# CONGRESSIONAL

Friends of the Treaty Beginning to Show Their Strength Now That the Antis Have Finished Their Palaver.

Washington, Feb. 2.-Senator Platt N. Y.) laid before the senate a resolution adopted by the New York legislature urging immediate ratification of the peace treaty. In this connection, Senaor Chandler (N. Y.) called attention of the senators to similar resolutions adopted by the New Hampshire legislature. Senator Aldrich (R. I.) presented a number of memorials from the business men's associations of Boston. New York and Chicago, urging that all territory. except Cuba, acquired by the United States during the late war, be retained, "Until such time as congress may determine their final disposition." Senator Tillman (S. C..) offered a

resolution which was adopted, asking the president for information about granting franchises in Cuba and Puerto Rico. At the conclusion of the mornaddressed the senate epon the Vest anti-expansion occasion. He said, I find no constitutional objections to ratification of the pending treaty; and the senators from Ohio (Foraker) and Min-nesota (Nebon), fully represent my

## WHAT OPIUM SMOKING DID.

Chinese Settlement in British Columbia Destroyed by Fire and Two or More Celestials Burned to Death.

Vancouver, B. C., Feb. 2, -Chinatown at the big Chemainus lumber mills near Nanaimo, the coal center of the province, has been almost completely destroyed by fire, and a number of Chinese burned to death. After work the Mongolians built a huge fire in the center of the Chinese quarters and proceeded to smoke opium. All became befud dled, and the flames catching the flimsy cabins of the settlement gained great headway before the opium drugged Chinese realized their predicament. Chinese realized their predicament. Then they rushed blindly into the flames. Scenes of the wildest descrip-tion were witnessed by the white settlers who went to the rescue. flimsy shacks burned fiercely, and were oon a mass of smoking rulns. two Chinese were barned to death. A number of others were badly burned, and several others are missing

#### THURSDAY, FEBRUARY 2.

Mr. Croker and Colonel Bryan are at outs, but the government at Washington still lives.

Emperor William is 40 years of age It must be admitted he is pretty fresh for his are.

General Maximo Gomez has the swelled head. A few hot compresses would do General Gomez some good.

Governor Otero will appoint all the officers of the new county of Otero Pretty good guarantee that the right kind of men will be appointed.

The fellow who represents the great and gallant Emilio Aguinaldo in this country, or says he does, is being puffed by the free sliver anti-expansion sheets as "the learned and wise Mulay.

The New Mexican publishes a special 3:30 p. m. mail edition these days to serve its numerous southern patrons Legislative and capital news are in de mand and The New Mexican, as usual, spares no expense to serve its readers and subscribers.

The awful and fearful threats of th anti-expansion senators during the present debate on the ratification of the American-Spanish treaty would make a horse laugh, could the animal under stand. It must be admitted that the average horse loses a great deal of fun by not being able to understand what the grave and reverend senators are talking about.

A large "bucket shop" concern has failed in Cincinnati and there is wailing among its customers. The general impression regarding such concerns among those who know, is that they absorb all the funds that are intrusted investment, and so the profits of the business are enormous. However, the Cincinnati establishment seems to have entered into speculations which it recommended to its victims, but with the inevitable result-everybody skinned except the proprietor.

The members of the 33rd legislative assembly should not overlook the creation of an office whose occupant shall be known as "Insurance Commissioner," The territorial auditor, who now attends to insurance matters for the territory, has more than his hands full with the other business which belongs to his office, and an insurance commissioner is badly needed. Such an office and official will not cost the tax payers a cent, as the salary will come out of the usual fees paid by the insurance companies for the privilege of doing business in New Mexico, while the business transactions of the commonwealth will be greatly facilitated.

The yellow journals are just now printing a lot of rot about Puerto Rico and that the people of that island demand independence, etc., etc., liberty. etc., etc., equality, etc., etc. For 400 years have the inhabitants of Puerto Rico suffered under the heavy and tyrannical yoke of Spain. Now, forsooth, because the island is decently governed under the military rule of this country. because security to life and property prevails because everything is peaceable and because the rights of every man, woman and child are protected the yellow journals and the free silver antiexpansion shouters are howling: "Independence for Puerto Rico!" Anything for an issue, of course, no matter how foolish or how far-fetched, and anything to embarrass the McKinley administration

## How to Stop Deficits in Revenue.

County officials should receive fair and just salaries, but they should be made to perform the duties of their offices as the law prescribes. Heretofore. in many counties of this territory, assessors, collectors and county commissioners have not only been derelict and remiss in the performance of their official duties, but in many cases, as, notably, in this county under Democratic rule and in San Miguel county under Union party rule, have robbed the territory and the county blind and have defled the law openly. One Democratic collector in this county owed about \$65,-000 in taxes collected when he was removed from office and not a cent has as yet been recovered. In San Miguel county several Union party tax collectors were defaulters to large amounts, have been indicted, but not yet punished, and the territory and the county are large losers by these defalcations, and the dishonesty and corruption practiced by Union party boards of county commissioners. Pay officials fair salaries but compel them to do their duty honestly and to obey the spirit and letter of the law. There will then be no more deficits in city, county and territorial treasuries.

