

# Shelly Cashman: Microsoft Windows 10

## Module 1: Introduction to Windows 10

# Objectives (1 of 2)

---

- Describe Windows 10
- Explain the following terms: app, operating system, server, workstation, and server
- Differentiate among the various editions of Windows 10
- Use a touch screen and perform basic mouse operations
- Run Windows 10 and sign in to an account
- Identify the objects on the Windows 10 desktop
- Run an app
- Navigate within an app

# Objectives (2 of 2)

---

- Run the File Explorer
- Switch between apps
- Customize the Start menu
- Search for an app or a file
- Install an app
- Use the search box
- Add reminders
- Sign out of an account and shut down the computer

# What is Windows 10? (1 of 3)

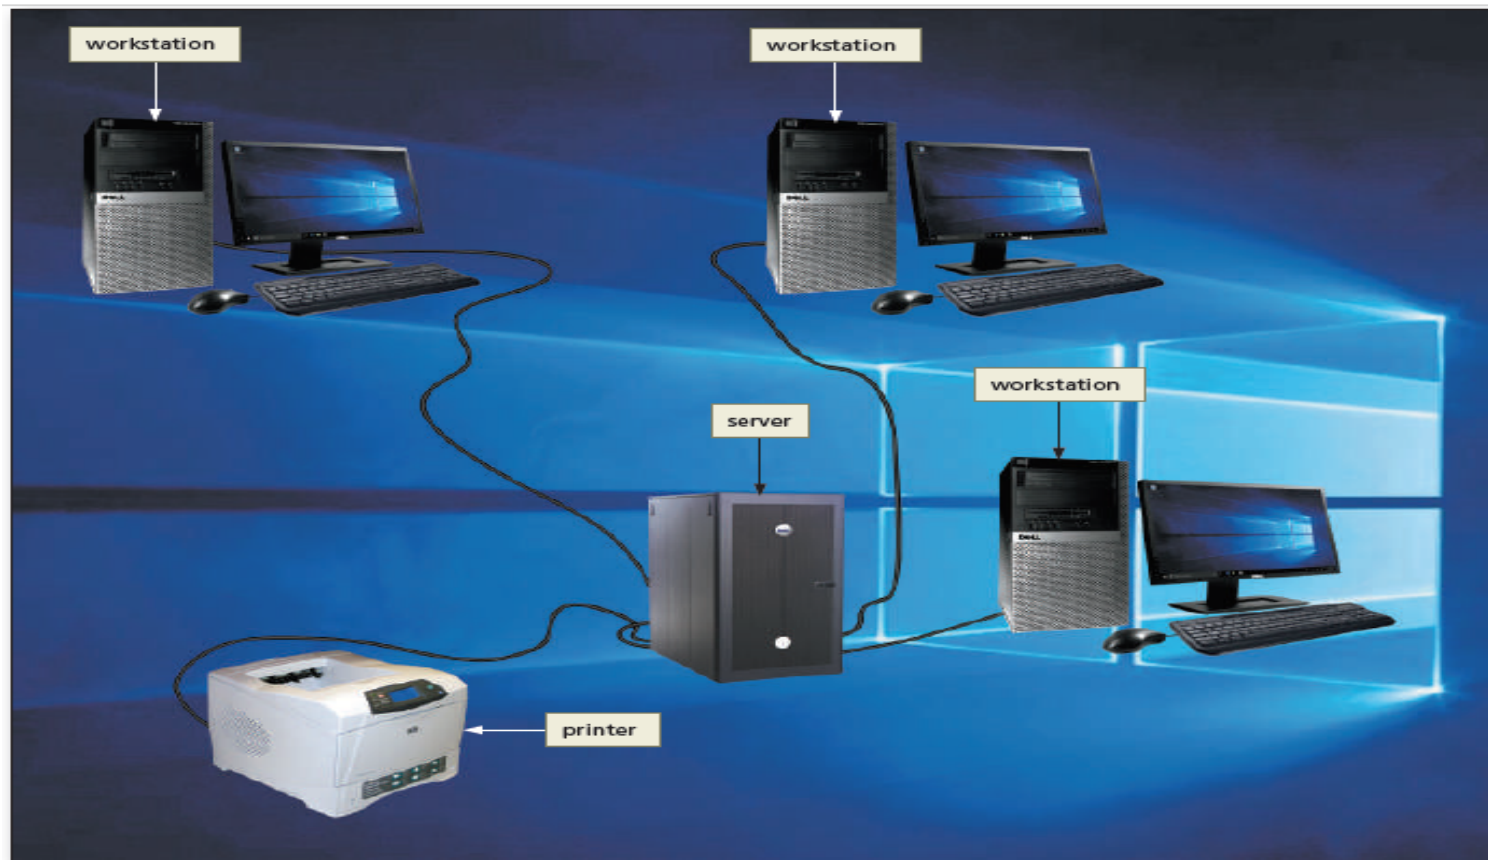

---

- An **operating system** is a computer program (set of instructions) that coordinates all the activities of computer hardware, such as memory, storage devices, and printers, and provides the capability for you to communicate with the computer
- **Windows 10** is the newest version of Microsoft Windows
- An **app** is a program that makes users more productive or assists with personal tasks

# What is Windows 10? (2 of 3)

- Windows 10 is commonly used on desktops, laptops, and workstations

# What is Windows 10? (3 of 3)

---

- The **Internet** is a worldwide group of connected computer networks that allows public access to information about tens of thousands of subjects and gives the users the ability to use this information, send messages, and obtain products and services.
- An **intranet** is an internal network that uses Internet technologies.

# Multiple Editions of Windows 10

---

- Windows 10 Home
- Windows 10 Pro
- Windows 10 Enterprise
- Windows 10 Education
- Windows 10 Mobile
- Windows 10 Mobile Enterprise

# Navigating Using Touch or a Mouse (1 of 4)

- Using a Touch Screen

**Table 1-1 Touch Screen Gestures**

Motion	Description	Common Uses	Equivalent Mouse Operation
	Quickly touch and release one finger one time.	Activate a link (built-in connection). Press a button. Run a program or an app.	Click
	Quickly touch and release one finger two times.	Run a program or an app. Zoom in (show a smaller area on the screen, so that contents appear larger) at the location of the double-tap.	Double-click

# Navigating Using Touch or a Mouse (2 of 4)

- Using a Touch Screen

**Table 1-1 Continued**

Motion	Description	Common Uses	Equivalent Mouse Operation
	Press and hold one finger to cause an action to occur, or until an action occurs.	Display a shortcut menu (immediate access to allowable actions). Activate a mode enabling you to move an item with one finger to a new location.	Right-click
