Radio	Product	MSR	Includes
AT-398D	ATP-398D-USB	\$49.00	RT Systems ATP-398D programming software and USB-K4Y cable.
AT-518UV	ATP-518-USB	\$49.00	RT Systems ATP-518UV Programming software and USB-K4Y cable
AT-588	ATP-588-USB	\$49.00	RT Systems ATP-588 programming software and USB-29A cable.
AT-3140UV	ATP-3140-USB	\$49.00	RT Systems ATP-3140UV Programming software and USB-K4Y cable
AT-3208	ATP-3208-USB	\$49.00	RT Systems ATP-3208 programming software and USB-K4Y cable.
AT-3318UV-A / AT-3318UV-C / AT-3318UV-D / AT-3318UV-E	ATP-3318-USB	\$49.00	RT Systems ATP-3318 programming software and USB-K4Y cable.
AT-5189UV	ATP-5189UV-USB	\$49.00	RT Systems ATP-5189UV Programming software and USB-A5R cable
AT-5888UV	ATP-5888UV	\$49.00	RT Systems ATP-5888UV programming software and USB-A5R cable.
ANILE-8R	ATP-LE8R-USB	\$49.00	RT Systems ATP-LE8R Programming software and USB-K4Y cable
NSTIG-8R	ATP-G8R-USB	\$49.00	RT Systems ATP-G8R Programming software and USB-K4Y cable
OBLTR-8R	ATP-TR8R-USB	\$49.00	RT Systems ATP-TR8R Programming software and USB-K4Y cable
TERMN-8R	ATP-N8R-USB	\$49.00	RT Systems ATP-N8R Programming software and USB-K4Y cable

Baojie			
Radio	Product	MSR	Includes
BJ-UV55	BOJ-UV55-USB	\$49.00	RT Systems BOJ-UV55 programming software and USB-50 cable.
BJ-218	BOJ-218-USB	\$49.00	RT Systems BOJ-UV218 programming software and USB-50 cable.
BJ-9990	BOJ-9990-USB	\$49.00	RT Systems BOJ-9990 programming software and USB- cable.

BTECH			
Radio	Product	MSR	Includes
UV-2501	BTS-2501-USB	\$49.00	RT Systems BTS-2501 programming software and USB-72 cable.
UV-5001	BTS-5001-USB	\$49.00	RT Systems BTS-5001 programming software and USB-70 cable.

Icom			
Radio	Product	MSR	Includes
HTs			
IC-T2	WCS-T2-USB	\$49.00	RT Systems WCS-T2 programming software and USB-29A cable.
IC-Q7	WCS-Q7-USB	\$49.00	RT Systems WCS-Q7 programming software and USB-57A cable.
IC-T7	WCS-T7-USB	\$49.00	RT Systems WCS-T7 programming software and USB-29A cable.
IC-T8	WCS-T8-USB	\$49.00	RT Systems WCS-T8 programming software and USB-29A cable.
IC-V8	WCS-V8-USB	\$49.00	RT Systems WCS-V8 programming software and USB-29A cable.
ID-31	WCS-D31-USB	\$49.00	RT Systems WCS-D31 programming software and USB-RTS05 cable. Software has D-Star settings and D-Star calculator included. Cable can be used for RT programming or data transfer with other applications.
IC-W32	WCS-W32-USB	\$49.00	RT Systems WCS-W32 programming software and USB-29A cable.
ID-51 (original) ID-51 Plus ID-51 Anniversary Edition	WCS-D51-USB	\$49.00	RT Systems WCS-D51 and WCS-ID51Plus programming software and USB-RTS05 cable. These are two separate programmers packaged together. Software has D-Star settings and D-Star calculator included. This cable works for RT programming or data transfer with other applications.
IC-T70	WCS-T70-USB	\$49.00	RT Systems WCS-T70 programming software and USB-29A cable.
IC-80	WCS-80-USB	\$49.00	RT Systems WCS-80 programming software and USB-29A cable . Software has D-Star settings and D-Star calculator. Cable works for programming only. This cable is common among many Icom radios.
IC-80 (Data)	WCS-80-Data	\$49.00	RT Systems WCS-80 programming software and USB-RTS05 data cable. Software has D-Star setting and D-Star calculator included. Cable works for RT programming or data transfer with other applications.
IC-V80	WCS-V80-USB	\$49.00	RT Systems WCS-V80 programming software and USB-29A cable.

