# CNC CARVING MACHINES

The next generation *i-Carver*<sup>TM</sup> offers many **new features** that make it the best value in the bench top CNC market.

## New Features include:

- New "Pause" function for added flexibility!
- New "Bordering" feature for added security!
- Variable jogging speed for more critical positioning!
- Improved ball screws for more rugged and accurate performance!
- New and improved operating system for smoother cutting operation!

**PLUS!**

All 40-915X M1 *i-Carver*<sup>TM</sup> now comes complete with:

ArtCAM Express CAD design software with training DVD! ArtCAM Express adds a whole new level of functionality to your *i-Carver*<sup>TM</sup>. Easy-to-learn design software with powerful CAD/CAM functions. Import virtually any graphic file (JPG, PNG, BMP, DXF, DWG) and easily create tool paths. Create a variety of tool paths (texturing, carving, profiling, pocketing). Customize your own textures. Over 500 3D images included that can be imported into your design and machined. ArtCAM Express software is fully supported by General CNC's technical support team.
