SCANIA

SCANIA

Scania is one of the world's oldest and largest automotive manufacturers. Founded in Sweden in 1891, the organisation has enjoyed consistent and sustained growth over the years.

Today, Scania is a world-class, leading supplier of commercial vehicles and associated services operating in more than 100 countries globally.

Since building Sweden's first bus in 1911, passenger carrying vehicles have featured as a core part of Scania's offering. That means more than a century's worth of expertise, knowledge and development is built into every modern-day Scania coach.

What's more, all Scania products are fully supported by a highly skilled and fully equipped worldwide dealer network – with 86 points on the UK map and an additional 1,000 throughout Europe, you are never far from Scania service.

WHY CHOOSE SCANIA?

In a word, sustainability – which we define as helping you succeed and prosper over the long term as you deliver an exceptional customer experience aboard vehicles which have a minimal impact upon their surroundings.

Scania coaches are built for safety and efficiency and designed with the future in mind. Not only does that mean outstanding engineering quality, premium materials, leading-edge technology, and exceptional fuel economy, driveability and comfort, but also the ability to operate on conventional and alternative fuels – Scania, in fact, offers vehicles for the widest range of fuels available on the market today.

We're proud of our achievements. We believe we're the best at what we do, and we work hard to keep it that way. We care about our people and your people – because we know good people drive success.

Choose Scania and you'll have the confidence that comes with investing in a premium product designed, manufactured and tested to the highest standards.

And you'll be supported by real people; experts in their field, committed to giving you an outstanding, personal service.

- EXPERIENCE IN DEPTH
- EXPERTISE
- SUSTAINABLE SOLUTIONS
- SAFE AND RELIABLE
- PREMIUM QUALITY
- ADVANCED TECHNOLOGY
- COMPREHENSIVE SUPPORT

SCANIA COACH CHASSIS

BUILT ON SOLID FOUNDATIONS

Equipped with technologically-advanced Euro 6 powertrains, Scania coach chassis are highly energy-efficient. As such, low fuel consumption and correspondingly low emissions are hallmarks of the range.

