Section 1: Ultrasound Physics and Machines

Chapter 1. Scientific Basis of Ultrasonography	3
<i>AK Debdas</i>	
<ul style="list-style-type: none">• Historical Background 3• Ultrasound Production 3• Echoing Mechanism of Ultrasound 5• Types of Images 5• What is a Gray Scale? 8• Focusing Mechanism of US Beam 8• Time Gain Control Amplifier 8• Types of Transducer/Scanners 9• Scientific Basis of Selection of Appropriate Transducer for a Particular Job 9• Image Storage System 10• Color Flow Imaging 10• 3D Ultrasound Imaging 10• 4D Ultrasound Imaging 10• Volume Imaging 10• Ultrasound Contrast Agents 10• Artifacts in USG Images and their Physical Basis 11• Recent Technical Innovations 11	
Chapter 2. Physics and Machines	13
<i>Rishabh Bora, Narendra Malhotra</i>	
<ul style="list-style-type: none">• Requirements of an Obstetrician 13• Machines Available 14• What to Expect? 14• Assessment 14• Development of Various Types of Transvaginal Probes and the Clinical Evolution 17• Color Flow Imaging in Obstetrics: Understanding its Art, Science, and Technology 17• Conclusion: Ideal Equipment 18	
Chapter 3. Measurements	20
<i>Sakshi Tomar</i>	
<ul style="list-style-type: none">• Measurements in First Trimester 20• Measurements in Second and Third Trimesters 21• Gynecological Measurements 22• Doppler Measurements 23	
Section 2: Obstetrics	
Chapter 4. Obstetric Ultrasound When?	27
<i>R Rajan</i>	
<ul style="list-style-type: none">• Ovum, Embryo, and Fetus 27• Prenatal Implications of the Embryo and Fetus 28• Transvaginal Sonography 28• Detection of Fetal Organ Malformations 30	
Chapter 5. Sonoembryology	32
<i>Rajat Ray</i>	
<ul style="list-style-type: none">• Gestational Sac 32• Yolk Sac 34• Embryo and Cardiac Activity 34• Amnion 34• Musculoskeletal System 34• Placenta 38	

	<ul style="list-style-type: none"> • Umbilical Cord 38 • Dating of a Pregnancy 38 	
Chapter 6. Problems of First Trimester		40
	<i>Bl Patel</i>	
	<ul style="list-style-type: none"> • Guidelines for first Trimester: Minimum Standard for the first Trimester 40 • Sonoembryology 41 • Role of Transvaginal Sonography in Early Pregnancy Loss 41 • Information Provided by First Trimester Ultrasound 41 • Pseudopathology of Embryo 42 • Gestational Sac 44 • Yolk sac 46 • Anembryonic Pregnancy: Blighted Ovum 48 • Missed Abortion 49 • Hydatid Mole: Gestational Trophoblastic Disease 49 • Subchorionic Hematoma 49 • Yolk Sac and Other Biometry Measure for Viability Assessment 52 • Incomplete Abortion 53 • Missed Abortion 56 • Minor Anomalies 56 	
Chapter 7. 11–14 Weeks Scan		64
	<i>Ashok Khurana</i>	
	<ul style="list-style-type: none"> • Statistical Perspective and Natural History of Chromosomal Abnormalities 65 • Parameters for First Trimester Screening 65 • How Screening Protocols Work? 70 • Dysmorphology Diagnosis in the First Trimester 71 	
Chapter 8. First Trimester Biochemical Screening		73
	<i>PK Shah, Neelima Y Mantri</i>	
	<ul style="list-style-type: none"> • Indications 73 • Screening Methods 74 • Biochemical Markers 74 • Nuchal Translucency and Nasal Bone Assessment 75 • Down Syndrome 76 • Advantages of First Trimester Screening 76 • Disadvantages of Biochemical Screening in First Trimester 76 • Various Protocols for First Trimester Screening 76 • Comparison 77 • Conclusion 78 • Newer Trends 78 	
Chapter 9. Transvaginal Ultrasonography in Ectopic Extrauterine Pregnancy		81
	<i>Jaideep Malhotra, Narendra Malhotra, Neharika Malhotra</i>	
	<ul style="list-style-type: none"> • Overview of Sonographic Signs 82 • Color and Pulsed Doppler Sonography for Ectopic Pregnancy 83 • Ultrasound-guided Conservative Management of Ectopic Pregnancy 83 	
Chapter 10. Prenatal Diagnosis in First Trimester		85
	<i>Raju R Sahetya, Ankesh R Sahetya</i>	
	<ul style="list-style-type: none"> • Genetic Counseling 85 • Informed Written Consent and Medical Malpractice 85 • Indications of Prenatal Genetic Diagnosis 86 • Methods of Prenatal Screening and Diagnosis to Determine the Health of the “Unborn” 86 • Typical Screening Sequence 86 • Protocol for Fetal Anatomic Survey with Ultrasound at 11–14 Weeks Gestation 88 • Invasive Techniques 88 • Cytogenetic Chromosomal Studies 90 • Results 91 • Benefits of Prenatal Diagnosis 92 • Ethical and Practical Issues 92 	
Chapter 11. Doppler in Obstetrics: Basic Principles		94
	<i>Alok Sharma</i>	
	<ul style="list-style-type: none"> • Basic Concepts of the Doppler Principle 94 • Doppler Modalities 95 	

