

SHEET METAL

ARLEN NESS

ARLEN NESS WRAPPER FRONT FENDERS

These front fenders perfectly follow the contour of your 21, 23 or 26 in. front wheel for a clean custom look. New carbon fiber composite fender is constructed from a proprietary blend of carbon fiber and composite materials for the best strength-to-weight ratio available. Standard wrapper fenders are constructed from high-quality fiberglass that are treated over a wide heat range for durability and strength. Approximately 8 lbs. less than most similar steel fenders. Direct bolt-on design, no drilling, no expensive fender spacer and no bodywork necessary.

- Carbon fiber composite fenders are ready to clear-coat or paint
- Standard fenders are ready to scuff and paint

Standard Composite

EXCLUSIVE

ROLAND SANDS DESIGN® TRACKER REAR FENDER KIT

Clean and effective, the RSD Tracker Fender Kit greatly simplifies and lightens the back end of your Softail, in looks and weight. The RSD steel fender struts are first machined then bent to avoid the flat plate look. Our rear fender is bobbed for a tight fit to your rear tire. Easy and simple installation takes the guessing out of how to bob your Softail.

- Direct bolt-on to HD Softails (except Rocker)
- 3/8 in. thick 1018 steel struts
- 7 in. and 9 in. fender made from 1018 steel and available in raw finish only
- Rear fender and struts available separately
- Quality sheet metal work requires minimal preparation for paint

ARLEN NESS FLT FIBERGLASS FENDER KITS

Bagger-Tail™ and Duck-Tail™ fenders are a direct replacement for the factory fender. Pre-drilled bolt-on fenders give your bike a clean unique look while filling in the gap between the fender and saddlebags. Fenders can be used with either a stock width rear tire or up to a 200mm tire with a wide tire conversion kit. Includes a Ness/RWD license/taillight assembly with turn signals that plug into the factory harness and fender mounting bracket. The manufacturer recommends using the Bagger-Tail™ fender kit with either saddlebag extensions or "Big Bags" (Item Number 263118) and using the Duck-Tail™ fender kit with stock saddlebags.

MUSTANG™ FENDER BIB

Unique and stylish way to cover the rear fender when converting from the two-up to a solo seat. Constructed of marine-grade vinyl and backed with felt, it will last for years and not harm your paint job. Plain finish, this bib will match your stock, a Mustang® or any other seat. Uses the existing seat mounting hardware and fits perfectly to the contour of the fender for no gaps.

NEW!

HOPNEL™ UNIVERSAL REAR FENDER BRA FOR TRIKES

Based on dealer and consumer feedback, Hopnel™ has updated its fast-selling Black Classic Trike Rear Fender Bra to include two choices of mounting. The screw in snaps are now optional. While snaps add a decorative flare, they are supplemented by a full width hook and loop alternative that goes across the top. Choose the adhesive backed loop for attachment to your bike or the snaps provided, or use both. These Trike Rear Fender Bras absorb the scuffs, scrapes, and scratches that plague the front of most rear trike fenders. Embedded steel straps wrap to the bottom of the fenders and two snaps or hook-and-loop hold the top. Fits most Trike rear fenders without flares, such as Motor Trike, Champion, Lehman, Hannigen, California, Roadsmith and Harley®.

- Measures 11" x 8-3/4"

P/N	Retail

KURYAKYN® TRIKE REAR BUMPER FOR V-TWIN

Dress up your H-D® Trike bumper brackets with these awesome chrome accents. Not only do these accents cover the welds where the brackets are attached to the tubing, they add a hint of dimensional chrome that everyone will notice. These chrome-plated beauties are fitted with molded-rubber inserts to ensure a snug, secure fit; say no to flat and boring, and say hello to chrome.

PRO-ONE™ MINI-REGISTRATION HOLDER

Conveniently stores your registration behind your license plate holder. Works great on Harley-Davidson® and Metric Cruiser applications.

