```
to him and he'll stop crying and present himself as Mallow. After he tells you he stole the crocodile's coin, he'll ask you to help him. Accept, and he will join your party (Level 2, 18 Exp. to the next level). Now, go to the Tool Shop and talk to the merchant. He's going to give you a pick me up for free. Then talk to him again and buy shirt and
jump shoes for Mario and pants for Mallow. You should also buy a couple of honey syrups and Pick Me Ups (you shouldn't need any mushrooms if you still have those from earlier in the game), then leave the store. Walk down the path and you'll see a mushroom baby hopping up and down in a panic. Walk past him and he'll stop you and
beginning. He'll see you and run away, so now it's time to go after him! From the beginning, head down and to the right until you see a rescue point in the lower left side of the area. Save at that point, and then take the path to the next area, jump on the red flower and use it to jump on the larger edge. Then go right and jump
from platform to platform in the air, because every time you step on one, the other rotates in front of you so you can jump on it. Collect coins in the next area, you must follow the Croco up and through this area. Continue until you reach the last intersection, then take the right
path and defeat the K-9 under your chest, then hit your chest to get a recovery fungus. Now go back down, to the left, and up to the next area. After Croco runs again, jump on the yellow platform to the right, then jump at an angle to hit his chest in the air to get the Super Star. Then drop down and hit every K-9 that you see until the star's
power ends to get a lot of experience (you should earn a level, at least to do so). Then continue to the final area, You'll see Croco in the last area, He'll tease you before he runs away again. Enter the area and search for Croco. When you find him, simply sneak up on him 3 times, then he'll stop running and fight you! Check out the Bosses
section of this guide to learn to beat Croco. Once you've got it, you'll get Mallow's coin back, and you'll find a wallet. Now a trampoline will appear nearby, so jump on it to be transported back to the Mushroom Kingdom. The Kingdom of Mushrooms ----
         When you return to the Kingdom of Mushrooms, you will discover that it is infested with Shysters scaring people. The first thing you should do is defeat Shyster following the mushroom guy with a blue hat, and talk to him. Give him
his wallet back and he'll give you a flower tab. Now, what you should do is fight all the Shysters in town, including the one who hits the house, the father will give you a flower tab for your help! Now head inside the castle to find more Shysters and Frog being
chased by one. Defeat Shyster by watching him and he'll run off to another room. Follow him, and then defeat 2 Shysters there to make that room with Toad. He'll be so happy that you helped him that he'd give you another
Flower Tab, which belonged to the princess. While you're in this room, talk to the old mushrooms that. That. before, when you come here, and it will completely restore HP and FP, then save the game to Save Point. Since fighting all these Shysters more than likely brought Mario and Mallow up to level 4 or 5, it's time to head to the throne
room. Go back to the main hall and go the right way. Fight 2 Shysters scare the mushroom guy then enter the upstairs room and talk to the scared valet guard. He's going to give you a wake-up pin, which you should equip Mallow. Now, go to the main hall again and go up while trying to avoid the endless supply of Shysters coming through
the door. Go through the following couple rooms, fight Shysters along the way until you reach the throne room. Shysters will see you and Mack will come forward. Then Mack and his servants for the star. After you defeat Mack, you can claim the first star! Then
go and talk to the Chancellor and Mallow will talk about asking his grandfather for help, so he should go to Tadvale Pond. Once you get control of Mario again, get out of the castle. Go to the Tool Shop and talk to the merchant and he'll give Mallow Cricket Pie in exchange for the Mallow toad coin he got from Croco. Now head to the Han
and save the game, then leave Mushroom Kingdom for Kero Sewer! Kero Sewerage ----------- When you enter the area, go down the pipe to enter the sewer. Once next to it, save your game at nearby Save Point, then jump into the water and swim to the right. Keep swimming right until you get to the shallow water section and jump at that
