GRADES 7–12

The Big Six

Historical Thinking Concepts

Authors: Dr. Peter Seixas, Tom Morton

Bringing historical thinking into the history and social studies classroom!

How does history become meaningful to students? When they see it as a mystery to be solved, an interpretation to be challenged and a way to see themselves in the larger fabric of human experience.

Bring powerful understanding of six historical thinking concepts into your classroom through teaching strategies and model activities.

Each chapter begins by featuring a case in which a prominent Canadian author has engaged one of the six concepts while writing a work of popular history or historical fiction.

The accompanying online site gives you access to:

- Modifiable Blackline Masters
- All graphics, photographs and illustrations from the text
- Additional teaching support

Table of Contents

1. Historical Significance
2. Evidence
3. Continuity and Change
4. Cause and Consequence
5. Historical Perspectives
6. Ethical Dimension

About the Authors

Dr. Peter Seixas

Dr. Peter Seixas is a professor, Canada Research Chair in the Department of Curriculum and Pedagogy, and director of the Centre for the Study of Historical Consciousness at UBC with 15 years of experience as a high school social studies teacher in Vancouver. Peter earned a Ph.D. in history from UCLA and is author of numerous articles in Canadian and international journals. Peter is the founder and director of The Historical Thinking Project, a pan-Canadian history education reform initiative.

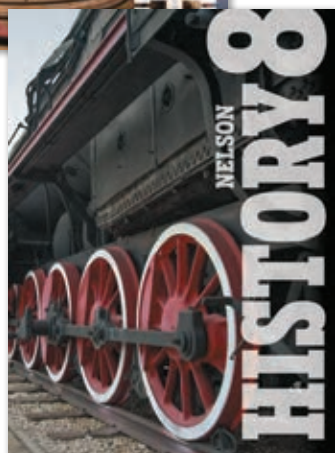

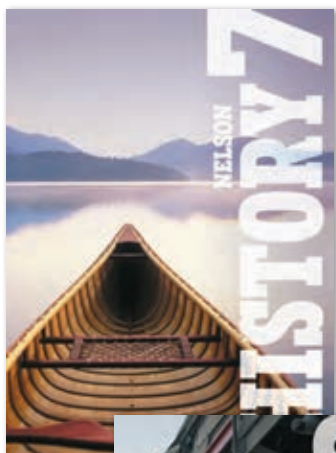

Tom Morton

Tom Morton has taught for over 30 years in Kabala, Sierra Leone, Montréal and Vancouver at the high school and university level. He is the author of numerous articles and books on education. Tom has received the British Columbia Social Studies Teacher of the Year award, the Governor-General's Award for Excellence in Teaching Canadian History and the Kron Award for Excellence in Holocaust Education.

GEOGRAPHY

GRADE 7

People and Places 7

Authors: Pat Harrison, Linda Aspen-Baxter, John Howden, Beth Josephson, Phil Reece

People and Places 7 is designed to support the Manitoba social studies curriculum.

Key Features

- Accessible reading level and high quality visuals
- Emphasis on student understanding of key geographic tools, and information from the latest Canadian statistics, data and technology
- Written primarily by Manitoba teachers who understand real classroom issues and what Grade 7 teachers need

Table of Contents

Unit 1: Investigating Geography

1. Place and Location
2. Movement
3. Interaction

Unit 2: Human Development

4. The Value of Life
5. Global Rights
6. Democratic Citizenship

Case Study — The October Crisis of 1970

Unit 3: Ways of Life

7. History and Culture—Australia
8. The Impact of Westernization—Africa

Unit 4: Our Interdependent World

9. Mexico
10. Manitoba—Thinking Locally, Acting Globally

Case Study

11. International Agencies
12. Sustainable Development

Civics in Action

In Your Communities, Across Canada, and Globally

Authors: Matthew Biggley, John Broomfield, Michelle Forde, Sandra Kritzer, Jaden Lairson

Consulting Partners: Samara, TakingITGlobal, Agincourt Community Services Association

Civics in Action helps students to become active citizens within their local and global communities by developing inquiry and critical thinking skills. Helps to ensure student success by engaging students through big ideas, political thinking concepts, multiple perspectives and issues relevant to them.

