You also get the opportunity to raise money for your school at the same time. Good food, good schools it's a win win for all involved!

The process is very simple. Below you will find a detailed outline of the steps you need to follow in order to run a successful fundraising program within your school which will achieve great results. We have also included some helpful tips which will assist in maximising your fundraising opportunities. We are offering 8 of our best selling flavours for purchase in 1 kg tubs - including our plain classic yoghurt, should you want to put in your own fruit.

Remember the more of our great tasting healthy yoghurt you sell the more money your school makes.

About The Yoghurt shop

The Yoghurt Shop started in 2004 and the original store is still in the Adelaide Central Markets. Since then we have expanded our business and now have 10 locations throughout Adelaide. Together with a healthy wholesale business, our products are also available in various fruit and vegetables shops, gourmet food stores and independent supermarkets throughout SA and NSW.

Our product range carries across a healthy category which includes, our Fresh Greek Yoghurt, Gourmet Dips, Premium Frozen Yoghurt, Indulgent Smoothies, Muesli and Juices.
Our Greek Yoghurt is made through a traditional method which has been handed down through three generations. Combined with our delicious toppings, our yoghurt has body, texture and deep flavour.

The Yoghurt Shop products not only taste great but they are good for you.

Our base yoghurts contain all natural ingredients and live cultures with no cream, no gelatine, no thickeners, no colours, no additives and no preservatives.

## How to

## maximise

## Circulate your forms for 2 weeks

Two weeks gives people enough time to talk to family, friends and work colleagues. We believe that anything longer than this tends to see the order forms get lost and forgotten about.

## Raise funds for a common goal

The best way to motivate your students is to set them a goal. This will assist in driving them to make as many sales as possible. Set a target that you want your school to sell, for example; 500 tubs of yoghurt sold - means that the school will get $\$ 1,500$ cash which goes towards the goal you have set to achieve.

By making the fundraising drive for something specific that appeals to them, such as sport equipment, an end of year activity, computer equipment or a camp, rather than just general revenue - they will strive to achieve more and sell more as much yoghurt as they can!
Encourage parents to take forms to work
Work places can be a gold mine for fundraising drives. The Yoghurt Shop is a well known name in Adelaide, and if people know the name and the quality of the product but don't have access to these fundraisers, sales will come through.

## Follow up

Please continue to remind your students/members that the order forms are due back on the date you have put in place. This helps to make sure people are in fact selling the yoghurt and haven't forgotten about it! A great help for schools in this case is to advertise it in your newsletter for parents to see.