- Adjustable brackets mount to the rear of most stock license plate assemblies
- Available in upright or lay-down style
- The lay-down style can be mounted in the "up" or "down" position as shown below
- The lay-down style Registration Holder will also work for most "upright" installations
- The hardware mounts through the front of the license frame
- The end caps on the tube are sealed with o-rings to insure a water-tight seal
- The length of the tube is 4.5 in.
- The tube is constructed of polished stainless steel
- The brackets are machined from 6061-T6 billet aluminum, then polished and chrome plated
- Includes all necessary mounting hardware

ARLEN NESS GAS CAPS FOR V-TWIN

Ratchet design provides proper torque and design alignment. Available in vented, non-vented, and dummy with LED fuel gauge applications, they feature dummy and LED fuel light caps that fit tanks originally equipped with fuel gauges. LED caps are user-programmable to light LED at any pre-set fuel level to help ensure you don't run out of gas.

- All gas caps sold individually

KURYAKYN

KURYAKYN® "THE INFORMER" LED FUEL AND BATTERY GAUGE

A perfect match to Kuryakyn®'s flush-mount gas caps.

- Replaces the difficult to read stock fuel gauge
- Sleek, low-profile design
- Incorporates both a LED fuel gauge and a LED battery gauge
- Color-coded LEDs make them readable at a glance from the seat
- Replacement stock fuel gauge on 94-15 Road King; 00-15 Softail; 91-15 Dyna; 88-94 FXR
- A daylight sensor automatically adjusts the brightness of the LEDs
- LED lights are bright during the day and dim at night
- The fuel gauge has a string of color coded LEDs to indicate fuel level
- The battery gauge is an array of LEDs that indicate the operating voltage of the bike's electrical system
- Various color-coded LEDs indicate safe operating range, bike is not charging or impending stall

KURYAKYN

419223

KURYAKYN® FUEL DOOR GPS/ACCESSORY MOUNT

This mount replaces the hinged fuel door on FLHT models to provide a stable and easily accessible place to mount a GPS, satellite radio or other personal electronic device. The bracket angle is easily adjustable and it accepts almost any device that utilizes a cradle with the industry standard four hole AMPS pattern; it is also notched to accept items like MP3 players, cellphones or just about anything with a belt clip.

SHEET METAL

PINGEL® CHOPPER FUEL VALVE

Designed for exceptional fuel flow to feed the thirstiest of big inch engines on motorcycles that have the custom fuel tanks that are raised high in the front.

- CNC-machined from a solid piece of billet brass and finished with show quality chrome
- Allows the builder to keep the bottom of the tank clean from fuel lines
- Compact design measuring 1-1/2" H x 2" L x 1-3/8" D
- Hose bars are 5/16 in.
- Requires two hoses to be routed from the fuel tank, one for the on position and one for the reserve position
- Made in USA

P/N	Retail
497712	228.95

PINGEL® POSITIVE OFF DETENT FUEL VALVES

Substantially higher fuel flow compared to O.E.M. or aftermarket fuel valve. Round detent valves with levers with positive stops for the on and reserve and a detent for the off in the center position. Valves feature a brass body with show quality chrome-plating.

- 22 mm adaptor nut included
- Patent pending
- Made in USA

BAKER™ PLUS 1 OIL PAN

Designed with 3D solid modeling to increase pan capacity by one quart. Reduces engine oil temperature by 10° on a 80° day. The feed and return on a stock pan are located within 2 in. of each other in the front of the pan; plus one pan has the feed located in the rear and the return in the front for more complete system circulation. Multiple integral aluminum baffles eliminate the stock plastic baffle.

- One-piece cast black or silver finishes
- Includes plugs, gaskets and hardware

GOODRIDGE

GOODRIDGE V-TWIN UNIVERSAL OIL LINES

Developed with the professional builder or do-it-yourselfer in mind, this high-end, yet affordable, product range simplifies installation work and adds great looks to any bike.

- Universal oil lines are available in various lengths with female chrome swivel fittings, which fit the universal oil adaptors to assemble complete V-Twin oil lines
- Oil lines feature premium stainless steel braided hose with a PTFE liner and the female swivels and adaptors are crafted from show-quality chrome steel
- One-year manufacturer's warranty
- Oil line lengths are determined by measuring the distance between the flares of the female swivel fittings. To simplify measurements you can deduct 2 in. from overall measurement of the hoses.
