Dear (b) (6), (b) (6)(b) (6), Please forward this request to Rep. Peter DeFazio and Rep. Brian Mast;

In last 3 years, I have been urging the FAA to work with law enforcement agencies both in US and China to criminally investigate the Chinese counterfeiting safety parts of Boeing flight control system. The FAA did not independently investigate my whistleblowing and consistently refused to pass on the counterfeiting information to LEA no matter what warning was given.

The crash scene recovered the Boeing 737 Max's jackscrew, It was set to dive. The pilots did struggle to pull out the diving many times. While trying to push down the stabilizer, pilots must have deployed trims and spoilers to create change of angle of attack upward to stop stalling. It is the time to look into the possibility of hardware failure besides of the MCAS issue because of pilots pulling ups failed at last. Fake Safety parts on trims and spoilers made by the Chinese supplier-NHJ may have played a direct role in the two 737 Max crashes.

My own effort in filing criminal complaint to the Chinese law enforcement was followed a home intrusion that clearly was a death warning for me to stop my whistleblowing just days ago.

I appeal US lawmakers could take my whistleblowing seriously in view of the recent Max crashes and demand the FAA work with LEA immediately to uncover the Chinese counterfeiting as well as Moog/ Boeing cover-up. Also the FAA accountability of past inaction should also be looked into. I am willing to travel to U.S. for Congress hearing or assist lawmakers' investigation on the crime and fraud.

Below is an Onenote file link containing key exhibits inclusive latest findings of bombshell evidence indicating forgery on
