

SECONDARY SCIENCE RESOURCES CATALOGUE 2017

Feel confident in our mission to
keep improving the most
popular textbooks
available

Rely on our local team in Singapore
to provide tailored
resources for ever-
changing needs

WHY
CHOOSE
HODDER
EDUCATION
SINGAPORE?

Deliver world-class
lessons with resources
used in over 140 countries

Trust a longstanding
partner of Cambridge
International Examinations

WHY CHOOSE HODDER EDUCATION SINGAPORE?

Count on some of the **best-known textbooks**

Hodder Education Group acquired select titles from the Pearson Singapore List last year and we now supply these bestselling titles to schools throughout the region.

Rely on our **local team in Singapore** to provide tailored resources and respond to **ever-changing needs**

Through the local team in our Singapore office we provide schools with access to the best range of print and digital resources, all tailored to support the national curriculum. Our team is dedicated to continually improving the support we provide and to responding quickly and effectively to the wide range of ever-changing needs across the country.

Benefit from over **100 years of experience** in educational publishing and deliver **world-class lessons** with resources used in over **140 countries**

Hodder Education Group are one of the largest and most experienced educational publishers with over 100 years of publishing history. Globally, we have published for almost every subject, and every learning level, providing resources to schools in over 140 countries worldwide. Our expertise will allow us to provide the best support available to schools in Singapore, and help you deliver and develop the world-class practice that has made Singapore a global leader in education.

Trust a longstanding partner of **Cambridge International Examinations**

As an official publisher of endorsed resources, we have worked with **Cambridge International Examinations** for over 25 years. Cambridge International Examinations work with the **Singaporean Ministry of Education** to develop the O and A Level exams.

Lower Secondary Science

Volume 1
978-981-06-3491-9

Volume 2
978-981-06-3492-6

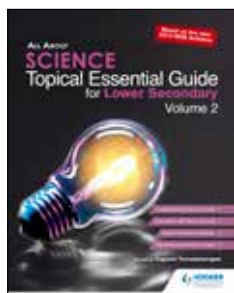

All About Science: Process Skills

Enhance students' understanding of the process involved in learning Science with ample practice.

- Reinforce understanding with clear and concise explanations of science process skills.
- Aid the application of process skills with stimulating MCQs, structured questions and free-response questions.
- Facilitate independent learning with detailed answers.

Volume 1
978-981-06-2626-6

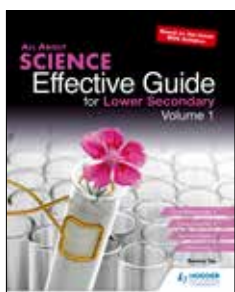

Volume 2
978-981-06-2627-3

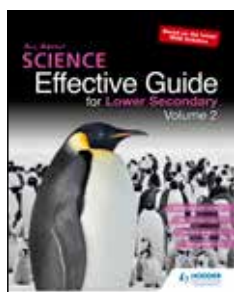

All About Science: Topical Essential Guide

Help students to master the subject and revise more effectively in order to achieve excellent results using this guidebook based on the latest Syllabus issued by the Ministry of Education, Singapore.

- Facilitate the application of concepts in scientific investigation with detailed experiments.
- Guide students with comprehensive notes and detailed illustrations.
- Reinforce learning with consistent self-check exercises.
- Assess mastery of concepts with extensive MCQs and structured questions.

Volume 1
978-981-06-3493-3

Volume 2
978-981-06-3494-0

All About Science: Effective Guide

Enhance students' understanding of the processes involved in learning science with clear and concise explanations and practice questions written according to the latest Lower Secondary Science Syllabus issued by the Ministry of Education, Singapore.

- Facilitate independent learning with clear and concise explanations of science process skills.
- Aid the application of process skills with stimulating MCQs, structured questions and free-response questions.
- Enable students to take charge of their own progress with detailed answers provided.

Lower Secondary Science

Volume A
978-981-06-3136-9

Volume B
978-981-06-3137-6

All About Science for Lower Secondary Textbook

Provide students with a solid foundation in science and help them develop scientific literacy with content based on the latest Syllabus for lower secondary science issued by the Ministry of Education, Singapore.

- Facilitate the inquiry approach to learning in real life contexts, cultivate skills, and develop ethics, values and attitudes that are essential in the learning of science.
- Offer opportunities for students to develop competencies essential to thrive in the 21st century.

