. Numbered callouts point to: (1) RECURSIVE field, (2) the table header, (3) EQ condition, (4) 80 9 000001 start argument, (5) 1 at column, (6) 6 at record, and (7) P offset.

In this example, **80 9 000001 is the FUND**. This split would pull report information for this user **beginning** when 80 9 000001 is **at column 1** and **record (line) 6** of a report, and **ending** when 80 9 000001 is no longer at column 1 and record 6 of the report.

Split report criteria must be defined in the order in which it will occur in the report, from the top down. One frame (as seen above) defines the arguments for determining the start and end of a single report section.

Up to 255 sets of split report criteria may be defined, each in its own frame.

The screen above should be completed as follows:

1. The **RECURSIVE** field needs to be set.

Valid input options for this field are:

YES - The criteria for this split could recur throughout the report.

NO - The criteria will only occur once in the report. After the start/end sequence has processed one time, processing will cease.

2. **AND / OR** - **AND:** Defines a compound proposition
OR: Defines an alternative proposition

3. **COND** – Specifies the condition to use for the comparison of the report data with the search argument.

Valid input in this field is:

| | |
|-----------|--------------------------|
| LE | Less than or equal to |
| LT | Less than |
| EQ | Equal to |
| NE | Not equal to |
| GE | Greater than or equal to |
| GT | Greater than |

4. **START ARGUMENT and END ARGUMENT** - Up to **24** characters indicating the item in the header record that will start or end a report section to be split for this user. The argument must be entered exactly as it appears in the report header, trailing spaces included.

5. **AT COL.** - Specifies a column number on the report for the comparison with the argument. To count columns accurately instructions are given on page 84 (Defining Split Criteria).
Numeric value from 1 to XXX (where XXX = the last column of the particular report.)

6. **AT REC.** - Specifies a line number on the report for the comparison with the argument. To count records accurately instructions are given on the page 84 (Defining Split Criteria).
Numeric value from 1 to XX (where XX = the last line in the header record.)

7. OFFSET - Specifies the start/end of the report section the user is to receive.

Valid input in this field is:

| | |
|--------------------|--|
| <u>P</u> | Section of the report for this user will start/end at the top of the page where the split argument is found . |
| <u>nnP</u> | Section of the report for this user will start/end at the bottom of the page where the split argument is no longer found plus the number of pages requested. (Note: nn = numeric value from 0 to 99) |
| <u>-nnP</u> | Section of the report for this user will begin/end at the bottom of the page specified from where the split argument is no longer found minus the number of pages requested. |

After completing input on the SPLIT CRITERIA REPORT FOR USER press the **ENTER** key to confirm the split definition.

Press **PF8** to add another split or **PF3** to exit out of the SPLIT screen.

Commands for the Split Report Criteria Screen

The following commands are supported from the split report criteria screens.

To initiate a command

1. **Type the command** on the Command line at the top of the screen
2. Press **ENTER**.

ADD - Add a split definition after the current one.

DDB - Add a split definition before the current one.

CAN - Cancel the modified data for this split and return to the form's general information menu.

DEL - Delete this split definition.

For example: If you ever need to DELETE a SPLIT

On the Split screen:

1. Type **DEL** on the Command Line
2. Press **ENTER**

```
PF 1/13 HELP-COMMAND ==> DEL_
-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX
EDIT FORM --> LR25 - SPLIT REPORT CRITERIA FOR USER -----> 1 OF 2
-----
USER NAME -----> DBFMARY REPORT NAME -----> DTHR04
RECURSIVE ==> YES SPLIT -> 1 OF 1
-----
| AND / OR | COND. | START ARGUMENT | AT COL. | AT REC. | OFFSET |
-----
==> ==> EQ ==> 80 9 000001_____ ==> 1 ==> 6 ==> P
==> ==> ==> _____ ==> ==> ==>

==> ==> ==> _____ ==> ==> ==>
-----
4B :00.1 01/30
```

