## **FACT SHEET**

### **SCHOFIELD BARRACKS SUPERFUND SITE WAHIAWA, HAWAII**

#### **DELETION DOCKET**

A Deletion Docket is a collection of documents containing all the pertinent information supporting the proposal by the U.S. Environmental Protection Agency (EPA) proposal to delete from the National Priorities List (NPL) all or part of a Superfund site. Under Section 105(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), EPA is required to establish a list (referred to as the NPL) of priority releases for long-term remedial evaluation and response. Releases (i.e., Superfund sites) may be deleted from the NPL when no further response is appropriate. As part of any deletion process, EPA is required to place copies of information supporting a proposed deletion in the information repositories, where it will be available for public review and copying. A deletion docket may include, by reference, documents from the Administrative Record.

A deletion docket must be reasonably available for public review during normal business hours. It should be treated as a non-circulating reference document, in order to allow the public greater access to the docket and also to minimize the risk of loss or damage. Individuals may copy any documents contained in the docket, including documents which may be part of the existing administrative record, according to the copying procedures at the local repository.

A deletion docket will be maintained at the local repository until further notice. Questions regarding the maintenance of the deletion docket should be directed to:

## **INTRODUCTION**

### **SCHOFIELD BARRACKS SUPERFUND SITE**

#### **DELETION DOCKET**

The Deletion Docket is a collection of documents containing all the pertinent information supporting the proposal by the U.S. Environmental Protection Agency (EPA) to delete the Schofield Barracks Superfund site from the National Priorities List.

The index which follows lists the documents in chronological order. Each document has been identified by a unique number for the Deletion Docket.

This Deletion Docket includes by reference Deletion Docket documents #1 through #34. These documents can be found in the Schofield Barracks Superfund site Administrative Record file collection maintained by the U.S. Army at the U.S. Army Garrison and the Wahiawa Public Library. These documents may be viewed at the U. S. Army Garrison, the Wahiawa Public Library or at the EPA Superfund Records Center in San Francisco. Deletion documents #35 through #41 are included in this binder.

While not part of the Deletion Docket per se, a copy of EPA's Notice of Intent to Delete (NOID) is included for reference in this binder.
