Summary and Research Interests

My research interests lie at the intersection of computer science, electromagnetics, optics, photonics, and advanced manufacturing. My aim is to design and develop advanced intelligent hardware-software systems through employing computational approaches that are neither time-consuming nor memory-intensive yet readily scalable. My Ph.D. work was centered on optical inverse design, where powered by new algorithms, design approaches, and advanced fabrication processes, I demonstrated a series of "extreme" or "thought to be impossible" results. Among many transformative findings, my work showed ultra-thin cameras that are capable of imaging objects placed at dissimilar distances, i.e., as close as millimeters apart from the camera and as far as meters, in focus, simultaneously. I also demonstrated single flat-lenses operating with an extreme bandwidth across several decades of the electromagnetic spectrum, which could enable in the future compact multispectral imaging systems operating from the mm-wave to the UV. Moreover, I showed how machine learning can help in engineering amongst the smallest integrated photonic devices, which could fuel a future Moore's law for photonics. During my research career, I received several awards, including the best paper award in Imaging Systems and Applications at the 2019 OSA Imaging and Applied Optics Congress. I am author or co-author of 25+ journal articles, 30+ conference proceeding papers, 1 book chapters, 40+ conference presentations, and have delivered 3 invited talks and seminars. My h-index is 15+ with 1000+ citations according to Google Scholar.

Education

- Ph.D.** in Electrical and Computer Engineering Aug.'2016-Dec.'2020
[University of Utah, Salt Lake City, UT, USA](#)
• Advisor: [Prof. Berardi Sensale-Rodriguez](#)
• Dissertation: *Solving Optical Inverse Design Problems through Computational Methods*
- M.S** in Electrical and Computer Engineering ("Milestone") Aug.'2016-Dec.'2019
[University of Utah, Salt Lake City, UT, USA](#)
• Advisor: [Prof. Jamesina Simpson](#)
- B.Tech.** in Electronics and Communication Engineering Sept.'2010-Jul.'2014
[West Bengal University of Technology, Kolkata, WB, India](#)
• Advisor: [Prof. Arpan Deyasi](#)
• Project: *Study of Electronic and Electromagnetic Properties of One-Dimensional Photonic Crystal*

Professional Experience

- [Momentum Optics Inc., Longmont, CO, USA](#) Jan.'2021-Present
Lead Optical Engineer May'2022-Present
• Key achievements:
✓ Developed an in-situ computational optical metrology tool for laser-based fabrication with a **figure error < 100 microns**.

Sourangsu Banerji

Senior Optical Engineer

Jan.'2021-May'2022

- Key achievements:

- ✓ Developed in-house software tools for modeling refractive/diffractive/reflective optics.
- ✓ Developed computational framework of an optical manufacturing tool enabling laser-based fabrication of mm-scale optical elements with a **figure error < 10 microns**.

[Oblate Optics Inc., San Diego, CA, USA](#)

Jan.'2021-Jun.'2021

Partner Technical Advisor (Contractual: Part-Time)

- Key achievement:

- ✓ Developed computational framework that enables flat lenses to be designed and characterized using industry-standard lens design software i.e., **Zemax and Code V**.

[University of Utah, Salt Lake City, UT, USA](#)

Sept.'2016-Dec.'2020

Graduate Research Assistant

[Terahertz Optoelectronics Research Group](#)

- Advisor: [Prof. Berardi Sensale-Rodriguez](#)
- Research activity: Computational diffractive optics; digital metamaterials; plasmonics.
- Key achievements:
- ✓ Developed an algorithm (**GDABS**) for designing planar free-space diffractive optical devices with a lower computation space and time complexity (up to ~10-100X times). (**Patent pending**)
- ✓ Developed a machine-learning algorithm (**b-ARLA**) for designing on-chip integrated nanophotonic devices.

