CAREER IN HEALTHCARE.

SCHOOL OF HEALTH AND HUMAN SERVICES

The University of Values

Some of the fastest growing occupations today are in the healthcare industry, and as a result workers in this field are in very high demand. The U.S. Department of Labor reports that about 3 million jobs will be created in health services between 2006 and 2016 – more than in any other industry.

The high level of growth in the healthcare industry results in a shortage of qualified nurses and other healthcare professionals to meet the needs of a growing and diverse population. National University's School of Health and Human Services was created to meet the growing need for trained healthcare professionals in California and throughout the country.

National University provides the training and degree programs to prepare students for careers in the rewarding fields of healthcare. Specifically, the School offers programs that train nurses, healthcare administrators, and public health professionals as well as hands-on allied health professionals.

Earning your degree with the School of Health and Human Services will help you advance your career in the dynamic healthcare industry. You will develop critical thinking and therapeutic skills and, in some cases, be prepared to take individual, state, and national licensure and certificate examinations.

SCHOOL OF HEALTH AND HUMAN SERVICES

Supporting National University's core value of community, the School of Health and Human Services is dedicated not only to its students, but also to the larger community population. The School provides a learning-intensive environment that supports the education and preparation of professionals in becoming innovative, caring practitioners to help meet community needs.

Organized into three departments—community health, health sciences, and nursing—The School offers a variety of undergraduate and graduate degree programs that prepare students for careers in the public and clinical healthcare industry. The Department of Community Health provides you with an opportunity to explore current and future health

issues facing public and private entities while pursuing undergraduate and graduate programs in healthcare administration and public health. Multiple levels of nursing courses and nursing degrees are available from the Department of Nursing, enabling you to earn an Associate of Science in Nursing and a Bachelor of Science in Nursing. The Department of Health Sciences offers graduate and undergraduate students with preparation for professional careers that meet the changing demands of today's clinical health care industry. The department's Bachelor of Science in Allied Health, for example, provide graduates the opportunity to advance in the allied health profession and meet societal and healthcare delivery needs.

ACCORDING TO THE U.S. DEPARTMENT OF LABOR, THE HEALTHCARE INDUSTRY WILL GENERATE MILLIONS OF NEW JOBS, MORE THAN ANY OTHER INDUSTRY.

UNDERGRADUATE PROGRAMS

ASSOCIATE OF SCIENCE IN NURSING (ONLY AVAILABLE AT THE HENDERSON, NV CAMPUS)

Earning this degree prepares you to take the Nevada licensure exam for registered nursing. You'll learn how to formulate accurate nursing diagnoses; plan, implement, and evaluate strategies; work with families across the lifespan to identify learning needs and implement teaching strategies; and manage multiple patients, communicate effectively with both patients, families, and other members of the healthcare team.

BACHELOR OF SCIENCE IN HEALTHCARE ADMINISTRATION

Designed to enhance the practice of healthcare administration/management, the Bachelor of Science in Healthcare Administration will prepare you for entry level supervisory roles in healthcare organizations. The program emphasizes the conceptual and analytical skills required to manage in contemporary healthcare organizations, and features experiential opportunities in project management, teamwork, and leadership. Ideal candidates include students looking to begin a career in healthcare administration and those looking to advance from clinical/technical roles to supervisory roles.

THE BACHELOR OF SCIENCE IN NURSING PROGRAM IS ACCREDITED BY THE COMMISSION ON COLLEGIATE NURSING EDUCATION.

BACHELOR OF SCIENCE IN ALLIED HEALTH †

Allied health professionals are involved with the delivery of health or related services pertaining to the identification, evaluation, and prevention of diseases and disorders, as well as dietary and nutrition services, and rehabilitation and health systems management, among others. Allied health workers support, aid, and increase the efficiency of the physician, dentist, or primary clinical specialist. This degree provides a broad-based foundation of professional, ethical, legal, and health policy issues and trends in healthcare, health promotion and disease prevention, health education, research and evidence-based practice, and database, case, and health systems management.

The degree prepares graduates to advance in the allied health profession, assume leadership and/or supervisory positions, as well as pursue graduate education in the healthcare field.

