Presentation Skills

Our course has been specially designed by looking at the presentation methods used by Steve Jobs, Al Gore & Dr Randy Pausch.

Course Outline

It's not a presentation...it's a performance. The world's very presenters know that a successful presentation is based on delivering a story not a series of stats, graphs and bullet points.

Our course has been specially designed by looking at the presentation methods used by Steve Jobs, Al Gore & Dr Randy Pausch. Performances that trigger the imagination and live long in the memory. The first part of this course focusses on the 3 core elements of the presentation itself:

Crafting the story, designing the visuals and rehearsing.

The second part of our course focusses on the presenter and the audience. Standing up and delivering a presentation to a large or small group of people can be a very daunting prospect. We have a range of easy to follow techniques that will help you control nerves.

Content

- What a presentation is and is not
- What makes for an effective presentation and how to plan for it
- Crafting a beginning, middle and end
- Utilising the power of emotions to create memories
- The basics of successful visual aids and handouts
- Basic physiology and vocalisation tips and techniques
- Understanding nerves and how to control them

Who is this course for?

This course is for those who are new to presenting and those who have limited experience. It would also be useful for delegates who wish to hone their skills and learn about new techniques and strategies.

This course can be applied to a range of situations such as sales pitches, conference speeches, seminars, business pitches, team pitches and business reports.

We have clear pricing so the amount we quote is always the total cost and contains no hidden extras.

We set out **clear aims and objectives** with a focus on results and on demonstrating tangible returns on training spend. Our trainers have the experience to offer advice and ideas on the most effective, best value approach, always beginning with the required end result in mind. Each delegate on our training courses is given a free course pack which includes course notes, PowerPoint's and activities.

Our Learning Process

An approach that puts the **learners** needs first

1. Identify Needs

We like to know as much as we can about our learners as possible. This way we can cater areas of the course to suit particular needs and requirements.

2. Plan & Design

We like to induct our delegates onto our courses so we conduct icebreakers and set ground rules. This ensures the behaviour you can expect from us and what we can expect from you. We inform delegates of the qualification requirements and ensure we produce schemes of work to meet internal and external requirements.

3. Deliver & Facilitate

Our goal is to enable learners to gain a qualification to meet organisation targets and deadlines. We ensure equal opportunities and acknowledge diversity within a group. We use a variety of learning methods to meet VARK and use a variety of resources to meet learning needs.

4. Assessment

We assess learners throughout our training programmes, this helps us measure their learning. Assessment takes place during all lessons or individual situations, formally and informally and we use a variety of assessment methods to meet all learners' needs. We keep records to meet internal and external demands - audits, quality monitoring, etc.

5. Evaluation

We take the feedback we receive from delegates very seriously. This helps us monitor the delivery, planning, assessment techniques, support for learners, teaching methods and resources.
