Two-Day Workshop with Michael Rice and Karaimi

April 4th-5th 9.30-5 p.m.

The Geometry of Love

We invite you to join us on this **intensive, experiential journey**, which will reveal many secrets about the **true nature of life on Earth**. We will explore the true purpose of relationship - with each other, parents, children, work, the Living Planet and ourselves.

For most of us, our relationships are not what we most wish for, and even when it seems that everything is in order, our hearts tell us another story. Inside all of us, are deep desires to open fully, love freely, and to be able to give our greatest gifts to another, and the world.

But we tend not to live from our hearts, and we fear the changes that may happen when we open to the flowing force of love that we instinctively know will open us to our fullest potential.

Using **powerful transformational sacred geometry patterns, guided meditations, ecstatic movement** to open the body, discussion and deep sharing, we will guide and support you to release old patterns of thinking and behavior.

This seminar will give you a **unique opportunity to enter deeply into the ancestral beliefs** and collective programs of fear and limit, which are manifesting in some way within all of our relationships. We will face with challenges on all levels - emotional, mental, physical and spiritual, as we move through and beyond our comfort zones, where no change is possible - crossing into the realm of the **truth about partnership with heart**.

This seminar will help you to open to and understand the **principles of polarity**, and support you to download new behavioral consciousness 'software' into your heart, mind and body.

What is this seminar about?

This seminar is effectively a two day intensive (April 4-5) experience which guides and supports people to become aware of the programs and **deeply embedded beliefs that are driving their behaviour**, which directly generates stress and hardship in many of all of their relationships. It is about opening to, downloading and integrating a truer sense of Self and deeper connection with the Soul - resulting in a whole new way of being, of relating, and of creating.

What will I learn or experience there?

In simple terms, **each attendant will get exactly what they NEED**, in order for them to continue to explore and express their fullest potential. In our experience, people bring their blocks, challenges and fears with them, and this seminar will provide a safe and powerful environment where those limits arise, are seen, released and healed; so that the new possibilities can enter their full field and form the New Code of Partnership within and without.

Who is this seminar aimed at?

This seminar is literally for everyone and anyone who feels that they are capable of much more in terms of how they feel about themselves, and how they relate to others - from the very intimate to the collective. It is for those who are increasingly aware of where they are stuck or stressed, but are not sure what to do next to 'fix' it. It is for people who wish to open themselves to more love, as a real experience of living energy in their lives, expressing in all they think, say and do.

What will change in my life as a result of this Seminar?

Change is the only constant in our lives. Most of the change we experience comes to us from what we think is our world and environment - from the so called 'outside.' And much of our behaviour that arises in response to this change is automatic and subconsciously programmed. This seminar acknowledges this reality without any judgement or pressure - and creates a bridge that connects all you ever did or had done to you, with a more aware and conscious way of being. **Everything will change in your life** - because life is all about relationship, and when this is upgraded, tuned and renewed, then all of its manifestations must change accordingly.

Do I have to have a partner in order to go to this seminar?

Not at all. This seminar is literally for everyone. **Relationships form the matrix of our lives**, and we are never separate from others. If you are in a partnership, then this seminar will serve the evolution of that union significantly and sustainably.

Montauk - Day Trip to Long Island

Wednesday, April 8, 2015

Depart 8:30am- till late return to 53rd Street

Site of interesting speculation-along with the dozens of books and documentaries!

Montauk is a remote U.S. town located on the very eastern tip of Long Island, New York. High on a hill above the rocky waters of the Atlantic Ocean looms a giant rusted radar tower. It's a ghost relic of the past. It has been referred to as Area 51 east and in the 1970's the base was used for the secret esoteric work of the military (for the purpose of developing psychological warfare techniques and exotic research including time travel, teleportation, remote viewing etc). The Montauk project is one of the oddest conspiracy theories going. Join a very interesting group of people on our pilgrimage to this enduring site.