Key Features

- Student Success supported by developing research and inquiry skills and by presenting information in a clear and engaging format
- Guide to Action feature gives students the tools they need to become active citizens
- The Thinking Civically feature facilitates student application of political thinking concepts as well as the political inquiry process
- Helps students identify their beliefs and values and develop their individual voice
- Supports student exploration of the rights and responsibilities affiliated with being an active citizen through active participation, and an understanding of power and systems within society

INDIGENOUS EDUCATION

GRADES 11–12

Ways of Knowing

An Introduction to Native Studies in Canada
Third Edition

Author: Yale D. Belanger

Ways of Knowing is framed from an academic perspective and addresses Native intellectual tradition and the academic study of Native peoples. Taking a historically grounded approach and writing in a narrative style that largely avoids technical language, Belanger includes unique chapters on Native philosophy, Native peoples' relationship with the land and indigenous political economy, and the arts (language, art and literature). It also highlights the sociopolitical and socioeconomic challenges currently facing Canada's Native leaders and their communities nationally.

Table of Contents

Part One: Philosophy and Ways of Knowing
 Chapter 1: Ways of Knowing
 Chapter 2: The Land and Indigenous Political Economy
 Chapter 3: The Arts
 Part Two: History
 Chapter 4: Treaties
 Chapter 5: The Indian Act and Indian Affairs in Canada
 Chapter 6: The Métis
 Chapter 7: The Inuit and Nunavut
 Chapter 8: Native Military Traditions and the Canadian Forces
 Part Three: Political Economy
 Chapter 9: Political Organizing in Canada
 Chapter 10: Native People and the Canadian Justice System
 Chapter 11: Self-Government
 Chapter 12: Economic Development
 Part Four: Contemporary Issues
 Chapter 13: Health and Well-Being in Canada
 Chapter 14: Communications
 Chapter 15: Urban Issues

GRADE 11

Aboriginal Studies Series

Authors: Kainai Board of Education, Métis Nation of Alberta, Northland School Division and Tribal Chiefs Institute of Treaty Six

The *Aboriginal Studies* resources were written from an Aboriginal perspective to fit the Alberta Aboriginal Studies 10, 20 and 30 curricula. These resources were reviewed by Elders from across Alberta.

Key Features

- A unique approach to teaching First Nations, Métis and Inuit history, culture and issues
- Effective chapter organizers provide material to consider as students begin and end each chapter
- First-hand stories, ideas, viewpoints and experiences of Aboriginal people
- Profiles of contemporary and historical people and their contributions
- Detailed maps, photos and informative timelines that illustrate and summarize significant topics
- *Talking Circle* activities to encourage discussion and reflect Aboriginal traditions
- Special features on *Issues for Investigation, Indigenous Knowledge and Symbolism, and Expression*
- Chapters end with a review to check understanding, encourage reflection, and apply and broaden knowledge and skills

Social Science

An Introduction

Senior Author: Jan Haskings-Winner

Authors: Rachel Collishaw, Sandra Kritzer, Patricia Warecki

Social Science: An Introduction is a new program that covers Anthropology, Psychology and Sociology for both the University and College level grade 11 student. Two programs in one!

Student Resource

- Provides students with opportunities to think critically about theories, questions and issues related to anthropology, psychology and sociology
- Develops students' understanding of the approaches and research methods used by social scientists
- Provides opportunities to explore theories from a variety of perspectives, to conduct social science research and to become familiar with current thinking on a range of issues within the three disciplines
- Reinforces skill development through various research features and opportunities for in-depth analysis

Teacher's Resource

- Includes two complete sets of lesson plans: University and College
- Features strategies for combining both courses
- Detailed assessment and evaluation strategies along with related rubrics and checklists, modifiable Blackline Masters and an image bank of photos and illustrations from the student text

CONNECTschool

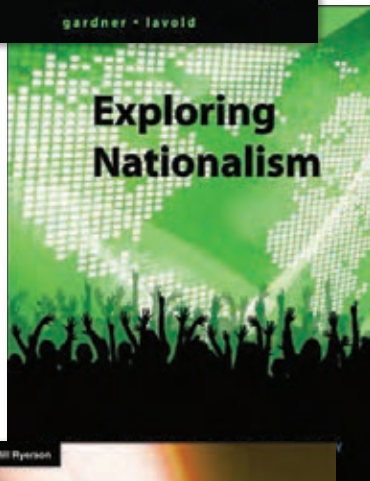

- **For students:** Complete interactive student resource with personalization tools and integrated learning assets including videos, interactive lessons and activities, self-study quizzes and study plans
- **For teachers:** Fully integrated Teaching and Learning Program with all your teaching materials in one location. Includes complete interactive student resource, teacher resource, a wealth of media assets, PowerPoints, interactive lessons and activities, quiz builder and the ability to customize your course content

