TAMU BEEF CENTER • 1:00 P.M.
College Station, Texas

WELCOME

Paul Maulsby
Texas A&M University
Beef Center Manager
979-862-4736
979-587-2835
beefcenter@tamu.edu

Dear Friends,

On behalf of the Texas A&M University Beef Center and the Department of Animal Science, we would like to welcome you to the 2nd Annual Spirit of Aggeland Sale. We are very pleased to offer this set of cattle which are the result of our dedication to producing quality cattle that aid in our mission of teaching, research and extension. We hope that you will be able to join us for all of the activities during parent's weekend and the sale which will be held April 17, 2011.

The sale would not be possible without the tremendous support of our Alumni and those that have aided in the development of the quality genetics of our cattle program at the A&M Beef Center over the years. We would like to thank everyone who has supported our program and especially our guest consignors and past donors to the A&M program - Lastovica Angus Farms (Dr. Robert and Steven Lastovica Families) Hudson Pines Farms, Sunset View Farms, JRW Simmental, Hunter Creek Farms, Turkey Feather Ranches, Worrell Enterprises, JF Ranches and Santa Tereza Agropecaria.

This sale is highlighted with elite donors, frozen genetics, show prospects and herd sires. I feel with confidence that all of the cattle in the sale have potential to do great things for their new owners. These cattle have served as a great resource as teaching tools to our students and we are excited to share them with you.

We take great pride in the Animal Science Department, our center and our students, and we encourage you to visit or call with any questions regarding the sale offering or the Texas A&M University Beef Center.

*Sincerely,
Paul Maulsby
Texas A&M University*

Texas A&M University

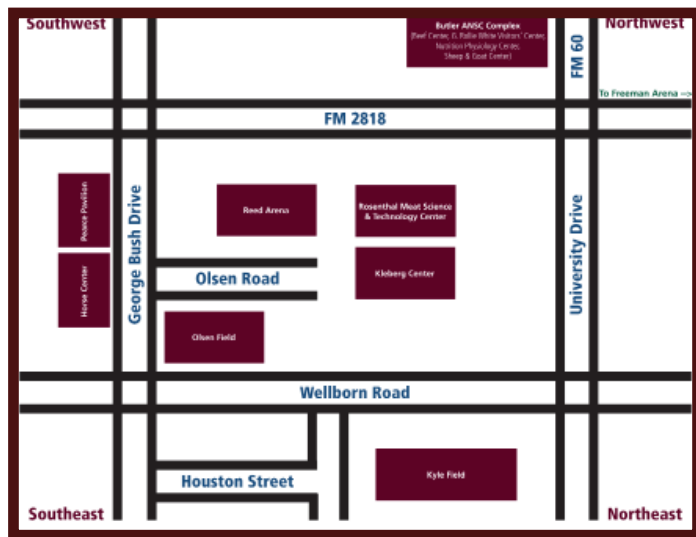

BEEF CENTER

As a component of the O.D. Butler, Jr. Animal Science Complex, the Texas A&M Beef Center ensures that Texas A&M University and the Department of Animal Science maintains an active leadership role in the beef cattle industry.

Major benefits include the following:

- Provides up-to-date facilities to teach students the basics of modern livestock management.
- Increasing numbers of students from urban backgrounds who have little or no contact with stock animals before entering the Animal Science program. The Center provides students access to beef cattle and demonstrate humane stock care.
- Expands research opportunities.
- Support for faculty research activities is critical for Texas A&M to maintain the lead in animal science programs. The Texas A&M Beef Center provides a modern, efficient facility for research activities. It serves as the focus for a community of diverse faculty scholars with an interest in beef. The Center integrates already strong programs in beef and ranching, enhances scientific excellence, and promotes faculty development.
- Improves Texas' competitiveness.
- Experts at the TAMU Beef Center speed the development and implementation of technologies to reduce beef product costs.
- Expand Extension and public serve programs for the industry. The external function of the Texas A&M Beef Center can not be overstated. The public image presented by the Center is critical to ensuring personal involvement and contributions from the private sector. The Center will maintain a high profile through regular public meetings, industry organization programs and adult education seminars.

Visitors are welcome anytime at the TAMU Beef Center!

Sale Schedule

Friday, April 15th

3:00 p.m.	Cattle available for viewing TAMU Beef Center
5:00 p.m.	S&S Little Southwestern, Pearce Pavilion

Saturday, April 16th

9:00 a.m.	S&S Little Southwester, Pearce Pavilion
2:00 p.m.	Cattle available for viewing TAMU Beef Center
6:00 p.m.	S&S Banquet

Sunday, April 17th

11:00 a.m.	Lunch TAMU Beef Center
1:00 p.m.	Spirit of Aggieland Sale TAMU Beef Center

Terms: Cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Health: Health papers will be furnished for interstate shipment. All animals have been tested as required for Brucellosis and Tuberculosis by a licensed veterinarian and meet the health requirements of the State of Texas. If sale cattle are returned to the seller for any adjustment, they must meet the health requirements of the state to which they are returned.

Guarantee: Each animal sells full guaranteed under the Suggested Sale Terms & Conditions of the American Simmental and Angus Associations shall be accompanied by an official certificate if registry.

All persons who attend the sale do so at their own risk. Neither the owners nor any other person connected with the sale assumes liability, legal or otherwise, for accidents or loss of property.

Mail or phone bids may be furnished if you are unable to attend the sale. Bids must be in the hands of the sale manager in ample time prior to sale date and will be handled confidentially.

