

STAGETEK®

STAGING SYSTEM

Wenger®

Everything about StageTek® is an advancement. The refined, smart design is the result of extensive research, engineering and technical advancements in materials and manufacturing. Our staging system is lighter, stronger, easier to handle and faster to set up. When it comes to stretching your investment across multiple needs like

seated risers and performance stages, StageTek sets a new standard. For unlimited flexibility, an extra set of legs stored under your deck is all you will need – that's why we make the legs strong, simple and inexpensive. Compare Wenger's StageTek Staging to any other option and see for yourself why your next stage or riser will be StageTek.

FAST, EASY, INTUITIVE SETUP

Round legs fit easily into corner pockets and become rock-solid with a single turn of a knob.

Plug-n-play leg connection is simple and fast. No tools. No folding frames or pins to align. As much as 20% faster and 15% lighter compared to alternative systems.

ENHANCED SAFETY & HANDLING COMFORT

StageTek's decks are at least 15% lighter than competitor systems and easier to grip, reducing potential for injury to your crew.

IMPROVED STORAGE & MOBILITY

Six decks and multiple sets of legs store on one easy moving cart. In fact, StageTek stores in 50% less space than some other competing products. Underneath a StageTek setup you have a wide open space unencumbered by frames and braces.

MORE STRENGTH & STABILITY

StageTek is the only system that exceeds performance expectations for uniform load, side load and point load.

- Uniform Load** = 125 lb/ft² (6 kN/m²) to 200 lb/ft² (9.6 kN/m²).
- Dynamic Live Load** = Side load of 15% of total Uniform Live Load which equals 600 lb (2.7 kN) side load on a platform under a total Uniform Live Load of 4,000 lb (17.8 kN).
- Point Load** = 1,500lb (6.7 kN) applied via 1" (25 mm) diameter pin.

MAXIMUM FLEXIBILITY

Flexibility between configurations and heights is all about the legs and that's why we made them simple, strong, easy to use and inexpensive.

FLAT OR MULTI-LEVEL STAGES

SEATED RISERS

Setting up single- or multi-level stages is fast and easy with various sets of legs, and Wenger's articulating stairway adapts to virtually any height you need.

StageTek allows you to create seated risers for any event. Further enhance your setup with side and front closure panels for a finished look that also keeps dust and litter from collecting underneath.

With a single set of StageTek decks and interchangeable legs of different lengths, you can create just about any staging setup you need in no time. The StageTek concept is simple. Instead of attached legs, StageTek decks have optional sturdy retention clips that store and transport interchangeable legs. By using legs of different lengths, a crew of two can turn StageTek into multilevel stages, seated risers, runways, speaker platforms, graduation stages, and just about any other configuration you can imagine.
