steam bath module

The Steam Bath Restore Module is made of a self-supporting structure in aluminum and an inside-outside covering in shiny ABS, that ensures absolute waterproofing, maximum durability and UV-resistant. The Steam Bath Restore Module is insulated with materials that guarantee a very high thermal insulation (EPS) and consequently a lower power consumption.

The Steam Bath Restore Module is finished, there is no need of further processing of coating inside or outside, it can be disassembled and moved and the technical room is included in the structure.

Accessories included :

- Steam generator of 4,5 kw- 6kg/h (at the same price it will be supplied the steam generator of 6 kw- 8kg/h for public use) completed with insulated pipes and nozzle for steam inlet.
- Technique to spread the essences.
- White shower hose with piezoelectric button for the start.
- Loudspeakers
- Emergency button
- Suspended benches in white shiny fiberglass
- Lighting system with striped technology under the benches
- Front window made in transparent extra-clear tempered glass 10 mm completed with accessorizes and a pair of handles

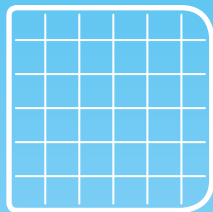

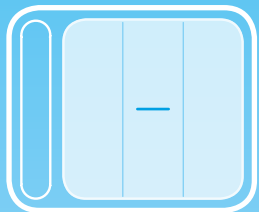

Not included: VAT, custom clearance fees, transport, installation and predisposition.

Necessary predisposition: cold water, drain, electrical power only in the technical room. The predisposition have to follow our technical drawing indication.

sauna module

The Sauna Restore Module is made of a self-supporting structure in aluminum and solid wood with rockwool insulation and aluminum sheet. It is covered inside with solid hemlock wood staves mounted in horizontal way. The suspended benches are made of hemlock wood and the heater is hidden behind a pierced wooden wall.

The Sauna Restore Module has an external covering in shiny ABS, that ensures absolute waterproofing, maximum durability and UV-resistant.

The Sauna Restore Module is finished, there is no need of further processing or coating inside or outside, it can be disassembled and moved and the digital panel can be placed on the external wall or in an separate room.

Accessories included:

- Electric heater made of steel with the power of 6.0 kw completed with accessories;
- Digital control unit
- Loudspeakers
- Emergency button
- Lighting system with white striped behind the pierced wooden wall.
- Front window made in transparent extra-clear tempered glass 10 mm completed with accessories and a pair of handles
- Wooden cup connected to a pipe to put the water on top of the heater

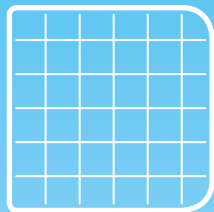

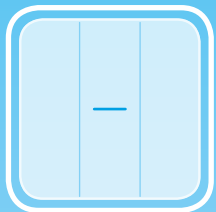

Not included: VAT, custom clearance fees, transport, installation and predisposition.

Necessary predisposition: electrical power only in the technical room. The predisposition have to follow our technical drawing indication.

shower module

The Shower Restore Module is made of a self-supporting structure in aluminum and an inside-outside covering in shiny ABS, that ensures absolute waterproofing, maximum durability and UV-resistant.

The Shower Restore Module is completed with an emotional shower "cold mist" that sprayed cold water in fine particle mixed with mint essence and enlighten with blue led. The shower starts pushing a waterproofing piezoelectric button and there is the possibility to set manually the duration of the cycle.

The Shower Restore Module includes a chrome shower head of Ø mm 200 with water mixer on the wall.

The shower Restore Module is finished, a blue led light is included, there is no need of further processing of coating inside or outside. It can be disassembled and moved and the technical room is included in the structure.

Accessories included: Emotional Shower "Cold Mist"

- n°1 Corian shower element on the ceiling, color on sample;
- n°1 stainless steel chrome nozzle for "cold mist" effect. Maximum flow rate 6l/m at 5 bar.
- n°1 Switchboard
- n°1 piezoelectric button ;
- n°1 dosing pump 1,5l/h 5 bar 220V 1A;
- n°2 spot led lights 3 Watt blue and white including transformer.

Standard head shower with water mixer.

- Loudspeakers
- Electric materials, hydraulic materials, pipes, valves and the rest of items necessary to have a finished work.

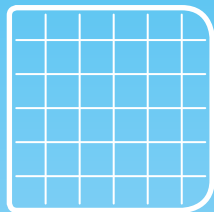

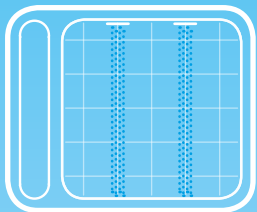

Not included: VAT, custom clearance fees, transport, installation and predisposition.

Necessary predisposition: cold water, hot water, drain, electrical power only in the technical room. The predisposition have to follow our technical drawing indication.