The Split Deletion Confirmation screen will display

```
PF 1/13 HELP-COMMAND ==> -
-FORM INDEX --> FINDX - SYS245 D.SYP.RSDEOS.FINDX
-SPLIT DELETION CONFIRMATION-
-----
--USERNAME--REPORT NAME-----DELETE FROM/TO SPLIT-----
DBFMARY DTHR04 1 TO 1
```

3. Enter **YES** on the command line to confirm the deletion of the split criteria or **CAN** on the command line to cancel the request to delete the split criteria argument.

```
PF 1/13 HELP-COMMAND ==> YES
-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX
-SPLIT DELETION CONFIRMATION-

--USERNAME--REPORT NAME-----DELETE FROM/TO SPLIT-----
DBFMARY DTHR04 1 TO 1
```

Function 3 - Select Form

The Select Form option allows the user to view characteristics of a particular form (without edit capabilities); similar to an inquiry function.

To view a form via this function:

1. Type **3** in the Select Function field on the Form Index Management screen
2. Input the name of a form in the **Form Name**.
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX   SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT-   FORM ENTRIES --> 26058   OCC --> 56 %

  SELECT FUNCTION ==> 3

```

Paging forward, these screens:

1. List any other users that have been attached to the form and are receiving the report
2. What type of distribution they have been assigned.
3. Whether a SPLIT has been defined for the user and its definition
4. The User's Header information
5. The printer destination if one has been defined.

Function 4 - Edit Form

The Edit Form function allows the RDS administrator to:

1. **Change** various attributes of the form
2. **Add** new users to the form and
3. **Update** various fields on the form record.

Special care should be taken while in the Edit Form function to only update or change certain fields, or report loss could occur. Those “changeable” fields are described beginning on Page 93.

To access the Edit Form screens of a particular form:

1. Type a **4** in the Select Function field
2. Input the desired form number in the **Form Name** field
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX      SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT-  FORM ENTRIES --> 26058  OCC --> 56 %

  SELECT FUNCTION ==> 4
                        1 - FORM DIRECTORY

FIELD DEFINITIONS for REPORT GENERAL INFORMATION

Form Status – When a form is first created, the default status is HOLD. The user may come here to change the status of a report to ACTIVE or HOLD.

Report Name – The report name may be changed if incorrect or if the name shown is no longer valid for this form. The report named may be a SAMAS/FLAIR report name, a payroll report name, a Central Accounting report name or other report name.

Description – The description of this report may be added or changed. This is a 32 character alpha/numeric field and this description will appear in the user's report directory.

Ret. Period – Specifies how long a report will appear in the user's directory for immediate viewing; **maximum is 30 days (+30.)** This could be changed to any number of days under 30 if desired.

Archive Retention Period – Specifies the archive retention period for this particular form; **maximum is 3 years (+3Y.)** This may be changed to a maximum of 3 years or to a number of days (+XX), or months (+XXM), [where XX = 1-36.]

The remaining fields on this screen should not be entered or changed.

Press the **PF8** key to page to the first user attached to this report.
 Each user has **two screens** of information pulled from the user's profile.

The information on these screens is pulled from the user's profile and **should not be changed here.**

It is best to change the information on the user's profile using Edit Profile if the information needs to be changed.

Then that information will automatically be **updated** here and on every other form for this user.

1. The profile information is “pulled in” from that new user’s profile
2. The new user is now added to this form and
3. The next time this report runs, this user will receive this report in his/her report directory.

To cancel any activity on this screen (before depressing ENTER):

1. Type **CAN** on the Command line
2. Press **ENTER**.

The system will return to the Edit Form, Report General Information Screen.

Function 5 - Form Index Information

The Form Index Information screen describes the physical characteristics of the Form Index currently accessed, as well as statistical information of its contents.

This function is authorized to any Forms Index manager.

To access this screen:

1. Type **5** in the Select Function field from the Form Index Management screen
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-FORM INDEX --> FINDX      SYS245 D.SYP.RSDEOS.FINDX
-FORM INDEX MANAGEMENT-  FORM ENTRIES --> 26058  OCC --> 56 %

SELECT FUNCTION ==> 5

1 - FORM DIRECTORY
2 - CREATE FORM
3 - SELECT FORM
4 - EDIT FORM

4E 01/27
```

All fields on this screen are protected and cannot be entered or changed, it is provided for informational purposes only.