Understanding Nationalism

HOOGEVEEN

Exploring Globalization

Senior Authors: Robert Gardner, Wayne Lavold

Exploring Nationalism

Senior Authors: Robert Gardner, Margaret Hoogeveen, Daniel McDevitt, Angus Scully

Understanding Nationalism

Senior Author: Margaret Hoogeveen

Designed specifically to support the Alberta Social Studies senior high curriculum, this dynamic family of resources provides a clear framework by which students will further apply their understanding of the complexities of globalization (10-1) and nationalism (20-1, 20-2).

This framework integrates:

- An issue-based approach
- Effective inquiry strategies
- Scaffolded skill development
- Thought-provoking content and features

Teacher's Resource Package (Print + CD-ROM)

- Complete course planner organized into 75 fully supported lessons and activities
- Includes CD-ROM with modifiable Blackline Masters and an image bank of text, photos and illustrations

Challenge and Change

Patterns, Trends, and Shifts in Society

Authors: Trisha De Coeur, Christopher Rawes, Patricia Warecki

This resource examines theories and methodologies used in the social sciences to investigate and explain shifts in knowledge, attitudes, beliefs and behaviour and their impact on society. Students will explore the ideas of social theorists and will be given the tools to analyze challenges such as technological change, deviance and global inequalities.

Student Resource

- Focuses on core ideas, supported by key concepts, relevant cases, and tested hands-on experiments and activities
- Integrates skill development and critical thinking skills throughout
- Helps students critically analyze how and why cultural, social and behavioural patterns change over time

Teacher's Resource

- Detailed assessment and evaluation strategies along with related rubrics and checklists, modifiable Blackline Masters and an image bank of photos and illustrations from the student text

The Real World: An Introduction to Sociology

High School Sixth Edition

Authors: Kerry Ferris, Jill Stein

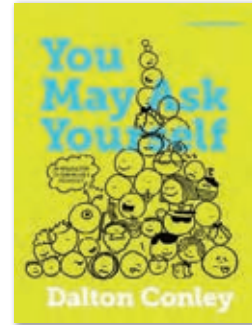

The Real World succeeds in classrooms because it focuses on the perspective that students care about most—their own. In every chapter, authors Kerry Ferris and Jill Stein use examples from everyday life and popular culture to draw students into thinking sociologically and to show the relevance of sociology to our relationships, our jobs and our future goals.

Brief Table of Contents:

Part 1 – Thinking sociologically and doing sociology
 Part 2 – Framing social life
 Part 3 – Understanding inequality
 Part 4 – Social institutions and the micro-macro link
 Part 5 – Envisioning the future and creating social change

You May Ask Yourself: An Introduction to Thinking Like a Sociologist

Core Fifth Edition

Author: Dalton Conley

This “untextbook” teaches students to think like a sociologist.

You May Ask Yourself gives instructors an alternative to the typical textbook by emphasizing the big ideas of the discipline and encouraging students to ask meaningful questions. This “non-textbook” strategy explains complex concepts through personal examples and storytelling, integrates coverage of social inequality throughout the textbook and offers the largest collection of instructor resources for a book in its price range.

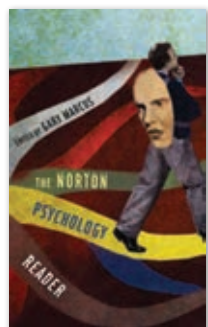

Table of Contents:

Chapter 1: The Sociological Imagination: An Introduction
 Chapter 2: Methods
 Chapter 3: Culture and Media
 Chapter 4: Socialization and the Construction of Reality
 Chapter 5: Groups and Networks
 Chapter 6: Social Control and Deviance
 Chapter 7: Stratification
 Chapter 8: Gender
 Chapter 9: Race
 Chapter 10: Family

NEW

Psychological Science

Sixth Edition

Authors: Michael Gazzaniga, Todd Heatherton, Diane Halpern

The best presentation of the science and applications of psychology. Drawing on teaching and learning research, the Sixth Edition provides new tools to improve students' reading, focus and self assessment. Chapters are now divided into brief "study units," each of which concludes with a self-test question to increase comprehension. NEW "Putting Psychology to Work" features show students how to apply psychology concepts to future careers. Our formative, adaptive learning tool, InQuizitive, and our online psychology labs, ZAPS 2.0, provide a hands-on approach to assessing students' understanding.

