While Cruise's pedigree contains familiar prefixes, Lonesome Dove Ranch purchased this bull as a yearling from RLV Gelbvieh in South Dakota after being impressed with his potential. Used exclusively on heifers, his first sons are offered this year and feature calving ease that is well-balanced with performance. Ross and Tara are very excited with this sire's possibilities and used him again in 2016 on heifers. Five sons averaged 3.39 lb ADG and 3.21 lb WDA.

The proof is always in the pudding and we like the pudding! We entered a son in the 2017 National Western Stock Show and the Peoples Choice Bull Futurity in Denver, Colorado. We purchased this stout, dark red son from Thackeray Livestock in the spring of 2015! He has quickly paid back his purchase price, seeing pasture duties in the heifer pasture the last two seasons. His sons averaged ADG 3.54 WDA 3.38.

Lonesome Dove Ranch added Worley to their herd sire line up in 2015 and this is his first group of sons offered and so far, his progeny are exceptional. At birth, his calves are ambitious, grow quickly and are phenotypically correct. These traits continue, giving his sons and daughters real front pasture potential. Lonesome Dove donated a daughter, DRT Lonesome Bianca 40D, to the Man-Sask Gelbvieh Association at CWA in Regina, where she raised more than \$8500! Nine sons averaged 3.33lb ADG and 3.39lb WDA.

His first calf crop is awesome...we used him extensively on our red 3 year olds and are delighted with his heifers as well as the bulls. They have the look that we have been trying to consistently achieve. We showed this herd bull as a calf at the 2014 Canadian Western Agribition where he was named National Jr. Div. Ch. Bull Calf Champion. We have retained 14 Gift daughters as replacements, all of them made the cut!! His sons averaged ADG 3.50lbs. per day & WDA 3.52lbs. per day.