Announcements: Any change of information other than that listed in the catalog will be announced from the auction block, and such announcements shall take precedence. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

The legacy of **SHEZA DANDY!**

Lazy H Sheza Dandi T46
Donor for Hudson Pines
and Lazy H and Full
Sister to Lots 1 and 2.

Lot
1

Donor consigned by Texas A&M University

TAMU Sheza Dream Lady

Sire: Nicholas Legacy G151

Lot 1

It would be safe to say that JBH Sheza Dandy is considered a Simmental breed icon. Her legacy can be traced in the pedigrees of some of the most influential sires and dams in the Simmental breed. Texas A&M University was given the opportunity to work with this infamous cow and she has served as the cornerstone of our Simmental program. Sheza Lady represents one of the best direct daughters of Dandy and has been very successful in our ET program. It is only because of her success in egg production and the fact that we wanted to share the Dandy legacy that we are selling this donor female. Her full sister Lazy H Sheza Dandi T46 sold for \$25000 for half interest and is serving as an elite donor for Hudson Pines and Lazy H. Direct daughters of Sheza Dandy don't sell every day and there won't be anymore so thake advantage of this enormous opportunity to add the Dandy influence to your herd. She sells open and ready to flush!

FLUSHES & FROZEN GENETICS

Lot 2

Lot 2A Selling a flush and guaranteeing 5 grade 1 eggs and 2 confirmed pregnancies.

Lot 2B Selling 3 embryos guaranteeing 1 pregnancy if work is performed by certified embryologist.

TAMU Sheza Dream Girl "Juno" is a full sister to Lazy H Sheza Dandi T46, a donor female and successful show heifer for Hudson Pines Farms and Lazy H Farms, as well as our leading donor TAMU Sheza Dream Lady selling as Lot 1. Her dam Sheza Dandy could have volumes written about her influence on the Simmental breed in terms of dollars generated, genetics that are traced in the who's who of the breed and her overall legacy of phenotypic superior animals that demand attention and work for all who have them in their programs. Here is your chance to gain access to genetics from the most consistent and profitable cow families in the breed.

Lot 3

Here is a special egg lot from our friends at Sunset View Farms and JRW LLC. Sheza Angel is a direct daughter out of the legendary donor Sheza Dandy. Sunset View over the years has had more descendants of the Sheza Dandy and Joliette line than any other Simmental operation. Just a few would be Sheza Star, Sheza Glory, Shania, Kashmere, Sheza Joy and many more. Many progeny have been marketed and are flourishing in other seedstock operations as well. Study any catalog or sale across the country Sheza Dandy will appear. Also, the number one impact sire of our breed is Dream On. His dam, Sheza Dream is a half sister to Sheza Dandy. Sheza Angel was an embryo that was purchased from Texas A and M. This Powerline daughter has had excellent progeny and just got flushed later in life. Pine Ridge purchased a In Dew Time son that did very well and now is working in progressive commercial herd in Georgia. This year in the Family Traditions sale a son sold to Paul Richter in Indiana. She is a bull producer. Angel was purchased for 7000 out of the 2010 SVF sale and now is one of the headliner donors for JRW. Selling embryos out of the consistent sire In Dew Time and the ABS Bull Movin Forward. You can go wrong adding genetics with the history and predictability of this great family.

Selling 3 embryos guaranteeing 1 pregnancy if work is performed by certified embryologist.

Here at Hudson Pines, we feel honored to be a part of such a great event and we wanted to consign some of our best genetics. The dam of these embryos, HPF Betsy T906 was crowned the Reserve National Champion Female in 2009, right here in the state of Texas. She overpowered the competition with her volume, capacity, sound structure, and stunning profile, topped off with her beautiful baldy face. Sire of the embryos is STF Dominance, a National Champion himself, being named Grand Champion bull at the 2010 NWSS in Denver. Semen on Dominance is not sold on the open market and is extremely hard to come by. Take advantage of this opportunity to add rare and powerful genetics to your herd.

Gauranteeing 5 Grade 1 embryo's mated to the bull of your choice and two pregnancies. TAMU Foxy Roxy was the Reserve Champion female of the 2007 Ft. Worth Stock Show and full sister to our herd sire TAMU Freedom, which is the sire of many impressive lots in the sale. Her dam 3C Crocus has created some of the best genetics in our program. Roxy represents the type of cow that can enable diversity in a program. She works great in both percentage and purebred programs and has the traits that would also make her a candidate for club calf production.

TAMU WRENNA Champion Simmental 2011 San Antonio and Houston Junior Shows and Reserve Supreme Continental Houston. **SOLD IN LAST YEARS SALE!**
SF DREAM OF ME DAUGHTER

Guaranteeing 5 grade 1 embryos mated to the bull of your choice and two pregnancies. Lot 6, SF Dream of Me was shown by Texas A&M with wins including Junior Division Champion at Louisville and numerous championships in Texas. She is a full sister to "What a Dream" and has made a huge impact on our Simmental program with many progeny in the sale. She transmits her phenotypic traits with great influence. Here is an opportunity to be at the front end of capturing genetics on a donor that will create great cattle and profit for any program. Her biggest impact is proving to be her production record, she has consistently produced cattle that create value and success. TAMU Wrenna a daughter which sold in last years sale went on to be Champion Simmental Junior heifer at the 2011 San Antonio Livestock Show and Rodeo as well as being crowned Champion Simmental Female in both the Junior and Open shows at the 2011 Houston Livestock Show and Rodeo and later being selected as Reserve Supreme Continental Heifer of the Houston Junior Heifer Show. Dream of Me also was the dam of TAMU Sully which was Res. Intermediate Champion Simmental bull at Louisville and Champion Intermediate at Houston. This flush is well worth the investment.