Chapter 12. 3D-4D Ultrasound in First Trimester	98
<i>Sonal Panchal</i>	
• Technical Aspects 98	
• Applications of 3D and 4D US in First Trimester 98	
Chapter 13. 3D Ultrasound in Reproductive Medicine	116
<i>Sonal Panchal</i>	
• Uterus 116	
• Adnexa 122	
• Assessment of Tubal Patency 122	
• Infertility 123	
Chapter 14. Trophoblastic Diseases	126
<i>Kazuo Maeda, Asim Kurjak, Gino Varga, Ulrich Honemeyer</i>	
• Classification, Development, and Pathology 126	
• Symptoms of Gestational Trophoblastic Disease 130	
• Diagnosis of Gestational Trophoblastic Disease 130	
• Therapy of Trophoblastic Diseases 139	
Chapter 15. Ultrasound Markers of Chromosomal Anomalies in the First Trimester	144
<i>Ashok Khurana</i>	
• Statistical Perspective and Natural History of Chromosomal Abnormalities 144	
• Parameters for First Trimester Screening 144	
• Overview of Screening Protocols 147	
Chapter 16. Second Trimester Biochemical Screening for Chromosomal Anomalies/Aneuploidy	149
<i>Shantala Vadhiyar</i>	
• Indications and Algorithms for Second Trimester Screening 149	
• Timing of the Test and Markers that are Measured in Maternal Serum 149	
• Interpretation of Results 150	
Chapter 17. Managing Multiple Pregnancy	151
<i>S Suresh, Uma Ram, Indrani Suresh, Shanthi Sairam</i>	
• Assessing Chorionicity: Fundamental First Step in Multiple Pregnancy 152	
• Maternal Problems in Multiple Pregnancy 154	
• Fetal Growth in Twins 157	
• Problems Unique to Monochorionic Diamniotic Twins 158	
Chapter 18. Complications and Management of Monochorionic Twins	162
<i>Akshatha Prabhu Sharma, Anita Kaul</i>	
• Complications Specific to Monochorionic Twin Pregnancies 162	
• Management 170	
Chapter 19. Ultrasound Diagnosis of Fetal Growth Restriction	172
<i>Prashant Acharya, Ashini Acharya</i>	
• Definition of Intrauterine Growth Restriction/Fetal Growth Restriction 172	
• Etiology 173	
• Uterine Artery Doppler Measurement 178	
• Other Fetal Vessels 179	
Chapter 20. Placental Evaluation	182
<i>TLN Praveen, Nozer K Sheriar</i>	
• Placental Development 182	
• Normal Placental Appearance 182	
• Placental Maturation and Grading 182	
• Placental Localization 184	
• Abnormalities of Placentation 185	
Chapter 21. Amniotic Fluid Index	188
<i>Neharika Malhotra, Rishabh Bora</i>	
• Amniotic Fluid Index 188	
• Discussion 189	
• Admission Test 190	
Chapter 22. Management of Fetal Growth Restriction and Fetal Compromise	192
<i>Narendra Malhotra, Jaideep Malhotra</i>	
• Etiology 192	
• Pathophysiology 192	

