CONDUIT COAST-TO-COAST

Headquartered in Rancho Dominguez, CA, Calconduit™, a division of Calpipe Industries, Inc., is a leading manufacturer and supplier of galvanized rigid, EMT, and aluminum. With stocking locations throughout the USA, short manufacturing lead times and competitive pricing, Calconduit is focused on quick response to project requirements nationwide.

FAST, RELIABLE AND RESPONSIVE TEAM

- Our superior customer service team impacts the buying process from specification to shipment.
- With our unique production capabilities, we can accommodate special requests and those "unscheduled" changes to conduit runs that are impossible to produce using field equipment.
- Calconduit makes it easy to do business regardless of your location.

MADE IN THE USA & ARRA CAPABILITIES

Calconduit's products are ARRA-compliant and domestically manufactured products that support government-funded projects and other specialized conduit bending needs.

On February 17, 2009, the American Recovery and Reinvestment of 2009 (ARRA) was signed into law. Among the many areas the legislation addresses, ARRA 2009 includes allocations for the construction and renovation of Federal and State buildings. This funding is available for new construction projects, renovations, repairs and sustainability upgrades.

COMMITMENT TO CUSTOMERS

Calconduit is dedicated to providing customers with quality steel conduit and fittings that meet industry standards and are delivered on a timely basis. We rely on direct personal service, fast response to quotations with competitive pricing and performance to keep our customers coming back.

- 24 to 72 hour turnaround on most production runs and specials
- Competitive pricing and availability for projects nationwide
- With regional inventory throughout the USA, we offer next day delivery in most locations

CALCONDUIT ... THE BENDING EXPERTS

When presented a project with special requirements, our bending specialists have the experience to produce conduit runs from complex layouts with a turnaround time that meets your schedule. Calconduit has been providing distributors and their customers with special radius sweeps and custom bends for nearly three decades. Whether it's a standard or special requirement, think Calconduit.

Stub ups

L-shaped conduit
(90° bend)

Back-to-back bends

Conduit that turns two
corners in a 180° bend

Offset bend

Changes the conduit plane
to clear obstacles or to
rise up from a wall to enter
a junction box

Three bend saddle

Allows conduit to clear an
obstacle, maintain alignment
and appearance

Standard threading & bending capabilities

- Available in galvanized and aluminum rigid and EMT
- Diameters – ½" – 6"
- Radii – 12" to 360" in 12" increments

Special large-radii bending capabilities

- Custom segment bends (11-1/4° - 15° - 22-1/2° - 30° - 60°) in a variety of radii
- Large diameter and difficult-to-field bend stubs and offsets
- Large diameter special length nipples

QUALITY MAKES THE DIFFERENCE

Calconduit's quality assurance program complies with industry standards established by Underwriters' Laboratories (UL), CSA, ASTM, ANSI, NEMA, and other agencies.

UL listings include:

Ferrous electrical conduit	File # DYIX.E226472
Electrical metallic tubing	File # FJMX.E315441
Non-Ferrous electrical conduit (aluminum & stainless)	File # DYWV.E230584

SPECIFICATIONS

Calconduit rigid conduit is manufactured in accordance with the latest edition of the following:
 American National Standards Institute for rigid steel tubing (ANSI® C80.1)
 Underwriters Laboratories Standard for rigid steel tubing (UL6)
 Threads conform to ANSI B1.20.1

ENVIRONMENTAL SUSTAINABILITY THE CALPIPE COMMITMENT

- Steel is the most recycled material in North America
- One ton of recycled steel saves 2,500 pounds of iron ore, 1,400 pounds of coal and 120 pounds of limestone
- In addition to manufacturing a fully recyclable product, Calconduit is committed to minimizing their carbon footprint by constantly implementing new environmentally sustainable practices

Rigid Conduit, Rigid & EMT Fittings

GALVANIZED RIGID ELBOWS

Diameters: 1/2" to 6"
 Specifications: UL 6 & cUL 6, ANSI C80.1
 Degrees of bend:
 90°, 60°, 45°, 30°, 22-1/2°, 15°, 11-1/4°

GALVANIZED RIGID SPECIAL RADIUS SWEEPS

Diameters: 1/2" to 6"
 Specifications: UL 6 & cUL 6, ANSI C80.1
 Degrees of bend:
 90°, 60°, 45°, 30°, 22-1/2°, 15°, 11-1/4°

Radii available:
 12", 18", 24", 30", 36", 42", 48", 60"

GALVANIZED RIGID COUPLINGS

Diameters: 1/2" to 6"

GALVANIZED RIGID NIPPLES

Diameters: 1/2" to 6" by any length
 Specifications: UL 6 & cUL 6, ANSI C80.1

OFFSETS, KICKS & RISERS

Diameters: 1/2" to 6"
 GRC, EMT & PVC Coated

*See other side for information on custom bending capabilities

GALVANIZED RIGID CONDUIT

Diameters: 1/2" to 6"
 Specifications: UL 6 & cUL 6, ANSI C80.1
 10' Lengths standard

*Special lengths through 20' available by request

EMT ELBOWS AND SPECIAL RADIUS SWEEPS

Diameters: 1/2" to 4"
 Specifications: UL 797 & cUL 797, ANSI C80.3
 Degrees of bend:
 90°, 60°, 45°, 30°, 22-1/2°, 15°, 11-1/4°

GOOD SERVICE IS GOOD BUSINESS

Calconduit™

Rigid Conduit, Rigid & EMT Fittings
 A division of
CALPIPE INDUSTRIES
Incorporated

Calconduit's superior customer service impacts the buying process from specification to shipment. With an experienced service department and skilled work force, no bend requirement is too "special." Committed to being a true problem solver, we accommodate requests and those "unscheduled" changes to conduit runs that are impossible to produce using field equipment.

The **Calconduit Difference** comes from our:

- Competitive pricing
- Custom bending capabilities
- Fast, reliable and responsive team
- Made in US & ARRA capabilities 

Calconduit specializes in the following custom bends in diameters from 1/2" thru 6":

Special Radius Sweeps

Kicks

Saddles
