# PRODUCT INFORMATION

## ENGINE

Powering the Speed Triple is Triumph's legendary 1050cc three-cylinder, producing an impressive 133bhp and a mighty 82 ft.lbs punch for effortless sports riding. The Speed Triple also features the 1050's redesigned gearbox, for more positive and refined shifting action.

## CHASSIS

At just 214kg fully fuelled, the latest Speed Triple is a whole 3kg lighter than the previous model. Front and rear wheels are each over one kilogram lighter, while the narrower frame and improved packaging allows for increased ground clearance and makes the machine feel incredibly light and nimble.

## STYLING

Twin headlamps up front are a modern interpretation of the classic 'bug-eye' look while classic Speed Triple cues remain throughout, including single-sided swingarm, twin silencers and that stubby, aggressive stance.

## SECURITY & SAFETY

Coded key immobiliser comes as standard. Sophisticated ABS is standard for the first time on a Speed Triple, while tyre pressure monitors are also available.

## SUSPENSION

The Öhlins suspension has been developed specifically for the Speed Triple R with both Öhlins and Triumph development riders involved in extensive evaluation tests of the units on the bike. The NIX30 forks, which separate the compression and rebound damping between the legs, have specific internals to suit the Triumph, as does the TTX36 shock.

## BRAKES & TYRES

The Speed Triple uses updated versions of Brembo's Monobloc four-piston radial caliper. With 5% more stopping power than the Brembo units on the stock Speed Triple, the R's calipers feature a tough anodised finish. ABS features as an optional extra. Pirelli Super Corsa SP tyres also provide added grip ideal for both road and track.

## WHEELS

The lightweight wheels are developed specifically for the Speed Triple R. Created from an 18.9kg solid lump of aluminium alloy, the rear wheel is forged by German company Otto Fuchs and finally machined by PVM into a 3.82kg wheel, with the front wheels also forged in the same way. Weighing 1kg less than the stock wheel, such a reduction is achieved by the forged wheel's greater strength, meaning the rim can be reduced in thickness from 4mm to just 2.5mm. With the front 0.7kg and rear 1kg lighter than stock, tests have shown the wheels' inertia is reduced by 16% and 25% respectively due to the reduction in unsprung mass.

## STYLING

Every Triumph 'R' model comes with some added subtle details including black anodised taper handlebars, signature red sub-frame which all make the Speed Triple R stand out distinctively. Add to that a carbon fibre tank cover, radiator shrouds and inner radiator from the same company that makes Lamborghini's carbon components, you can see this bike is ready for the road.

# SPECIFICATIONS

ENGINE AND TRANSMISSION			Standard	R
Type		Liquid-cooled, 12 valve, DOHC, in-line 3-cylinder	●	●
Capacity		1050cc	●	●
Bore/Stroke		79.0 x 71.4mm	●	●
Fuel System		Multipoint sequential electronic fuel injection with SAI	●	●
Exhaust		Stainless Steel 3 into 1 into 2, twin high level stainless steel silencers	●	●
Final Drive		X ring chain	●	●
Clutch		Wet, multi-plate	●	●
Gearbox		6-speed	●	●
Oil Capacity		3.8 litres (1.0 US gals)	●	●

PERFORMANCE		(Measured at crankshaft to 95/1/EC)	Standard	R
Maximum Power		135PS / 133bhp / 99kW @ 9400rpm	●	●
Maximum Torque		111Nm / 82ft.lbs @ 7750rpm	●	●

CHASSIS, RUNNING GEAR AND DISPLAYS			Standard	R
Frame		Aluminium beam twin-spar	●	●
Swingarm		Single-sided, aluminium alloy with eccentric chain adjuster	●	●
Wheels	Front	Cast aluminium alloy multi-spoke 17 x 3.5in	●	–
		Forged aluminium alloy 5 spoke 17 3.5in	–	●
	Rear	Cast aluminium alloy multi-spoke 17 x 6.0in	●	–
		Forged aluminium alloy 5 spoke 17 x 6.0in	–	●
Tyres	Front	120/70 ZR17	●	●
	Rear	190/55 ZR17	●	●
Suspension	Front	Showa 43mm upside down forks with adjustable rebound and compression damping, 120mm travel	●	–
		Öhlins 43mm NIX30 upside down forks with adjustable rebound and compression damping, 120mm travel	–	●
	Rear	Showa Monoshock with rebound and compression damping, 130mm rear wheel travel	●	–
		Öhlins TTX36 twin tube Monoshock with rebound and compression damping, 130mm rear wheel travel	–	●
Brakes	Front	Twin 320mm floating discs, Brembo 4-piston 4-pad radial calipers, Switchable ABS	●	–
		Twin 320mm floating discs, Brembo 4-piston Monobloc radial calipers, Switchable ABS	–	●
	Rear	Single 255mm disc, Nissin single 2-piston sliding caliper, Switchable ABS	●	–
Front Brake Master Cylinder		Brembo radial master cylinder, 18mm diameter	●	●
Instrument Display/Functions		LCD multi-functional instrument pack	●	●
		Digital speedometer	●	●
		Fuel gauge	●	●
		Trip computer	●	●
		Analogue tachometer	●	●
		Lap timer	●	●
		Programmable gear change lights	●	●
		Service interval announcement display	●	●
		TPMS ready	●	●
		Switchable ABS	–	●