BACHELOR OF SCIENCE IN PUBLIC HEALTH

The Bachelor of Science in Public Health with a concentration in Public Health Promotion features a broad-based foundation in the liberal arts and sciences and an ecological perspective of public health and the role that health promotion plays in preventing disease while maintaining or increasing quality of life. The program prepares entry-level health promotion professionals to begin careers in various types of community health agencies. Graduates will gain the skills needed to assess needs, plan and implement programs, assess program outcomes, communicate and advocate for public health issues, and participate in the development of health promotion as a profession.

Program graduates are eligible to become a Certified Health Education Specialist through the National Commission on Health Education Credentialing, Inc.

BACHELOR OF SCIENCE IN NURSING (BSN)

The BSN program prepares students in critical thinking, communication, and therapeutic nursing skills within the framework of transcultural nursing, and is accredited by the Commission on Collegiate Nursing Education (CCNE). The community health nursing course sequencing and content meet requirements for certification as a public health nurse in California.

BACHELOR OF SCIENCE IN NURSING- GENERIC ENTRY

This program is for students with little or no prior college credits. The Bachelor of Science in Nursing develops critical thinking, communication, and therapeutic nursing skills within the framework of transcultural nursing. Graduates are able to manage the nursing care of culturally diverse clients in a variety of settings.

BACHELOR OF SCIENCE IN NURSING RN COMPLETION

The Bachelor of Science in Nursing RN Completion is for already-licensed, registered nurses seeking a BSN degree.

BACHELOR OF SCIENCE IN NURSING (ACCELERATED POST- BACHELOR DEGREE)

This program is for individuals with prior earned bachelor's degrees who wish to be prepared for licensure as a registered nurse while earning a Bachelor of Science in Nursing.

LICENSED VOCATIONAL NURSE TO BACHELOR OF SCIENCE IN NURSING

This degree is for Licensed Vocational Nurses seeking to advance to a BSN-prepared Registered Nurse.

† DENOTES PROGRAM OFFERED COMPLETELY ONLINE.

GRADUATE PROGRAMS

MASTER OF HEALTHCARE ADMINISTRATION

This program prepares students for entry level and mid-management roles in healthcare organizations. Careers in healthcare administration require skilled professionals who can confront the challenges of an expanding health services sector. Preparation includes such topics as health policy assessment, managerial knowledge and skills, healthcare finance and economics, information systems, planning and marketing, quality assurance, and human resource management.

**CALIFORNIA IS
AT THE NATIONAL
FOREFRONT OF
HEALTH SERVICES
INNOVATION.**

MASTER OF INTEGRATIVE HEALTH

Integrative health is a lifestyle approach to healthcare that is “holistic” or “whole person” and that recognizes the interrelationships among physical, mental, social, environmental, and spiritual dimensions of health and well-being. The Master of Integrative Health was developed to give students intermediate to advanced knowledge and skills in integrative and holistic healthcare theory, clinical practice, and standards of care. The program is designed for those who wish to enter, or who are already employed, in public and private healthcare organizations related to integrative, holistic, or complementary and alternative medicine clinical practice, research, education, administration, or regulatory affairs. Some graduates may choose to continue their academic preparation by pursuing advanced degrees in various medical and biomedical disciplines.

MASTER OF PUBLIC HEALTH

This is a graduate level professional degree designed to prepare you for leadership positions in health promotion and disease prevention. Public health involves multidisciplinary and collaborative strategies for solving health-related problems, including programs that serve the public sector at all levels—local, state, federal, and global. This program emphasizes the application of broad-based, state-of-the-art quantitative and qualitative skills needed for problem-solving. Special attention is given to enhancement of communication skills needed to work with diverse populations. Graduates will enhance their opportunities for professional growth and job placement through carefully planned internships and a multidisciplinary team-based capstone experience.

MASTER OF SCIENCE IN CLINICAL REGULATORY AFFAIRS

This degree provides a comprehensive program of graduate study in the field of clinical trials and the federal regulations associated with developing and performing clinical trials. The program is based on lectures, case studies, and texts and articles associated with federal government regulations and clinical trial research monitoring and coordinating. Upon completion, you will have a comprehensive knowledge of the field, the skills to develop and implement appropriate protocols and documents, and understanding of the data management and the clinical trial research industry.