point and go down the pipe that's there. In the next room, he descends on the ledge on the right and descends on the steps and hit your chest to fight Panperitori, monster chest. Defeat him by making a few timed jump or Super Jump (if he has
already learned) attacks while Mallow defends or heals. After beating Pandesire, you get a jar of flowers and a Trueform Pin, which you should equip on Mario. Then sit on the top step or second step at the top step, then jump on the higher edge. Go all the way to the left, then hit the chest to get a flower, then go on the steps and head to
the right. Go right and up the stairs, then left and up these steps. Then go down to the pipe to the next room. Go left along the path where
there is Rat Funks walking back and forth. or try and jump over them (I'd rather you fight them, they're not that hard). Go down the pipe, then into the bottom edge and go down that pipe. Then go down the steps and go right, and push
green! switch to drain water from previous rooms. Go back to the pipe and lower it. Lower the sill down to the floor and down until you reach a pipe you couldn't access before. Go down that valve and hit the nearby chest to get the mushroom recovering inside, then save the game to Save Point. Then go right and down the pipe to get to
the room with Belome. Go to him and you will enter into a fight against him (visit the Bosses section if you need help in this fight). After you've beaten Belome, the switch he was standing on will rise and the gate will open, causing tons of water to come gushing, washing you along the Midas River. Midas River --------- Since this area is
more like a mini-game than a real level, I won't go into too many details for now. Look in the mini-games section of this guide to find more detailed information on this course. Just go down the first half of the swim against the current trying to nab all the coins and Frog coins you can. In the second half, you have to walk a barrel down the
river while jumping to collect coins in the air and avoid that piranha just out of the water and try to steal some coins from you! When you reach the end, the mushroom type will also give you Shell Noknok, which should equip Mario as his new
job, and then Frogfucius will float through a Lakitu. It will have the tadpoles form a bridge and then float back to the island where it lives. Now, jump from tadpole to tadpole on the journey with you. After the whole scene
is done and Frogfucius is standing on the edge of the island all upset, go talk to him again. He'll be so happy that you brought him the Cricket Pie from the Mushroom Kingdom that he'll give you the Froggie Stick, with which you should equip Mallow. Now jump back over the tadpole bridge and go right. Take the path to the next area to get
to Melody Bay. Stand on the gray stone/switch and play Frogfucius' Suite #18 on the bay. To learn to play it, look in the Melody Bay Songs section of this guide. what you play, Toadofsky will give you an Alto Card, which you could use to buy things from Juice Bar, located at the far left end of Tadvale Pond. Next Next Your game at Save
Point, then head back down the path from Melody Bay, then head left and down to exit Tadpole Pond. Now it's time to go down the yellow platform in the air and ride it to the first stop, then get off. Get mushroom recovery on that island if you need it, then jump on
the next platform and ride it to the next island. Get out of there and take the flower, then jump on the next platform. Get off at the first stop of this platform, then enter the next area. Here, you'll see two yellow platforms swinging back and forth, each with a Shy Type on top of it. Jump on the first platform when you reach the lowest point,
defeat the Shy Guy, then ride the platform until they come close to the other platform. Defeat the Shy Guy that one also then ride it to get a Frog coin. Then jump off the platform and get out of this room. Back to the main area, jump on the yellow platform and ride it to the third stop,
then get off and take the path to the next area. Simply follow the path through this room and you will get back to the area full of platform. Go to the first stop and get off, then climb to the other platform. Go to that platform until the second stop, then get off and enter the next room. In this area, there are 5 chests,
each with a shy guy on top of them. Go around the area, hitting the chests until naked and defeat the Shy guys who fall out of your chest to get some experience. By emptying all 5 chests, you will find Bowser and his troops. After they're all
gone, take the top path and the Rose Way and head for Rose Town. Rose Town. Rose Town. Rose Town, you will find that the arrows are falling from the sky, striking and completely paralyzing the people they hit so that they can't move. What you should do first in this dangerous city is get to the upper-left corner of the city
