prices. This month, we are introducing our brand new line of METTLER silk finish, 100% cotton quilting thread, in 36 luscious colors, and also at discount prices. Sales of the Country Quilterie's own brand of exquisitely handcrafted quilts, introduced last month and made right here in Effort, Pennsylvania by the Country

Quilterie's own quilts, has been a big hit with local residents and tourists alike. Please stop in. You

cannot beat the price and quality of these custom made, one of a kind quilts. Until next month,

may your bobbin always be full, and may all your ups and downs be with a needle and thread!

## Carol's Healthy Kaffe Class

Carol's Healthy Kaffe is on a mission to empower those who are ready to take back their health! To give nontoxic weapons of nature to those who do not want to be helpless in the face of family history or the environmental toxic influences that are cat-

alysts in the increase of diseases such as cancer, diabetes, obesity, metabolic syndrome, dementia, and to name a few.

On July 13, we will start with an overview of some causes and concerns and possible remedies combining products from Sisel

International and the services offered at Sue's Massage. What if with knowledge of the enemy of good health you could enter the battle and change your life? Would that be of value to you? What price would you put on living a full vibrant life? Is it even important to you? If it is, are you willing to... Please join us on Monday, July 13th

at 6 p.m. for Carol's Healthy Kaffe Class at Sue's Massage, 447 Blue Valley Drive on

Route 512 in Bangor, next to Visiting Nurses. Call 610-703-2341 to reserve your spot.

## Quiet Valley's Music In The Valley

On Saturday July 11 from 10:00 a.m. to 5:00 p.m. Quiet Valley Living Historical Farm is the place to be to enjoy the sounds of traditional music. Supported in part by a Project Stream grant from the Pennsylvania Council on the Arts, the ninth annual "Music in the Valley" will feature musical performances at various locations around the historic farm, reminiscent of how it would have been heard in the 19th century.

A variety of groups will perform at the different venues and the day will end with a jam session at 3:30. As well as performances throughout the day, there will be hands-on sessions to provide visitors with an opportunity to take a closer look at the music and maybe even try a featured instrument. There will be a sing-a-long, storytelling and activities for children and the young at heart! Puppeteer, Bonnie Scott, will hold puppet shows throughout the day and the One Room School will take place, weather permitting.

There will be a seminar on traditional music presented by Norm Williams, Tom Druck-

enmiller, and Betty Druckenmiller. A wonderful opportunity to learn the background of songs you still know and love and how the music of our country developed through the last two centuries.

The event will be held rain or shine, under tents as needed. Schedule is subject to

change. Music in the Valley is included in the price of admission for the historic farm tour of \$10.00 for adults and \$5.00 for ages 3 - 12. The farm tours will run on Saturday from 10:00 to 5:00. Great fun for all ages, so come for a few hours or bring a picnic lunch make a day of it.

All funds raised goes to support the farm museum and its mission.

Quiet Valley Living Historical Farm is a

501(c)(3) non-profit educational corporation dedicated to the preservation and interpretation of the 19th century Quiet Valley

farmstead, as part of Pennsylvania's rich agricultural heritage.

For further information visit our website at www.quietvalley.org or call the farm at 570.992.6161.

## Godlewsky Farms

Godlewsky Farms and Greenhouses is a grower's paradise! We are producers and growers of horticultural products, agricultural products, and sod on a 150+ acre lot. In our horticultural division we grow bedding plants, perennials, vegetable plants, and flowering hanging baskets. Agriculturally, we specialize in the production of product crops and small shrubs. Also, we are sod producers. One of the unique experiences you will encounter when visiting Godlewsky's is the ability to wander through our 42+ greenhouses and hand select the plants and hanging baskets. We also have a nice selection of nursery stock

to meet your gardening and landscaping needs.

The weather has gotten beautiful and winter is a thing of the past! That means it is a perfect time to come down and get some beautiful flowers to put a pop of color in your yard. Starting June 6th, we will be having sales. Please see our ad for the specifics.

We are family owned and operated

since the 1930s and are open for business most of the months of the year. We grow our products with educational knowledge, as well as the experience handed down through generations.

## Four Steps To A Neater House And More Free Time

(NAPSA)-New research by UCLA-affiliated anthropologists found that most American families are overwhelmed by clutter and can't even find room to park their cars in the garage because of all the stuff they've stuffed in there.

Fortunately, whether it's spring-cleaning

if you follow these four simple steps from home organization experts:

1. Get The Kids Involved: Make house-cleaning more like a fun challenge. List all the chores that need to be done. Pick the ones Continued on Page 13

that are age appropriate-organizing a bookshelf, hanging things in the closet, fluffing sofa pillows and so on-and write them down on slips of paper or post them on a wall. Roll a pair of dice to see who gets to pick first, and have everyone (parents included) choose a chore. This will give the kids some autonomy and they may be more willing to pitch in.