Field Descriptions on the Form Index Information screen:

Device Type – The type of device on which the Forms Index resides.

Blocksize – Blocksize with which the Forms Index is allocated. This value corresponds to the record length used for this directory. Data Block Length, or record length used for the data area of the Forms Index.

Allocation – The space allocated to the Forms Index, in cylinders and/or tracks.

Number Of Data Blocks – The number of blocks initialized for the recording of the laser parameters, the forms, and their user definitions.

Number Of Used Blocks – The number of blocks currently occupied by the data.

Forms Index Occupancy – The percentage of Forms Index space used.

Space Threshold – The critical occupancy threshold for the Forms Index.

Max. Number Of Forms – The number of form entries assigned to the directory at initialization.

Number Of Used Forms – The number of form entries currently occupied in the directory.

Directory Threshold – The critical occupancy threshold for the directory of the Forms Index.

Directory Occupancy – The percentage of the directory currently occupied.

Last Initialization – The date and time at which the directory was last initialized.

Last Reorganization – The date and time at which the directory was last reorganized. Directory reorganizations take place automatically when there is no free entry left to add a form within a directory block.

No. Of Reorg – The number of directory reorganizations since the Forms Index was last initialized.

List of Users Attached to a Form

To retrieve a listing of users that have been attached to a particular form:

1. Use **Option 3** or **Option 4** to **Select** or **Edit** a Form.
2. Type **LISTU** on the Command line from any form General Information Screen
3. Press **ENTER**,

```
PF 1/13 HELP-COMMAND ==> LISTU
-FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX
EDIT FORM --> LR25                                USERS --> 3

There are 3 listed users that are attached to this form.

Column Descriptions for the User List of Form screen:

| | |
|-------------------------------------|---|
| <p>A (Action)</p> | <p>Actions that may be performed in the Action Column are:</p> <p>D – Delete this user from this form. S – Select or Display the General and Local Options for this user.</p> <p>**A user can only be deleted (D) when in Edit Form mode. **When in Browse (Select mode), only select (S) is permitted.</p> <p>If you are deleting a user from a Form, a confirmation screen will display requesting that the deletion request be confirmed. Input a (Y or YES) to confirm the deletion or a (C or CAN) to cancel the Deletion.</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <pre>PF 1/13 HELP-COMMAND == CAN -FORM INDEX --> FINDX SYS245 D.SYP.RSDEOS.FINDX -USER DELETE CONFIRMATION- A-USERNAME--REPORT NAME-----DEST-----ROOM-CL-OFORM--COPIES-DISTR----SPLITS- DISCL11 DTHR04 T4416 A STD MANUAL NONE</pre> </div> |
|-------------------------------------|---|

Other Field Names and Definitions:

| | |
|--------------------|--|
| User Name | The RACF ID of a user attached to this report. |
| Report Name | The name of the report. |
| Dest | Destination, printer destination should read LOCAL or the identification number of a local printer. |
| Class | Output class, should read A. |
| O Form | Output Form refers to paper size when printing. Values in this field may read STD for standard 8.5 X 11 paper or may read 14X 8. |
| Distr | Distribution method. Defer/S means that this will be printed as part of a batch job. Manual means that the report will be displayed on this user's screen and may or may not be printed. |
| Splits | Indicates whether splits have been set up on this form for this user. |

Deletion of Forms

The command to delete a form (report) results in the deletion of that form entry and **all** its user definitions (users attached to the form.)

The Delete command can be issued from the Form Directory

1. Select Function **1** from the Forms Index Management Menu
2. Type a **D** in the Action (A) column of the form to delete.
3. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>

4B :00.1 01/32
```

When a deletion request is made, a confirmation menu is displayed to allow the user to confirm or bypass the action.

