

Safari Serengeti

2000

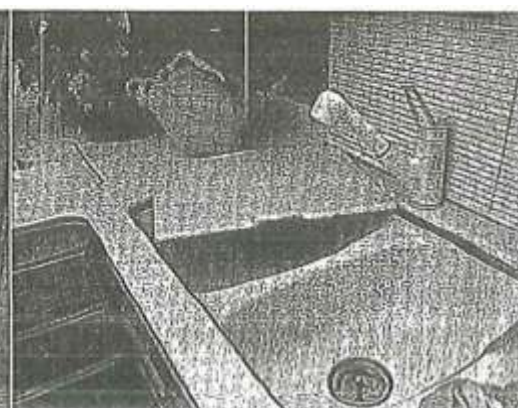

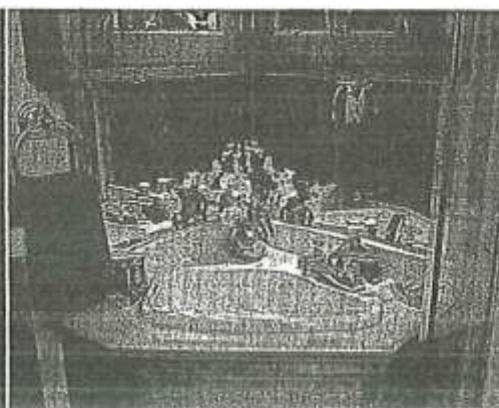

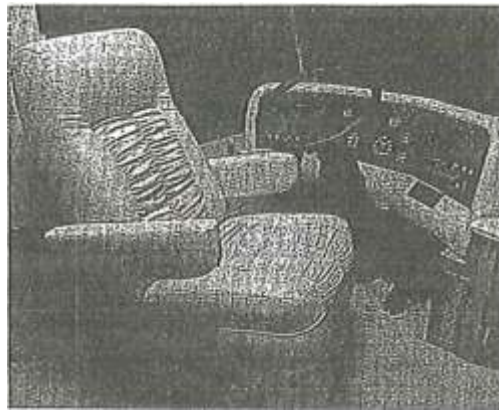

Serengeti ..An oasis of luxury and value . . .

Discover the coach that is the industry standard for Class A motorhome luxury and value. *Serengeti*... a perfect union of innovation and tradition has created the ultimate motor home experience.

Safari Motor Coaches invites you to explore this oasis of luxury and value. *Serengeti* features gorgeous luxury hardwood cabinetry. The premium high gloss finish invites you to enjoy its warmth and beauty. You'll see new details that are expressed in the cabinetry designs, Fountainhead™ counter,

tops and sculpted carpet. Relax and appreciate the premium quality of Bose® engineered surround sound through the finest home theater system available today. Enjoy the efficiency of the Hurricane™ diesel hydronic heat system, it creates a non-drying radiant heat, and also supplies continuous hot water for your personal use.

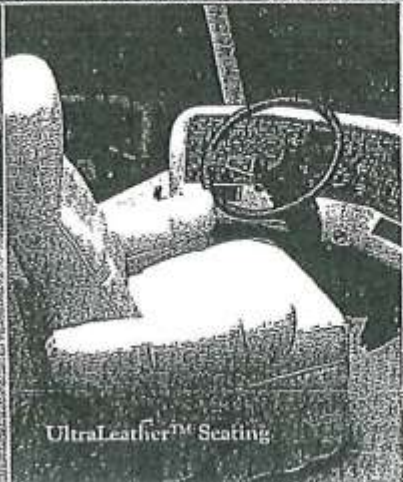

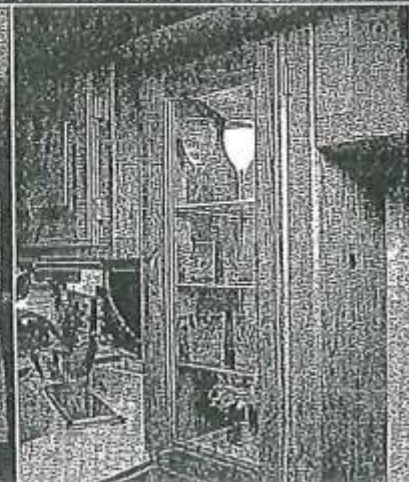

Bask in the elegance of UltraLeather™ cab chairs or relax in the comfortable UltraLeather™ recliner. You deserve it. Treat yourself to the finest...*Serengeti*.