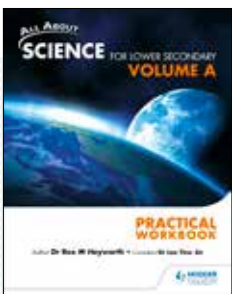

Volume A
978-981-06-3138-3

Volume B
978-981-06-3139-0

All About Science for Lower Secondary Theory Workbook

Equip students with a solid foundation in science by providing exercises to complement the textbook, helping students develop scientific literacy, and apply and assess their understanding of concepts.

Volume A
978-981-06-3140-6

Volume B
978-981-06-3141-3

All About Science for Lower Secondary Practical Workbook

Facilitate students' learning in real life contexts and help them construct knowledge themselves with practical activities, providing opportunities for students to develop key inquiry skills and acquire competencies essential for success in the 21st Century.

'O' Level
978-981-06-3478-0

'O' Level
978-981-06-3479-7

All About Physics: 1001 MCQs All About Science Physics: 1001 MCQs

Prepare students for the multiple choice section of their GCE 'O' Level examinations with ample practice questions based on the new syllabus, and categorised into three levels of difficulty.

- Practice and reinforce knowledge with 1001 challenging questions, arranged in ascending levels of difficulty and split into three levels:
Level 1: Recall questions or questions which require a single concept to solve.
Level 2: Application questions or questions which require 2 or 3 concepts to solve.
Level 3: Application questions or questions which require 3 or more concepts to solve.
- Expand and test students' understanding of concepts with extension questions.
- Facilitate understanding and learning with detailed solutions and explanations.
- Challenge students with cross-topical extension questions at the end of each unit.

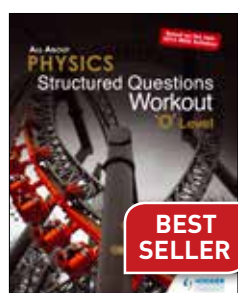

'O' Level
978-981-06-3690-6

All About Physics: Multiple-Choice Questions Workout

Consolidate knowledge and provide targeted practice for students with a wide variety of topical practice questions based on the latest Physics Syllabus issued by the Ministry of Education, Singapore.

- Thoroughly test understanding and application of concepts with varied questions.
- Facilitate independent learning with detailed answers.
- Ensure coverage of the syllabus with questions grouped according to the latest 'O' Level Physics syllabus.

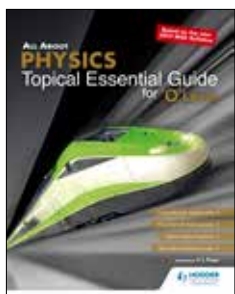

'O' Level
978-981-06-3689-0

All About Physics: Structured Questions Workout

Consolidate knowledge and provide targeted practice for students with a wide variety of topical practice questions based on the latest Physics Syllabus issued by the Ministry of Education, Singapore.

- Thoroughly test understanding and application of concepts with varied questions.
- Facilitate independent learning with detailed answers.
- Ensure coverage of the syllabus with questions grouped according to the latest 'O' Level Physics syllabus.

Physics

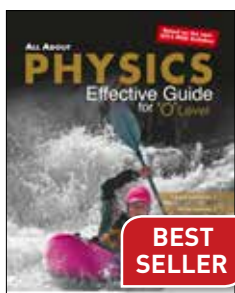

'O' Level
978-981-06-2624-2

All About Physics: Topical Essential Guide

Help students master Physics and revise more effectively in order to achieve excellent results with notes, experiments and exercises based on the latest Syllabus issued by the Ministry of Education Singapore.

- Ensure complete coverage of the syllabus with comprehensive notes and detailed illustrations.
- Facilitate application of concepts in scientific investigations with detailed experiments.
- Reinforce learning with self-check exercises.
- Ensure correct understanding with misconception analysis.
- Assess mastery of concepts with extensive MCQs and structured questions.

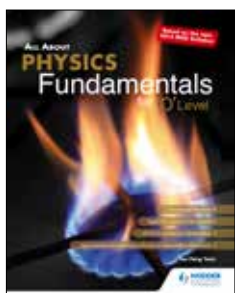

'O' Level
978-981-06-3476-6

All About Physics: Effective Guide

Facilitate learning and help students to revise effectively with worked examples and step-by-step solutions to practice application of concepts and rigorous revision exercises to expose students to various types of questions, based on the 2013 Physics and Science Physics Syllabuses issued by the Ministry of Education, Singapore.

