

Saey 94

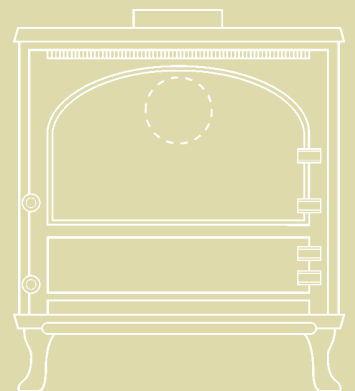

ELEGANCE

With its robust cast iron construction both inside and out and heating capacity of 10kw the elegantly designed Saey 94 makes a popular choice for many. The stove also features front and side door fuelling options whilst the air wash system ensures you can enjoy an unrestricted view of the flame. The multifuel Saey 94 has an extended riddling lever which allows the grate to be riddled with the door closed, and when not in use, it is discreetly concealed behind the stove. The thermostat is also concealed behind the stove, and only the control lever is visible from the front.

KEY FEATURES

- Multifuel
- Air wash
- Top or rear flue exit
- Side door loading
- 10kw output
- Colour option: Matt Black

Saey Blenheim

VERSATILITY

The old world sentiment of the Saey Blenheim still makes it one of the most popular stoves on today's market. It is a very versatile stove and a magnificent example of the beautiful moulding detail which achieved by skilled German craftsmen. The Saey Blenheim is a uniquely styled stove available in two versions, the Hotplate version (*Rear Flue exit only*) or Top or Rear Flue exit version

Both of these versions have options as follows

- Dry model (*non boiler*)
- Boiler model (*hot water up to 6-8 rads*). Distance from cylinder and radiator size must be taken into account. *These are guide line stated figures.*

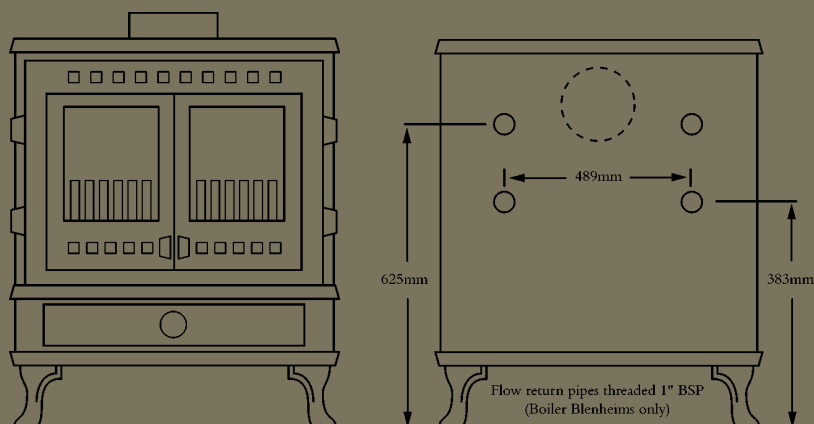

The Blenheim boiler is integral and manufactured by Firebird Boilers. The boiler is capable of heating domestic water and central heating. It is factory fitted with two flow and two return pipes threaded 1" BSP (*although peak outputs are important, it should be borne in mind that they can be only achieved by frequent refuelling*)

FEATURES

- Multifuel
- Alternative top or rear flue exit (*except for hotplate which has a rear exit only*)
- Air Wash System enabling a continuous view of the fire
- Riddling handle, allows grate to be riddled without opening door, thereby preventing ash and dust from entering the room
- Removable large ash pan
- Log retainer
- Boiler option (*8kw water 4kw heat to room*)
- Maximum heat output 12kw
- Colour option: Matt Black

TECHNICAL

Height	775mm
Width	635mm
Depth (<i>including lip</i>)	535mm
Lip	114mm
Height to centre rear flue	648mm
Connects	180mm flue pipe

Saey Scope

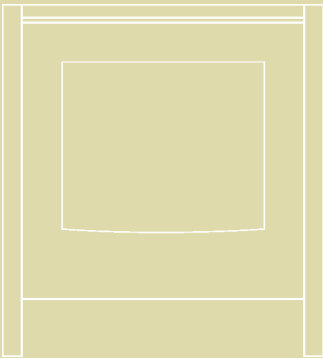

THE NEWEST ADDITION TO THE SAEY RANGE

The Saey Scope with its minimalist contemporary look encompasses the entire practical requirements for a stove in a modern sleek finish. Its simple but sound aesthetic design enhances the stove clean lines with all operating tools hidden from view. Due to its closed combustion system the Saey Scope is more efficient and safer to operate with a choice of either top or rear flue exit. Its large panoramic glass offers you an unrestricted view of the fire providing a warm ambiance on a cold winters evening.

FEATURES

- Multifuel
- Top or rear flue exit
- Front or side door refuelling
- Facility for external air combustion
- All cast iron construction
- Large ash pan
- Max heat output 12kw
- Colour options: Matt Black or Anthracite Grey

TECHNICAL

Height	700mm
Width	700mm
Depth	475mm
Distance to centre rear flue	282mm
Height to rear flue	560mm
Connects	150mm flue pipe

Installation direct on a timber floor does not meet Irish Building Regulations

Saey Regency

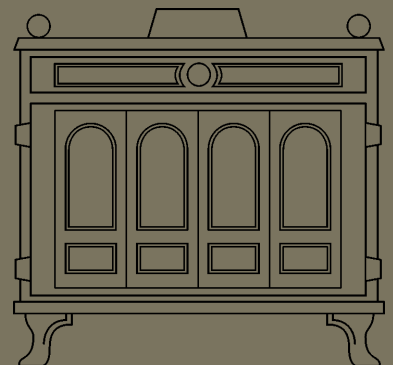

TRADITIONAL CHARM

A classic period design combined stove and fireplace. Originally patented in 1742 by Benjamin Franklin, the Saey Regency enjoys a pedigree unrivalled by any other stove. With its accordion style solid cast door, the large firebox produces the atmosphere of a traditional open fireplace. When closed the airflow is controlled, the fire burns longer and the handsome Georgian door panels are fully exposed. The Saey Regency can be fitted with a boiler suitable for use with indirect domestic hot water. It is also available with a selection of additional accessories.

OPTIONAL ACCESSORIES

- Brass Balls
- Top and Bottom Rail Set
- Fire Screen
- Barbecue Grill
- Bean Pot Assemble
- Domestic Boiler (top flue only)