[Cognizant Technology Solutions India Pvt. Ltd., Kolkata, WB, India](#)

Jan.'2015-May'2016

Programmer Analyst

- Key achievement:
- ✓ Developed an IBM I.D. toolkit for automated mail integration over the client-server with a **handling capacity ~ 50,000**.

[West Bengal University of Technology, Kolkata, WB, India](#)

Jul.'2013-Aug.'2014

Research Assistant

- Advisor: [Prof. Arpan Deyasi](#)
- Research activity: Photonic crystals; fundamental physical bounds in bandgap engineering.
- Key achievements:
- ✓ Developed an analytical framework for the study of band structures and wave propagation in 1D photonic crystals.

[Indian Statistical Institute, Kolkata, WB, India](#)

Feb.'2012-Nov.'2014

Visiting Research Student

[Mathematical Genomics Research Group](#)

- Advisor: [Prof. Pabitra Pal Chowdhury](#)
- Research activity: fractals, image compression techniques.
- Key achievements:
- ✓ Developed an image compression technique based on fractals.

[Variable Energy Cyclotron Center, Kolkata, WB, India](#)

Dec.'2012-Jan.'2013

Winter Research Intern

[Mechanical Engineering Group \(Cryogenic Instrumentation Section\)](#)

- Advisor: [Dr. Tamal Kumar Bhattacharya](#)
- Research activity: Data acquisition module design for collecting synchrotron data; TCP/Modbus protocols.
- Key achievements:
- ✓ Developed a GUI for remote control of the synchrotron facility; later adopted into other units due to robust design.

Sourangsu Banerji

Teaching Experience

University of Utah, Salt Lake City, UT, USA

Jan.'2017-May'2017

Graduate Teaching Assistant

Department of Electrical and Computer Engineering

• **EC 3200 (Introduction to Semiconductor Physics)**

- Tutored students on solid-state physics, optics, and electronics. Office hour assistance to students. Organized additional one-to-one sessions for students in need of further assistance. Graded homework, student presentations, and exams. Designed and conducted laboratory sessions.

University of Utah, Salt Lake City, UT, USA

Sept.'2016-Dec.'2016

Graduate Teaching Assistant

Department of Electrical and Computer Engineering

• **EC 3300 (EM Theory & Transmission Lines)**

- Tutored students on basic electromagnetic theory. Office hour assistance to students. Graded homework, student presentations, and exams. Designed and conducted laboratory sessions.

University of Utah, Salt Lake City, UT, USA

Sept.'2016-Dec.'2016

Graduate Teaching Assistant

Department of Electrical and Computer Engineering

• **EC 5410/6322 (Microwave Engineering-I)**

- Office hour assistance to students. Graded homework, student presentations, and exams. Proposed final course projects for the students.

Scientific Contributions

Journal Papers

Scientific Honors, Awards, and Recognitions

Best Student Paper Award (Finalist) (2020)

Award Committee: [Optical Society of America](#)

- For the paper titled "Inverse Designed Flat Optics with Diffractive Lenses"

Virtual Conference Award (2020)

Award Committee: [University of Utah](#)

- To present my research at the IEEE Photonics Conference (virtual).

OSAF/CLEO Presentation Grant Award (2020)

Award Committee: [Optical Society of America \(OSA Foundation and the Incubic/Milton Chang Travel Fund\)](#)

- To present my work at CLEO: Laser Science and Applications at San Jose, CA, USA.

Best Paper Award (2019)

Award Committee: [Optical Society of America](#)

- For the paper titled "Metalenses or diffractive lenses for imaging?"

Best Student Paper Award (Runner Up) (2018)

Award Committee: [The International Society of Infrared, Millimeter, and Terahertz Waves](#)

- Best Student Paper Award (Runner Up) for "Demonstration of Computational THz Diffractive Optical Elements Enabled by a Modified Direct Binary Search Technique." (Top 6 out of 150+ submissions)
- Keynote Talk "Demonstration of Computational THz Diffractive Optical Elements Enabled by a Modified Direct Binary Search Technique."