## A Case of Ignorance.

The Filipinos understand this country as little as Spain did before the

breaking out of the war. Then, the spanish cry was that the "Yankee Pig" ould not stand before the chivalrous Castillian, and there were prophecies that in a few weeks Spanish dons would be holding bull fights in front of the capitol at Washington. Spain has changed her mind as to the fighting qualities of the Americans, but the course of the opposition in this country to the ratification of the Paris treaty has led the Filipino mind to attribute American forbearance to cowardice and they grow more audacious every day. Had the treaty been ratified at the outset, as it should have been, the Philippine question would have been much easier of solution, and the native made to understand in a perfectly peaceful way, that the United States eas their friend, and that with improved educational facilities later on, the per ple of the island would so grow in intelligence that a territorial form of government, and later statehood, would be in store for them. If the United States abandons the Philippine islands, they will become the easy prey of one or more of the European powers, and then what will become of their boasted independence?

#### School for the Deaf and Blind.

On Tuesday, a majority of the mem bers of the legislative council and house accepted the invitation of the W. B. T. and drove out to the School for the Deaf and Blind, which is located about midway between the A., T. & S. F. depot and the penitentiary. Superintendent Larson and his wife met the visitors and showed them over the building and into the class room, where the scholars (deaf and mute) surprised the visitors by their specimens of handwrit- States army. ing and spelling and aptitude of expres sion of thoughts without speech.

One blind pupil was present and read from the raised letters and printed the names of several members in the curious alphabet of the blind. He is a native of New Mexico who speaks English. but is totally blind, although he readily reads and writes with the raised letters The members were evidently impressed with what they saw of the good that has been accomplished by the persistent efforts of Superintendent Larson and his wife in behalf of these unfortunates, and were satisfied that no extravagance has been indulged in by

that institution. A bill has been prepared by the committee in charge to properly recognize this school as a territorial institution which has never been the case before and has been shamefully neglected; even the name has been changed, or miscalled by every legislature since its organization in 1887, and this is the first time in its history that the legislators have shown the slightest interest in what should be one of its chiefest cares. Bills have been introduced time after time for the purpose of properly recognizing this school, but as one of the legislators remarked yesterday, "The to them and in reality never make an superintendent couldn't lobby," and there has been no regular board of managers to interest themselves in its welfare, and had it not been for the interest taken by the W. B. T. at this time. this visit by the legislature would not

simply provides that it be recognized by the legislature as a territorial institution by proper name, and that it be governed by a board as other public institutions are, with a proviso that two of such board may be women. It is recognized that at this time, while the necessities are very great for repairing of the old and the construction of new buildings suitable for the purpose, the territory is not in condition to provide the same, although the five and a third acres of ground and the building thereon, together with the meager furniture and appliances have not cost the territory one cent in bonds or direct taxation; they all having been procured out of the refund of the war tax by the general government, \$5,000 of which amoun was granted to this institution by the legislature of 1893. But in the appropriation bill the legislature will be asked for sufficient money to keep the school open for nine months for the benefit of the blind as well as of the deaf. The appropriation made by the last legislature of \$2,000 produced \$1,200 in cash, and it was impossible to keep the school open last summer as it should have been, but it was reopened in October, and with the greatest economy and by cutting down superintendent and teachers' pay to a starvation point, it will be kept open until April, with 11 pupils in attendance. When it is considered that these pupils are not only furnished with free education, but with board and washing, at the expense of the territory, the amount of conomy exercised is simply wonderful. Both Mr. and Mrs. Larson are enthusiasts in the cause of educating the deaf and the blind and have spent their own money in providing clothes and other necessaries for the poor children. Mr. Larson has attended, at his own expense, the national gatherings of in-

#### The Army Canteen.

The army canteen must go, if the which has already passed the house, is drink anyhow, and it were best to have the sale of liquor where the officers of the regiment or post can have it under their direction and care, and so stop abuses. But the system has proven very demoralizing. Soldiers have been compelled to take their turns tending bar, and the fact that a youthful soldier fresh from a good home would be led into intoxication and brutalized by his surroundings in tending bar, cut no figure with the officers. In not a few cases, soldiers who were temperance men have refused to tend bar, and gone to the guard house in consequence. The adoption of the system into the vol unteer regiments, aggravated the matter, and the fact that a number of regimental commands, noticeably the 3d Nebraska, Colonel Bryan's regiment, got along very well without the canteen, enabled the religious societies fighting the system, to make strong points against it. The Johnson amendment is the outcome, and in conse quence, a strong effort will be made to throw the canteen out of the United

Bursum Bill in the Council Is Attracting Much Attention Among Bond Holders.

