Sailpoint IdentityIQ Implementation

EXAM PREP TRAINING

KEY FEATURES

- 32 hrs of instructor-led training
- 4 hrs/day in Weekend/Weekday
- Certified & Experienced Instructors
- Training Certificate

Overview

Our IAM SailPoint Course focuses on helping the aspirants to be able to

• Understand the basics of IdentityIQ architecture and its key features.

• Learn the concepts of application on-boarding and correlation.

• Execute troubleshooting, debugging, and console.

• Smoothly go through workflows, reports, provisioning broker, and engine.

• Execute a management approach using IdentityIQ internals.

This course will also clear the concepts of Sailpoint IdentityIQ, Identity cubes, certifications, lifecycle manager, Identity risk modelling, etc.

This SailPoint training will help you to get through the certification easily which will further help you to get preference in the organisations.

Target Audience

SailPoint Certification Training is suitable for anyone who is willing to get through the certification exam. If you are :

• an aspirant looking forward to start the career in SailPoint
• a professional who want to change the career domain to identity and access management (IAM)
• a Tester
• a Software developer

our SailPoint course will prove to be truly beneficial for you.

Pre-Requisite

There are no prerequisites for SailPoint Identity IQ Training but it is recommended to have

• IdentityIQ login and access management knowledge and
• Java and MySQL programming languages knowledge.
