LibGuides Organize Resources by Discipline

The School of Medicine Library is pleased to offer LibGuides to School of Medicine faculty, students, and staff. LibGuides are collections of print and electronic resources tailored towards specific subject areas. They include links to databases, books, journals, evidence-based medicine resources, Internet resources, clinical trials, and patient information.

The following is a list of LibGuides currently available:

- [Clinical Trials](#)
- [Developmental Disabilities](#)
- [Genetic Counseling](#)
- [Gynecology](#)
- [Neuropsychiatry](#)
- [Nurse Anesthesia](#)
- [Obstetrics](#)
- [Pediatrics](#)
- [Radiology](#)
- [Surgery](#)
- [Tissue Engineering](#)

To access the guides, click on the [LibGuides](#) link on the Library's home page. Each guide is created and managed by a Library Liaison. We encourage users to contact the liaisons with comments or questions, or to request a training session.

Faculty librarians are working hard to create additional guides. If you have comments or suggestions (including ideas for additional guides) please contact Laura Kane (laura.kane@uscm.med.sc.edu).

New! Literature Search Request Form Available

While librarians at the School of Medicine Library have always done literature searches, the process has now been formalized. A new [Literature Search Request Form](#) is available (click "Library Services" on the Library's web page), which requires users to enter key information that will result in a more efficient search. Lists of citations will be delivered electronically, by fax, or by mail. There is no search fee for School of Medicine faculty, students, and staff. The charge for healthcare professionals or general healthcare consumers is \$25 per search. If you have questions, please contact Laura Kane at 803-216-3205 or laura.kane@uscm.med.sc.edu

Rare Book Donated to Library in Honor of Dr. Donald Saunders

John A. Goree, M.D., a 1955 Duke University medical school classmate of the late Dr. Donald E. Saunders, Jr., has given the rare book, *Icones Anatomicae*, to the School of Medicine Library in honor of Dr. Saunders. Dr. Goree, a retired professor and radiologist at Duke, wanted to honor Dr. Saunders for his tireless efforts in the establishment of the USC School of Medicine.

Published in 1934 by the New York Academy of Medicine, the University of Munich, and the Bremer Press, *Icones Anatomicae* is a large and beautiful volume of original prints from the woodblocks used to produce Vesalius' anatomy book On the Structure of the Human Body, published in 1543. Two hundred twenty-seven of the illustrations were printed from the sixteenth-century woodblocks. The original woodblocks were destroyed during World War II as a result of Allied bombing raids. A hand press was employed and the *Icones Anatomicae* volume was printed on a pure rag, hand-made paper specially watermarked by the famous Zanders establishment in Holland.

A private dedication ceremony was held in the Charles S. Bryan History of Medicine Room in the School of Medicine Library on September 29, 2010. In attendance were Dr. and Mrs. Donald Saunders, Jr., Dr. and Mrs. John Goree, Dr. and Mrs. Charles Bryan, Dean Richard Hoppmann, Dr. and Mrs. Carol Smith, and Library faculty and staff.

“The acquisition of the *Icones Anatomicae* volume represents a true milestone for the School of Medicine Library,” said Ruth Riley, Director of Library Services. “The fact that it’s been donated by Dr. Goree in honor of Dr. Saunders makes it even more special since Dr. Saunders has been such a good friend and advocate for the School of Medicine.”

The *Icones Anatomicae* is available for viewing in the Charles S. Bryan History of Medicine Room in a special display case. The Library invites School of Medicine faculty, students, and staff to come by the library and view this beautiful addition to the Charles S. Bryan History of Medicine Room.

Dr. and Mrs. Goree, Dr. and Mrs. Donald Saunders, Jr., and Dean Richard Hoppmann

Linking S.C. Free Clinics to Health Information

Librarians **Karen McMullen** and **Roz McConnaughy** delivered equipment and conducted Medline-Plus training on March 31, 2011 for two staff members at the Good Neighbor Medical Clinic in Beaufort, SC as part of the Outreach Project “Linking South Carolina Free Clinics to Quality Health Information: Phase Two.” The Good Neighbor Medical Clinic received a 42-inch LCD HDTV, Blu-Ray Disc player, and three desktop computers. The equipment will enhance patient education efforts and increase awareness and use of MedlinePlus at these clinics. This Outreach Project is funded by the National Network of Libraries of Medicine Southeastern/Atlantic Region.