YES-this is a Merry Pransters BUS we are using (true picture) Departs 8.30am from 240 East 53rd Street. Fee includes packed lunch. Feel free to bring funny hats and coats

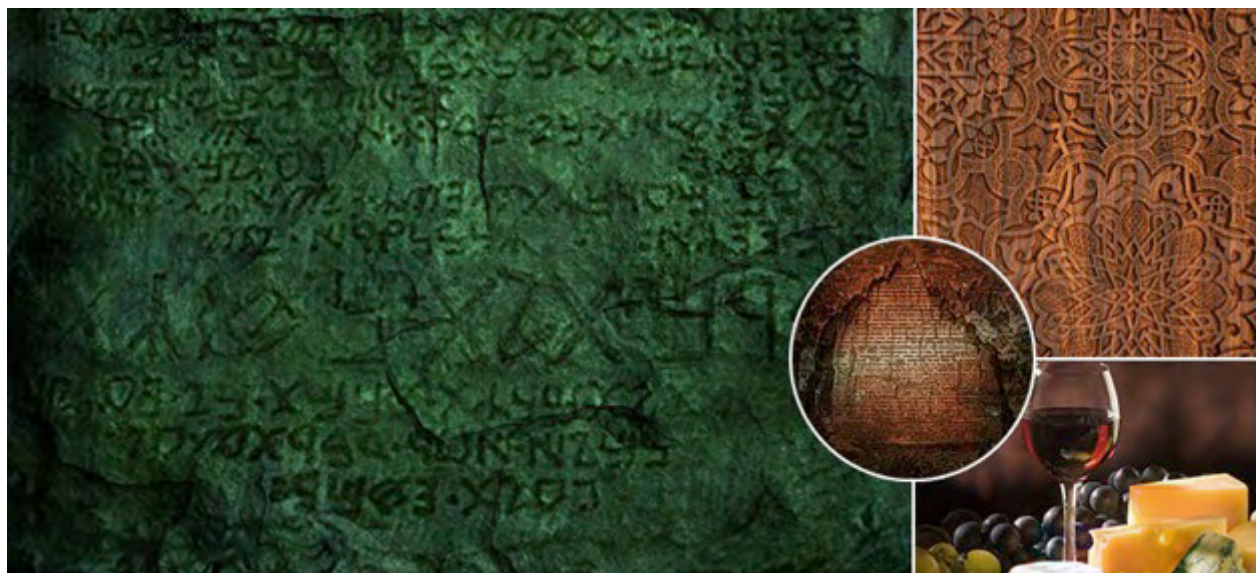

Our Teacher Duncan Cameron

During the trip Duncan will share some of his **memories about the Montauk project/Philadelphia experiment** and answer subsequent questions. He will teach participants his unique perspective about Relative Interactive Positioning, Energy fields, Guardians, and Electro Magnetic Frequencies. Participants will have a chance to **practice detecting energy fields** and will learn to release accumulated patterns contained within those fields. Duncan fondly calls this technique "Zapping" and it has wide ranging applications that can benefit us around the clock.

Duncan Cameron is best known for being himself and the enigmatic time-traveler of the Montauk Project. **Duncan is a born empath and seer** whose abilities include scanning and interpreting the underlying reality matrix that coheres this and other dimensions. In the 1970's and 80's, Duncan was the subject of a number of research projects initiated by the military industrial complex and its shadow groups. They probed into the relationships between science, spirituality, sexuality, and magic.

Duncan's current research focuses on the **interplay of energetic field effects**. Most people use force to accomplish a task. When one learns to follow the **natural flow of the universe** a more efficient use of energy becomes available. Consequently the energetic debris field that follows any action is diminished, creating **less karmic noise**.

1 Day Workshop with Brian Cotnoir

Friday, April 10, 2015 - 9:30am to 5:00pm

A PRACTICAL ALCHEMICAL LAB SET UP

Whatever happens on any level of reality (physical, emotional, or mental) also happens on every other level, developed further in quantum physics, psychology of synchronicity emanating from Carl Jung, the metaphysics of the I Ching, Taoist Medicine and through systems of 'correspondences and associative thinking'.

Learn about the "the quintessence which can be extracted from various substances such as wine and gold.

The morning session, after a review of alchemical theory, will discuss and demonstrate some of the Alexandrian alchemical practices as it relates to the Emerald Tablet. Having this grounding we'll move to Western alchemy.

The afternoon session will deepen the theory of the morning by considering the quintessence or "fifth essence". The alchemical theory of John of Rupescissa holds that this very subtle substance permeates all creation. We will examine Rupescissa's *De Quinta Essentia* (translations of the relevant sections will be given out), discuss its relation to the Emerald Tablet, and consider ways the quintessence can be extracted from various substances such as wine and gold.

A few words from Brian....

