

LEUPOLD

SPRING 2021

RELENTLESS PERFORMANCE

Bruce Pettet, CEO, Leupold & Stevens, Inc.

Over the last year, we have all faced our fair share of challenges. But at Leupold, we see every challenge as an opportunity to test what we are made of—to remind us who we are. And with a little agility and a lot of hard work, we overcame each new hurdle with the focused determination we are known for.

We refined our manufacturing processes to ensure the safety of our workforce. We streamlined operations to make up for supply chain disruptions and increasing demand. We strengthened our relationships with consumers and sharpened our focus on developing meaningful new products. And we did it all without losing sight of what matters most: that our optics perform at the highest level, no matter the challenge.

For more than 100 years, we have held to the same promise: To never let down on quality. Today, our promise is no different. We will continue to make sure every product that bears the Leupold name outperforms your expectations, and our own.

We stake our family's reputation on it.