† DENOTES PROGRAM OFFERED COMPLETELY ONLINE.

CERTIFICATE PROGRAMS

LVN “30 UNIT” OPTION CERTIFICATE

This program is for licensed vocational nurses who wish to complete the minimum number of units required to take the Registered Nurse licensure examination.

GRADUATE CERTIFICATE IN INTEGRATIVE HEALTH AND WELLNESS †

The Graduate Certificate in Integrative Health and Wellness is designed for health care practitioners, students, and those interested in seeking to understand more about the emerging field of integrative health and healing. Combining the therapies and practices of conventional medicine and complementary and alternative medicine, integrative health focuses on healing rather than disease. It emphasizes a therapeutic relationship between client and practitioner, utilizes a holistic perspective, and

supports the integration of mind, body, and spirit.

Topics in this unique certificate program examine spirituality and health, stress management, legal and ethical issues of integrative health, healing environments, energy medicine, Chinese medicine, Ayurveda, and nutrition and fitness.

The Graduate Certificate in Integrative Health and Wellness will enhance the learner’s knowledge, skill, and experience through a thoughtfully designed curriculum that provides a broad foundation of evidence-based information addressing the complexities of this field of study. Graduates of this certificate program will be able to apply their new knowledge and skills in many settings including acute care facilities, private clinical practices, nursing homes, wellness centers, chronic disease centers, health clubs, and corporate settings.

TAKE THE FIRST STEP!

ADMISSION TO NATIONAL UNIVERSITY IS SIMPLE. TO SPEAK WITH YOUR OWN PERSONAL ADVISOR, CALL US TODAY AT **1.800.NAT.UNIV**, OR VISIT OUR WEBSITE AT **WWW.NU.EDU** TO APPLY ONLINE.

NATIONAL UNIVERSITY

YOU DECIDE WHERE TO GO. WE'LL HELP YOU GET THERE.

At National University, we've simplified the admissions process because we know our students demand accessibility. Our evening-focused, accelerated format means earning your associate's, bachelor's, or master's degree won't interfere with your personal or professional obligations.

We make attending your classes simple while maintaining high quality degree offerings. National infuses quality into all of its programs, from business to information technology to psychology and education. Our curriculum combines concept, theory, and application so that what you learn in the classroom is relevant to the workplace.

OUR REPUTATION SPEAKS FOR ITSELF

The second-largest nonprofit, private institution of higher learning in California, National provides more master's degrees in education to minority students than any other college or university in California. National University also ranks in the Top 10 nationally in granting master's degrees to women.

EARN YOUR DEGREE ON YOUR SCHEDULE

Because National has 26 campuses throughout California and one in Nevada, there's probably a location near your work or home. You can also find program information, talk with a counselor to create an education plan to meet your goals, and learn about financial aid options at National University

Online Information Centers located in Sacramento, Temecula, and West Covina in, California; Summerlin, Nevada; Orlando Florida; and Lima, Peru. And since National offers many of its credentials and degrees online, your education goes where you go.

LEARNING RESOURCES AT YOUR FINGERTIPS

National University provides you with modern technology in its classrooms, onsite labs, and beyond. You can access your grades, class schedules, and financial aid information from your online student portal. The National University Library System offers numerous services to help you complete your coursework and contains one of the larger e-book collections in the U.S.

When you need answers or assistance, Student Concierge Services is your one-stop center. Advocates are trained in a range of areas such as financial aid, credentials, admissions, and graduation. They can be reached by phone and e-mail 24 hours a day, seven days a week.

THE UNIVERSITY OF VALUES

Our University is dedicated to educational access and academic excellence, and provides challenging and relevant programs that are learner-centered, success-oriented, and responsive to technology. National University is anchored by the core values of quality, access, relevance, accelerated pace, affordability, and community.

A HISTORY OF LIFELONG LEARNING

Since 1971, National University has been dedicated to making lifelong learning opportunities accessible, challenging, and relevant to a diverse student population. National's academic and administrative headquarters are located in La Jolla, California.

FUNDING YOUR EDUCATION

Financial aid advisors can help you navigate the financial aid process so you can find a way to pay for school. Funding may also be available in the form of state and federal grants, scholarships, loans, or tuition reimbursement.