- Assess progress with self-evaluation questions.
- Consolidate learning with extensive and stimulating MCQs and structured questions.
- Ensure full coverage of the syllabus through systematic and comprehensive notes with helpful illustrations.
- Ensure clear coverage through qualitative and quantitative examples with step-by-step solutions.

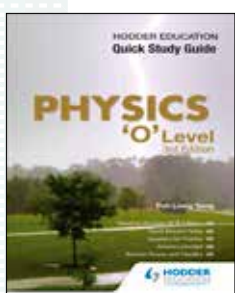

'O' Level
978-981-06-3626-5

All About Physics: Fundamentals

Ingrain the concepts and principles essential to students for achieving success in their examination, addressing core concepts covered in the latest Science Physics 'O' Level syllabus and based on the 2013 Science Physics Syllabus issued by the Ministry of Education, Singapore.

- Prepare for the exam with core concepts covered.
- Test knowledge and skills learned with Application Questions for Practice.
- Aid conceptual understanding with MCQs.

'O' Level
978-981-46-7686-1

LQSG Physics 'O' Level (3rd Edn)

Assist students in their revision for tests and examinations, with notes and questions based on the latest Syllabus issued by the Ministry of Education Singapore.

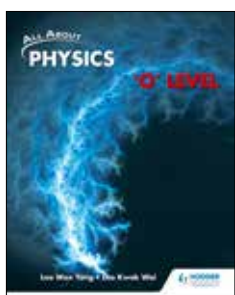

All About Physics: Test Papers

Facilitate self study in a systematic and focussed manner with a topical approach, helping students to revise more effectively for tests and examinations and feel more confident answering questions based on the latest Physics and Science Physics GCE 'O' Level Syllabus.

- Prepare for exams with confidence using a wide variety of exam-orientated multiple choice, structured and data-based questions.
- Facilitate independent learning and correct misconceptions with detailed answers.

'O' Level

978-981-06-3632-6

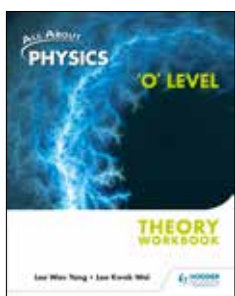

All About Physics 'O' Level Textbook

Help students to establish a solid foundation for scientific literacy, and develop the relevant skills of inquiry needed to understand and apply physics concepts and principles in everyday life, while instilling a sense of appreciation for science and scientific enquiry in them to help them explore their natural and physical world.

'O' Level

978-981-06-3130-7

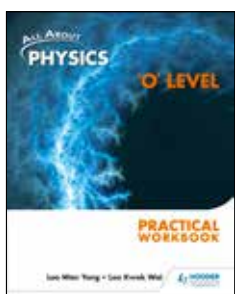

All About Physics 'O' Level Theory Workbook

Reinforce concepts and principles learned in the textbook with challenging questions that require students to analyse data as well as review exercises for further practice; written for students taking the GCE 'O' Level Physics examination based on the latest syllabus issued by the Ministry of Education.

'O' Level

978-981-06-3131-4

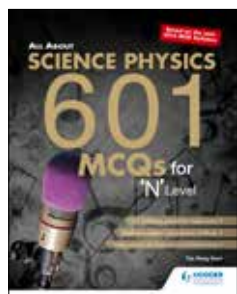

All About Physics 'O' Level Practical Workbook

Develop key science process skills necessary for scientific exploration and investigation, and introduce practical skills progressively and systematically in a variety of context with a practical workbook to supplement the textbook.

'O' Level

978-981-06-3132-1

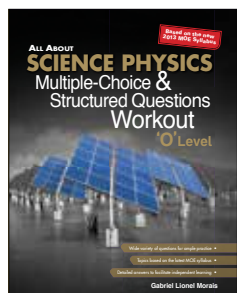

Combined Science Physics

All About Science Physics: 601 MCQs

Enable students to prepare fully for the multiple choice section of their GCE 'N' Level Science Physics examination with ample MCQs structured according to themes based on the latest Science Physics Syllabus issued by the Ministry of Education, Singapore.