All deletion requests must be confirmed by the user.

To confirm a form deletion request, the user will type **YES** or **Y** on the Command line and depress **ENTER**.

To cancel the deletion request, the user must type **CAN** on the command line and depress **ENTER**.

Option 7 - Report Index Management

The last option available from the Primary Option screen is the Report Index Management function. From this function, the RDS Administrator may view the list of all users within his/her security clearance, and from that list display a report from a user's directory. Also, a directory of reports may be requested as well.

To access this function:

1. Type **7** in the Select Option field of the Primary Menu screen
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX      RDSP61 D.SYP.RSDEOS.RINDX.UD001
-PRIMARY MENU-          USER-> DISCL01  TR-> 22      TP-> 7018    TL-> 296014

  SELECT OPTION ==> 7

                        1 - LATEST REPORT DIRECTORY
                        2 - OLDEST REPORT DIRECTORY
                        3 - DIRECTORY SELECTION
                        4 - REPORT EXTRACTION
                        5 - SPOOL MANAGEMENT
                        6 - FORM INDEX MANAGEMENT
                        7 - REPORT INDEX MANAGEMENT

4B  :00.1 13/45
```

The following screen will display:

```
PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX      RDSP61 D.SYP.RSDEOS.RINDX.UD001
-REPORT INDEX MANAGEMENT-

  SELECT FUNCTION ==>

                        1 - GLOBAL USER DIRECTORY
                        3 - GLOBAL SELECTION
                        5 - REPORT INDEX INFORMATION

4B  :00.1 05/27
```

Function 1- Global User Directory within Report Index Management

To display a directory of all users within the agency (user group) sorted in alphabetical order:

1. Type **1** in the Select Function on the Report Index Management Menu
2. Press **ENTER**

```
PF 1/13 HELP-COMMAND ==> -
-REPORT INDEX --> RINDX - RDSP61 D.SYP.RSDEOS.RINDX.UD001
-REPORT INDEX MANAGEMENT-

SELECT FUNCTION ==> 1
1 - GLOBAL USER DIRECTORY
3 - GLOBAL SELECTION
5 - REPORT INDEX INFORMATION

4B :00.1 01/27
```

The Global User Directory allows the user to view all of the users within his/her security clearance, and to display a user's report directory and from a report directory view individual reports.

```

The fields on the Global User Directory are described below.

| | |
|--------------------------|---|
| A - Action column | The following commands may be entered: B - Display the user's directory of reports from the bottom of the list (newest reports) T - Display the user's directory of reports from the top of the list (oldest reports) S - Display the Directory Selection screen for the user |
| User Name | Name (RACF ID) of the Report Index user |
| Reports | Number of reports currently in the user's directory |
| Pages | Number of total pages in the user's directory |
| Lines | Number of total lines in the user's directory |
| F. Report Date | Date of creation of the first (oldest) report for the user |
| L. Report Date | Date of creation of the last (newest) report for the user |

Locate command within the Global User Directory

The Locate command may be used on the Global User Directory screen to quickly locate a user. This is a very handy tool if there are a significant number of users within your user group, rather than paging through a number of pages to find your user.

