RICCA

Tightest Tolerances in the Industry,
Lowest Lot-to-Lot Variability

Ricca offers a wide variety of Dry Chemicals and Salts that meet even your most exact requirements. Offered in multiple grades, sizes and packaging configurations with the purity, consistency and stability you trust from Ricca. Work with our Technical Support Chemists to economically source dry chemicals and purchase in the size that fits your needs.

Don't see the chemical, grade or size you are looking for? No problem – just contact us at technicalservices@riccachemical.com. With multiple facilities and many products in stock ready to ship we can meet your needs with rapid delivery to anywhere in North America. We offer fast, cost-effective Custom Blending Services to your Specifications.

- 1 g to 50 K sizes
- Broad line of Salts and Dry Chemicals
- Ready to Use Custom Blends

Why Source with RICCA?

RIGHT

- Tightest Specifications in the industry, lowest lot-to-lot variability
- ISO 17025 Accredited Laboratories, FDA, cGMP compliant facilities
- All products Certified Traceable to NIST Standards when available

READY

- Nationwide manufacturing/inventory locations
- Full documentation available for each product – Certificate of Analysis
- Chemists ready to assist you in selecting the right chemical

RICCA

- Over 40 years of successfully serving you, our customer

Ricca Custom Blending Services

Ricca offers over 40 years of successful chemical blending, bottle filling, packaging and on-site product testing to provide reliable and efficient solutions. Our Technical Support Chemists are available to assist you with formulations, packaging compatibility and regulatory questions. We offer personalized customer service to meet your specific needs at every step.

Ricca's ISO 9001:2015 certification and compliance to 21 CFR 820 ensures consistent quality of every blend. Testing is performed in our ISO 17025 accredited laboratories (See scope for details). We use a wide range of production and filling options to meet your requirements. Our 4 manufacturing facilities are geographically positioned to provide 2 to 3 day shipping nationwide.

Our capabilities include:

- Custom, contract blending
 - Solvent Blends
 - Mobile Phases
 - Cleaning Solutions
 - Compendial Blends
- Wide range of packaging options
- Custom label design, kitting capabilities, warehousing and distribution services
- Full custom documentation package, including SDS, Certificate of Analysis and packing slip
- Our highspeed liquid fill production line can produce 1,000's of bottles in a single run
- All labels, packaging and documentation fully compliant according to OSHA GHS and DOT Hazardous Materials regulations.

Volumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434. It is calibrated before first use and recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSR 74-461. Balances are calibrated regularly with weights certified traceable to the NIST national mass standard. Thermometer and temperature probes are calibrated before first use and recalibrated regularly with a thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated methods. Batch records document raw material traceability and production and testing history for each lot manufactured.