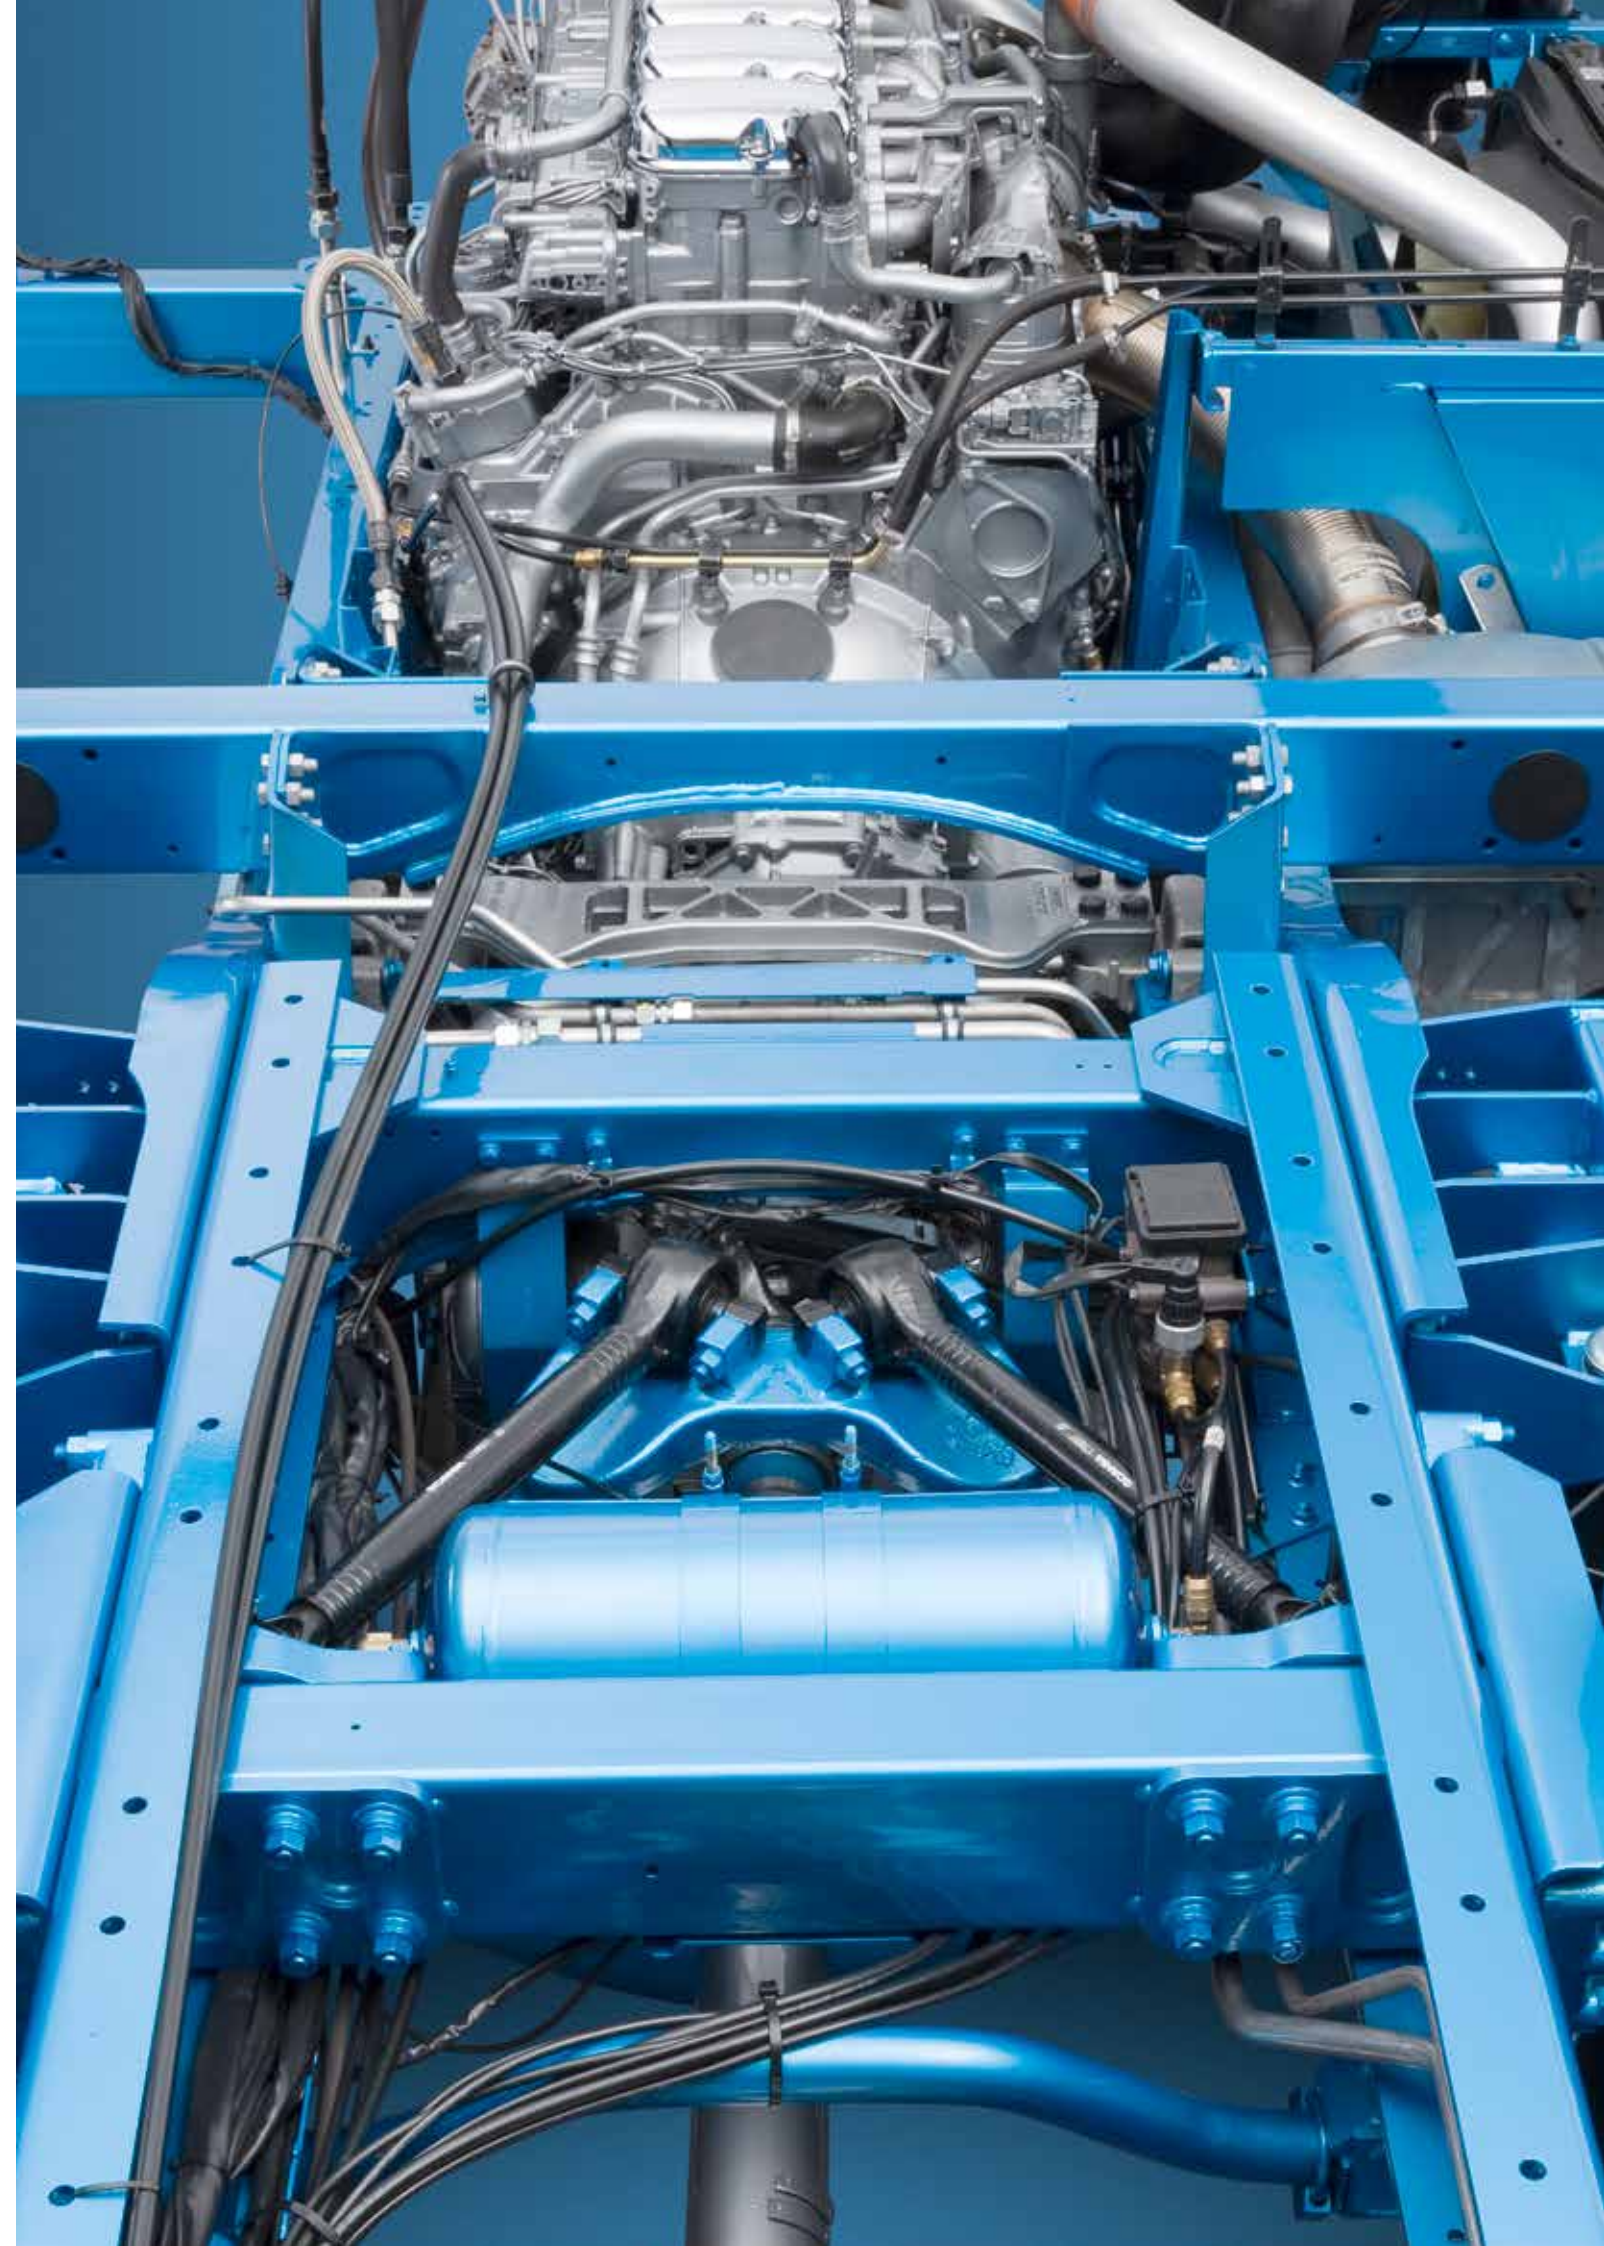

In common with all other Scania products, our coach chassis are designed and built in accordance with Scania's modular build programme, which sees a relatively small number of parts used to construct the entire vehicle. And yet while the construction is largely standardised, the chassis remains flexible; different floor heights and driver positions, for example, can be configured to meet individual bodybuilder needs.

All components within Scania's modular build programme are fully developed and proven, resulting in exceptional quality and reliability.

