## Topic 1: Factors and Multiples

## Topic 2: Positive Rational Numbers

| Fraction by Fraction Division | Multiplying by Fractions to Increase or Decrease Quantities | Students watch an animation showing how multiplying by a fraction can increase a quantity, decrease a quantity, or keep a quantity the same. Students reason with fractional factors that are less than 1, equal to 1 , or greater than 1 to determine how they affect the resulting product. | 6.3.B | $\checkmark$ |  | $\bullet$ |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Representing Fraction Division | Students watch an animation and answer questions about modeling fraction division. | 6.2 E | , |  | $\bullet$ |  |  |  |  |  |  |  |  |  |
|  | Interpreting Remainders Using Models | Students compute quotients of fractions using visual fraction models. | 6.2 E |  | $\checkmark$ |  |  |  |  |  |  |  |  |  |  |
|  | Developing the Fraction Division Algorithm | Students develop an understanding of the algorithm for fraction division through worked examples and the completion of partial worked examples. | 6.3A | $\checkmark$ |  |  |  |  |  |  |  |  |  |  | $\bullet$ |
|  | Multiplying and Dividing Rational Numbers | Students calculate products and quotients of fractions, including mixed numbers and improper fractions. | 6.3E |  | $\checkmark$ |  |  |  |  |  |  |  |  | $\bullet$ |  |

## Topic 3: Shapes and Solids

| Triangle Sum <br> and Exterior <br> Angle Theorems | Introduction to Triangle <br> Sum and Exterior Angle <br> Theorems |

| Triangle Sum and Exterior Angle Theorems (continued) | Solving Problems Using Triangle Sum and Exterior Angles | Students determine the remote interior angles of a triangle given an exterior angle. They use the Triangle Sum and Exterior Angle Theorems to calculate unknown angle measures in diagrams. | 6.8A |  | $\checkmark$ |  |  |  |  | $\bullet$ |  |  |  | $\bullet$ |  |
| Area of Triangles and Quadrilaterals | Calculating Area of Rectangles | Students calculate the areas of rectangles and squares in mathematical and real-world situations. | 6.8C |  | $\checkmark$ |  |  |  |  |  |  |  | $\bullet$ | $\bullet$ |  |
|  | Developing Area Formulas | Students watch animations and answer questions to derive the formulas used to calculate the areas of parallelograms, triangles, and trapezoids. They use the formulas to represent area problems as equations using given dimensions in realworld scenarios. | 6.8B 6.8C | $\checkmark$ |  | $\bullet$ |  |  |  |  |  |  | $\bullet$ |  |  |
|  | Calculating Area of Various Figures | Students calculate the areas of parallelograms, trapezoids, and triangles in mathematical and real-world situations. | 6.8D |  | $\checkmark$ |  |  |  |  |  |  |  | $\bullet$ | $\bullet$ |  |
| Volume of Right Rectangular Prisms | Determining Volume Using Unit Fraction Cubes | Students watch an animation, which provides an example of how to determine the unit fraction dimensions of a cube to fill a rectangular prism with fractional edge lengths. Students determine the volumes of various rectangular prisms with different fractional edge lengths. | 6.8D | $\checkmark$ |  | $\bullet$ |  |  |  |  |  |  |  |  |  |
|  | Calculating Volume of Right Rectangular Prisms | Students determine the volume of right rectangular prisms. | 6.8C 6.8D |  | $\checkmark$ |  |  |  |  |  |  |  | $\bullet$ | $\bullet$ |  |

## Topic 4: Decimals

Adding and
Subtracting
Decimals

| Students review adding and subtracting multidigit decimals by examining worked examples, completing partially-completed worked examples, and solving problems. | 5.3K | $\checkmark$ |  |  |  |  |  |  |  |  |  |  |  | $\bullet$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Students practice adding and subtracting multi-digit decimals using the standard algorithm. | 5.3K |  | $\checkmark$ |  |  |  |  |  |  |  |  |  |  |  |

## Topic 1: Ratios

## Topic 2: Percents

Percent,
Fraction, and Decimal
Equivalence

Students watch animations and answer questions about percent models. They write fractional and decimal equivalents of percent models. Students estimate percents using models. They relate benchmark percents and fractions.

| Problem <br> Solving on the Coordinate Plane | Writing an Expression from a Scenario, Table, or Graph | Students match a scenario to an expression that represents the dependent quantity. They complete a table of values given a scenario. Given a table of values, students identify the relationship between the quantities and write an expression to model the independent quantity. Students analyze the relationships in a graph. They use the relationship between the quantities in a graph to write an expression to model the independent quantity. | 6.6A 6.6B 6.6C | $\checkmark$ |  |  | $\bullet$ |  |  |  |  |  | $\bullet$ |  | - |
|  | Solving One-Step <br> Equations Using Multiple Representations in Four Quadrants | Students will create tables of values, write algebraic expressions with one operation, and create graphs to represent and answer questions about problem scenarios. | 6.6C |  | $\checkmark$ |  |  |  | - |  |  |  | $\bullet$ |  |  |

## Numerical Summaries of Data