SPIE Chapter Officer Travel Award (2018)

Award Committee: [Society of Photographic Instrumentation Engineers \(SPIE\)](#)

- To attend the "Leadership Workshop" at SPIE Optics + Photonics, San Diego, CA, USA.
- To present research at SPIE Optics + Photonics, San Diego, CA, USA.

Student Poster Award (2018)

Award Committee: [São Paulo School of Advanced Science \(SPSAS\) + XVI Jorge André Swieca School on Non-linear and Quantum Optics \(SWIECA\)](#)

- For the paper titled "From Visible to THz: Planar Optics for Lightweight, Small Form-Factor High-Precision, Energy Efficient Laser Applications."
- Selected among 25 candidates from all over the world and invited to attend the São Paulo School of Advanced Science (SPSAS) + XVI Jorge André Swieca School on Nonlinear and Quantum Optics (SWIECA), organized by the Center for Lasers and Applications, located inside the Nuclear and Energy Research Institute, IPEN, at the University of São Paulo (USP) in Brazil.

University of Utah Graduate School Travel Assistance Award (2018)

Award Committee: [University of Utah](#)

- To present research at CLEO: Laser Science and Applications, San Jose, CA, USA.

SPIE Optics + Photonics Travel Award (2017)

Award Committee: [Society of Photographic Instrumentation Engineers \(SPIE\)](#)

- To present research at SPIE Optics + Photonics at San Diego, CA, USA.

Sourangsu Banerji

University of Utah Graduate Fellowship

(2016)

Award Committee: [University of Utah](#)

- A one-year fellowship that is reserved for a limited number of Ph.D. applicants. The fellowship provides for support during the first year at a level of \$21,000/year.

Research Funding

[Amazon Cloud Credits for Research Program](#)

- **Proposal:** Free Space Optical Devices Based on Computational Design of Diffractive Optic Elements
- **Status:** Completed
- **Funding amount:** \$10,000

Technical Skills

- **General** : Windows, Linux
- **Programming Languages** : Python, Java, C/C++, C#
- **Database** : SQL (PL/SQL, MySQL, PostgreSQL)
- **Measurement Tools** : Toptica THz CW system, VDIE THz Tx-Rx synthesizer, THz imager, CMOS/CCD image sensors, NKT Photonics laser system, Optical bench measurements, Shack Hartmann wavefront sensors.
- **Software Packages** : Lumerical, MATLAB®, Code V, ANSYS HFSS®, CST Microwave Studio, Zemax, COMSOL Multiphysics, FRED
- **Fabrication** : Grayscale Photolithography (Diffractive Optic Elements)

Professional Service

Reviewer

- **OSA Journals:** Optica, Optics Express, Optical Materials Express, Journal of Optical Society of America B, Journal of Optical Society of America A, Photonics Research, OSA Continuum, Chinese Optics Letters
- **IEEE Journals:** Journal of Lightwave Technology, IEEE Transactions on THz Science and Technology
- **Springer Nature Journals :** Scientific Reports
- **AIP Journals:** APL Photonics, Applied Physics Letters
- **IOP Journals:** Journal of Physics D: Applied Physics, Physics Scripta, Engineering Research Express, Journal of Optics, Nanotechnology
- **Degruyter Journals:** Advanced Optical Technologies
- **MDPI Journals:** Micromachines, Applied Sciences, Crystals, Nanomaterials, Electronics, Coatings, Processes, Symmetry, Sensors, Photonics, Remote Sensing
- **Elsevier Journals:** Optics and Lasers in Engineering
- **Society Specific Journals:** Journal of Optoelectronics and Advanced Materials, Journal of Optical Communications
- **General Journals:** Academia Letters

Professional Society Memberships

- Member, [Society of Photographic Instrumentation Engineers \(SPIE\)](#) (2016 - Present).
- Member, [Optical Society of America \(OSA\)](#) (2017 - Present).
- Member, [Institute of Electrical and Electronics Engineers \(IEEE\)](#) (2017 - Present).