The benefits here are that Scania chassis can be depended upon to provide outstanding service combined with high uptime over the entire life-cycle of the vehicle. Add to that the fact that Scania's modular build programme shrinks the supply chain in respect to the number of parts required, and you'll see why we say the total operating economy of Scania buses is outstanding.

The Scania coach chassis range includes all the following safety features as standard

- ADAPTIVE CRUISE CONTROL
- LANE DEPARTURE WARNING
- ADVANCED EMERGENCY BRAKING
- DISC BRAKES WITH EBS, ELECTRONIC BRAKE SYSTEM
- ABS, ANTI-LOCK BRAKE SYSTEM
- TC, TRACTION CONTROL
- ESP, ELECTRONIC STABILITY PROGRAMME
- SCANIA HYDRAULIC INTEGRAL RETARDER WITH MANUAL/AUTOMATIC CONTROL
- AUTOMATICALLY CONTROLLED EXHAUST BRAKE
- BUS STOP BRAKE / HILL HOLD

SCANIA TOURING HD

The Scania Touring is a fully-built up coach which offers high profit potential at an affordable price.

Equipped with Scania's 360 or 410 horsepower Euro 6 engine, and available in two or three axle format, the Scania Touring is one of the most fuel-efficient coaches on the road today. It's a safe option too, with a wide range of active and passive safety systems fitted as standard.