Has Doubts Concerning the Plan and Thinks the Matter Can Wait Another Two Years-Reasons for Objections Given.

The provisions of the Bursum bill are being generally discussed, and the measure has a few opponents as well as many friends. It is a proposition which strikes directly into the root of the financial tree of the territory and will affect many different branches of the money question that are now being considered. The matter is being discussed pro and con by the holders of bonds and new county for him. by the bankers who placed the paper, and opinions differ as to the ultimate results of the measure. Some think that t will be found necessary to repudiate some of the script and minor bonds that nave worried the territory, and are not being taken care of, and others believe hat it is only a matter of time before the territorial bonds must be defaulted does not ask any appropriation, but on and that it is better to save the territory from such disrepute by taking bull by the horns, a la Ursus, and cancel the matters that are practically repudiated now and save the general and more important credit of the territory, counties and municipalities. There are some outstanding debts which the people of New Mexico do not recognize as legal and just and which they will always fight against paying, believing that they were forced into being by fraud, jobbery and corruption, as for instance, the so-called "militia warrants' issued in 1867, and now mostly held in large blocks by a few coldblooded speculators, who bought them

up at from 5 to 10 cents on the dollar. The New Mexican believes in a full and fair discussion of the question of refunding the territorial, county and municipal debts and is securing the opinion of leading men in the financial world upon the subject, hence a repre sentative of this journal was sent to interview Major R. J. Palen, president of the First National bank, of this city, on

The major has his doubts about the refunding plan for the present, and thinks that the matter can afford to wait at least until another session of

the legislature is called. He said: "While the refunding plan may be a good one, I do not think that it will have any immediate effect whatever. It will be more than three years before any of the territorial bonds now in existence can be paid or refunded without the consent of the holders. I hardly think that New Mexico enjoys a 4-percent standard of credit as yet, and doubt if bonds bearing that rate of interest can be sold to bring their face value into the treasury. Of course, the holders of bonds having some years to run before the territory can exercise any option toward taking them up, will structors of the deaf and blind, so that not care to surrender 5 and 7 per cent bonds for a lower rate paper without repremium, which premium is likely to

> "The entire public indebtedness of the of the territory. The larger the ratio

"I think that under existing conditions in New Mexico, in view of the fact that only about one-half of the taxes now levied are collected, the most important thing for the legislature to The New Mexican is satisfied that all that is necessary for the legislature to do, for the benefit of these unfortunates will be done if it only appreciates their needs; and we believe that their visit on Tuesday gave them this information, and that the Kilpatrick bill will be the minimum and also curtail our pres-

from present indications, we have already gone too far.

"The burden of taxation caused by

our levies for these and other general territorial purposes, in conjunction with our local county and municipal taxations is shown to be too heavy from the fact that not more than half of it is paid and every imaginable subterfuge is exercised to keep from paying the full and just levy. A few years ago, with Johnson amendment to the army bill, precisely the same machinery for the levy and assessment of taxes, and when accepted by the senate. There has business conditions in the territory were been great contention in the matter of not so good as they have been in the canteens. They are nothing less than past two years, about 75 per cent of the regimental or army post saloons, the taxes were collected. In 1890, one year assumption being that the soldier will after the territory began to collect a cash tax, 76 per cent of the whole levy was collected. Since that time the per centage has dwindled until now it is less

"The last treasurer's report show that in 1896 the appropriations were \$210,000. The 6-mill levy to pay that amount only produced \$136,000. In 1897 the levy was increased to 7 mills, which produced \$138,000 to pay \$193,000. Thus it is shown that about one-third of the appropriations are left unprovided for by a tax. Some action should most assuredly be taken to insure a larger tax collection. Of course, it is a difficult matter to have a thorough and efficient assessment, because the territory is large and the property widely scattered. It is difficult to arrange matters so that the best possible results can be procured. The governor's message shows that for the past 12 years the territory has had an annual deficit of \$60,000 which now leaves \$720,000 over-due.