New Self-Paced Tutorials

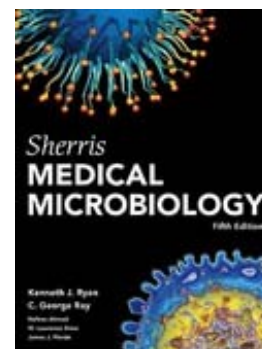

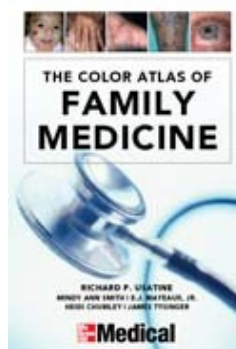

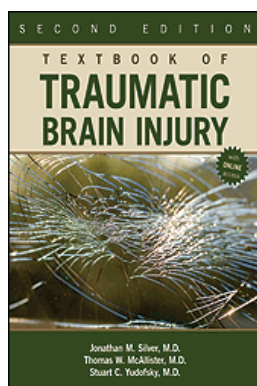

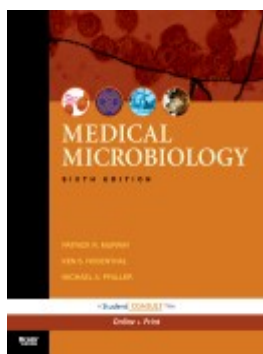

Several new self-paced tutorials have recently been developed to assist SOM students and faculty make the most use of the Library’s electronic resources. Included are:

- ***Has This Article Been Cited?*** Find out if an article has been cited and learn to create an email alert to notify you when an article is cited.
- ***Journal Impact Factors:*** Use Journal Citation Reports to find the impact factor for an individual journal. View the highest impact journals in a field.
- ***Remote Access to Library Resources for SOM Students, Faculty, and Staff:*** Learn how to access the Library’s electronic resources from off-campus.
- ***Printing and Copying in the Library:*** Learn how to use the Uniprint system to print and make photocopies.

Most of these tutorials only take between 5 and 10 minutes to complete. To see a full list of tutorials, go to <http://uscm.med.sc.edu/tutorials.asp>.

Electronic Textbook Updates

- Two new e-books are available through [AccessMedicine](#):
Color Atlas of Family Medicine by Richard P. Usatine, et al.
Sherris Medical Microbiology by Kenneth J. Ryan, C. George Ray
- Medical Microbiology*, 6th ed., by Patrick Murray is now available online and mobile through [MDConsult](#).
- Textbook of Traumatic Brain Injury*, 2nd ed., edited by Jonathan M. Silver, is now available through [PsychiatryOnline](#).

Impact Factors Available through TDNet

When viewing e-journal listings in the Library's e-journal list, [TDNet](#), you will notice a new icon labeled "JCR" next to many titles. By clicking on this icon, you will be linked to the journal impact factor information for that journal title in [Journal Citation Reports](#). The journal impact factor is a measure of the frequency with which the "average article" in a journal has been cited in a particular year. The impact factor will help you evaluate a journal's relative importance, especially when you compare it to others in the same field.

Journal Title	ISSN	Total Cites	Impact Factor	5-Year Impact Factor
CELL	0092-8674	167587	32.401	34.929

Mobile Device Resources

The Library has access to many medical resources for mobile devices such as smartphones. This includes content from licensed resources such as AccessMedicine, Drug Facts and Comparisons, Essential Evidence Plus, and MDConsult. There are also free applications available, such as DailyMed Mobile, MD on Tap, Mobile MedlinePlus, and more. Most resources require that you go to the full web version first and register for an ID and password. After that, you can use your mobile device to go to the websites and log into the mobile versions of the products.

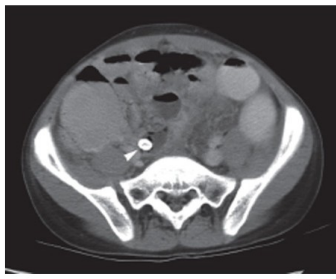

For a complete listing of resources, visit our [Mobile Device Resources page](#), which can be accessed via the Electronic Resources link on the Library's web page.