	<ul style="list-style-type: none"> • Fetal Growth Rates 193 • Diagnosis of Fetal Growth Restriction 193 • Diagnosis of Fetal Compromise or Jeopardy 193 • Tests For Fetal Well-being 194 • Indications of Fetal Well-being Studies 194 • Markers for Fetal Distress Hypoxia 197 • Fetal Oxygenation 197 	
Chapter 23.	Transvaginal Sonography in Cervical Incompetence	200
	<i>PK Shah, Neelima Y Mantri</i>	
	<ul style="list-style-type: none"> • Incidence 200 • Etiology 200 • Classification of Cervical Incompetence 201 • Diagnosis 201 • Types of Sonography Procedures 202 • Management of Cervical Incompetence 206 	
Chapter 24.	Hydrops Fetalis	209
	<i>Prashant Acharya, Ashini Acharya, Hriday Acharya</i>	
	<ul style="list-style-type: none"> • Categories of Hydrops Fetalis 209 • Diagnostic Approach to the Fetus with Hydrops 213 • Neonatal Management of Hydrops Fetalis 214 • Clinical Management 217 • Outcome 220 	
Chapter 25.	Fetal Anomaly Scan Checklist	225
	<i>Kuldeep Singh</i>	
	<ul style="list-style-type: none"> • Measurement/Methodology 225 	
Chapter 26.	Antenatal Assessment of Fetal Well-being	227
	<i>Narendra Malhotra, Jaideep Malhotra, Vanaj Mathur, Sakshi Tomar, Kuldeep Singh JP Rao, Samiksha Gupta, Neharika Malhotra</i>	
	<ul style="list-style-type: none"> • High-risk Patients 228 • Indications for Well-being Tests and Studies 228 • Methods of Fetal Surveillance 228 • Antenatal Fetal Well-being Assessment 235 • Biochemical Tests 239 • Conclusion 239 • Management Protocols for Fetal Growth Restriction 239 • Intrapartum Fetal Monitoring 239 	
Chapter 27.	Doppler Evaluation in Fetal Hypoxia	242
	<i>PK Shah, Neelima Y Mantri</i>	
	<ul style="list-style-type: none"> • Fetal Hypoxia 242 • Doppler Effect 242 	
Chapter 28.	Use of Three-dimensional/Four-dimensional Ultrasound in Obstetrics	253
	<i>Betty Lau, Fang Yang, Teresa Ma, KY Leung</i>	
	<ul style="list-style-type: none"> • Basic Three-dimensional Ultrasound Techniques 253 • Techniques of Three Dimensions 255 • Four-dimensional Ultrasound 256 • Roles of 3D/4D US in Obstetrics 256 	
Chapter 29.	Organ-targeted Ultrasound Scanning	261
	<i>Kuldeep Singh</i>	
	<ul style="list-style-type: none"> • Practical Schematic Analysis for Fetal Abnormalities 262 • Checklist for a Detailed Abnormalities Scan 272 • Things to Remember 272 	
Chapter 30.	Prenatal Diagnosis of Congenital Malformations	274
	<i>Kuldeep Singh</i>	
	<ul style="list-style-type: none"> • Ultrasound Imaging of Fetal Anomalies 274 • Cisterna Magna 275 • Fetal Face 278 • Fetal Spine 280 • Fetal Thorax 281 • Fetal Abdomen 284 • Esophageal Atresia 284 • Fetal Skeletal System 287 	

