Greetings!

It is absolutely SPECTACULAR that you are here tonight! We are blessed to have you and hope that, in turn, you are blessed by an enjoyable evening made more so by the fact that you are assisting in keeping Catholic education available, strong, and accessible for so many students.

An incredible amount of man hours went in to this evening so that you might have a chance to have a pleasant night out and exercise your generous heart. Thank you to our chairs, Steven and Holly Wilt and all of their volunteers, our staff, and all those who, in the past, built up this event so that it might be what you experience tonight.

This year we celebrate the 87th year of this school. How very different it is from the school of 1929! Thank you for helping keep the school strong. Please know of my prayer for you this evening.

God bless,

Fr. John A. Valencheck

IT DOESN'T COST MORE TO HAVE YOUR KITCHEN PROFESSIONALLY DESIGNED!

The following is an excerpt from a letter written to Ed Belair, President of Graves Lumber by Leslie and Gary G. of Akron:

I have heard such "horror stories" about kitchen remodeling that I had some trepidation about the process. However, the staff at Graves Lumber has made my project a breeze. The designer brought a great deal of professional expertise to my project and freely shared her time, knowledge and experience with me. They have done a great job of listening to my ideas and incorporating them into my kitchen plan. My calls and e-mails were responded to promptly, and they kept my budget in mind all along the way! It has been a great pleasure working with them.

Congratulations to you on your excellent staff - Job well done!

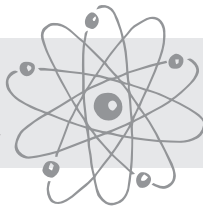

Showroom is open during normal business hours, with extended hours most Thursdays and Saturdays.

Please call for an appointment with one of our designers.

I am so pleased to welcome to everyone to the 2015 September Spectacular. This event never fails to impress – it's always a wonderful gathering of people who care deeply about our school community and give generously to support it.

As Zwisler Hall transforms from a functional cafeteria to a beautiful setting for our event, and as volunteers and caterers descend upon the hall, it is a pleasure to witness everyone working with their eyes on the same goal: strengthening and supporting our great school. The money raised through the September Spectacular is dedicated to two equally important goals: keeping tuition affordable and keeping technology current. As the largest annual fundraiser for the school, this event provides essential funds for tuition reduction for each and every one of our students as well as for technology upgrades and maintenance, which are ongoing and expensive needs.

On behalf of the school, I would like to thank Holly and Steve Wilt, this year's chair couple, for all of their hard work. Holly and Steve took on this big commitment with enthusiasm and energy, and we cannot thank them enough. I am especially grateful for the way the Wilts immediately embraced the idea of raising money for the school's STEM Initiative through the paddle raise. Their enthusiastic support provided a wonderful spark to the already growing excitement about our STEM initiative, and we all are so excited about the many opportunities that will open up for our students as a result of the funds raised tonight.

Holly and Steve worked with a great team of parent volunteers, who in ways large and small banded together to make this event possible. Special thanks to parents Kat Miller (silent auction chair) and Diane Hawthorne Sveda (live auction chair) for going above and beyond the call of duty in accepting leadership roles. It is wonderful to see so many parents pitching in to help make this event a great one.

Yours in Education,

Dear Friends,

Thank you for attending the 12th annual September Spectacular. We are thrilled that you have chosen to spend the evening with us, and we trust you will truly enjoy the night. The stated goals for the event are as follows:

1. To throw a killer party.
2. To raise record funds.
3. To honor the Beck Family Foundation, chaired by Mike Beck, for all that it has done for our parish and Catholic education.

Due to the hard work of the past chairs and volunteers, the September Spectacular has grown into the single largest fund raiser for our school. We are hopeful that with your help we will continue the financial success of this event.

Proceeds from the evening will be used towards tuition reduction and technology. It is the continued goal of our parish to keep tuition both reasonable and at the lower end of the scale when compared with other Catholic schools in our town. Additionally, this event allows St. Sebastian Parish School to make critical investments in technology.

One mission of tonight's event is to reach an ambitious funding goal towards the development of a STEM curriculum for our students. You will hear more about this opportunity as the night progresses, including some incredibly generous matching donations from parishioners and community leaders.

Countless volunteers gave their time to make tonight's event successful. However, we would be remiss if we did not thank Kat Miller, silent auction coordinator; Dianne Hawthorne Sveda, live auction coordinator; parish staff Jennifer Ciarlariello, Michelle Huber, Dr. Ed Savitski and Kevin Audin: as well as parish designer Erin Leslie and program editor Anne Dennée for their invaluable contributions. You will find a more complete list of those who helped within the program. Please thank them for their efforts!

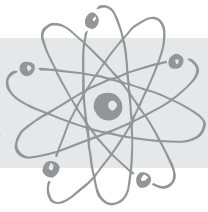

The leadership in our parish has been fully engaged and supportive of this event. We would like to thank Father Valencheck and Mrs. Isabella for their vision and partnership.

We are honored to be parishioners of St. Sebastian Parish, parents of two St. Sebastian students (one current and one recent graduate) and active members of the St. Sebastian Parish Foundation.

God Bless,

Holly and Steve Wilt

2015 SEPTEMBER SPECTACULAR HONOREE

Each year at the September Spectacular, we honor people and organizations who have made a positive impact in our community and beyond. This year's honoree is The Beck Family Foundation.