2. Tackle One Room At A Time: If you haven't a lot of time to straighten up and clean the whole house,

Around: A well-organized kitchen and laundry room are easier to keep neat and less daunting to keep clean.

One help can be a refrigerator with a separate, convenient door within a door that's accessible from both the inside and from the outside with a simple push of a button, such as the LG 4-door double "Door-in-Door" fridge. The design makes it easier to load often-used items, such as snacks, drinks, lunches and more, so you don't

have to stop for very long to fuel up when you need it. The other side provides additional storage space easily accessible via a trigger on the bottom of the door for more convenience and bet-

ter organization. That means your food stays front and center, while the reduction in cold air loss helps keep it fresher longer.

In the laundry room, you can have a dryer with dual-open-

ing options, like the LG EasyLoad dryer,

ets where turfgrass struggles, a difficult slope where mowing is difficult or another unusual situation, a ground cover can work wonders. Many ground covers don't like to be walked on, but a few, such as creeping thyme or brass but-

to sunny area, try the three-part Forever & Ever® GroundCover Sedum Carpet Collection. Golden foliage and flowers from Angelina, bronzy-red leaves and red flowers from Red Carpet and rich green foliage and yellow flowers from Kamschatium sedum will light up the space. Many sedums, including John Creech, Sedum divergens, Blue Spruce and Ogon, serve as reliable and beautiful ground covers whose stems can be left for months to provide winter interest. Just clip or break off the old dry stems in early spring before new growth starts.

Ornamental grasses, which come in various heights and shapes, work well in sunny spaces. In partial to full sun, try a silver-veined winter creeper called Wolong Ghost, a type of spreading euonymus that just needs regular water to stay looking fresh.

Vinca minor, a stalwart ground cover for shade, gets a makeover with "Merlot."

Instead of the traditional blue flowers, you'll get burgundy flowers in spring. Or seek out "Double Bowles" vinca minor, with a ruffle of extra petals in a lighter shade of violet. All these tough ground covers are available at home and garden centers. Spreading perennial ground covers don't come entirely without

maintenance, but they require much less care than the time it takes

to fertilize and mow your lawn.

This honor is given to a business in our township for their outstanding beautifying of their property. Previous winners not only had a clean, well-kept property, but also planted a host of different beautiful annual flowers. Remember, an attractive business, attracts business!

A big thank you to the Flower Tent in Brodheadsville, for the donation of flowers for the barrels in front of the municipal building. They are gorgeous. PIC is extremely thankful for our dedicated members, who join us year after year. We also appreciate our township residents who not only cleanup in front of their properties,

but also their neighborhoods. In addition, a thank you to Bernie Kozen and the park committee, Jim Hartzler of the Pohoqualine Fish Association and

Larry Daricek for their efforts, in the quest to keep our township, clean and green.

Our next meeting will be on Thurs., Sept. 10, 7pm at the Chestnuthill Twp. Municipal Building.

### Your Key to a Long Lasting Car

(NAPSA)-Basic car care is the key to a long-lasting vehicle, and to improving its safety and dependability.

Ten basic maintenance procedures can help keep your car operating at its best for the long haul:

1. Check all fluids (engine oil, power steering, brake, transmission, windshield washer solvent, anti-freeze and coolant).

2. Check the hoses and belts to make sure they're not cracked, brittle, frayed, loose or showing signs of excessive wear.

3. Check the bat-

tery and replace if necessary. Make sure the connection is clean, tight and corrosion-free.

4. Check the brake system annually and have the brake linings, rotors and drums inspected at each oil change.

5. Inspect the exhaust system for leaks, damage and broken supports or hangers if there's an unusual noise. Exhaust leaks can be dangerous and must be corrected without delay.

6. Schedule a tune-up to help the engine deliver the best balance of power and fuel economy and produce the lowest level of emissions.

7. Check the heating, ventilating and a/c (HVAC) system as proper heating and

cooling performance is critical for interior comfort and for safety reasons (defrosting).

8. Inspect the steering and suspension system annually including shock absorbers, struts and chassis parts such as ball joints, tie-rod ends and other related components.

9. Check the tires, including tire pressure and tread. Uneven wear may indicate the need for wheel alignment. Tires should also

be checked for bulges and bald spots.

10. Check the wipers and lighting so you can see and be seen. Check that all interior and exterior lighting is working properly and replace worn wiper blades so you can see clearly when driving during precipitation.

"Neglected vehicle care almost always means much higher costs down the line in the form of more extensive repairs or lost resale value," said Rich

White, executive director, Car Care Council. "Following a routine maintenance program makes financial sense, extending useful vehicle life and helping avoid costly repairs down the road."

The Car Care Council is the source of

information for the "Be Car Care Aware" consumer education campaign promoting the benefits of regular vehicle care, maintenance and repair to consumers.