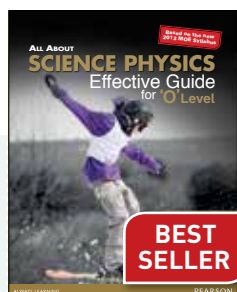

'N' Level
978-981-06-3480-3

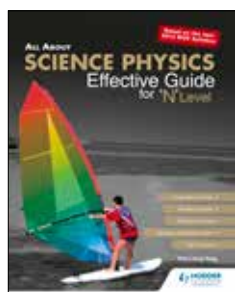

All About Science Physics: Multiple-Choice & Structured Questions Workout

Consolidate knowledge and provide targeted practice for students with a wide variety of topical practice questions based on the latest Physics Syllabus issued by the Ministry of Education, Singapore.

'O' Level
978-981-06-3753-8

'O' Level
978-981-06-3477-3

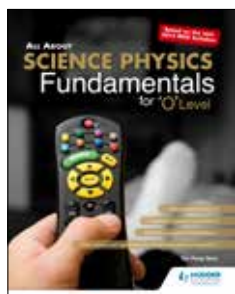

'N' Level
978-981-06-3504-6

All About Science Physics: Effective Guide

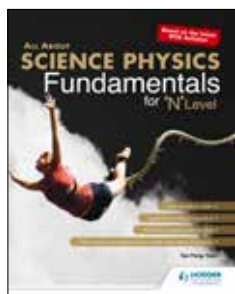

Facilitate learning and help students to revise effectively with worked examples and step-by-step solutions to practice application of concepts and rigorous revision exercises to expose students to various types of questions, based on the 2013 Physics and Science Physics Syllabuses issued by the Ministry of Education, Singapore.

- Assess progress with self-evaluation questions.
- Consolidate learning with extensive and stimulating MCQs and structured questions.
- Ensure full coverage of the syllabus through systematic and comprehensive notes with helpful illustrations.
- Ensure clear coverage through qualitative and quantitative examples with step-by-step solutions.

Combined Science Physics

'O' Level

978-981-06-3129-1

Normal (Academic)
978-981-06-3144-4

All About Science Physics Practical Workbooks

Encourage development of key science process skills necessary for science exploration and investigation, introducing practical skills progressively and systematically in a variety of contexts, with a workbook to supplement the textbook.

'O' Level

978-981-06-2631-0

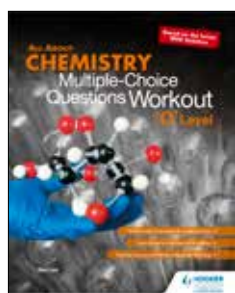

All About Chemistry: 1001 MCQs

Test and reinforce learning with questions categorised into three levels of difficulty, with cross-topical extension questions at the end of each unit to further challenge students, based on the latest Syllabus issued by the Ministry of Education, Singapore.

Level 1: Recall questions, or questions which require a single concept to solve.

Level 2: Application questions or questions which require 2 or 3 concepts to solve.

Level 3: Application questions or questions which require 3 or more concepts to solve.

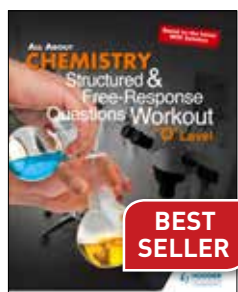

'O' Level

978-981-06-3654-8

All About Chemistry: Multiple-Choice Questions Workout

Consolidate knowledge and provide the targeted practice needed for students to excel in their GCE 'O' Level Chemistry examination with topical questions based on the latest Chemistry Syllabus issued by the Ministry of Education, Singapore.

'O' Level

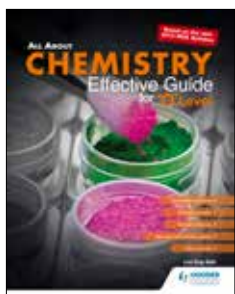

978-981-06-3593-0

All About Chemistry: Structured & Free-Response Questions Workout

Provide practice and consolidate knowledge to help students excel in the GCSE 'O' Level Chemistry examination with topical questions based on the latest Syllabus issued by the Ministry of Education, Singapore.

- Test students' understanding and application of Chemistry concepts with varied questions.
- Facilitate independent learning with detailed answers.

