Thank you for downloading this resource from MathGeekMama.com!

I love providing high quality math teaching resources for parents and educators, but I ask that you please abide by the following terms of use. This allows me to continue providing resources for free! Thank you for your honesty and support of my work!

Please do:

1. Download to your computer for personal use in the home or classroom
2. Print copies for your personal use

Please do NOT:

1. Link directly to the pdf file
2. Save or store the file on your website
3. Edit this resource in any way
4. Print this resource to sell or distribute to others.

If you would like to share this (or other) resources with friends or colleagues, please direct them to my website to download a copy for themselves. Thank you!

Rounding Race

Rounding Race

Swim Meet Rounding Race Rules:

Game Set Up:

Print a game board (either color or black and white). Then **print** and **cut out** the swimmers below as well as the game cards. Each player then chooses a swimmer as their game piece. Place the game cards in a pile face down in the center.

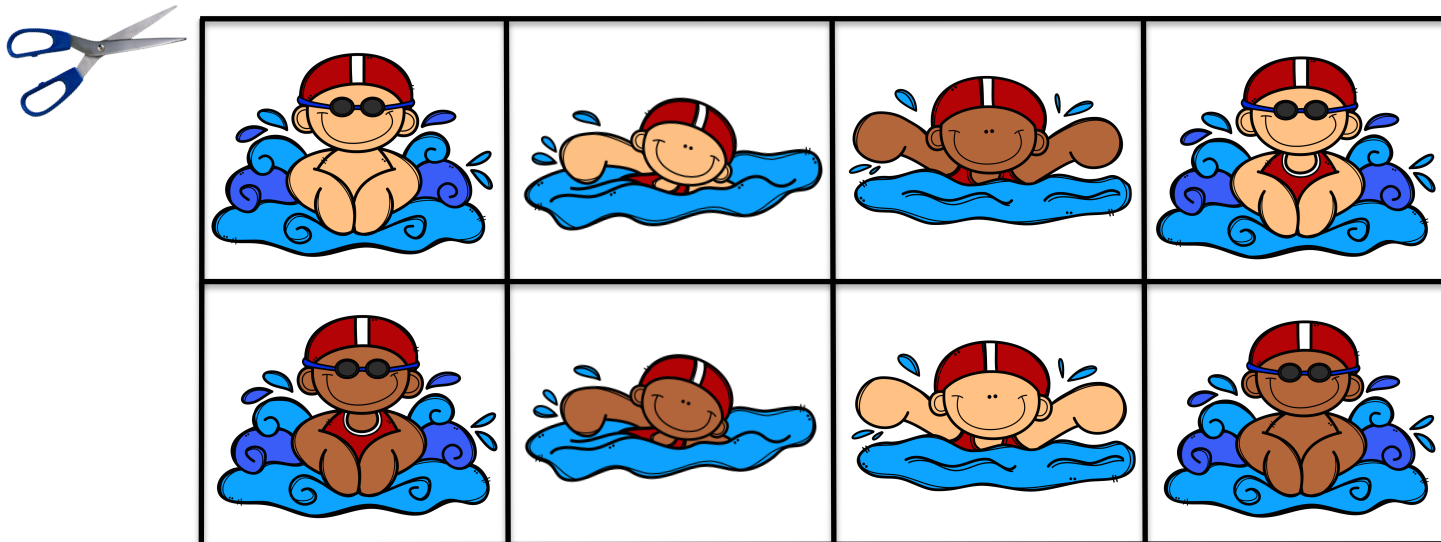

How to Play:

Each player places their swimmer at the edge of the pool by the lane of their choice. The first player then draws a card and rounds the number according to the directions on the card. If the number **rounds up**, then move ahead in their lane. If the number **rounds down**, they stay at start. It is then the next player's turn.

Players continue to take turns drawing cards and rounding the number. Once in the pool, if they **round the number up**, they can move ahead. If the number **rounds down**, however, they stay where they are. If they round the number **incorrectly**, they move **back a space** (unless they are at start).

To Win:

The first player to swim to the end of their lane and back to their starting place (two laps in the pool) wins the game!