Table of Contents

- Chapter 1: The Science of Psychology
- Chapter 2: Research Methodology
- Chapter 3: Biology and Behavior
- Chapter 4: Consciousness
- Chapter 5: Sensation and Perception
- Chapter 6: Learning
- Chapter 7: Memory
- Chapter 8: Thinking, Language and Intelligence
- Chapter 9: Human Development
- Chapter 10: Emotion and Motivation
- Chapter 11: Health and Well-Being
- Chapter 12: Social Psychology
- Chapter 13: Personality
- Chapter 14: Psychological Disorders
- Chapter 15: Treatment of Psychological Disorders

NEW

Psychology in Your Life

Second Edition

Authors: Sarah Grison, Todd Heatherton, Michael Gazzaniga

Make science accessible at all levels by showing how psychology is relevant to students' everyday lives.

Author Sarah Grison—an expert in the teaching of introductory psychology—has created a print and digital package with an equal commitment to the success of every instructor and student. A strong, author-driven support package—rich with original media, a test bank, Active Learning slides and InQuizitive adaptive learning modules—provides instructors with everything they need to help today's students understand and apply introductory psychology.

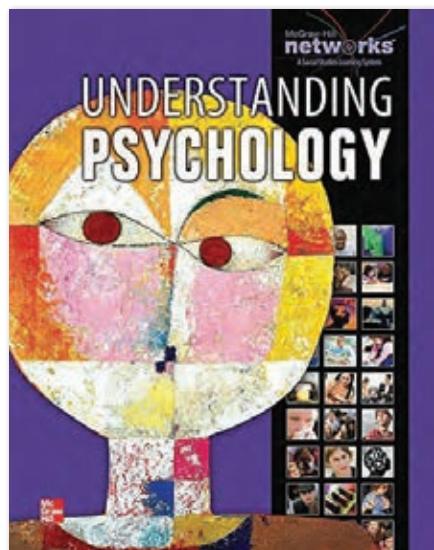

Throughout the Second Edition, the most current APA Guidelines 2.0 for introductory psychology are colour-coded for ease in identification and helping students connect psychology to their everyday lives.

Table of Contents

1. Introducing the World of Psychology
2. The Role of Biology in Psychology
3. Consciousness
4. Development Across the Life Span
5. Sensation and Perception
6. Learning
7. Memory

GRADES 11–12

An Introduction to Comparative Politics

Seventh Edition, AP® Edition

Authors: Mark Kesselman, Joel Krieger, William A. Joseph

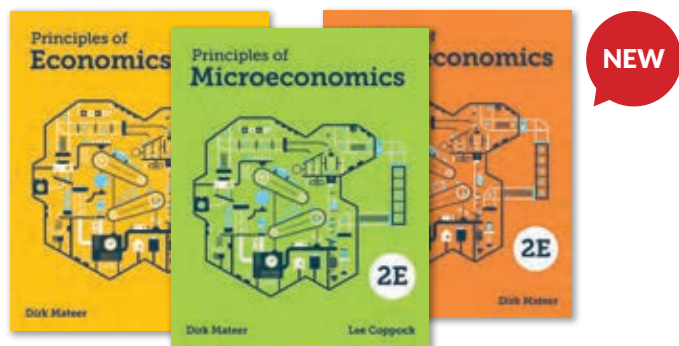

Updated to reflect today's political climate, the Seventh Edition of *An Introduction to Comparative Politics* offers a country-by-country approach that allows students to fully examine similarities and differences among countries and within and between political systems. Each chapter offers an analysis of political challenges and changing agendas within countries and provides detailed descriptions and analyses of the politics of individual countries. The Seventh Edition offers a condensed narrative and student-friendly pedagogy such as marginal key terms and focus questions that will help students make meaningful connections and comparisons about the countries presented. *Introduction to Comparative Politics, Seventh Edition*, consists of 13 country case studies, selected for their significance in terms of the comparative themes and because they provide an interesting sample of types of political regimes, levels of economic development and geographic regions.