Chemistry

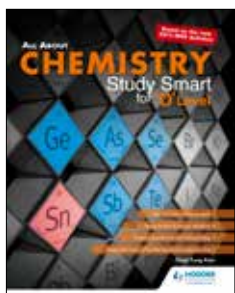

'O' Level
978-981-06-3495-7

All About Chemistry: Effective Guide

Facilitate students' learning and help them revise effectively with worked examples and step-by-step solutions, to aid them in applying the concepts learned, and rigorous revision exercises to expose students to various types of questions.

- Systematic and comprehensive notes with helpful illustrations.
- Qualitative and quantitative examples with step-by-step solutions.
- Reinforce learning with self-evaluation questions, and extensive and stimulating MCQs and structured questions.
- Practice skills learned and test knowledge with specimen examination papers.
- Check on progress with clear numerical answers and detailed answers for more difficult questions.

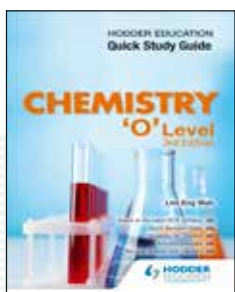

'O' Level
978-981-06-3088-1

All About Chemistry: Study Smart

Bolster memory work and understanding with hints and tips based on tried-and-tested methods for studying, with a student-friendly and insightful guide that brings across key ideas from the topics covered in the GCE 'O' Level Chemistry examination.

- Prepare for the exam with guidance and techniques on how to answer examination questions effectively.
- Facilitate recall and understanding with an association map at the end of each chapter, to integrate the key concepts learned.

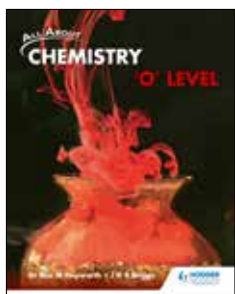

This guide is complemented by the practice companion All About Chemistry: 1001 MCQs for 'O' Level.

'O' Level
978-981-46-7684-7

LQSG Chemistry 'O' Level (3rd Edn)

Assist students in their revision for tests and examinations, with notes and questions based on the latest Syllabus issued by the Ministry of Education Singapore

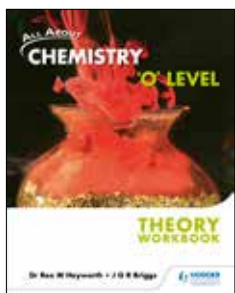

'O' Level

978-981-06-3115-4

All About Chemistry 'O' Level Textbook

Help students establish a solid foundation for scientific literacy, and develop the relevant skills of inquiry needed to understand and apply chemistry concepts and principles in everyday life, while instilling a sense of appreciation for science and scientific inquiry as important tools to help them explore their natural and physical world.

Cambridge International AS and A Level Sciences Teacher's CD-Rom

Comprehensive teacher support and guidance for the latest syllabus.

Developed by experienced authors and teachers to offer you guidance and support. They include:

- answers to the end of topic examination questions in the Student's Book
- teaching tips and ideas for delivery
- annotated sample exam answers at three levels
- the interactive tests and content in the Student's CD-ROMs

International Baccalaureate

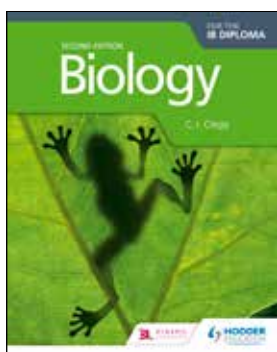

International Baccalaureate IB Diploma Sciences Student's Books

These second editions of the highly regarded textbooks contain all the SL and HL content, which is clearly identified throughout. The options are available free online or as part of the Teaching and Learning Resources.

- Improve exam performance, with plenty of questions, including past paper exam questions
- Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study
- Offers a concept-based approach to learning and includes all key skills and experiments

The authors have vast experience writing for and teaching international students, so these texts use clear, straightforward language to explain the most complex topics.

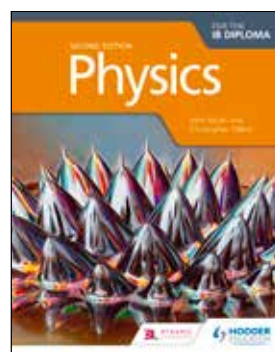

Nature of Science, a key part of the latest guide, is highlighted throughout, with commentary and discussion.