"The appropriations always run in the neighborhood of \$200,000. If the property in the territory was rapidly increasing in value, that would not make so much difference, but the fact is, that the assessed valuation has de-

"A 50-year 4-per-cent bond is desira ble paper on a locality having the proper backing, and people will sometimes change a high-rate school bond for low-rate, long-term bond.

"No, the refunding scheme will not necessitate the repudiation of any debt. The legislature has no power to invalidate such contracts. And if it attempts to force the bond holders to turn over the old bonds or places any obstacles in MAJOR R. J. PALEN'S OPINION the way of the payment of the interest, congress may be asked to take the matter up. Such action might injure the territory, because, if the bond holders became convinced that the interest on the higher-rate bonds is to be defaulted, they will not feel very kindly toward the 4-per-cent bonds."

"I was afflicted for seventeen months," writes Mrs. Elizabeth J. Bullard, of Winuie, Bladen Co., N. C., in a significant letter to Dr. R. V. Pierce, of Buffalo, N. Y. "I was confined to the house and yard all the time. I could not he on my feet but a very little. I could not hit the weight of a cup of coffee; and did not have strength to speak more than a few words at a time.

"We tried three doctors and a lot of patent medicine which cost over one hundred and twenty-five dollars; and I found no relief. I had lost all hope of ever getting any better when my friends advised me to take Dr. Pierce's medicine. My husband said we would try that next. He got me five bottles of 'Favorite Prescription' and three of 'Golden Medical Discovery.' I commenced taking these medicines and soon found relief. When I had taken one bottle of each I walked half a mile to church.

"I commenced taking it the first of January 1897; the first of the following June I took my cooking in hand and have cooked for eleven in family all through the sunmer. It was Dr. Pierce's medicine that gave me all the relief I have received. I recommend it to all suffering females, for it is his medicine and the help of God that has restored me."

Every suffering woman in this land should write to Dr. Pierce and learn how certainly he can help her to health and strength. It costs nothing to write and receive entirely free the advice of one of the most experienced physicians in this country. His great thousand page book the Common Sense Medical Adviser will be sent free for 21 one-cent stamps, the bare cost of mailing.

#### THE HOUSEHOLD.

New Stationery-Novelties For the Fashionable Dinner Table.

Among the season's povelties--which, as usual, are mostly old things revivedmay be chronicled deep terra cotta stationery, very ugly and in very bad taste, but sold by the most fashionable dealers in such wares.

Hand painted dinner cards, to bear the name of the guest, are a feature at many fashionable houses. They are often very skillfully done and form an attractive souvenir of the entertainment. The subjects chosen by the artist are various, but are all of the same class for the same dinner. Fish, game, fruit, groups of still life in the Dutch style, birds, flowers, figures, all are utilized, and the hostess selects such a set of cards as will suit the character of the dinner to be given. For a

## FOOTWEAR.

The Necessity For Keeping Children

Well and Carefully Shod. The fashion in which children are shod is of great importance, as it affects not only the beauty and comfort of the feet, but also the style of the gait in later life. Moderately loose shoes, decidedly long and with low or spring heels, are the only proper footwear, and these should not be left in use after they have lost their shape, worn over at the sole or heel or stretched so that the foot slips about in them. Children's shoes should be repaired as soon as they begin to wear over, as otherwise bad habits of walking are contracted. A short

ACEQUIA DISCUSSION. Yesterday's session of the house wa almost wholly devoted to the discussion of the needs of the various counties relative to acequia commissioners and mayordomos, the bill introduced by Hon. Emiliano Gutierrez, of Bernalillo county, which revives the law of 1895, repealed by the session acts of 1897, re garding the election of acequia community officers and the control of ditches, being under discussion. The representatives of Bernalillo, Dona Ana

and Valencia counties differed widely as to the needs of their sections. Speak er Luna resigned the chair for the purpose of entering the discussion. In he course of his remarks, he said that the old Spanish customs relative to ditch matters must be preserved. had been in vogue since the establish-ment of agriculture in the territory and any attempt to disturb them would result in causing bitter feeling. He be-lieved in giving the mayordomo all possible power, but did not think it policy to create too many mayordomos, for too many cooks would spoil the broth. Captain Llewellyn said that the question of irrigation had been considered by every session of the legis-lature since the flood, and that it was evident but little had been accom-plished. The 32d assembly had ap-

pointed an irrigation commission which had prepared a report for presentation to the legislature, and he believed it policy to suspend further work along those lines until the report had been within the new county of Luna shall re-main as officers of Luna county, acting of the bill under consideration, insisted on a vote and the measure was de feated.