Chapter 31. Ultrasound Markers of Chromosomal Anomalies	289
<i>Jaideep Malhotra, Ashok Khurana</i>	
<ul style="list-style-type: none"> • Statistical Perspective and Natural History of Chromosomal Abnormalities 289 • Parameters for First Trimester Screening 289 • Overview of Screening Protocols 291 	
Chapter 32. Aneuploidy Assessment in Second Trimester Scan—Soft Markers	292
<i>Pooja Lodha, Anita Kaul</i>	
<ul style="list-style-type: none"> • History 292 • Soft Markers on Genetic Sonogram 293 	
Chapter 33. Fetal Echocardiography	297
<i>Sonal Panchal</i>	
<ul style="list-style-type: none"> • Equipment Settings 298 • Evaluation of the Heart 300 • Study of Internal Cardiac Anatomy 302 • Fetal Circulation 307 • Classification of Cardiac Diseases 308 	
Chapter 34. Antenatal Cardiac Diagnosis, Counseling, and Management	318
<i>Vikas Kohli</i>	
<ul style="list-style-type: none"> • Indications of Fetal Echocardiography 318 • Fetal Cardiac Screening 318 • Timing, Mode, and Place of Delivery 319 • Management of Fetal Arrhythmias 320 	
Chapter 35. Color Doppler and 3D and 4D Ultrasound in Screening for Birth Defects	322
<i>Narendra Malhotra, Kuldeep Singh, Sakshi Tomar, Jaideep Malhotra, JP Rao, Neharika Malhotra</i>	
<ul style="list-style-type: none"> • Screening of Congenital Birth Defects 322 • Role of 3D and 4D Ultrasound 324 • 3D and 4D Ultrasound Equipment and Technique 325 	
Chapter 36. Ultrasonography Role in Perinatal Infection	331
<i>Alaa Ebrashy</i>	
<ul style="list-style-type: none"> • Ultrasound Features in Congenital Infection 331 • Role of Invasive Procedures in the Diagnosis of Intrauterine Infection 334 • Prenatal Management of Specific Congenital Infections Using Ultrasound Markers and Invasive Procedures 334 	
Chapter 37. Fetal Behavior Assessed by 4D Sonography	339
<i>Asim Kurjak, Badrelddeen Ahmed, Berivoj Miskovic, Maja Predojevic, Aida Salihagic Kadic</i>	
<ul style="list-style-type: none"> • Basic Technology of the 4D Sonography in the Assessment of Fetal Behavior 339 • Classification of Movement Patterns 341 • Onset of Specific Fetal Behavioral Patterns Assessed by 3D or 4D Ultrasonography 344 • Fetal Behavior as an Indicator of Disturbed Brain Development 347 	
Chapter 38. Three-dimensional Ultrasound in Obstetrics	362
<i>Asim Kurjak, Milan Kos, Nika Kalogjera</i>	
<ul style="list-style-type: none"> • Modalities of 3D Imaging 363 • Three-dimensional Evaluation of Normal Fetal Anatomy 364 • Volumetry—Organ Volume Measurements 366 • Three-dimensional Assessment of Fetal Malformations 367 	
Chapter 39. Prenatal Diagnostic Techniques	376
<i>Prashant Acharya, S Suresh, Deepika Deka, Prathima Radhakirshnan, Anita Kaul, Narendra Malhotra, Jaideep Malhotra, Ashok Khurana, PK Shah, Mandakini Pradhan, Geeta Kolar, Suseela Vavilala, Chander Lulla, Hema Divakar, Gokul Das</i>	
<ul style="list-style-type: none"> • Training and Registration 376 • The 11–13 + 6 Weeks Scan 376 • The “18–20 Weeks”—Targeted Anomaly Scan 378 • Prenatal Diagnostic Tests 380 • Conclusion 382 • General Principles for Prenatal Diagnosis Programs 382 	
Chapter 40. Rh Negative Mother-Antenatal Management	386
<i>Prashant Acharya</i>	
Chapter 41. Genetics and Pathophysiology of Rhesus Disease	387
<i>Prashant Acharya, Ashini Acharya, Hriday Acharya</i>	
<ul style="list-style-type: none"> • Genetics of the Rh System 387 • Pathophysiology of Rh Disease 388 	