Icom			
Radio	Product	MSR	Includes
IC-T81	WCS-T81-USB	\$49.00	RT Systems WCS-T81 programming software and USB-29A cable.
IC-U82	WCS-U82-USB	\$49.00	RT Systems WCS-U82 programming software and USB-29A cable. Software has D-Star settings. Due to the limited abilities of this radio, the D-Star calculator is not included.
IC-V82	WCS-V82-USB	\$49.00	RT Systems WCS-V82 programming software and USB-29A cable. Software has D-Star settings. Due to the limited abilities of this radio, the D-Star calculator is not included.
IC-V85	WCS-V85-USB	\$49.00	RT Systems WCS-V85 programming software and USB-29A cable.
IC-T90	WCS-T90-USB	\$49.00	RT Systems WCS-T90 programming software and USB-29A cable.
IC-91 A/D	WCS-91-USB	\$49.00	RT Systems WCS-91 programming software and USB-29A cable. Software has D-Star settings and D-Star calculator included.
IC-92	WCS-92-USB	\$70.00	RT Systems WCS-92 programming software and USB-92 cable. This cable is for programming ONLY with the RT Systems software. Software has D-Star settings and D-Star calculator included. This cable does not work for data with this radio. That is the USB-92D cable.
IC-92	Data Cable Only	\$50.00	USB-92D Data cable. This cable is data transfer between the IC-92 and other applications. It will not work for programming with the RT Systems software. The wiring and electronics are different than that in the programming cable for this radio. It will work for programming with the original CS-92 software. This is the ONLY USB data cable for this radio.

Icom			
Radio	Product	MSR	Includes
Mobile Radios			
IC-208	WCS-208-USB	\$49.00	RT Systems WCS-208 programming software and USB-29A cable.
ID-800	WCS-D800-USB	\$49.00	RT Systems WCS-D800 programming software and USB-29A cable. Software has D-Star settings. Due to the limited abilities of this radio, a reduced version of the D-Star calculator is included.
ID-880	WCS-D880-USB	\$49.00	RT Systems WCS-D880 programming software and USB-29A cable. Software has D-Star settings and D-Star calculator included. The USB-29A is for programming with RT Software only for this radio. This cable is more common between Icom radio models.
ID-880 (Data)	WCS-D880-Data	\$49.00	RT Systems WCS-D880 programming software and USB-RTS05 data cable. Software has D-Star settings and D-Star calculator included. Cable works for RT programming AND data transfer with other applications.
IC-2100	WCS-2100-USB	\$49.00	RT Systems WCS-2100 programming software and USB-29A cable.
IC-2200	WCS-2200-USB	\$49.00	RT Systems WCS-2200 programming software and USB-29A cable. Software has D-Star settings. Due to the limited abilities of this radio, the D-Star calculator is not included.
IC-2300	WCS-2300-USB	\$49.00	RT Systems WCS-2300 programming software and USB-29A cable.
IC-2720	WCS-2720-USB	\$49.00	RT Systems WCS-2720 programming software and USB-29A cable.
IC-2730	WCS-2730-USB	\$49.00	RT Systems WCS-2730 programming software and USB-29A cable.
IC-2800H	WCS-2800H-USB	\$49.00	RT Systems WCS-2800H Programming software and USB-29A cable
IC-2820	WCS-2820-USB	\$49.00	RT Systems WCS-2820 programming software and USB-29A cable. Software has D-Star settings and D-Star calculator included. The USB-29A is for programming with RT Software only for this radio. This cable is more common between Icom radio models.