and talk to the guy who can move. Then jump on his head, then on the higher edge and enter the house. Hit 2 chests to get 2 flowers, then button and go back down and out of the house. There'll be a set of stairs there and the guy will climb on them and thank you, then you'll go where it's
safe. Go back in the house and talk to that guy. It will give you directions to a hidden area of the Forest Maze. I will tell you to find this section when we get to the forest maze part of this guide. Now, leave the house and head for from the top right of the city and enter the tool shop. Buy thick shirt and pants for Mario and Mallow and stock
up on honey syrups, Pick Me Ups, and mushrooms if you need them, then leave the store. Store. back to entering the city and go left and enter the Inn. You'll see a child playing with Mario, Princess and Bowser's dolls. When he notices you're there, he'll catch his mother. When the child asks to prove that you are Mario, make the jump
and his mother will ask you to play with her son, Gaz. Agree to play and Gaz will take out Geno's doll and accidentally shoot Mario with The Attack of Geno shooting stars and beat him! Later that night while everyone sleeps, a small star will appear in the Han and float around above the dolls. Then he will descend on the Geno doll and
possess it, making it life-size and real. Then he'll come out of the inn. When Mario wakes up, save to Save Point, and then go down just to hear Gaz and his mom argue about the Geno doll and how he got into the woods. When finished, leave the Inn and the city and head for the Forest Maze. Forest Maze ------ This stage is guite long
and can be very annoying, especially when you arrive in the room with the 4 paths! There are also many mushrooms on the ground that you can take. Be warned, though, that some are actually enemies in disguise as mushrooms,
which you could use to recover 30 hp, just like the items. From the beginning, go straight ahead in the next room, where there is a stump with a Wiggler walking around. Go down the stump into the underground cave. Go through the cave and jump on the trampoline to get back out. Then go up and to the right and take the path to the next
room, where you will find 7 stumps. Go to the last stump at the back end of the room and go down, then head left in the cave and you'll see a sleeping Wiggler. Jump on it to make it wake up and a loud noise will occur and you get thrown back out of the stump. You will find that a new path has opened behind the hub, so take that path to
the next area. Go to the stump where you'll see a Wiggler crawling into him and lowering that stump. In the cave, you'll find the same Wiggler from earlier all agitated trying to sleep again. Ignore it and go through the cave to the next trampoline and jump on it. Once you've turned yourself out, head up and right and save to Save Point
about half way through the room. Then take the path up the next room. You will find yourself in a room with 4 paths where each path takes you to an identical room (like the Lost Woods scene in Zelda for NES). You'll also see Geno standing by one of the paths. Before I talk about tracking Geno, I'm going to give you directions to the
hidden camera that the guy in Rose Town told you about. Directions (assuming you have just entered the room with the 4 paths) are: left, left, right, and These directions are through Mario's point of view, not yours, so remember that. You will find the hidden camera, go down the stump and hit all the coffers to find recovery
mushrooms, flowers, and a frog coin! Now, leave this room and take the path that goes up and you'll see Geno. Follow him as he heads through different paths until you find him, then take the path to the right, then up. You'll find Geno back on the left path. Go through this path and you'll get to the next room where Bowyer and his minions
are! Bowyer is obviously the one who was sending arrows into the amazing Rose Town of people. Mario and Mallow will hide behind a stump and a minion will enter with a stellar piece. Geno will appear again and ask bowyer to give him the starpiece. While Geno fights Bowyer, Mario and Mallow will sit on the sidelines. Then they will
jump into battle and it will become a 3-to-1 fight against Bowyer. Read the Bosses section of this guide for information on the Bowyer fight. After the three of you have defeated Bowyer, Geno will introduce himself and explain to you about the Star Road and the star pieces and what they need to repair the Star Road and restore peace.