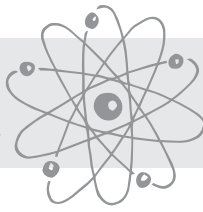

The Beck Family Foundation was formed in 2009 to honor the vibrant life full of service and love that Karen Beck lived. The mission of the Foundation is to provide support for the literary, scientific, educational, charitable and religious causes that were important to Karen. Among the groups that the Foundation supports is the Christ Child Society of Akron, an organization dear to Karen's heart. Karen was a longtime member and also a past president (2003-2005) of this charitable organization that provides services and clothing to Akron-area children in need.

The Beck Family Foundation also provides an extraordinarily generous tuition assistance grant each year for St. Sebastian students. This four-year, full-tuition grant is for students who attend Walsh Jesuit High School or Our Lady of the Elms. In some years, the award is split amongst two or more deserving students for the full four years.

This scholarship was first awarded in 2010, and to date twenty-one students have received The Beck Family Foundation Award: nine students who went on to attend Our Lady of the Elms and twelve students who went on to attend Walsh Jesuit High School. Karen was married to Michael R. Beck, Jr., with whom she had three children: Michael R. Beck, III, Sean P. Beck and Kristin (Beck) Clark. All four of the family members serve as the Trustees. We are deeply grateful to the Foundation and its Trustees for their generosity to our students and for their amazing dedication to making a positive impact on the entire Akron community.

Meet the Auctioneer: David Goodman

David A. Goodman, a professional charity benefit fundraising auctioneer, is the founder and President of Auction Results. Auction Results' sole focus is on high-impact Auction Fundraising for 501(c)(3) Charitable Organizations. David has been a professional benefit auctioneer and entertainer for over 25 years and has helped raise in excess of \$250 million dollars for charity through auction events. While based in Chicago, Illinois, David has provided fundraising auctioneer services throughout the United States, including Alaska and Hawaii, and his clients and their guests are effusive in their praise.

Goodman stands out from other auctioneers in his use of magic to entertain his audience, a skill he started honing at a very young age. Recently, Mr. Goodman was described by NBC Nightly News as, "Amazing – an auctioneer magician who is the Houdini of the Benefit Auction World!" Using a fascinating combination of quick-talking cadence with spectacular magic, Goodman captures and entertains, ensuring a great time for all.

#13 Paddle Raise for the St. Sebastian STEM Initiative

In recognition that the world is becoming increasingly dependent on technology, that careers in STEM fields (science, technology, engineering, and math) are projected to grow twice as fast as others, and that STEM education promotes critical-thinking and problem-solving skills, St. Sebastian is excited to announce the launch of our St. Sebastian STEM Initiative.

You will have the opportunity during this portion of the live auction to raise your paddle and join others to establish a fund for the St. Sebastian STEM Initiative.

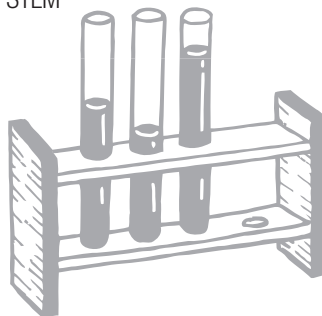

Value: PRICELESS

Everyone goes home a winner!

100% tax deductible

The vision for our STEM initiative is to create an environment where students learn through experience. They will be engaged in STEM activities that develop technical knowledge while fostering critical-thinking skills and problem-solving abilities. The initial phases include:

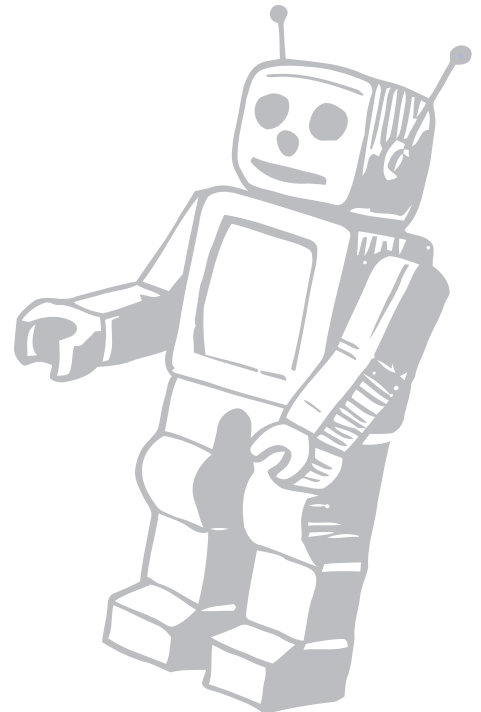

- purchase and introduction of programmable Lego robotics platforms for robot construction and programming for upper grade levels
- purchase and introduction of Wonderworks robots for developing coding concepts and promoting critical-thinking and problem-solving skills for the lower grade levels
- development of relationships with experts in STEM education to help develop curriculum ideas and acquire grade-level STEM curricula and materials
- professional development for our teachers

The St. Sebastian STEM Initiative began generating enthusiasm and interest even as the planning stages were just beginning. We hope you will join us in building on that energy by raising your paddle to fund the implementation of these fantastic plans!

All other proceeds from this event will be used for tuition reduction for each and every student as well as for technology upgrades and maintenance.

THANK YOU!

We're A St. Sebastian Family.