To use the Locate Command:

1. In the Command line at the top of the screen in the Global User Directory screen, use the following command: **L Δ user name**

(Example: **L Δ DBF0548**)

Note:(Δ Denotes a space)

2. Press **Enter**.

```
PF 1/13 HELP-COMMAND ==> L DBF0548
-REPORT INDEX --> RINDX RDSP61 D.SYP.RSDEOS.RINDX.UD001
-GLOBAL USER DIRECTORY- USERS-> 8252

Note: **PF7** and **PF8** may be used to page forward and backward in the Global User Directory.

Function 3 - Global Selection within Report Index Management

This function allows the user to request a directory of reports specific to the criteria indicated on the screen (see below).

To access the Global Selection screen

1. Type **3** in the Select Function field from the Report Index Management screen
2. Press **ENTER**.

```
PF 1/13 HELP-COMMAND ==>
-REPORT INDEX --> RINDX   RDSP61 D.SYP.RSDEOS.RINDX.UD001
-REPORT INDEX MANAGEMENT-

  SELECT FUNCTION ==> 3
                    1 - GLOBAL USER DIRECTORY
                    3 - GLOBAL SELECTION
                    5 - REPORT INDEX INFORMATION

4B  :00.1 01/27
```

The following screen will display.

```

Sign-off Procedures

In order to sign-off of RDS

1. Type **LOGOFF** on the Command Line.
2. Press **ENTER**.

OR

1. Press **PF3** several times until the Application Selection screen is displayed.
2. On the Application Selection screen
 - a. Type **EXIT** on the COMMAND LINE
 - b. Press Enter.

Sign-off is now complete.

Appendix B – Commands

Commands Used on the Report General Screen

From the Report General Information Screen, within the Forms Management functions (see pages 49, 59, 60, 64, & 67 for examples of this screen) the following Commands may be entered on the Command line at the top of the screen:

C user - (To Create a New User Definition). Up to 8 characters preceded by one blank. If no user name is provided, input will be cancelled.

CAN/CAN/C - Cancel the modifications made since the last save and exit from this form.

COPY form,ALL,SPL/SP,UALL, - Copy and save information from the form indicated. The following operands are optional. If used, they must be preceded by a comma:

| | |
|----------------------|---|
| <u>ALL</u> | Copy the form and its user definitions. |
| <u>UALL</u> | Copy the user definitions but not the form. |
| <u>R</u> | Replace identically named user definitions. |
| <u>SPL/SP</u> | Copy the split definitions as well as the basic user definitions. |

DELETE/DEL/D - Deletes this form entry. Use in EDIT mode only.

L/U user – Display the user definition specified.
(Up to 8 characters, preceded by one blank), or the first one if no user name is specified.

SAVE - Save the data entered on this menu.

SORTU – Sort the user's of this form alphabetically.

LISTUB - Display the form's user directory from the bottom.

LISTU - Display the form's user directory from the top.

SORTU - Sort the users of the form in ascending alphabetical sequence.

Commands Used on the General and Local Options Screens

Within the Forms Index Management functions, specifically on the **General and Local Options screens** (for users), the following commands may be typed on the Command line at the top of the screen:

Copy user,form,SPL/SP – Copy the user definition specified (except user name). If form is omitted, the current form is assumed. If SPL or SP is omitted, the splits are not copied.

AUTH - Skip to the first authorization panel for this user. No entry or change is allowed on authorization screens. Authorization screens are displayed below.

C user - Create the user definition specified. Up to 8 characters preceded by one blank.

CANCEL/CAN/C - Cancel the modifications from the last save and exit from this user definition.

DELETE/DEL/D - Delete this user definition from this form entry.

M + PF7 or PF8 - Display the first (PF7) or last (PF8) user definition.

L user - Display the user definition specified, or the first one if no name is specified.

SPL nnn - Move to the nnnth frame of split report criteria, or to the first one if no number is entered. (nnn = numeric value from 0 to 999, preceded by one blank.) Note: If the number specified exceeds the number of split definitions available, the last frame of split criteria is displayed.

Note: Other commands are available in RDS. To determine commands that may be used on a particular screen, depress the **PF1** (help) key while viewing any RDS screen and the list of commands for that screen will appear.