Icom			
Radio	Product	MSR	Includes
IC-2820 (Data)	WCS-2820-Data	\$49.00	RT Systems WCS-2820 programming software and USB-RTS05 data cable. Software has D-Star settings and D-Star calculator included. Cable works for RT programming AND data transfer with other applications. Note: While this cable/software combination works on most IC-2820s, programming that radio with the USB-29A cable is more dependable.
ID-5100	WCS-D5100-USB	\$49.00	RT Systems WCS-D5100 programming software and USB-29A cable. Software has D-Star settings and D-Star calculator included. This cable is more common between Icom radio models.
ID-5100	WCS-D5100-Data	\$49.00	RT Systems WCS-D5100 programming software and USB-RTS05 data cable. Software has D-Star settings and D-Star calculator included. Cable works for RT programming AND data transfer with other applications. This cable works for firmware upgrades.
IC-V8000	WCS-V8000-USB	\$49.00	RT Systems WCS-V8000 programming software and USB-29A cable.

Radio	Product	MSR	Includes
HF Radios			
IC-78	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-703	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-706 series	Cable only	\$30.00	USB-RTS01 Control Cable. This radio cannot be <u>programmed</u> from the computer. Cloning (ergo programming) is not a part of the radio's design.
IC-718	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-736	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-738	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-746 / IC-746 PRO	WCS-746-USB	\$49.00	RT Systems WCS-746 and WCS-746Pro programming software and USB-RTS01 cable. These are two separate programmers packaged together. Cable can be used for RT programming AND for control with other applications.
IC-756 PRO (only)	WCS-756-USB	\$49.00	RT Systems WCS-756 programming software and USB-RTS01 cable. Programming works only with the IC-756 Pro series. The original IC-756 could not be programmed from the computer. The cable can be used for RT programming AND for control with other applications.
IC-910	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-7000	WCS-7000-USB	\$49.00	RT Systems WCS-7000 programming software and USB-RTS01 cable. Cable can be used for RT programming or for control with other applications.
IC-7100 (S/W only)	WCS-7100-U	\$25.00	RT Systems WCS-7100 programming software only. Software has D-Star settings and D-Star calculator included. Use the USB-A to mini USB-B cable that comes with the radio.

Icom			
Radio	Product	MSR	Includes
IC-7100	WCS-7100-USB	\$49.00	RT Systems WCS-7100 programming software and USB-RTS01 cable. Software has D-Star settings and D-Star calculator included. Cable can be used for RT programming or for control with other applications.
IC-7200 (S/W only)	WCS-7200-U	\$25.00	RT Systems WCS-7200 programming software only. Use a standard USB-A to USB-B cable for connection between the radio and the computer.
IC-7200	WCS-7200-USB	\$49.00	RT Systems WCS-7200 programming software and USB-RTS01 cable. Cable can be used fro and for control with other applications.
IC-7410 (S/W only)	WCS-7410-U	\$25.00	RT Systems WCS-7410 programming software only. Use a standard USB-A to USB-B cable for connection between the radio and the computer.
IC-7410	WCS-7410-USB	\$49.00	RT Systems WCS-7410 programming software and USB-RTS01 cable. Cable can be used for RT programming or for control with other applications.
IC-7600	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-7700	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-7800	Cable only	\$30.00	USB-RTS01 Control Cable.
IC-9100 (S/W only)	WCS-9100-U	\$25.00	RT Systems WCS-9100 programming software only. Software has D-Star settings and D-Star calculator included. Use a standard USB-A to USB-B cable for connection between radio and computer.
IC-9100	WCS-9100-USB	\$49.00	RT Systems WCS-9100 programming software and USB-RTS01 cable. Software has D-Star settings and D-Star calculator included. Cable can be ued for RT programming or for control with other applications.