Ivory - A Taste of Africa

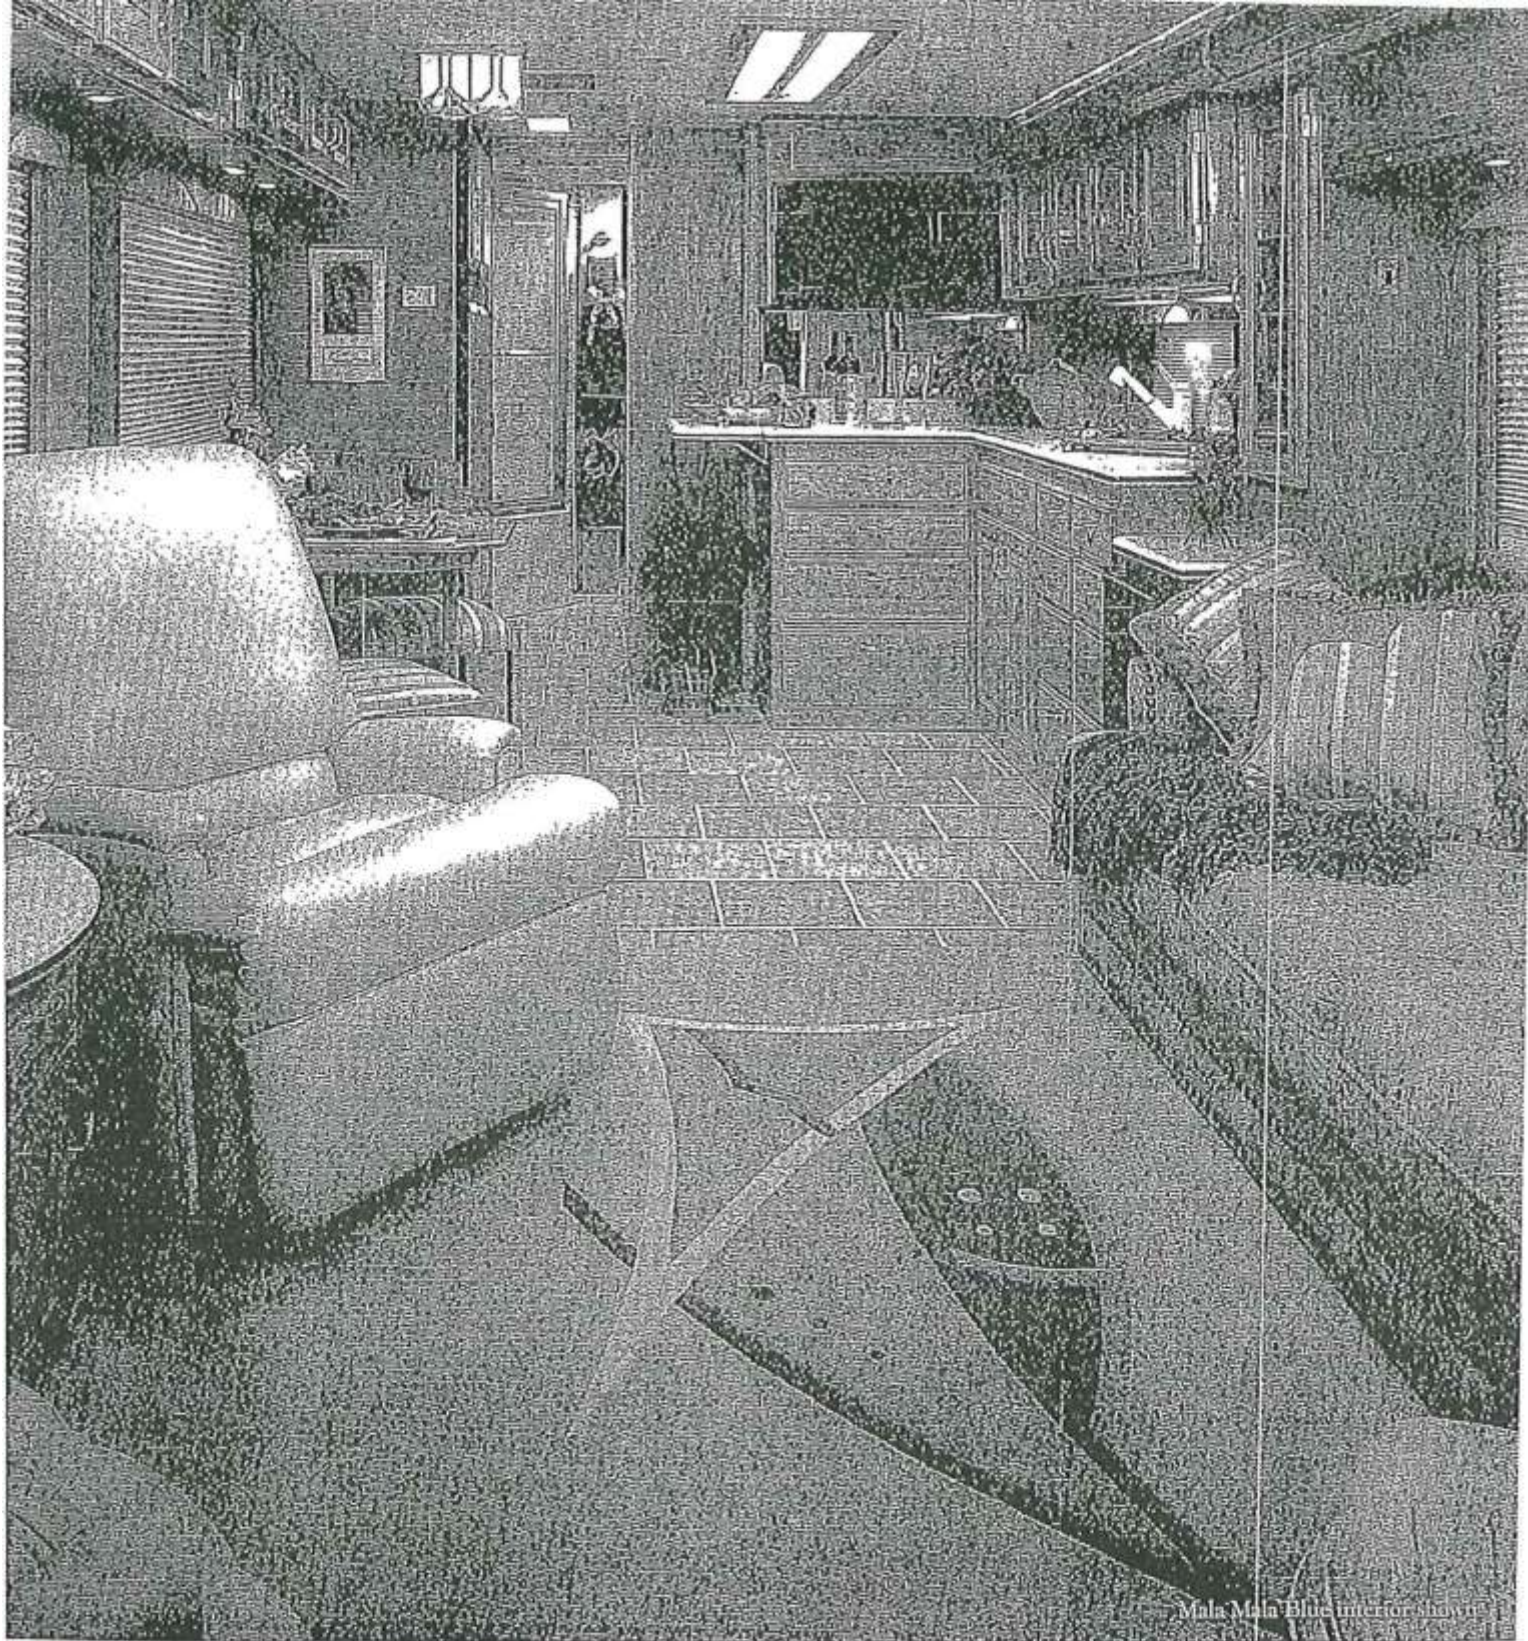

Optional Garden Tab

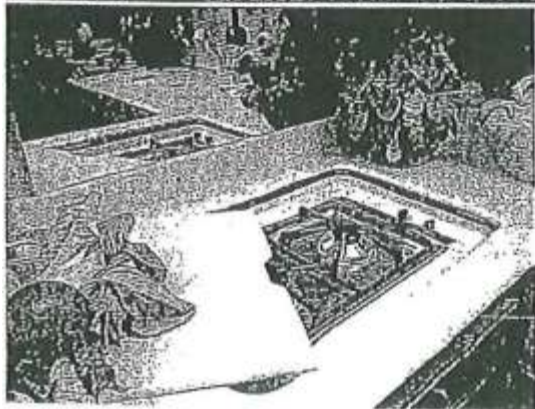

UltraLeather™ Seating

Fountainhead Sink

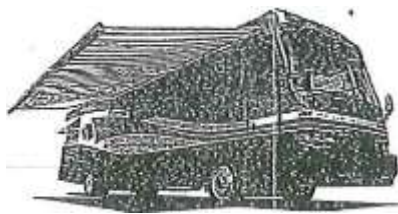

Mala Mala Blue interior shown

Look at all this space! Serengeti's 16" deep full galley slide-out room creates a wide open living area when fully extended. When retracted, the 16" unit is hardly noticeable! All Serengeti floor plans are built with the best slide-out available.