Medical Images and Illustrations

The Library offers a new web page that acts as a one-stop-shop for access to [Medical Images and Illustrations](#) (click on the Electronic Resources link on the Library's home page). Included are images from licensed resources such as AccessMedicine and MDConsult, as well as image databases freely available. We recommend that you check the copyright statements on each site before using an image. Most sites listed on the Library's web page permit users to download the images for non-commercial purposes, such as for use in lectures, as long as the source of the image is included. Below are a few images pulled from AccessMedicine:

Faculty & Staff News

Felicia Yeh, Assistant Director for Collections Management, has been awarded tenure by the Board of Trustees of the University of South Carolina. A Library faculty member since 2005, Felicia boasts a strong record of service and scholarship to the University, the School of Medicine, and the community of medical librarians nation-wide. The Library is lucky to have her as part of its team. Congratulations, Felicia!

Laura Kane, Assistant Director for Information Services, has a new book published by the American Library Association. *Working in the Virtual Stacks: the New Library & Information Science* focuses on the relationship between technology and librarianship, and features interviews of dozens of practicing librarians who are highly involved with technology as part of their day-to-day jobs. The work profiles librarians in all types of settings, from veterinary medicine and law to astronomy, market research, and cataloging. It offers insights into career opportunities in the library world by challenging traditional notions of what a librarian does, and shows examples of real-world librarianship in the fields of technology instruction, digital futures, virtual libraries, and even librarians as entrepreneurs. For more information, visit <http://www.alastore.ala.org/detail.aspx?ID=3298>.

Steven Wilson, Coordinator of the Center for Disability Resources Library, has been approved for membership in the Medical Library Association (MLA) Academy of Health Information Professionals (AHIP) at the Senior Member level. The Academy of Health Information Professionals is MLA's peer-reviewed professional development and career recognition credentialing program. AHIP promotes lifelong learning and exemplary professional performance by recognizing achievements in continuing education, teaching, publishing, research, and other contributions to the profession.

The AHIP credential denotes the highest standards of professional competency and achievement in the field of health care information and must be renewed every five years. Steven joins Ruth Riley (Director of Library Services), Laura Kane (Assistant Director for Information Services), Felicia Yeh (Assistant Director for Collections Management), and Roz McConnaughy (Assistant Director for Education & Outreach) in being members of the Academy. You may read more about AHIP at <http://www.mlanet.org/adcademy/>.

Faculty & Staff News (cont.)

Kane, Laura Townsend. Review of *A Social Networking Primer for Librarians*. Edited by Elyssa Kroski. New York, NY: Neal-Schuman, 2010. *JMLA* 99 (2) April 2011: 173-174.

Kane, Laura Townsend. Review of *Developing Library Leaders: A How-To-Do It Manual for Coaching, Team Building, and Mentoring Library Staff*. Edited by Robert D. Stueart and Maureen Sullivan. New York: Neal-Schuman, 2010. *JMLA* 99 (3) July 2011: 263-264.

Karen McMullen, Roz McConaughy, and Ruth Riley published the article "Outreach to Improve Patient Education at South Carolina Free Medical Clinics," *Journal of Consumer Health On the Internet*, 15 (2): 117-31, 2011.

Ruth Riley and Sarah Fletcher attended the Annual Meeting of the Medical Library Association in Minneapolis, May 14-18, 2011. Sarah attended the New Members Program and Breakfast and Ruth chaired the Southern Chapter Executive Board meeting.

Christine Whitaker attended the Annual Meeting of the Special Libraries Association in Philadelphia, June 1-15, 2011.

Spring Service Project

The Library has started an ongoing service project of collecting magazines for the Dorn VA Hospital. Between the patients in the hospital and the people in waiting rooms, the hospital has a constant need for magazines. 134 magazines were delivered to Priscilla Creamer (pictured), Public Affairs/Voluntary Service Officer.

Welcome New Students, Faculty, and Staff!

On behalf of the Library faculty and staff, I would like to welcome all new students, faculty, and staff to the School of Medicine and welcome back our returning students, faculty, and staff.

We are committed to making the library a comfortable place for our users and to ensure that they have the information they need when they need it. As always, we welcome feedback and comments. Please feel free to contact me at any time with your comments or suggestions.

I hope to see you in the library!

- Ruth Riley, Director of Library Services
