## CRUISER SHIELDS

### SS-30 "Classic Shield"

The SS-30 "Classic Shield" is clean, beautifully designed shield which adds a custom look to virtually all Japanese and American style cruisers. The key selling point to the SS-30 is that one mounting system fits all the bikes! The well thought out hardware is designed to adapt to different thickness forks and different fork spans. So, the dealer only has to stock one shield to fit all the bikes. The hardware is all triple chrome plated for a beautiful finish. The fasteners are all top quality chrome so the customer won't have to replace them as soon as they take them out of the box. The windshield is constructed out of  $\frac{3}{16}$ " Lucite® acrylic. It is optically clear and much harder than stock OEM windscreens. It is easier to maintain and if it is scuffed, it can be repaired with Slipstreamer windshield scratch remover and cleaner/polish.
