

READ 180 Enterprise Edition Interactive Teaching System Quick Reference Guide

With the Interactive Teaching System (ITS), you have online access to the *READ 180 rBooks*® Teaching System. Plan lessons using the *rBook Teacher's Edition* and the *Resources for Differentiated Instruction*. Get started from SAM or the Web at www.read180.com/its.

Getting Started

To log in:

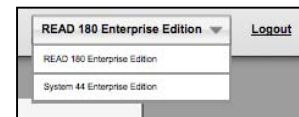

1. Enter your ZIP code and choose your school from the pull-down menu at your first login only. Each subsequent login requires only your SAM username and password.

2. Enter your SAM username and password at the next screen.
3. Click **Log In**.

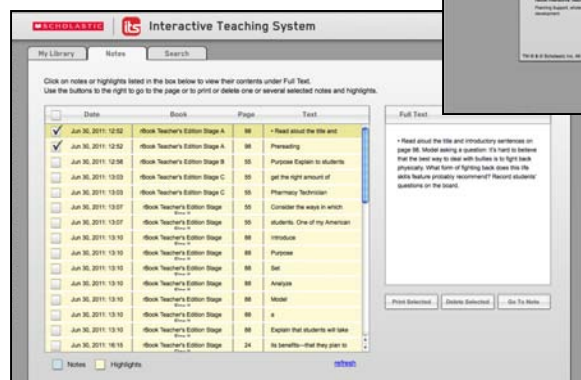

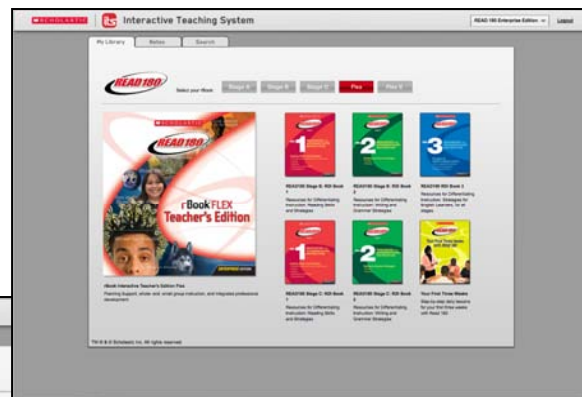

Choosing the Library

To choose the *READ 180* Enterprise Edition library, use the pull-down menu at the top of the screen.

The ITS Library

Click the button at the top of the screen to select the *READ 180* stage, then click the book cover to open the *rBook* or other title onscreen.

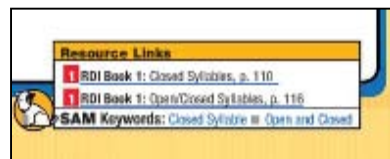

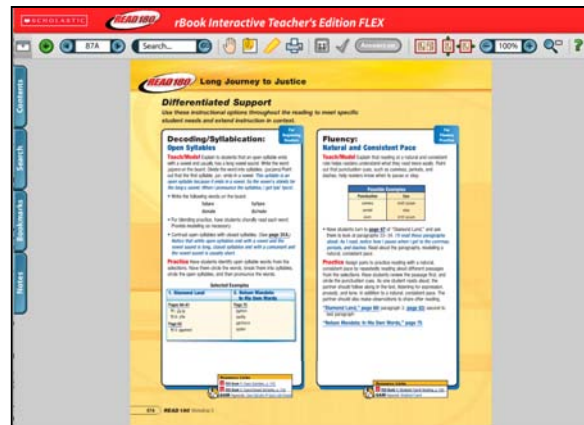

Use the **Notes** tab to view, print, or delete created notes or highlights. Use the **Search** tab to search book text, notes, and highlights by keywords.

ITS Features

Pages in the ITS link to these *READ 180* resources:

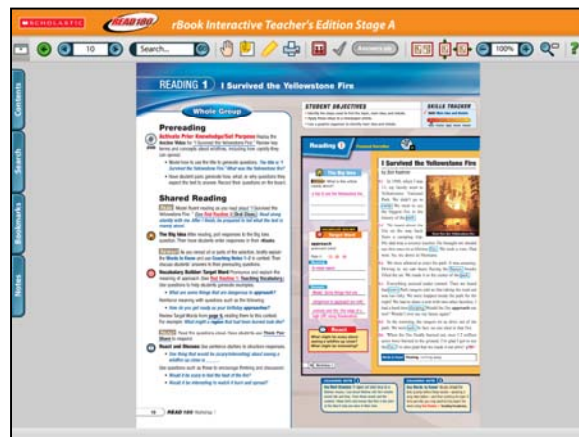

Links to Resources for Differentiated Instruction

Each *Resources for Differentiated Instruction* page reference on the Differentiated Support page is linked. Click the links in the Differentiated Support box to open the referenced page in a separate ITS window.

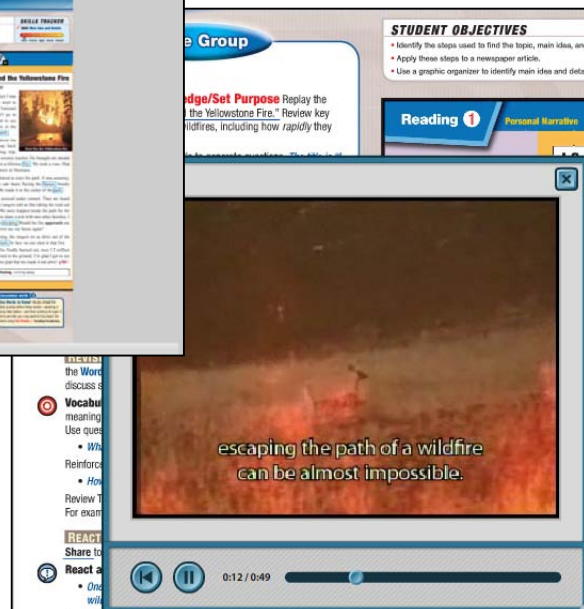

In addition, links on all *rBook* pages open *Resources for Differentiated Instruction* and *Transparencies for Differentiating Whole- and Small-Group Instruction*.