With Scania as the single point of contact for everything from initial enquiry through to specification, finance and delivery, acquiring a Scania Touring could not be simpler. We'll also back you every step of the way once your vehicle enters service with a comprehensive range of aftersales services, encompassing chassis and bodywork, provided by Scania's global dealer network.

With its distinctive styling and dependable performance, the Scania Touring is equally at home on domestic day trips or continental touring.

“The Scania Touring is an excellent value for money vehicle”

Dave Costello
Managing Director, Attain Travel

“We took delivery of a Scania Touring last year and have been overwhelmed by its performance”

Mark Carver
Managing Director, Carvers Coach

SCANIA INTERLINK HD FINESSE

Like the Scania Touring, the Scania Interlink HD Finesse is a fully built-up coach offering all the advantages that come with having Scania as the sole supplier of chassis and bodywork.

Available in either two or three axle format, the Scania Interlink HD Finesse has an overall height of 3.60-metres and features a high deck to allow for a large volume of luggage without compromising the passenger compartment. The vehicle also offers great flexibility in terms of layout and specification levels.

Designed as a multi-use coach, applications for the Interlink typically range from school contracts and commuting to private hire, excursions and touring.

Key specifications

“With Scania, we can rely on the product and the service which supports it”

Ian Luckett
Owner/Director, Lucketts Travel

SCANIA IRIZAR I4

Scania and Spanish bodybuilder Irizar have enjoyed a long-standing partnership for more than a quarter of a century.

This has resulted in many premium passenger carrying vehicle solutions, including the Scania Irizar i4 and the vehicles described on the following pages.

Combining a modern and stylish design with exceptional performance, the Scania Irizar i4 is a low-height coach offering up to 80 Seats in a 3 + 2 configuration. In addition to a wide range of standard features a selection of options, including compliance with DDA schedule 1 and 3, are also available.

Designed primarily for commuter, day trip and private hire applications, the Scania Irizar i4 makes an attractive and practical option to any fleet.

“What we see with Scania, its vehicles, its dealers, its parts service, its roadside assistance and so on, is exceptional performance in all respects”

Anthony Winson
Operations Director, Paul S. Winson

Phil Westwood

Director, Dunwood Travel

SCANIA IRIZAR I8

The Scania Irizar i8 is a flagship product orientated to the prestige and luxury market segment.

The vehicle has an impressive exterior and interior design and features a wealth of innovative technology inside and out.

Complementing its sleek design, the tri-axle Scania Irizar i8 features a sophisticated and safe body shell, which includes a completely flat floor the entire length of the vehicle.

With interior features including an ergonomically-designed driving seat and high-end passenger seats with integrated entertainment screens and height-adjustable three-point seatbelts, through to continuous linear LED lighting throughout the passenger compartment, the Scania Irizar i8 delivers supreme levels of comfort and exquisite attention to detail.

Outside, oblique lines and multiple polished surfaces create a bold statement and project an impressive image which is sure to turn heads.

“Scania offers a reliable and high quality product as well as fantastic back up from the dealer network”

Neil Pegg
Managing Director,
City Circle (UK) Limited

SCANIA USED COACH SALES

It is said that the next best thing to a new Scania coach is a used Scania coach, and to satisfy the demand we always maintain an extensive selection of quality, pre-owned passenger carrying vehicles.

We will help you select the coach that's right for you by guiding you through our stock and offering an all-inclusive approach covering everything from preparation work to livery application to funding and part-exchange.

You can view our stock either by visiting the Scania Bus and Coach Centre in Worksop, or by visiting <https://used.scania.com> or by downloading the Scania Used Vehicle app, which is available for both iPhone and Android

DOWNLOAD THE APP

"The personal relationship Scania has developed with us is truly appreciated and will keep us coming back. Your sales, after-sales, negotiation flexibility and communication are second to none, as a small family business owner-driver I feel like I am being treated as a massive company when placing an order."

Vic Vagarwal
Director, P. R. Coaches Limited