Chapter 42. Rhesus Alloimmunization Management	390
<i>Prashant Acharya, Hriday Acharya</i>	
<ul style="list-style-type: none"> • Diagnostic Approach 390 • Clinical Management 392 • Intravascular Transfusion 393 • Intraperitoneal Transfusion 394 • Outcome 395 	
Chapter 43. Labor Room Protocol for Rhesus Negative Mother	397
<i>Prashant Acharya, Hriday Acharya</i>	
<ul style="list-style-type: none"> • Methods of Assessment for Fetomaternal Hemorrhage 397 • Prophylaxis 398 	
Chapter 44. Fetal Abdominal Wall Defects	401
<i>Sudheer Gokhale</i>	
<ul style="list-style-type: none"> • Pathogenesis 401 • Sonography of Fetal Abdominal Wall 401 • Gastroschisis 402 • Omphalocele 403 • Thoracoabdominal Syndrome, Pentalogy of Cantrell 404 • Omphalocele—extrophy—Imperforate Anus—spinal Defects Complex 405 • Limb-Body Wall Complex and Amniotic Band Syndrome 407 	
Chapter 45. Sonography of Fetal Chest Anomaly	409
<i>Sudheer Gokhale</i>	
<ul style="list-style-type: none"> • Pleural Effusion 409 • Congenital Pulmonary Airways Malformation 410 • Congenital High Airways Obstruction 412 • Congenital Diaphragmatic Hernia 413 	
Chapter 46. Diagnosis of Fetal Anemia	416
<i>Babu S Patel</i>	
<ul style="list-style-type: none"> • Pathophysiology 416 • Diagnosis 416 	
Chapter 47. Fetal Monitoring in Labor: Diagnosing Fetal Distress in the Indian Scenario	420
<i>Jaideep Malhotra, Ajay S Dhawle, Narendra Malhotra, Neharika Malhotra</i>	
<ul style="list-style-type: none"> • Fetal Physiology in Labor 420 • Intermittent Auscultation 421 • Continuous Electronic Fetal Monitoring 422 • The Admission Cardiotocograph 425 • Fetal Pulse Oximetry 426 • Fetal Scalp Blood Sampling 427 • Fetal Scalp Lactate 427 • Fetal Scalp Stimulation 428 • Fetal Electrocardiogram: ST Waveform Analysis 428 • Umbilical Cord Blood Gases 429 • Indian Scenario 429 	
Chapter 48. Prediction of Preeclampsia	432
<i>Ranjit Akolekar</i>	
<ul style="list-style-type: none"> • Maternal Characteristics and Obstetric History 432 • Biophysical Markers 433 • Biochemical Markers 434 • Screening for Preeclampsia in the First Trimester 435 	
Chapter 49. Prediction of Preterm Labor by Ultrasound Cervical Length	438
<i>Anu Vij</i>	
<ul style="list-style-type: none"> • Early Diagnosis of Preterm Labor 438 • Evaluation of Cervical Length by Ultrasound 438 • Cervical Length: Multiple Pregnancies 439 • Measurement of Cervical Length 440 • Lower Uterine Segment Contraction 442 • Cervical Funneling: An Independent Predictor of PTD? 442 	

Section 3: Gynecology

Chapter 50. Normal Pelvic Anatomy and Gynecologic Ultrasound	449
<i>Amar R, Pratap Kumar, Prashanth Adiga, Ashwini V</i>	
<ul style="list-style-type: none"> • Transabdominal Sonography vs Transvaginal Sonography 449 • Methodology 449 • Orientation and Basic Scanning Maneuvers 450 • Relevant Pelvic Anatomy 451 	
Chapter 51. Ultrasonography in Gynecology	456
<i>Narendra Malhotra, Jaideep Malhotra, Sakshi Tomar, Neharika Malhotra, JP Rao, Rohit Jain</i>	
<ul style="list-style-type: none"> • Normal Female Pelvis 456 • Ultrasound of the Uterus 458 • Diseases of Cervix 468 • Vagina 468 • Ovarian Sonography 468 • Gestational Trophoblastic Disorders 477 • Pelvic Kidney 477 	
Chapter 52. Ultrasound of Cervix	479
<i>Neharika Malhotra, Amreen Singh</i>	
<ul style="list-style-type: none"> • Cervical Pathology 480 • Measurement of Cervix 483 	
Chapter 53. Chronic Pelvic Pain	486
<i>Rohit Jain</i>	
<ul style="list-style-type: none"> • Gynecological Chronic Pelvic Pain 487 • Approach to a Patient with Pelvic Pain 490 	
Chapter 54. Ultrasonography of the Adnexal Masses	494
<i>Sakshi Tomar</i>	
<ul style="list-style-type: none"> • Ovaries 494 • Fallopian Tubes 494 • Ovarian Sonography 494 	
Chapter 55. 3D and 4D Ultrasound of Female Pelvis	503
<i>Sonal Panchal</i>	
<ul style="list-style-type: none"> • Technical Aspects 503 • Standardization of Image 504 • Uterus 505 • Adnexa and Ovaries 514 	
Chapter 56. Malignancies of Pelvis	523
<i>Juan Luis Alcázar</i>	
<ul style="list-style-type: none"> • Endometrial Cancer 523 • Uterine Leiomyomas and Sarcomas 528 • Cervical Cancer 533 • Adnexal Tumors 536 	
Chapter 57. Ultrasound in the Postmenopause	547
<i>Martina Ujevic, Biserka Funduk Kurjak, Boris Ujevic</i>	
<ul style="list-style-type: none"> • Challenges of the Postmenopause 548 • Instrumentation 548 • Scanning in the Postmenopause 548 • Postmenopausal Ovary 549 • Postmenopausal Uterus 554 • Postmenopausal Endometrium 557 	
Chapter 58. Ultrasound of Menopausal Pelvis	565
<i>Narendra Malhotra, Kuldeep Singh, Jaideep Malhotra, Neharika Malhotra, Rishabh Bora</i>	
<ul style="list-style-type: none"> • Normal Endometrium in Menopause 565 • Postmenopausal Bleeding 566 • Endometrial Fluid Collections 566 • Myometrium in Menopause 566 • Normal Atrophic Ovary 567 • Ovary and Ovarian Cancer Screening 567 	