Then Mario will reclaim the star and the camera will zoom in on an arrow minion who listened on to the conversation about Star Road and he will become part of your party (Level 6, 36 Exp. at the next level). Now continue on the trail and get out of the
Forest Maze and return to Rose Town! Rose Town! Rose Town. Enter the Han and talk to Gaz. Mario, Mallow, and Geno will try to explain the Situation to Star Road, then Gaz will give you a Finger Shot. Equip this on Geno to get a good gun,
then stay the night. In the morning, save your game, leave the Inn, then leave Rose Town for Pipe The R. Pipe Vault ------ the whole area is optional and you can get some extra coins and experience playing through it. From the
beginning, go down the pipe to go underground. In the first room, jump from edge to edge over the lava as you try to avoid fireballs coming out of the lava, unless you want to fight them. In the next room, go straight up the stairs while trying not to get crushed by Thwomp. Then skip the pipe with the piranha plant, and then go down the
second pipe to the next room. In this room, there are 6 pipes with piranha plants living in most of them. Go down the second pipe and run straight to collect Frog Coins, also then jump on the trampoline to get back into the room with pipes. Now go down second
to the last pipe and you will see a mole type and 4 pipes. Since it is also a mini-game, I will not go into details here; Look in the next room. Go through this room jumping from platform to platform, skipping the tanned-colored valve, and
then go down the green one. In this room, there are 4 colorful bronze pipes with piranha plants coming out of them, as well as a number of little white plant coins, then go down the green pipe to the next room. In this room, jump on the yellow
platform when it is at its lowest point, then hit the chest above to get some coins. After that, leave the platforms and continue. Jump over the edges to avoid the white plant things below you, then jump on the next yellow platform. Try and hit your chest above yourself while landing on the platform every time or else the plants below will
steal a bunch of coins! Then go right and go down the last green pipe to get out of pipe the Valley and appear in Yo'ster Isle ------------ When go down to the main area. Go all the way to the exit of this area and talk to Yoshi, then
jump on the saddle to ride him. Go back and talk to Yoshi pink at the entrance to the isle and he will give you some cookies to challenge him to a race. Since this is a mini-game, I'll tell you more about the race in the Mini-Games section
After you've defeated Boshi, everyone else Yoshi could compete again and Yoshi will give you 3 Yoshi Cookies, then say goodbye and leave. Now, go to the bottom end of the isla and take the path from here. From here, go to Moleville -------- When you enter this town, go left to the tool shop and go inside. Buy Mega Shirt and
Punch Glove for Mario, Mega Pants and Cymbals for Mallow, and Mega Cape for Geno. Also buy a bunch of mid mushrooms and honey syrups because they won't be much use in the game now that you are stronger and have a lot of HP and FP.
Now, leave the tool shop and go to the inn and enter it. Stay for the night, if you have to, save the game at Save Point, then get out of the entrance to the mine, you'll hear noise and the camera will show Bowser and his troops occupying an open area near the
mine. After they leave town, they're headed my way. You'll see a few moles inside with Ma Mole, running in panic. After they leave, the other two moles will ask you if you can help by getting into the mine and saving the two children who got trapped inside after the starpiece crashed into it. I agree to help, then jump on their shoulders, then
on the higher edge and enter the next area. Head right and in the next room, then drop down to the lower area and head up and into the next room. Jump on the trampoline that is there and you will hit the ceiling, then drop back down and fall unconscious for a while. Then Croco and his minions will appear and rob all of his coins, then
flee. Now head up and to the right and in the next room. Go through this room until you get back to Croco and his men and they'll be in a dead end. Then he'll blow a hole in the wall with a bomb, then run. Run through that hole and follow Croco. Keep following Croco through the cameras and touch him to get into a fight against him. You
could fight his minions in other rooms, as well as get a bunch of coins and a few flower tabs, but it's more important to beat the Croco. Read the Bosses side of this guide to get information on beating it again. After he runs away, you'll get all your coins back, as well as a bomb he dropped. Now, go back to the trampoline room and take the
left path to the next room. Continue through this room to the next room. Here, you'll find Pa Mole standing in a dead end. Talk to him
and he'll open the wall so you can continue, then he'll leave the mines. Continue through the hole to the next room, and then go through the bottom path into the next area. However, a shy guy on a mine cart will follow you back into the room before
her. He'll crash into the crates and throw a frog coin, then run away. Take the frog coin, then climb the crates and the higher path and enter the next room from there. Fight 2 Bob-ombs along the way and go to the next room.
