The Chicago, Rock Island and Pacific, the Atchison, Topeka and Santa Fe, the Missouri Pacific and other companies already control ling thousands of miles of road are pushing new work rapidly, and have arranged for all the money they need for the extension of their systems. The South and Southwest are

the great seats of operations at present and are fast usurping the position once occupied by the West and Northwest, which are now building roads with a view to future requirements rather than to present needs. In the South, especially, Northern capital has in-

fused life into various branches of trade and industry to a degree that is altogether un-precedented. Ther, is a growing demand for additional roads to assist in the movement not alone of the crops but also of minerals, which have come to the front as a leading factor in the development of that part of the

factor in the development of that part of the country. The great strides made by Birmingham, in Alabama, have paved the way for an error of the proble of the South such as they have tever known before. The importance of the present activity in radroad construction cannot be overestimated. It is giving employment to an army of men, and indirectly, the iron, steel, lumber and other leading interests are feeling the effect. With the lines pushing into new territory there need be no fear that the immigration provides on the labor situation. That was \$700 a lecture. The bureau cleared \$3,000. He went as far as Chicago. In 1573 I took him person-ally. A FAMOUS DETECTIVE. James Jackson, the famous State de-tective, resides in Sing Sing, and is gen-erally in attendance at the pr son. His duties are to examine carefully the face of every convict as he enters, and to scrutinize every visitor in order to pre-vent any discharged convict seeing his pals. Occasionally he has to make long journeys in pursuit of runaway told twice. Then I became curious, and hunted up the official reports made by this officer. I found that if he saw the Monitor and Merrimac in that battle his field-plass was a most powerful one. Henever saw the Mon-itor and Merrimac fight, but was at erally in attendance at the pr son. His dottes are to examine carefully the face of every convict as he enters, and to pals. Occasionally he has to make long journeys in pursuit of runaway prisoners or to identify criminals con-victed in other states. He never makes Falls Church the day of the battle, if his own reports are to be believed. There is a good deal of fiction in our war stories. ### All Broke Up.

All Broke Op. Thad been troubled with an "all broke up" or "don't care if-1-live or die" feeling. Had but little appetite, and what i did eat dis-tressed me, or did me little good. In an hour after eating I would experience a tired, "all gone" feeling that made me so miserable that I was totally unfit for business or society. A friend urged me to try Morley's TXS Cor-dial and it has done me an immense amount of good. It has given me an appetite, reguof good. It has given me an appetite, regu-lated my bowels and has relieved me of that faint, tired, "all gone" feeling. I am happy to recommend it. JOHN THOMPSON. Dallas, Texat