Section 4: Infertility

- Chapter 59. Evaluation of Female Infertility** 573
Chaitanya Nagori
- Baseline Scan 574
 - Ovaries 574
 - Uterus 578
- Chapter 60. Sonosalpingography** 585
Narendra Malhotra, Jaideep Malhotra, Sakshi Mittal, Neharika Malhotra
- Chapter 61. Ultrasound for Cervical Factor Infertility** 588
Shashi Gupta, Sumit Gupta, Pradeep Kumar Gupta
- Cervical Mucus 588
 - Postcoital Test or Sims–Huhner Test 588
 - Role of Ultrasound 589
- Chapter 62. Transvaginal Sonography in Infertility** 595
Narendra Malhotra, Sakshi Tomar, Jaideep Malhotra, JP Rao, Neharika Malhotra, Rishabh Bora, Keshav Malhotra
- Ultrasound Assessment of the Male Partner 595
 - Assessment of the Female Reproductive Tract 597
 - Ovarian Evaluation by Ultrasound 604
 - Role of Transvaginal Color Doppler in Infertility 607
 - Role of Transvaginal Color Doppler in Other Conditions Associated with Infertility 607
 - Ultrasound-Guided Assisted Reproductive Techniques 608
- Chapter 63. Ectopic Pregnancy—No Longer An Enigma** 610
Narendra Malhotra, Jaideep Malhotra, PK Shah
- Investigations 610
 - Medical Management 610
 - Surgical Management 611
 - Future Fertility 611
- Chapter 64. Magnetic Resonance Imaging of the Female Pelvic Region** 613
Mary C Olson, Harold V Posniak, Clare M Tempany, Christine M Dudiak
- Technique 613
 - Normal Anatomy 613
 - Abnormalities of the Female Pelvic Region 615
 - Tumor Recurrence Versus Fibrosis 629
 - Other Pathologic Conditions 629

Section 5: Interventional Procedures

- Chapter 65. Genetics for Obstetricians** 637
Mandakini Pradhan
- What Are Genetic Diseases? 637
 - Cell Division and its Importance 638
 - Clinical Aspects of Chromosomal Abnormality 638
 - Clinical Aspects of Multifactorial Disorder 639
- Chapter 66. Risks of Prenatal Diagnostic Procedures: Present Scenario** 641
Dipika Deka, Mrinalini
- Risks of Prenatal Diagnostic Procedures 641
 - **Pretest Counseling for Prenatal Diagnostic Procedures** 642
 - Complications of Amniocentesis 642
 - Cordocentesis 643
 - Chorionic Villus Sampling 644
- Chapter 67. Gynecological Interventional Procedures** 646
- **2D and 3D Saline infusion sonography and Hystero-contrast-salpingography** 646
Sanja Kupesic Plavsic, Branko M Plavsic
 - Ultrasound Assessment of the Uterus and the Fallopian Tubes 647
 - Three-dimensional Hystero-contrast-salpingography 654
 - **Guided Procedures Using Transvaginal Sonography** 658
Sanja Kupesic Plavsic, Nadah Zafar, Asim Kurjak
 - Transvaginal Puncture Procedures 659
 - Conservative Management of an Ectopic Pregnancy 663
 - Other Applications 665