KG-UVD1P (2M/220MHz/and 2M/440Mhz HTs)	RPS-KGUVD1P-USB	\$49.00	RT Systems RPS-KGUVD1P programming software and USB-K4Y cable.
KG-UV2D KG-UV3D (2M/220MH and 2M/440Mhz HTs)	RPS-KGUV23-USB	\$49.00	RT Systems RPS-KGUV23 programming software and USB-K4Y cable. This is one program that handles both of these models.
KGUV5D	RPS-KGUV5D-USB	\$49.00	RT Systems RPS-KGUV5D programming software and USB-K4Y cable.
KG-UV6D / KG-UV6X / KG-UV6D V2	RPS-KGUV6-USB	\$49.00	RT Systems RPS-KGUV6 programming software and USB-K4Y cable.
KG-UV8D	RPS-KGUV8D-USB	\$49.00	RT Systems RPS-KGUV8D programming software and USB-K4Y cable
KG-UV9D	RPS-KGUV9D-USB	\$49.00	RT Systems RPS-KGUV9D programming software and USB-K4Y cable
KG-833	RPS-KG833-USB	\$49.00	RT Systems RPS-KG833 programming software and USB-K4Y cable
KG-UV899	RPS-KGUV899-USB	\$49.00	RT Systems RPS-KGUV899 programming software and USB-K4Y cable
KG-UV920P/ KG-UV920PA / KG- UV920R	RPS-KGUV920-USB	\$49.00	RT Systems RPS-KGUV920P programming software and USB-W5R cable.
KG-UV950P KG-UV950PL	RPS-KGUV950-USB	\$49.00	RT Systems RPS-KGUV950P programming software and USB-W5R cable.
<p>In an attempt to make this as easy for you and the customer as possible, RT Systems has separated the programmers where necessary and along an identifier that can be easily read from the front of the radio. The KG-UVD1P radios (both old and new - those before 2013 and those released in 2013) program with the RPS-KGUVD1P software. The radios with a "2" or "3" in the number (i.e., KG-UV3D) program with the RPS-KGUV23 software. Similarly, those radios with a "6" in the number work with the RPS-KGUV6 software.</p>

Item	MSR	Description	More Details
RT-40	\$9.00	8-pin mini din extension cord	For use with the Yaesu FTM-350, FT-100, FT-817, FT-857, FT-897; the Kenwood TM-V71 and TM-D710; and the VGC VR-6600 to get more length on programming/control cable
RT-41	\$9.00	USB-A to Mini B	For use with the Kenwood TM-D72 and the Icom IC-7100
RT-42	\$12.00	USB-A to USB-B	For programming or CAT Control of the Yaesu FT-991, ICOM IC-9100, IC-7410, and IC-7200
USB-29A	\$30.00	USB to 3.5mm stereo	Programming cable for many Alinco, Yaesu, and Icom HT and mobile radios. See Product Guide for complete list of radios that use this cable.
USB-29B	\$30.00	USB to 6-pin mimi din	Programming cable for many Yaesu mobile radios See the Product Guide for a complete list of radios that use this cable. This cable is for programming only. It will not work for packet or data transfer applications.
USB-29C	\$30.00	USB to 4-pin modular.	Programming cable for Yesu FT-90 and FT-2600. This cable is only for programming. It will not work for packet or other data transfer applications.
USB-29F	\$30.00	USB to 6-pin modular.	Programming cable for many Yaesu mobile radios See the Product Guide for a complete list of radios that use this cable. This cable is for programming only. It will not work for packet or data transfer applications.
USB-30	\$30.00	USB to 8-pin modular	Programming cable for use with RT software and particular radio models. See product guide for complete details of those models that use this cable. Drivers form a com port allowing the cable to be used with other applications.
USB-31	\$30.00	USB-8-pin modular	Programming cable for the Baofeng/Pufung BF-9500 mobile radio.
USB-32	\$30.00	USB to Mini B	Programming cable for several radio models. See the product guide for more details.

