# Introduction

Welcome to the Awards Manual of The Royal Manticoran Navy: The Official Honor Harrington Fan Association (TRMN).

The purpose of this manual is to give you a clear picture of what awards are available within TRMN. For purposes of Awards, there are six Divisions of TRMN:

Royal Manticoran Navy/Marine Corps (RMN/RMMC)

Royal Manticoran Army (RMA)

Grayson Space Navy (GSN)

Civilian (CIV) - DC, IC, SFC, RMACS, RMMM included

Imperial Andermani Navy (IAN)

Republic of Haven Navy (RHN)

Each of these six divisions has a different set of awards available to it (although some awards are shared by more than one division) and each division therefore has a separate section in this manual. This manual will show where each award falls in the order of precedence, and will provide you with a clear understanding of the Admiralty House philosophy behind the recommendations for and issuing of awards. The manual will evolve as new awards are implemented and as criteria are decided upon for awards that are pending future expansion. This manual is your primary point of reference for all award questions.

## Award Philosophy in TRMN

It is important when issuing awards to understand the purpose of awards. This is something that many fan clubs, and even some countries, have failed to do properly. Because of this it is important for us to ensure that everyone in the organization understands what Admiralty House's philosophy is when it comes to issuing awards.

There are a few important things to remember with TRMN awards before we get into the philosophy itself. The first is that not everyone will receive every award. This is a fact of life, and it is one we will have to learn to live with. The second of these is that awards are not here to serve the purpose of a mere "attaboy" certificate. We want to ensure that awards are issued for valid reasons, while also ensuring that people are recognized for the work they do.

So what then is the philosophy of Admiralty House when it comes to requesting and recommending awards? A good award citation clearly and effectively states what the potential recipient has done to earn an award.

An effective citation clearly states what the recipient has done to earn an award. A simple sentence is not enough for a higher level award where a detailed description should be included. It is also desirable to describe the positive effects that the recipient's actions have had on their unit or the TRMN as a whole.

Here is a web page with examples which may be useful:

[http://www.armynco.com/awards/award\\_citations.shtml](http://www.armynco.com/awards/award_citations.shtml)

Additionally, some awards require evidence when presented, such as length of service. The more information that is given, the easier it will be to adjudicate the award. Some awards will require outside sources or evidence. This should all be included when the award is submitted.

When requesting an award, you should consider carefully what the potential award recipient has done, and how much of an impact that activity has had. To that end, it is the philosophy of Admiralty House that you should always request the highest award you think is deserved. It will be the job of the First Lord of the Admiralty's Staff Liaison to assess the award and recommend if the requested award is correct or if it should be up- or downgraded. The reason you should always request the highest award you think is warranted is that it is always worth recognizing people for their efforts in the best manner possible. The job of the Staff Liaison is to employ a neutral eye to all recommendations and adjudicate them based solely on their presented merits.

## **Process for Award Recommendations and Issuance in TRMN**

This is the procedure you should follow when you send in an award recommendation for an award:

1. Send a copy of the award request/recommendation to the following persons (the web form does this automatically):
  - a. Those listed Issuing Authority listed on the "Issued by:" line in this manual or Admiralty Orders.
  - b. The First Lord of the Admiralty's Staff Liaison.
2. Once received, the First Lord of the Admiralty's Staff Liaison will review the recommendation:
  - a. If he agrees with the recommendation as is he will communicate that agreement to the Issuing Authority,
  - b. If he disagrees with the recommendation as is, he will communicate that to the Issuing Authority as follows:

- i. If it is the opinion of the Staff Liaison the award requested is not sufficient based on the recommendation and evidence, he is to upgrade the award as he sees fit and recommend the new award to the Issuing Authority.
  - ii. If it is the opinion of the Staff Liaison the award requested is too high based on the recommendation and evidence, he is to downgrade the award as he sees fit and recommend the new award to the Issuing Authority.
  - iii. If it is the opinion of the Staff Liaison the award requested did not come with enough information to make a decision, he is to note that and communicate it to the Issuing Authority.
  - iv. If it is the opinion of the Staff Liaison the award requested is not proper based on the recommendation and is not appropriate for downgrading based on the recommendation, he shall recommend denial and communicate that to the Issuing Authority.
3. The Issuing Authority will review the original recommendation and the recommendation of the Staff Liaison and make a final decision. The Issuing Authority shall either
    - a. Approve the award recommendation as appropriate; or
    - b. Deny the award recommendation as appropriate; or
    - c. Send the award recommendation back for additional information as appropriate
  4. If approved, the Issuing Authority will communicate this to the Award Recommender and the BuComm Manager for E-Cert Publications (Electronic Certificates).
  5. If denied or more information is needed, the Issuing Authority shall inform the Recommender as soon as is practicable.
  6. Saganami Island Academy Awards (Space Services Deployment Ribbon, Armed Forces Service Medal, Non-Commissioned Officers Senior Course Ribbon, Marksmanship awards and the Recruit Training Ribbon) will be handled by Academy Staff as prescribed by the Sixth Space Lord. The First Lord of the Admiralty's Staff Liaison will assist as necessary and upon request.

## **Awards in TRMN**

Awards in TRMN break down into three categories: Achievement, Service, and Marksmanship. Some of these are awards that many of you will qualify for. Some are awards that only a few ever receive. At the end of the day, these awards reward participation. So the more you participate, the more you are likely to earn.