Anchor Videos

Anchor Videos are linked in the *rBook Teacher's Edition*.

Click the link with the Anchor Video's title to open the video on the main screen.

RED Development Videos

RED Professional Development Videos are also referenced in the *rBook Teacher's Edition*.

Shared Reading

READ Model fluent reading as you read aloud "I Survived the Yellowstone Fire." (See **Red Routine 2: Oral Cloze**.) Read along silently with me. After I finish, be prepared to tell what the text is mainly about.

Click the link with the RED Development Video's title to open the video on the main screen.

Click the **Pause** button to pause the video, and click the **Back** button to start the video from the beginning. Slide the cursor along the time measurement bar to move forward or backward through the video. Click the **X** at the top right corner of the video screen to close the screen.

The Toolbar

The Toolbar contains 17 buttons for navigating and using the screen.

Help: Click to get help with Toolbar buttons.

The Tabs

There are four tabs on the book screen:

Contents

The Contents tab shows the Table of Contents for the book currently on the screen. In the Contents tab, headings marked with a + sign are sections, other headings are pages. Clicking a section expands the list to reveal the pages in that section in outline format. Clicking a page opens that page on the screen.

Search

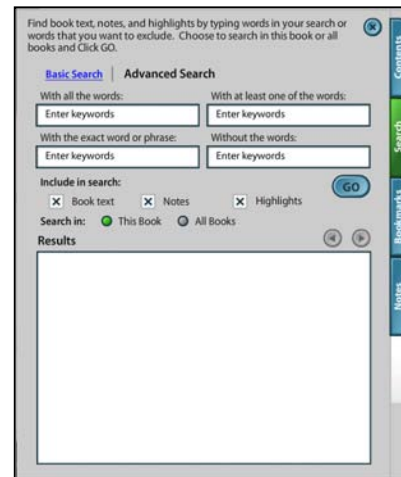

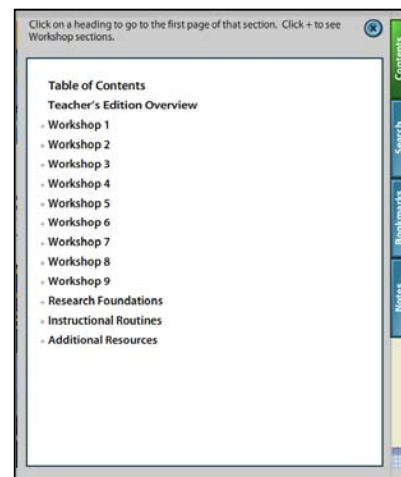

Clicking the **Search** tab opens the Search Screen.

Bookmarks

Clicking **Bookmarks** allows users to bookmark pages. A bookmark indicates a page that users return to frequently. Go to the page to be bookmarked and open the tab. Enter text to label the bookmark and click **Create**.

Notes

Click the **Notes** tab to open the Notes Screen.

Using an Interactive Whiteboard

The ITS is fully whiteboard-compatible. Project student *rBook* pages for classroom use with an interactive whiteboard. Follow the instructions included with the classroom whiteboard to connect it to the computer running the ITS.

To use the ITS on an interactive whiteboard:

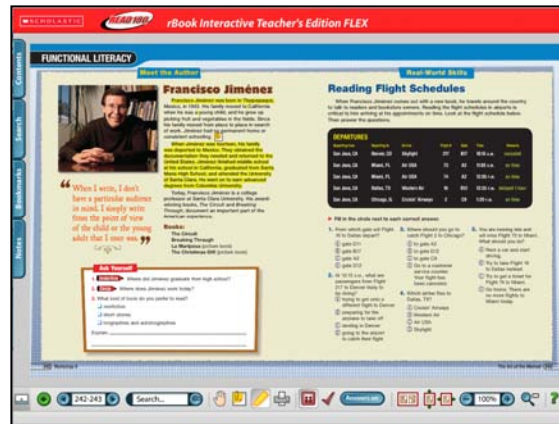

1. Choose Presentation Mode.

2. Click the **Toolbar Down** button  to move the Toolbar to the bottom of the screen for students to access.

3. Use the Annotations buttons to reveal answers on the projected page(s). Click **Select Answers** to click on individual answer boxes to fill in the annotation, or click **Answers On** to turn the answers on and view all annotations at once.

4. Use the Notes and Highlight tools to highlight text or insert notes for students into the presentation.

Various brands of whiteboards allow users to present, write, and save student responses. User experiences with the different whiteboard brands will vary. Consult the User's Guide for your interactive whiteboard for details.

For More Information...

For a complete description of the *READ 180* Enterprise Edition Interactive Teaching System and how it works with the entire *READ 180* program, see the [Scholastic Interactive Teaching System User's Guide](#), available at the [Scholastic Product Support](#) website at <http://www.scholastic.com/read180/productsupport>. The Product Support website also contains program documentation, manuals and guides, and live chat support.