"I create in order to know, and to this end I attempt to engage all ways of knowing and seeing. My work is alchemical in that it comes from my research and actual practice of early alchemy. Alchemy, whatever else we may think it is – gold-making, enlightenment, medicinal, self-actualization, etc. – is, at its very heart, the study and practice of creation. The Emerald Tablet, a foundational alchemical text, states that all creation, large or small, regardless of the medium or time, follows from the same principles and processes. The alchemical understanding of being is that there are no hard boundaries; that it is more a spectrum of awareness from ignorance to wisdom. Alchemical practice actively engages both "outer" physical processes and "inner" practices such as meditation, visualization, and dream work. It is not a question of "either/or" but "both/and. Working with both "inner" and "outer" engenders a process of discovery and invention that informs the work. And the resulting union of inner and outer is manifested in the end result, whatever form it may take, or how ephemeral it may be. This edition is a collection of new translations of those earliest extant Arabic and Latin versions with accompanying essay and commentary. It is a distillation of the chapter on the Emerald Tablet in my forthcoming book *Alchemy: The Poetry of Matter*. There I present a more complete discussion, analysis and experimentation. Here I present it as a Hermetic work of art – a talismanic book in form, function and result. The Emerald Tablet is not only a fresh contribution to alchemical studies it is also an example of book art at its finest."

INTRODUCTION TO PRACTICAL ALCHEMY
Evening Talk Friday,
April 10th

On Friday evening, before the weekend workshop, we are having a lecture and presentation with our guest teacher from Canada. This is a good chance for you to get a sneak peak at this weekend Alchemy workshop, meet our alchemist Paul "Aurelius Electrum", network and socialize with some of our teachers and students.

Aurelius Electrum is an eclectic researcher and educator from Canada who has spent most of his life studying various forms of esoteric knowledge and phenomena. He has taken a multidisciplinary approach to life and has developed a knowledge base in a wide area of studies including Herbalism, Alchemy, Sacred Geometry, Alternative Energy Systems, Electronics, Chemistry, Plasma Physics, Archaeoastronomy, Esoteric Philosophy and Religion. Aurelius has found this diversity necessary in understanding the fundamental principles behind the workings of nature and has taught courses on practical alchemy and the applications of these systems for the past 14 years.

"Out of all my travels, I have never come across anyone who has such a depth of knowledge about plant medicines and how to make them. Paul will show you how to set up an alchemical lab at very low cost and how to make tinctures and spagyrics the old alchemical way, capturing all of the life essences. You can make these powerful remedies at home, saving \$\$\$ over a life time, at the same time re-connecting with a deep understanding of nature's healing. Incorporated into this weekend is the art of ormus making. This is the most cutting edge of nutrition and nobody knows about it except a few. It is starting to be a good developing cottage industry in USA and Australia. In my opinion, ormus will be in every superfood item and skincare product in the next 5 years." - Roger Green, Founder and Director, Academy of Healing Nutrition, Academy Sacred Geometry and Breakthrough-Technologies.com

Practical Alchemy: The Art of Distillation & ORMES production with Aurelius Electrum

Saturday, April 11
Sunday 12,
Optional Monday, April 13
9:30am to 5:00pm

Join us for an exploration into the philosophy, theory and practice of alchemical tradition. Learn the history of Mysticism and the techniques used by the forefathers of modern chemistry, herbology and medicine. This three day event (with the option of just the first two days) will provide an in depth look at both inner and external alchemy utilizing a wide spectrum of alchemical teachings including Eastern Vedic and Taoist as well as the Western Hermetic of Hermetic Traditions.

We'll look at various laboratory apparatuses, their description, set-up and use, as well as laboratory safety. Working with the plant kingdom through the art of distillation, we'll create an alchemical menstruum as well as an essential oil for use in future alchemy courses. The goal of this course is to provide you with a foundation for a physical, mental and spiritual understanding of the fundamental mechanisms of Nature.

It is believed that **ORMUS elements are an integral part of our physiology**, from our skin, nails and hair, all the way to the blood, brain and the rest of our organs, and into the DNA structure itself. Where there is plentiful ORMUS in the body, surprisingly rapid healing of damaged skin and muscle tissue with minimal scarring takes place.

ORMUS is thoughtfully adapted and developed from ancient alchemy wisdom. In this weekend class we will show you how to make it at home from sea water (using sea salt), and at the end of the weekend you will have a small bottle of ORMUS to take home, along with the special rosemary tincture we will be making in class.

Benefits and observable effects of ormus include:

- clarity of thought
- improved mental focus
- heightened senses
- reduced fatigue
- improvement in skin firmness and skin tone, reduced pigmentation

Ormus regulates blood sugar, supports healthy immune function, promotes deep hydration, encourages longevity and radiant vitality.

