* Price includes Bulkhead Fitting. Fitting installation included on new towers only

Tubular heating element have 80/20 nickelchromium resistance coils centered in a heavy gauge metal tube surrounded by magnesium oxide insulation. 1" and 1-1/4" pipe thread heaters have .312" diameter elements for operation up to 277 volts. 2" and 2-1/2" pipe thread heaters have .475" diameter elements suitable for operation up to 480 volts.

Built-In Thermostat provide automatic temperature control without the necessity of installing a separate well for the thermostat bulb in the field and making electrical connections between the heater and control. The thermostat is fully adjustable throughout its 0 to 100F range

Float Switch will only enable the Heater when submerged

Heater suitable for installations down to -10f ambient

TERMS AND CONDITIONS

All prices are FOB shipping point, and are subject to change without notice.

Standard payment terms apply, contact your local RSD location for specifics.

Warranty:

RSD COOLING TOWER WARRANTY

RSD warrants this product to be free of defects in materials and/or workmanship to the extent, but only the extent set forth below, and is limited to product that is properly applied and installed:

(A) FRP components for ten (10) years from the date of installation. To be replaced or repaired as needed.

(B) PVC fill material for two (2) years from date of installation. To be replaced as needed.

(C) All electrical, mechanical and non-FRP structural components for one (1) year from date of installation. To be repaired or replaced as needed.

RSD REPLACEMENT PARTS WARRANTY

All replacement parts are guaranteed for 90 days from the date of installation.

The foregoing expressed warranty is in lieu of all other warranties, expressed, implied, or statutory (including, but not limited to, warranties of merchantability and fitness for a particular purpose.) RSD shall in no event be liable for any consequential, incidental or special damages and/or expenses.