DIMENSIONS AND CAPACITIES		Standard	R
Length	2100mm (82.6in)	●	●
Width (handlebars)	795mm (31.3in)	●	●
Height (without mirrors)	1110mm (43.7in)	●	●
Seat Height	825mm (32.5in)	●	●
Wheelbase	1435mm (56.5in)	●	●
Rake/Trail	22.8° / 90.9mm	●	●
Fuel Tank Capacity	17.5 litres (4.6 US gals)	●	●
Wet Weight	214kg (471lbs)	●	–
	212kg (466lbs)	–	●

FEATURES AND BENEFITS		Standard	R
Coded Key Immobiliser		●	●
Carbon fibre front mudguard side pods		–	●
Carbon fibre tank cover		–	●
Carbon fibre inner radiator cowl		–	●

## ACCESSORIES

	Accessory Description
Belly Pan	Four-piece sculpted belly pan colour coded to match the Speed Triple range. Manufactured from durable, high impact ABS, it can be installed with both standard and Arrow 3 into 1 exhaust system.
Arrow Slip-On Silencers	Manufactured from stainless steel with a titanium wrap and carbon fibre end caps. E mark noise approved, offers significant weight reduction and performance increase. A bespoke engine tune ensures the exhaust and engine perform at their optimum levels.
Low Seat	Offers a 20mm reduction in seat height making it easier for feet to reach the ground for added confidence and control.
Bar End Mirror	Sold individually, this is a stylish alternative to the standard equipment. Manufactured from aluminium and available in a clear or black anodised finish. Features laser etched Triumph logo detailing with tinted mirror glass.
Fly Screen	Colour-coded by the factory to ensure an exact colour match this fly screen gives the rider an increased level of wind protection.
Machined Clutch Bracket	Machined from 6061 T6 aerospace grade aluminium in anodised red or black finishes. Superb looks and superior rigidity over the standard part. Features laser etched logo branding and additional machined detailing.
Machined Rear Wheel Finisher	Fully machined finisher features laser etched logo branding and is available in both gunmetal grey and black anodised finishes.
Tail Pack	Offering 10 litres of capacity expandable to 16 litres this bag mounts to passenger seat and features pre-formed construction, water resistant zips, integral rain cover and shoulder straps for use as backpack off bike.
Tank Bag	Compact tank bag. Pre-formed construction with expandable capacity from 16 to 20 litres. Features include water resistant zips, detachable map pocket and waterproof rain cover. Shoulder straps included for converting into backpack for off bike use.
Alloy LED Indicators	Alloy bodied indicator with high gloss black finish and subtle Triumph branding. E mark approved, fits all Triumph Supersports models (Requires relay kit).

## CLOTHING

	Clothing Description
Mugello Jacket	To ensure the Mugello jacket is perfect for warmer weather riding, the leather is impregnated with a TFL coating that reflects sunlight and heat away from the jacket. AVAILABLE FEB 2013
Misano Jeans	These versatile jeans with subtle Triumph branding can be worn and connected to any Triumph jacket in the range. Complete with CE-certified Knox® protectors at the knee. AVAILABLE FEB 2013
Tempest Jacket	A heavily branded and functional sports jacket. Engineered to deliver comfort and key motorcycling features.
Mogeti Jeans	Combining function and style these versatile jeans have subtle Triumph branding and can be connected to any Triumph jacket in the range. AVAILABLE FEB 2013
Jerez Jacket	The AirFlow mesh construction is perfect for keeping cool when the temperatures rise. This jacket also features a removable windproof liner to keep the early morning or late evening cooler temperatures at bay.
Storm Glove	Durable and functional with an abrasion resistant outer fabric, hard moulded knuckles and a TriTex waterproof, windproof and breathable z-liner.
Tri-Climate Glove	Fully functional TriTex waterproof glove, these will keep your hands warm and dry whilst the Superfabric® panels offer high levels of impact and abrasion resistance.
AS3 Boot	Top selling roadster boot with Gore-Tex technology, engineered with Alpinestars to provide waterproof, windproof and breathable functions.

## OUR WORK EXTENDS FAR BEYOND THE FACTORY GATES

We're proud of the bikes we build. We're proud of the materials we use and the people who turn our ideas into reality. It's simple. If it doesn't meet our exacting standards, we won't put our name to it. We test every component in every condition. Every single part and accessory goes through a rigorous assessment programme to simulate the very worst you can throw at it, and then some more. Hot or cold, rain or shine, one-up or two, we go to the limit to give you the best. Our confidence provides you with a two-year, unlimited mileage warranty on your new Triumph and Genuine Accessories. Alongside the knowledge that we give you a 12-month, unlimited mileage warranty on replacement parts. Our parts service is faster and more efficient than any other – we even supply parts for Triumphs dating back to 1991. If you want the best for your bike, you want Triumph Genuine Parts. And with Castrol now proudly installed as worldwide oil partner – you can be guaranteed the absolute best care for your engine.