Section 6: Radiology

- Chapter 68. Radiology in Obstetrics and Gynecology** **671**
Satish K Bhargava, Sudhanshu Bankata, Shifali Gupta, Mukta Jain, Rishabh Bora
- Obstetrics Radiology 671
 - Fetal Abnormalities 672
 - Pelvimetry 674
 - Radiation Hazard 677
 - Plain Radiographs of the Abdomen 677
 - Role of Plain Radiographs in Specific Gynecological Conditions 679
 - Role of Intravenous Urography in Gynecology 680
 - Role of Cystography 680
 - Barium Enemas 680
 - Lymphangiography 680
 - Angiography 681
 - Vaginography 681
 - Pneumogynecography 681
 - Hysterosalpingography 682
 - Normal Radiological Anatomy 683
 - Hysterosalpingography Appearances 684
- Chapter 69. CT and MRI in Obstetrics and Gynecology** **691**
Nitin P Ghonge, Sanchita Dube Ghonge
- Imaging in Obstetrics and Gynecology: An Overview 691
 - Magnetic Resonance Imaging in Obstetrics 693
 - CT and MRI in Gynecology 702
 - Radiation Concerns in Diagnostic Imaging 719
 - Newer Gynecologic Applications of MRI—Diffusion-Weighted MRI 720
- Chapter 70. Endoscopic Ultrasound** **725**
Pranay R Shah
- Instrumentation 725
 - Techniques 726
 - Clinical Applications 726
- Chapter 71. Imaging of the Breast** **727**
Meeta Kulshreshtha
- Mammography 727
 - Breast Ultrasonography 732
 - Breast Magnetic Resonance Imaging 734
 - Molecular Breast Imaging (Scintimammography) 736
 - Positron Emission Tomography 736
 - Electrical Impedance Imaging (T-Scan) 737
 - Thermography (Thermal Imaging) 737
 - Optical Imaging 737
 - Ductogram (Galactogram) 738
- Chapter 72. Magnetic Resonance Imaging: How to Use it During Pregnancy?** **739**
Ichiro Kawabata, Yuichiro Takahashi, Shigenori Iwagaki
- Safety of Magnetic Resonance Imaging 739
 - Indication and Procedures for MRI During Pregnancy 739

Section 7: Miscellaneous

- Chapter 73. FOGSI Imaging Science Committee: Training Guidelines** **751**
 - Guidelines for Recognition of the Center 751
 - Theoretical Training Program 751
 - Practical Training 753
- Chapter 74. Prenatal Diagnostic Techniques Act—Salient Features** **755**
RN Goel
- Why this Act 755
 - Prenatal Diagnostic Techniques 755
 - Registration of Genetic Counseling Center, Genetic Laboratory, Ultrasound Clinic, and Genetic Clinic 759
 - Central Supervisory Board 760
 - State Supervisory Board 760

- Appropriate Authority and Advisory Committee—As Per Rule 17 760
- District Advisory Committee 760
- Appropriate Authority 760
- Offences and Penalties 761
- Duties of Registered Center 761
- Search 762

Chapter 75. Fetal Rights

776

Reena J Wani, Niraj Mahajan

- Fetal Rights 776
- Fetal Protection in Law 777
- Abortion in India 778
- Drug Use by the Mother 779
- Behavioral Intervention 779
- Forced Cesarean Sections 780
- Forcing Pregnant Women to Do As They are Told: Maternal Versus Fetal Rights 781
- Research Issues 781
- Future of Fetal Rights 782

Chapter 76. Ultrasound and Consumer Forum

784

Reena J Wani

- Competence 784
- Disclosure 785
- Routine Prenatal Screening 785
- Hazards of Interventional Ultrasound 785
- Legal Redressal 787

Chapter 77. Legal Aspects of Obstetric Ultrasound

789

Narendra Malhotra, Kuldeep Singh, Jaideep Malhotra

- Medical Malpractice 789
- Legal Actions in Diagnostic Ultrasound 790
- Medical Malpractice Claim 791
- Statistics on Malpractice 793
- Standards of Care 793
- Training Parameters in Ultrasound in Obstetrics and Gynecology 794
- Who Can Conduct Obstetrical Ultrasound (Prenatal Diagnostic Test) 796
- Advanced Antenatal Practice 797
- Sonography-related Issues 800
- Countersuit 800
- What to do if You are Sued? 801
- Law and Ultrasound and Medical Termination of Pregnancies 802
- Pre-1971 Laws on Abortion: Section 312–316 of the IPC, 1860 802
- Suggestions for Better Implementation of the Law 803

Appendices

1. Language of Ultrasound: Recommended Terminology for Ultrasound 809
2. History of Ultrasound 831
3. Performance of Antepartum Obstetrical Ultrasound 833
4. ACR-ACOG-AIUM-SRU Practice Guideline for the Performance of Obstetrical Ultrasound 835
5. AIUM Practice Guideline for the Performance of Obstetric Ultrasound Examinations 843
6. Thomas Jefferson University Protocols for Ultrasound Procedures 850
7. ICOG Diploma in Obstetric and Gynecological Ultrasound 856

Index