Table of Contents

- Part I: Introduction
- 1. Introducing Comparative Politics
- Part II: Consolidated Democracies
- 2. Britain
- 3. The United States
- 4. European Union
- Part III: Mixed Systems
- 5. Mexico
- 6. Nigeria
- 7. The Russian Federation
- Part IV: Authoritarian Regimes
- 8. Iran
- 9. China

GRADE 10

Nelson Career Studies 10

Author: Lee Wallace

Nelson Career Studies 10 is an activity-based program designed to teach the process of career development through self-discovery and self-directed learning. The program is organized into five thematic units, each of which is focused on a question that is essential to the career development process.

Key Features

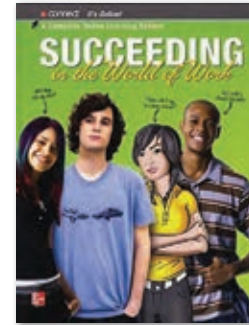

- *Unit Overviews:* Clearly indicate curriculum expectations covered in upcoming unit of work
- *Unit Story:* Introductory fictional account that illustrates the main theme of a unit
- *Career Portfolio:* Integrated key activities help students build their own career portfolios
- *Variety of Activities:* A wide range of activities promote the process of decision making

Individuals and Families

Diverse Perspectives
First Canadian Edition

Senior Author: Maureen Holloway

Authors: Garth Holloway, Jane Witte

Individuals and Families: Diverse Perspectives is a resource written for both the University- and College-level student. It has been specifically developed for the realities facing Canadian individuals and families in the 21st century.

Student Resource

- Focuses on issues faced by families and individuals throughout the life cycle, providing links between the stages and highlighting issues that are relevant at different stages
- Case Studies provide real-life examples of challenges for members of a sample family during different stages of life
- Current Canadian data represented through various types of charts, tables and graphs

Teacher's Resource

- Unique Ready Made lesson plans for the University level course and the College level course with course specific assessment and evaluation strategies and rubrics

CONNECTschool

- **For students:** Complete interactive student resource with personalization tools and integrated learning assets including videos, interactive lessons and activities, self-study quizzes and study plans
- **For teachers:** Fully Integrated powerful Teaching and Learning Program with all your teaching materials in one location. Includes complete interactive student resource, teacher resource, a wealth of media assets, PowerPoints, interactive lessons and activities, quiz builder and the ability to customize your course content

GRADES 10–12

Parenting

Raising Healthy Children
First Edition

Authors: Mary Fam, Wilma Nicholls

Senior Consultant: Paula Aquino

The Parenting: Raising Healthy Children program combines engaging, high-interest activities with up-to-date Canadian content through hands-on education and practical application of knowledge. Case studies provide real world content that students can relate to.

Student Resource

- Focuses on the skills and knowledge required for the curriculum, including maternal health, pregnancy, birth and human development (birth to six years old)
- Develops students' research and inquiry skills as they investigate caregiving and child rearing
- Skill development and critical thinking skills are integrated throughout the text
- Develops students' knowledge of the developmental needs of young children and how to guide their early development through practical hands-on experience

Teacher's Resource

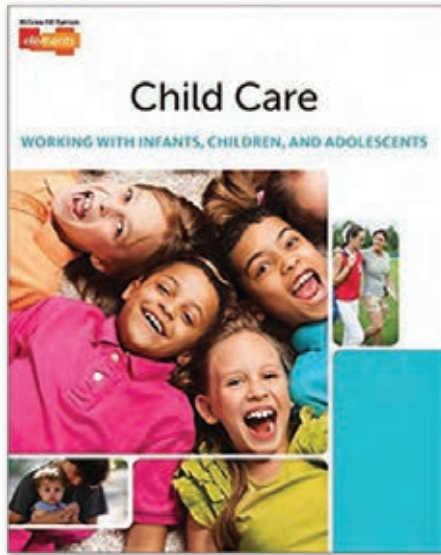

- Detailed lesson plans and assessment and evaluation strategies along with related rubrics, Blackline Masters and an image bank of photos and illustrations from the student edition

CONNECTschool

- **For students:** Complete interactive student resource with personalization tools and integrated learning assets including videos, interactive lessons and activities, self-study quizzes and study plans
- **For teachers:** Fully Integrated powerful Teaching and Learning Program with all your teaching materials in one location. Includes complete interactive student resource, teacher resource, a wealth of media assets, PowerPoints, interactive lessons and activities, quiz builder and the ability to customize your course content

FOOD AND NUTRITION

GRADES 9–12

Food and Nutrition

Flexible series allows you to choose what you want in your preferred format

The *Food and Nutrition* series contains up-to-date Canadian content that highlights healthy eating and food-preparation techniques through engaging activities that combine hands-on education with practical application of knowledge. The series provides the flexibility to choose the content students need in the format you prefer with a blended print and digital format.