Cables			
Item	MSR	Description	More Details
USB-38	\$30.00	USB to Rond 8-pin mic plug	Programming cable for Alinco DR-638.
USB-39	\$30.00	USB to 6-pin modular.	Programming cable for general radio models. See the product guide for more details.
USB-50	\$30.00	USB to 8-pin modular.	Programming cable for general radio models. See the product guide for more details.
USB-57A	\$30.00	USB to 4-pin plug.	Programming cable for many Yaesu handheld radios. Designed to address the original 4-pin mic jack. See the Product Guide for a complete list of radios that use this cable. This cable is only for programming. It will not work for packet or other data transfer applications.
USB-57B	\$30.00	USB to 4-pin extended plug.	Programming cable for many Yaesu handheld radios. Designed to address the extended, threaded 4-pin mic jack on many Yaesu handheld radios.. See the Product Guide for a complete list of radios that use this cable. This cable is only for programming. It will not work for packet or other data transfer applications.
USB-60	\$30.00	USB to 6-pin din	Control cable for Yaesu FT-1000D and FT-990. Designed for the requirements of these older radios.
USB-61	\$30.00	USB to 6-pin mini din.	CAT cable for Yaesu FT-840 and FT-900
USB-62C	\$30.00	USB to 8-pin mini din	Programming and CAT cable for several Yaesu HF radios. See the Product Guide for a complete list of radios that use this cable.
USB-63	\$30.00	USB to female DB-9	Programming and CAT cable for many Yaesu and Kenwood HF radios. See the Product Guide for a complete list of radios that use this cable.

Cables			
Item	MSR	Description	More Details
USB-64	\$30.00	USB to male DB-9	CAT cable for many HF radios that have a female connection on the radio (such as Ten-tec models). Cable is used to connect radio to computer for computer control applications or to complete manufacturer's upgrades to the radio. See the Product Guide for a complete list of radios that use this cable.
USB-65	\$30.00	USB to female DB-9 (Null-Modem).	CAT and programming cable the Yaesu FT-847.
USB-66	\$30.00	USB to DB-9 male	Control cable for Wouxum X1M radio. Control software available from other sources.
USB-67	\$30.00	USB to 2-pin plug (Motorola spacing)	Programming cable for many DMR and other HTs with Motorola spacing on the mic jack.
USB-68	\$30.00	USB to Mini USB	Programming cable for the Yaesu FT-1D and FT-2D radios Note: The cable that comes in the box with the FT-2D is NOT for programming.
USB-69	\$30.00	USB to 6-pin din	CAT control cable for the Kenwood TS-450, TS-690, TS-790, TS-850 and TS-950 radios Cable is complete from the radio to the computer. Nothing else needed to complete this connection. All the electronics are built into the cable.
USB-70	\$30.00	USB to 3.5mm Stereo	Programming cable for several radio models. See the product guide for more details.
USB-71	\$30.00	USB to 8-pin modular	Programming cable for Icom commercial mobile radios (many models). Replacement for the Icom OPC-1122 cable. Software available from other sources.
USB-72	\$30.00	USB to 3.5mm 4-conductor plug	Programming cable for several radio models. See the product guide for more details.