## **Shared Awards**

Shared awards are awards that are available for multiple Divisions of TRMN. Not all awards are available to all groups, but we have strived to make it fair, and to that end, some awards are shared between Divisions. As an example, the Silesian Anti-Piracy Campaign Award for

the RMN and RMMC is equivalent to the Silesian Peacekeeping Ribbon for the RMA which is also shared with the GSN and Civilians.

This kind of crossover happens in real world militaries as well, and although it may not be 100% canon, we do feel that people should be recognized for their efforts, so we have strived to make opportunities as equitable as possible between Divisions.

## **Proper Wear of Awards**

Initially all award ribbons will be worn in rows of three across. This will be continued until the 12<sup>th</sup> award is reached at which point all awards will be worn in rows of four across.

Additional awards will be shown with devices as appropriate and as described in this manual and Admiralty Orders. No more than three devices may be worn on any particular ribbon. After multiple issuances of an award, if the prescribed device can not be displayed with the stars (for each additional award) and laurels (for five additional awards), they may be replaced by numeral devices. For example, the fifteenth issuance of an award may be displayed with “1” and “5” centered on the ribbon.

## **The Awards In This Manual**

All of the awards that follow here after are the most current and up to date as of the printing of the manual. A few things to note regarding these awards; First, the medals have not yet been manufactured. These are a work in progress, and we will eventually have them in stock. Second, the current availability of ribbons will depend on what BuSup has in inventory. This will vary from time to time, depending on if we have added new ones or are just no longer offering the old ones.

Some awards will be awarded within specific time limits, such as the King Roger III Coronation Medal (awarded to members serving between 05FEB2011 and 04FEB2012), and therefore will no longer be available for issuance (aside from replacement ribbons). They retain their place in the manual, however, to let you know their order of precedence. Finally, this manual will be updated every other year. In the time between manual revisions, Admiralty Orders will fill in for the updates as needed.

Without further ado...The Awards of The Royal Manticoran Navy!

# Parliamentary Medal of Valor

1

**Issued For:** The highest gallantry award of the RMN and armed services. This award is for lifesaving 'above and beyond the call of duty'. To qualify for this award, the recipient must save a life. For this Award to be granted, attestation from Medical personnel or independent third party is required. The recipient is entitled to the post nominal letters of 'PMV'. Because of the nature of their professions, and the definition of 'above and beyond' is difficult at best, therefore, the award for those personnel in Real World Aid Giving positions will be addressed on a case by case basis by the Admiralty. This award will be voted on by the Board of Directors

An alternate criteria for the List of Honor Citation is if the Chapter gets mention in an Honorverse novel and it is clear that it is based on one of our Chapters. When a warship's distinctions get its name added to the List of Honor, all crew members who served in the action that achieved this distinction at that time get this citation. # Royal Meritorious Unit Citation

**44**

**Issued For:** This citation is awarded to one Unit in each group for performance above and beyond as compared to the other Units in that group. As an example, a Squadron Commander can award this to one of the ships under their command. A Task Group Commander can then single out a Squadron for this Award. This would work the same way with the RMMC where a Battalion Commander can give this to one of his companies, and a Regimental Commander to one of his Battalions. It is worn on the right hand side of the uniform.

**Issued by:** Unit Commander (Task Force/Brigade and up)

**Order of Precedence:** 44

**Frequency:** Once per unit level per year

**Additional Awards:**

# Fleet Excellence Award

**45**

**Issued For:** This Award is issued once per year to the Unit which most demonstrates their excellence compared to the other Fleets. A Unit is defined as a Chapter. Numbered Fleet Commanders submit their nominees to the First Space Lord.

This is awarded based on the efforts of the entire Unit and not just the efforts of one person. Examples of this would be a Chapter building and maintaining a Bridge Simulator that they can bring to conventions, or a Chapter arranging a Charity event to raise money for either the TRMN Charity or a local Fleet Charity. Regardless of what the trigger is, it must set this unit above and beyond the rest of the units nominated.

It is worn on the left hand side of the uniform and is the only group award so worn. If the First Space Lord is acting as a Numbered Fleet Commander, the First Lord of the Admiralty will issue this award.

**Issued by:** First Space Lord

# Silesian Anti-Piracy Campaign Medal

# 48

**Issued For:** This award is given to Members who have undertaken extreme or lengthy travel on behalf of the TRMN. The two important criteria are “extreme or lengthy” and “on behalf of the TRMN.” The former requires a judgment call by the Unit Commander. A possible standard might be 5 hours travel time, for example. The latter is more exact: Taking a long road trip to attend a convention with the other members of your chapter, for example, does not qualify. Doing so because you are going to be presenting a class, a demonstration or manning a recruiting table would qualify.

# Appendix

# I - Marksmanship Qualifications

For each qualifying game played, the games must be logged and witnessed by two people, unless played via Saganami Island with a BuTrain Instructor or have some independent, verifiable system in place. Any fast paced game, such as Wings of War, will be limited to max five games per sitting, with a maximum of two sittings per day. For slower, more strategic games, such as Saganami Island Tactical Simulator, there will be a maximum limit on ten games per day regardless of sittings. This difference is due to the nature of the games. Either way, in one day, you can qualify for a Sharpshooter Ribbon.

TRMN does not permit live fire for its Marksmanship awards. The Royal Manticoran Navy: The Official Honor Harrington Association will in no way be held liable as a result of injury or loss suffered while members are involved in any games played hosted by a third party.