Only the finest quality designer fabrics are used in Serengeti's decor packages. UltraLeather Cab seats are a standard feature, and the UltraLeather™ recliner is part of the optional Gold Coast package. Every Serengeti features beautiful Fountainhead™ countertops with trim and back splash. You will appreciate the distinctive hand sculpted carpet in the living area.

The Ultimate Expression of the Safari Spirit

Searching for a special decorating touch with a flare for elegance and style? The Ivory package rekindles your sense of adventure. Special fabrics and accents make this unique decor package the ultimate expression of the Safari spirit. In the Ivory you'll find just a spicy hint of the exotic lifestyle once enjoyed by African kings and potentates.

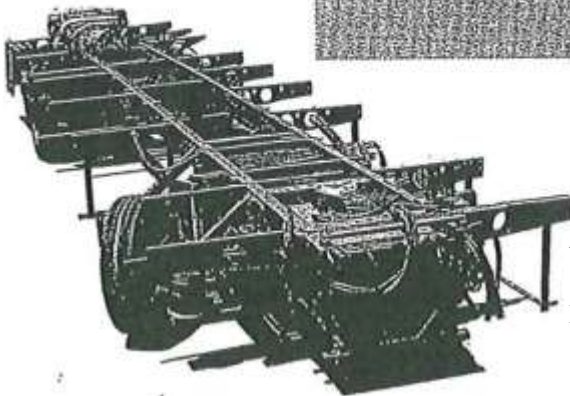

The walls of the Ivory are padded and lined in soft fabrics. Carpet wainscoting trimmed in hardwood adds distinction to the decor. Details throughout the coach suggest adventure in the land of gold and ivory . . . the spirit of Africa, captured in a motorhome of distinctive taste.