for a new county with Gallup as the county seat. The citizens of Gallup should paste this information in their hats for future reference and give Mr. Hughes due credit. Members of the council are anxiously

viewing the slow action of the house relative to the capitol appropriation memorial. The memorial must be be suspended in mid air until next January. Captains Luna and Llewellyn have

been recommended for promotions to the rank of major of volunteers for conconfirmed. Congratulations Liewellyn, Luna, speaker, and Major Liewellyn, clary. House bill 27, which has passed the

house, was amended to increase the salaries of superintendent of public in-struction to \$900 in countles of the second-class. The salaries of that official in the bill now range as follows: Coun-ties of the first-class, \$1,500 per annum; second-class, \$900; third-class, \$400, and fourth-class, \$300.

the bill providing for the holding of a constitutional convention as introduced by Councilman Hughes and Captain Liewellyn but it will be good natured the newly created counties shall have and friendly. The majority rules.

Representative Staplin's bill to sim plify the language and verbiage of deeds and mortgages and acknowledgments of such instruments, is good and timely.

Council Bill No. 38, to fix sheriffs' fee passed the house this morning fixing the rate of mileage at 12½ cents per mile and the feeding of prisoners at 50 cents per day. The council bill, fixing the fees of the

# coal oil inspector and providing for the inspection of coal oil etc., passed the house this morning with the council amendments stricken out. PERSONAL MENTION.

# MINOR CITY TOPICS.

U. S. weather bureau forecast for New Mexico: Fair tonight and Friday; colder

tonight. Do not buy your spring suit until you nave examined the large line of imported and domestic suitings and trouserings just received by the Santa Fe Merchant Tailoring Co. for the spring and summer of 1899. They guarantee a perfect fit and will please you in every respect.

The present distance to Denver over the D. & R. G. is 463 miles; but when the La Veta route is opened, the distance will be reduced to within 400 miles. This ought to shorten the ride to Denver to 20 hours or under.

Yesterday morning's narrow gauge train bound north falled to get through on account of the heavy snows in the northern part of the territory and southern Colorado, and returned south from Tres Piedras last night. Southern Colorado is getting a great reputation as a annex to the Arctic regions. Yesterday the thermometer at the local

weather bureau registered as follows Maximum temperature, 49 degrees, at 4:00 p. m.; minimum, 27 degrees, at 6:00 a. m.; mean temperature for the 24 hours was 38 degrees; mean daily relative humidity, 42 per cent

### Taos Troubles.

Later information from Taos relative to the threatened troubles there, says that a change of venue was taken in the case of Messrs. Roberts and Pope. charged with disturbance of the peace. from Taos to Ranchos precinct, and from there there was another change to Cordova precinct, where the matter rests. In the mean time there were some 20 hots exchanged on the Taos plaza the other night, in the way of pleasantry; but the marksmanship was very bad, for no one was hit. It would not take much to get things started there in a wild and woolly sort of a way, but at present advices no act of a dangerous nature has been committed.

#### Rock Island Coming This Way.

For some time the Rock Island management has been figuring onstriking off from Liberal, Kans., and coming down nto New Mexico, through Union, Guadalupe, San Miguel and Lincoln counties of this territory to connect with the El Paso & Northeastern road either in the Salado country, or further north. A few months ago, the Rock Island sent an engineer over the line in a buckboard, and his report was evidentably favorable, for there are now further about the road's entering New Mexico. Not a few railroad men believe that the Rock Island will absorb the El Paso & Northeastern, and that inside of two years, the Rock Island will be running into El Paso over its own line. Heretofore, entangling agreements with the Santa Fe and Gould interests have prevented the road from any active steps to enter this territory.

#### Death of Mrs. M. Seligman.

Hon. Bernard Seligman received the sad intelligence today, that Mrs. M. Seligman, mother of Bernard and Adolf Seligman, of this city, died at Gau-Alcity today on a business trip, and is a nesheim, Germany, January 15, 1899, at guest at the Claire. He is a prominent the advanced age of 89. She left seven the advanced age of 89. She left seven children, two daughters and five sons, all living, in England. Germany and the United States. Mrs. Seligman was a remarkable woman in many ways, she brought up her children to be honorable and valuable citizens, as might be two sons who have for so long been esteemed members of this community, and who are so widely respected throughout New Mexico. Mrs. Seligman was a woman of rugged and sterling good sense, and a just, affectionate parent, and the many friends of the Messrs. Seligman in this territory will sympathize with them in their loss.
