## STU WIFI Self Registration Portal

To register gaming systems or streaming devices on the STU Wifi network, follow these instructions:

1. Before opening the self-registration portal, you must obtain the MAC address of the device to be added. Follow instructions here on how to find the MAC address of your device.

2. Once the MAC address is known, open the portal on a connected device by going to http://stu-nac1.stu.edu/self_registration or http://stu-nac2.stu.edu/self_registration
(there is an underscore between self and registration).

3. A login page will be presented where you must enter your **STU Username** and **STU password**:

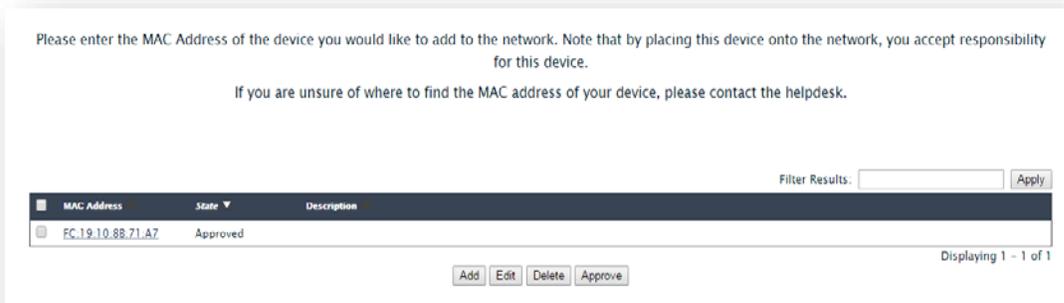

4. After logging in, all registered devices under your login will appear in a list:

5. To add a device, click the **Add** button, then enter your **STU Username**, **MAC Address** and a **Description** of your device (for example, XBox). Then click the **Submit** button. The device will now be added to your connected devices list:

Please enter the MAC Address of the device you would like to add to the network. Note that by placing this device onto the network, you accept responsibility for this device.

If you are unsure of where to find the MAC address of your device, please contact the helpdesk.

6. To delete a device, check the box next to its MAC Address, then click the **Delete** button. Confirm delete by clicking the **OK** button, or you can Cancel.

How to find the MAC Address?

To find your game console or streaming device's MAC Address, follow the relevant instructions below. A valid MAC Address will have the format of twelve hexadecimal numbers, generally separated by colons (for example, 01:23:4D:67:B9:0A).

[Nintendo Consoles](#)
[Sony Consoles](#)
[Microsoft Consoles](#)
[Other Streaming Devices](#)

Nintendo Consoles

Nintendo DS

To locate the MAC Address from a Nintendo DS, you must first insert a Nintendo Wi-Fi Connection compatible game and access the **WFC Setup Utility**. Please note that the exact steps to access the setup utility varies by game. However, the setup utility is a standard menu, included with all WFC-compatible games.

After accessing the utility, tap **Options**, then **System Information**.

The **MAC Address** and **Nintendo WFC ID** will be listed on the screen. Unless the game player has successfully connected with Nintendo Wi-Fi Connection, the WFC ID will be blank.

Nintendo 3DS

To locate the MAC Address of your 3DS:

1. From the **Home** menu, highlight and select the **System Settings Icon**.
2. Select **Internet Settings**.
3. Tap **Other Information**.
4. Tap **Confirm MAC Address**. Your system's MAC Address will be displayed on the screen.

Wii U

To locate the MAC Address of your Wii U console:

1. From the Wii U **Menu**, select **System Settings**.
2. Using the Left Stick select the **Internet icon** and press the **A Button**.
3. Select **View MAC Address** and wait a moment for the MAC Address to be displayed.

Sony Consoles

Playstation 3

To locate the MAC Address of your Playstation 3 console:

1. From the main menu, select **Settings**.
2. Select **System Settings**.
3. Select **System Information**.
4. The MAC Address will then be displayed on the screen.

Playstation 4

To locate the MAC Address of your Playstation 4 console:

1. Arrow up and over to **Settings** in the PS4 menu.
2. Scroll down to **Network.**
3. Scroll down to **View Connection Status.**
4. The MAC Address will be listed next to MAC Address.

PSP

To locate the MAC Address of your PlayStation Portable (PSP):

1. Navigate to **System Settings**.
2. Then navigate to **System Information**, which is where the MAC Address is listed.

Microsoft Consoles

Xbox 360

To locate the MAC Address of your Xbox One console:

1. Navigate to **My Xbox** on the **Xbox Dashboard**.
2. Select **System Settings**.
3. Select **Network Settings**.
4. Select **Configure Network**.
5. Under **Basic Settings** check to make sure IP Settings is set to **Automatic**.
6. Go to **Additional Settings**.
7. Select **Advanced Settings**. The MAC Addresses for the wired and wireless adapters should be displayed.

Xbox One

To locate the MAC Address of your Xbox One console:

1. Navigate to **My Games and Apps**
2. Select **Settings**.
3. Select **Network**.
4. Select **Advanced Settings**. The MAC Addresses for the wired and wireless adapters should be displayed.

Streaming Devices

Apple TV

To locate the MAC Address of your Apple TV:

1. With your Apple TV remote, navigate to the **Settings** icon and select it.
2. From the Settings menu, select **General**.
3. Under General, select **Network**.
4. Your MAC Address will be next to either Wi-Fi Address or Ethernet Address, depending on whether you are connected to the internet via Wi-Fi or a wired connection.

Chromecast

To locate the MAC Address of your Chromecast:

1. Open the **Chromecast app** on your computer. If you have set up your Chromecast recently, you'll find a shortcut to the app on your desktop. Otherwise, Windows users should check the Start Menu and Mac users should check Applications.
2. Click **Settings**, and the MAC Address will be at the bottom of the window.

Roku

To locate the MAC Address of your Roku:

1. On the back on your Roku there are a pair of six 2-digit pairs separated by colons, e.g. 00:0D:0A:1H:3G:5C. One set is for the Ethernet connector and for the other for the wireless connector.
2. Alternatively, from the Roku home screen, select **Settings**, then **Player info**. The Addresses will be listed on-screen.

Smart TV/Blu-ray Player

To locate the MAC Address of your Smart TV or Blu-ray Player:

- Most MAC Addresses will be visible in the Settings Menu, either under the Network or About sections.
- Alternatively, check with the manufacturer for instructions on how to obtain the MAC Address for your specific model.