Serengeti 2000 Specifications

Chassis	1- Magnum™ Blue Max w/ B.F. Goodrich Torsilastic Suspension Standard 2- Magnum Air™ w/ HVLP 8 bag air ride suspension optional
Engine	Caterpillar 3126B™ Electronic Diesel Engine Standard 330HP @ 2200 RPM Torque 860 ft. lb. @ 1440 RPM Optional 350HP @ 2200 RPM Torque 860 ft. lb. @ 1440 RPM
Transmission	Allison MD3000 World™ Trans w/ 6 Speeds & Overdrive
GVWR	30,000 lbs.
GCWR	45,000 lbs.

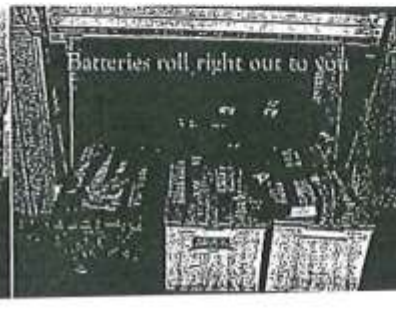

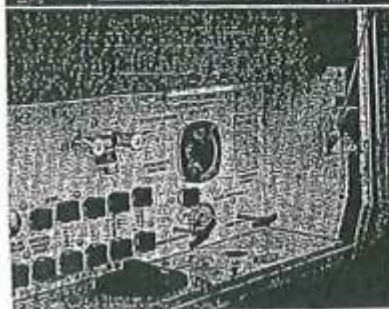

The Serengeti offers different performance choices for the discriminating RVer. The patented Magnum Air™ B-Series Air-Ride chassis is an option on the 2000 Serengeti. Magnum's patented air suspension system has been mathematically optimized to achieve maximum stability through a careful analysis of suspension geometry. The air bags are properly sized and air pressure is then set to maintain a Hi-Volume, Low-Pressure (HVLP) system that provides the most comfortable ride you'll find in any motorhome.

And for the Safari traditionalist, the Blue Max Chassis with B.F. Goodrich Velvet-Ride™ suspension remains the standard. The Velvet-Ride suspension system utilizes B.F. Goodrich's exclusive Torsilastic® rubber torsion springs to literally cradle the chassis in rubber. The result is a smooth, quiet maintenance-free ride that Safari owners have enjoyed for years.

Both the Magnum Velvet-Ride and Magnum-Air... are powered with the most reliable electronic diesel engine available on the market today, the Caterpillar 3126™ turbo diesel. The 300HP engine develops 860 ft. lbs. of torque at 2200 rpm, for handling both the hills and highways with ease. You also can choose the 330HP engine upgrade for additional power. Caterpillar's design improvements include quieter engine, greater fuel efficiency and more electronic capability.

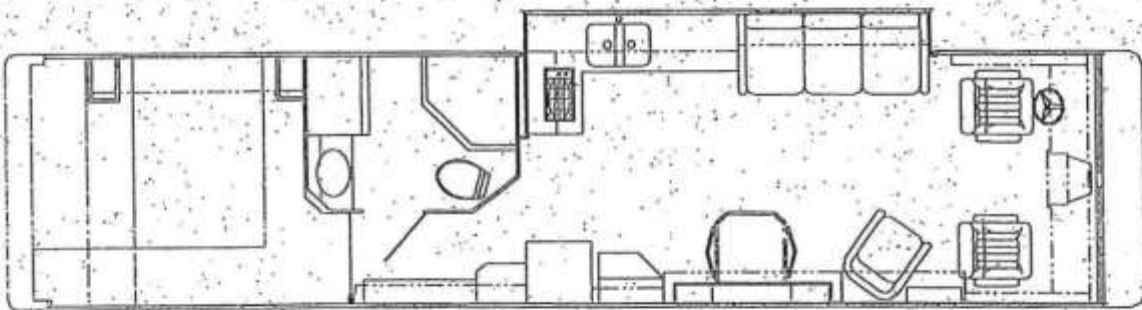

Magnum's raised rail design allows for efficient use of space beneath the floor of your coach while providing a rigid foundation. From the built in slide-out mechanism to the front mounted generator and bountiful storage, the Magnum chassis has it all.