Cables			
Item	MSR	Description	More Details
USB-81	\$30.00	USB to 8-pin mini din plug	Programming cable for Yaesu FTM-350 and VGC VR-6600 radios.
USB-82	\$30.00	USB to 2.5mm stereo (wired as mono)	Programming and control cable for Yaesu VX-8G. Programming cable for Kenwood TH-D7G.
USB-92-D	\$36.00	USB to 12 pin plug	The only USB data cable for the IC-92 radio. Works for data transfer with other applications. Does not work for programming with the RT Systems software.
USB-A5R	\$30.00	USB to 8-pin modular	Programming cable for Anytone mobile radios. See Anytone section for specific models.
USB-K4S	\$30.00	USB to 6-pin mini din	Programming cable for Kenwood TM-V7A and TM-G707. Wired specifically for the requirements of these older radios.
USB-K4Y	\$30.00	USB to 2-pin plug (Kenwood spacing)	Programming cable for HTs with 2-pin mic connection See the Product Guide for a complete list of radios that use this cable. Will work with Kenwood radios, including commercial models, that use Kenwood's PG-4Y serial cable.
USB-K5D	\$30.00	USB to 8-pin modular connection.	Programming cable for Kenwood mobile radios that use the KPG-46. See the Product Guide for a complete list of radios that use this cable. Can do everything that Kenwood's PG-K5D cable can do relative to programming and data transfer between the radio and the computer.
USB-K5G	\$30.00	USB to 8-pin mini din.	Programming cable for Kenwood mobile radios that use the PG-K5G. See the Product Guide for a complete list of radios that use this cable. Will work with Kenwood's programming software. Can do everything that Kenwood's PG-K5G cable can do relative to programming and data transfer between the radio and the computer.

Cables			
Item	MSR	Description	More Details
USB-PW1	\$30.00	USB-8-pin modular	Programming cable for Powerwerx DB-750 mobile radio.
USB-RTS01	\$30.00	USB to 3.5mm stereo (wired as mono).	Control cable for Icom HF radios that can use the Icom CT-17. See the Product Guide for a complete list of radios that use this cable.
USB-RTS03	\$23.00	USB adapter with drivers. 9-pin male serial adapter	USB to 9-pin serial male. Makes a true serial port that does not interfere with data transfer to and from the radio. The only USB to serial adapter recommended and supported by RT Systems.
USB-RTS05	\$30.00	USB to 2.5mm stereo.	Programming and data cable for several Icom D-Star radios with 2.5mm data ports. See the Product Guide for a complete list of radios that use this cable.
USB-W5R	\$30.00	USB to 8-pin modular	Programming cable for Wouxum mobile radios. See Wouxum section for specific models.
Open-VX8	\$8.00	Open ended cable for VX-8.	Good for packet or to connect other devices to mic jack. All seven pins wired. Wiring diagram included
Notes			
1. Cables install a com port. May be used with other applications that use a com port.			
2. Cables with the same connection at the radio (i.e., 8-pin modular or 6-pin mini din) are banded to make them unique when the wiring or electronics are different. Banded cables are not interchangeable although the connection at the radio may be the same. See Product Guide for more details.			
3. The RT Systems cables are the only cables that will work with the RT Systems programmers (version 4 or higher).			

Terms and Conditions
1. Shipping charges are the responsibility of the customer and are added to each order. Minimum shipping charge is \$5.15
2. Shipments originate from Broomfield, CO, USA
3. Payment Terms specified on Invoice. 1.5% per month service charge added for late payments.
4. Shipping is available through US Postal Service or UPS. If a shipping method is not specified we will use our best judgement based on shipment size, time in transit, and cost. You are welcome to provide your UPS account number to bill freight charges directly.
5. Except where specifically stated, RT Systems software is not sold separately through the dealers. Given that RT Systems software works only with RT Systems cables and that there are so many other cables available, a great deal of effort is needed to police the cables to ensure success of the product for the customer. RT Systems dealers are not expected to support the product this level. By selling the product as a kit, the dealer can be confident that the customer has the components needed for a particular radio model.
6. Tech support is handled by RT Systems. Feel free to contact us with customer questions at 404-806-9561, 800-476-0719 or by e-mail at techsupport@rtsystemsinc.com A dealer's inquiry will be given first priority.
7. Prices subject to change without notice. Typographical errors will be corrected on the order. You will be notified of the correction.
8. RT Systems programmers require Windows XP (SP3), Vista, Windows 7, or Windows 8 or 8.1 (full version): 32 or 64 bit and Windows 10 operating systems. An Internet connection during installation. A free local USB port.
9 Contact us at RT Systems, 510 Compton Street Suite 105, Broomfield, CO 80020, 800-921-4834, websales@rtsystems.com
