

New for 2021

1000 HP *Stage I* **&** **1050 HP** *Stage II*
Automatic Transmission Only *Manual Transmission Only*

YENKO/SC[®] Camaro

WARNING: These vehicles produce excessive amounts of horsepower. Horsepower is addictive and can cause heart palpitations, feelings of exhilaration and euphoria.

THE ULTIMATE CAMARO EXPERIENCE...

In 1969 the muscle car wars were in full swing, with GM, Ford and Chrysler each developing their own big-block powered performance cars. Not to be outdone, Chevrolet's Central Office Production Order (COPO) system produced a limited run of Camaros with the now infamous ZL-1 all-aluminum big-block engine.

...FROM THE #1 GM SPECIALTY VEHICLE MANUFACTURER!

Now in the spirit of those awesome vehicles, Specialty Vehicle Engineering will build 50 each of these 2021 YENKO/SC® **1000HP** Stage I Camaros with automatic transmissions and **1050HP** Stage II Camaros with manual transmissions and they'll all go very fast... literally!

For more than 25 years, Specialty Vehicle Engineering (formerly SLP) has been a Second Stage Vehicle Manufacturer and Tier One Supplier to GM and its dealers, having built over 55,000 cars, trucks, and SUV specialty vehicles; making us the #1 GM Specialty Vehicle Manufacturer in the USA! That's why our company was chosen as the exclusive vehicle builder of all the current generation YENKO® Supercars.

A black Chevrolet Camaro Yenko Stage I supercar is shown from a rear three-quarter view. The car features a prominent rear spoiler with "416 HP" in red, dual exhaust pipes, and multi-spoke wheels with red accents. The word "YENKO" is visible on the rear quarter panel. The car is parked on an asphalt surface in front of two large jet engines from a commercial aircraft.

AN AMERICAN-MADE SUPERCAR---

To maximize engine performance, there is no substitute for cubic inches or supercharging. That's why Specialty Vehicle Engineering developed its own supercharged custom-built 416 C.I.D. (6.8L) engine, based on the production 6.2 Liter LT-1 engine, that's included in our YENKO® Stage I and Stage II Camaros. These Limited Edition YENKO/SC® specialty vehicles are only available exclusively through GM dealers throughout the US and Canada.

Our powerhouse engine delivers **1000HP** with 875 lb.-ft. of torque on the Stage I and **1050HP** with 900 lb.-ft. of torque on the Stage II. This engine features a blueprinted LT-1 aluminum block, computer-balanced race-quality rotating assembly, including forged 4340 steel crankshaft and H-beam steel rods, forged aluminum pistons, CNC ported high-flow LT-4 cylinder heads with ARP high strength head and main studs, a custom supercharger with a 10-rib dedicated belt drive system utilizing an upgraded fuel system and injectors, a larger throttle body, and custom stainless steel headers with high-flow cats. The 2021 YENKO/SC® Stage I Camaro features an upgraded heavy-duty 10L90 automatic transmission upgrade and includes our 3 year/36,000 mile limited warranty.

HIGH-OUTPUT SUPERCHARGER WITH 1000HP OR 1050HP SUPERCHARGED BADGES. SHOWN WITH OPTIONAL PAINT TREATMENT (BLACK IS STANDARD).

... UNLIKE ANY OTHER!

LOOKS FAST
STANDING STILL!

We based the 2021 YENKO/SC® Stage I automatic transmission and Stage II manual transmission Camaros off the SS 1LE to include all of the great performance features the 1LE offers, to properly balance the awesome power of the supercharged engine. Features like Magnetic Ride Control, Electronic Limited-Slip Differential, Performance-Tuned suspension with unique bushings, springs and stabilizer bars, and heavy-duty cooling system including engine oil cooler, dual outboard radiators, transmission cooler and rear differential cooler. The functional 1LE front splitter helps reduce nose lift and the rear spoiler keeps the rear end firmly planted at speed. The 1LE also features Recaro Performance Seats that keep you planted in position.

DESTINED TO BECOME A TRUE CLASSIC!

The 2021 YENKO/SC® Camaro's unique appearance will get everyone's attention instantly. The exciting YENKO® side stripes make a dramatic statement, along with the body color painted carbon fiber hood with exposed carbon fiber hood scoop that blends perfectly with the lines of the Camaro. The custom 1000HP or 1050HP badges on the raised hood scoop cowl and spoiler will make the competition think twice.

These very limited edition (50 each) 2021 SS 1LE Camaros are available in coupe with automatic transmission only for Stage I and manual transmission only for Stage II.

STYLING...

In addition to its awesome horsepower, the 2021 YENKO/SC® Camaros include many unique interior and exterior features that set it apart from the stock Camaro. Features like the body color painted carbon fiber hood with exposed carbon fiber hood scoop, OE-quality 1000HP or 1050HP hood cowl badges, YENKO® crest badges and unique side stripes give the exterior an instantly recognizable appearance. The interior also displays the YENKO® trademark with embroidered floormats, headrest logos and a YENKO® crest power badge.

- 1 Body color painted carbon fiber hood with exposed carbon fiber scoop and sYc® logo, non-functional scoop, grille
- 2 High-polished, dual dual stainless steel exhaust tips included with exhaust system
- 3 YENKO/SC® body side stripes. OE-quality vinyl resistant to fading, cracking and peeling
- 4 YENKO® Crest badges for front grille, fenders, and rear panel
- 5 Decklid black-out panel graphic with YENKO® Crest badge
- 6 1000HP or 1050HP badges for hood cowl in chrome/red or gloss black/red and spoiler badges in chrome/red or black chrome/red
- 7 Stage I or Stage II badges for spoiler in chrome/red or black chrome/red
- 8 YENKO/SC® doorsill plates
- 9 YENKO® Crest Supercharged embroidered premium front floormats
- 10 YENKO® Crest key fobs and sequentially numbered power badge (1-50)
- 11 sYc® embroidered front seat headrests (standard in white. Custom colors optional)
- 12 Forged light-weight multi-spoke aluminum wheels available in 2 finishes (brushed aluminum or matte black) with sYc centercaps. Optional red line stripe available for matte black finish wheels. Nitto NT555 G2 285/30ZR20 front and 305/30ZR20 rear performance tires.

...TO MAKE IT YOUR OWN!

With 9 factory paint color choices, and 9 colors available for the sYc® side graphics, you can personalize your 2021 YENKO/SC® Camaro so it's really unique. New for 2021 is the exposed carbon fiber without graphics on the hood scoop cowl. Custom graphic colors are also available and the same color can be added to the brake calipers and supercharger (optional). All of our graphics are made from OE-quality vinyl, and are resistant to fading, cracking, and peeling.