What is ORMUS or ORMES (April 11-12th)

Join us in uncovering the ancient history and modern use of this unique state of matter. ORMUS or m-state materials are thought to be the precious metal elements in a different atomic state. **Learn how you can capture and utilize these amazing elements in your own kitchen.** Walk in the footsteps of the ancients and cross the bridge of time into the latest understanding of quantum mechanics, bio-medicinal properties and permaculture applications of these amazing substances.

ORMUS are Anti-aging minerals, the cutting edge of superfood nutrition

Learn the powerful healing effects of these minerals. **Learn how to make them in your own home and save hundreds of dollars. The term ORMUS comes from Orbitally Rearranged Monatomic Elements (ORMEs)**, an attempt to describe the nature of this unusual phenomenon. The ORME represents a huge subject area, involving state-of-the-art chemistry, physics, physiology and interpretations of Sumerian, Egyptian and other histories including the alchemical western esoteric traditions.

The modern name is ORMUS, ORMES and "White-Gold". It has also been known as an elixir, **Manna**, Shewbread, the snot, monatomic elements, AuM, the polymers, m-state, Shem-an-na, micro clusters, super deformed high-spin elements, exotic atoms, Semen of the Gods, Schefa Food, Bread of the Presence of God, MFKZT, **Elixir of Life**, the lapis, the Sophic Hydrolith of the Wise, Erinaes Philothes Philolithes, Apa itu, Batu Surgawi, Bubuk Putih, Manna dan Salwa, chrysopoeia, dew, occult gold, aurum potable, water of gold, and **The Philosophers' Stone**.

The precious metals known to exist in this 'Ormes' state (known as the "light platinum group") are cobalt, nickel, copper, ruthenium, rhodium, palladium, silver, and osmium, iridium, platinum, and gold (known as the "heavy platinum group"). These minerals are known as super conductors and can in a monatomic, super deformed, high spin, and low energy state, lose their chemical reactivity and metallic nature, thereby resulting in a state of **Superconductivity**. These precious metals have the unique ability to remain stable in the monatomic form, which can then lead to effects ranging from Levitation (weight losses) to Zero-Point Energy applications and to fundamental biological and/or human physiological effects.

Aurelius Electrum will lecture extensively of these special healing elements and you will learn how to make it in your own home and at the end of the weekend have your own bottle of Ormes to take home.

What Is Alchemy

We know that chemistry is defined as 'The science of the composition, structure, properties, and reactions of matter, especially of atomic and molecular systems' and that chemistry is the lineal descendent of Mediaeval and Ancient 'Chemistry'. The word alchemy comes from the Arabic 'al kima'. The syllable AL is the Arabic indefinite article, like the Hebrew letter He (hey), meaning 'The'

Alchemy therefore means 'the chemistry' or the 'higher chemistry', however the definition of the second half of the word has been obscured in history. Some believe the word to have come from the Egyptian word 'chem', meaning 'black' and relating to the description of Egypt as 'The land of the black soil'. The 'black soil' referring to the silt deposits from the annual flooding of the Nile River. Others believe it more likely to have derived from 'chyma', a Greek word relating to the casting or fusing of metal. There seems to be other related Greek words like 'chymos', meaning 'plant juice', and 'chylous', a similar word but with the attribute of 'taste'.

It appears as if the early roots of working with metals and the extraction of juices from plants were closely linked. The earliest use of the modern word Alchemy is found in the works of Julius Firmicus Maternus, the Astronomer, who lived in the fourth century, in the time of the Emperor Constantine. However, regardless of where the word 'alchemy' began, it has come to mean a **very special form of spiritual development**. Alchemy, esoterically and hieroglyphically, the word refers to the **dark mystery of the primordial or First Matter** (the Khem), the One Thing through which all creation manifests. Alchemy, then, is the Great Work of nature that perfects this chaotic matter, whether it is expressed as the metals, the cosmos, or the substance of our souls.

Alchemy is one of the world's oldest traditions -- a unique blend of science and spirituality that has the potential to create a new vision of the world. Alchemy offers a way of living in accord with the basic patterns of the universe that can result in magical transformations in your life. **Since ancient Egyptian times, alchemists have worked in secret to produce something called the Philosopher's Stone, or the Elixir of Life, what the Egyptian's called Mfkzt, or what Mozes called Manna.** The ancient Egyptians used the cone shape to energize their mfkzt, (ORMES) which was described as a white bread made from gold. The mfkzt is probably related to the Biblical manna and shewbread, which may have been charged in the **Ark of the Covenant**.

All very exciting if you ask me.