Beat Bob-ombs there and head straight to the next room. In the next room, climb up the crates and beat that Bob-omb and head into the next room, then quickly run up the pieces and beat 4 Bob-ombs (it might not be fast enough to beat them before the star's power ends). Hit in the chest to get the mushroom recovery, then save to point
Punpinello, the giant bomb explosion will cause the starpiece to fall from an edge above you. After Mario claims the star, he enters the next room. You'll find the two kids and a mine cart. Read the instructions, if you want, then you'll go on a ride with the mine cart in me! At the end of the trip, you will fall through the ceiling into the house
where the children live. After thanking you, leave the house and you'll see a cockroach fly by, then 3 Snifits running after it. The beetle will land on Mario's hat and the Snifits will surround you. They'll mention a few things, including the girl who fell from the sky and about Booster and likes cockroaches. After all leaves, save the game from
the Inn, then get out of Moleville and head to Booster Pass. Booster Pas
back down and gone a little and jump up to the left and step on a hidden switch that seals up the holes on the larger edges, preventing
you from fighting Spikesters there or simply ignore the switch and go down. I'd rather you ignore the switch because you should fight them and get up. Go to the higher edge from the lower edges at the beginning of the room and fight 4 Spikesters there. After they are defeated, go down the path and exit the Booster Pass. If you're at least
level 8, you're ready to go to Booster Tower; if not, re-enter the pass and train a little more. Booster Tower ------------- When you first enter this stage, you will find Bowser outside the tower. He'll sit there, crying, then he'll come back and he'll freak out because you saw him! After saying a few things, the room will move to the top of the
tower where the princess is being held. She will try to call Mario, and then the view will be given back by Mario and Bowser. After Bowser will return, realizing that you are determined to save the princess. He will break down
the door, giving you access to the inside of the tower, then he will let you join Koopa Troop, although he is the one who joins your party (Level 8, 68 Exp. to the next level). Learn to change allies if you want, then swap Mallow for Bowser. When When All right, go inside the tower, Inside, go left and climb the stairs. Go to the right and
memorize the order of images on the wall; you will need to remember them for another part of this step. Continue right and enter the next room, then jump on the stairs. Fight then if you need experience, or just avoid them and continue up and went to the next room. In this
room, you'll see a toy train on a path appearing above you and a crazy guy looking for sitting on it. You'll find out that he's Booster and says something about the girl who fell out of the sky, then he'll leave. Follow the train to the right, then up and into the dark area where the pieces go to get a flower tab. Then enter the next room and climb
the first set of steps. You'll see Rob-ombs walking along the next set of steps, either fight or avoid them, then take the first path down and to the right. You'll be on a high edge with a chest above you in the air. Sit on the edge of the edge on the bronze square, and then jump off the edge. You should land on
the other end of the teeter-toter below. The bomb at the other end will rise, then fall again, sending you into the chest above you. After you hit your chest, you'll fall to the ground, and then the Masher will fall into your head. Equip Mario with him, then leave the room. Head left and up the steps again, then go right and enter the next room.