Student Resource

- 3 student resources that work together to achieve complete curriculum coverage
- Develops students' critical thinking skills by examining food choice effects on nutrition and health, food security and environmental responsibility
- Covers the importance of nutrition at various life stages and the relationship to overall health and disease

Teacher's Resource

- Includes a CD-ROM containing a PDF of the full print Teacher's Resource with modifiable Blackline Masters and a CD-ROM with the photos and images from the Student Edition to include in PowerPoints or on worksheets
- Assessment rubrics and online practice quizzes that emphasize the competency approach

CONNECTschool

- **For students:** Complete interactive student resource with personalization tools and integrated learning assets including videos, interactive lessons and activities, self-study quizzes and study plans
- **For teachers:** Fully Integrated Teaching & Learning Program with all your teaching materials in one location. Includes complete interactive student resource, teacher resource, a wealth of media assets, PowerPoints, interactive lessons and activities, quiz builder and the ability to customize your course content

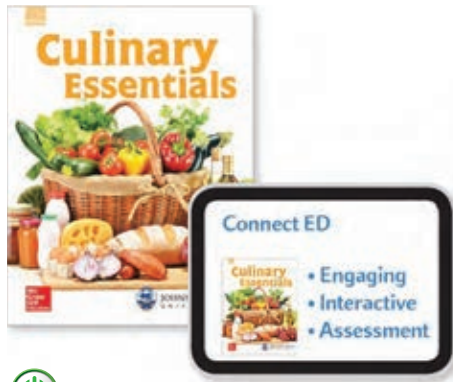

FOOD AND NUTRITION

GRADES 10–12

Culinary Essentials

Fourth Edition

Author: Johnson and Wales University

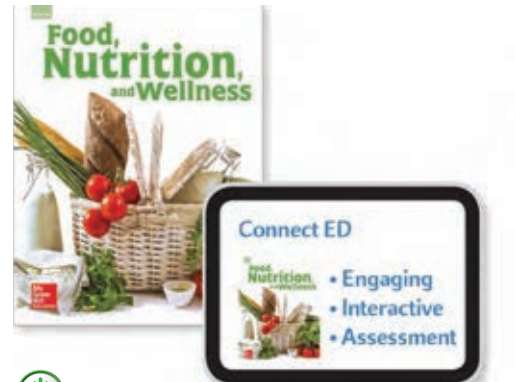

Culinary Essentials teaches students the essential knowledge and skills needed to become culinary professionals and work in a professional food service environment. *Culinary Essentials* exposes students to real-world culinary careers and the practical business aspects of working in a food service setting.

The text focuses on:

- Safety and sanitation
- The value of quality customer service, and foodservice management and standards
- Lab-based food preparation, cooking techniques and culinary nutrition
- Menu planning and development, and standardized recipes

GRADES 7–10

Food, Nutrition, and Wellness

Author: Duyff

Food, Nutrition, and Wellness teaches students the skills they need to make healthful food choices, prepare nutritious meals, and bring physical activity and wellness practices into their daily lives. The text focuses on the wellness of mind and body, food and kitchen safety, and the qualities, varieties and combinations of foods. Unit projects provide an opportunity for students to apply what they learned to a hands-on activity designed to be academically rigorous and personally relevant and help students build relationships at home, school, work and in the community.

EMPOWERING EDUCATORS

in the classroom, and beyond

Life is busy, and finding time for personal development can be tough. That's why Nelson developed workshops, e-courses and books to suit your needs.

Any time, any place.

A young woman with dark hair pulled back, wearing a white collared shirt and a beige cardigan, is smiling warmly at the camera. She is holding a purple folder with both hands. The background is a blurred classroom setting with other students at desks.