Climb the steps and go left in the next room, then go down to the right. Go to the next room, then go down to the right and take that path to the next room, simply step on the green switch! It will make a new area appear in Booster Pass. Go behind the curtain and get out on
the other side to turn Mario into the classic 8-bit Mario. Try to get out of the room, then it will return to normal, now go to the right and enter the next room. In this room, go up and to the right, jump on the edges with Spookums, then on the larger edge. Go left and do the same to reach the top level, then head up and right while avoiding his
snift bullets, then enter the next room. In the next room, climb all the steps with rob-obs walking and enter the next room, save the game at Save Point in this room, then go on to the next room, then go on to the next room, then go on to the next room and you'll see a bunch of pictures in no special order. You have to go to them in order from the oldest to the youngest and press A. The order to go
up to the pictures is as follows: 4 5 3 6 2 1 If you did it well, you will The Elder key. Use it to open the locked door to the left. He walks into that room and jumps over the edge with his chained Chomp and he wakes up. Bowser will pull her out of the chain and bring her with him as a weapon. Weapon. Chomp on Bowser and leave the room,
then head down and right to the next room. In this room, climb the steps and jump on the teeter-toter and Thwomp will send you up to the next room above. Now, jump on the platform like a cager, then on the left ledge. Now, climb the stairs and
enter the next room. In this room, there are coins, frog coins, and a key scattered on the ground. However, the floor in this room is a trap and if you will have to fight it. Go to the key at the top right of the room, and then unlock the nearby door. Go to that room and hit your chest to get
your Zoom shoes. You should equip Geno or Bowser. Now, leave the camera and head down and left to the other door. Go through it to the next room and the toy train and Booster will appear on a large edge above you. When
you start to throw bombs at yourself, go to the next room and Booster will leave and the bombs will explode. In this room, climb a bunch of steps and pass through the top door to enter the next room and Booster will leave and the bombs will explode. In this room, climb a bunch of steps and pass through the top door to enter the next room. Before saving, go down and to the right and jump on the yellow ledge. Now jump from edge to edge to reach the chest to the left. Open the
chest to get the recovery mushrooms. Then save the game and enter the next room. Go straight down and left at the other end of the door. He's going to tell you to hide from Booster because he's coming back, so Mario's going to hide behind the curtains
Then Booster and the 3 Snifits will enter and begin the rehearsal of the weddings. Booster will realize that the Mario doll is missing and will send a Snifit moving so you don't get caught. Then another Snifit will join and help the first look behind the curtains. Then the third
Snift will come to help the other two. If you can manage to overcome them, Booster will open the final curtain, but look up and find the Mario doll on a high edge, not knowing that the real thing is right in front of him! Jump up under the doll and beat it off the edge and Booster will thank you and give you an awe, which you should equip on
Bowser. If you don't get caught by The Nifits in the curtain game 3 times, Booster and Snifits will fight you. Read the Bosses section to learn how to fight them. After Booster and His Snifits open the door and leave, go back and change Geno for Mallow, save the game to the previous room. Now, go back to the curtain room and go through
the door that was once locked and Knife Guy and Grate Grate will appear and start a battle. Look in the Sefi section for information about beating them. Then, after they leave, your three allies will jump off the balcony and leave the tower, heading for Booster Hill. Booster Hill. Booster Hill ------------ This area is not a real level; It's just another mini-game
that you have to do now, but you can come back later and play this course again and again. All you have to do now is chase Booster up on the hill while jumping on barrels and snifits to get closer to the Princess. Every time you touch it, it will give you a flower and Booster will give you back a little. Once you get to the top, you'll be entering
Marrymore. Marrymore ------ When you enter Marrymore, head straight into the Inn/Tool Shop. Buy Happy Shirt for Mario, Happy Shell for Bowser. Also buy some mid mushrooms and maple syrups if you need them. Then switch Mallow to Geno, and Happy Shell for Bowser. Also buy some mid mushrooms and maple syrups if you need them. Then switch Mallow to Geno, and Happy Shell for Bowser. Also buy some mid mushrooms and maple syrups if you need them. Then switch Mallow to Geno, and Happy Shell for Bowser. Also buy some mid mushrooms and maple syrups if you need them.
save the game at nearby Save Point, then leave the store and head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel. Talk to the people there and you'll see a Snifit kick a soon-to-be couple, Raz and Raini from the head to the chapel.
kitchen, then up the stairs and you'll be in the main area of the chapel. Walk to the middle of the room and a Snifit will catch you and then try and run through the door. You'll stop in the next room and the Snifits will collapse
in the front room. They'll close and lock the door. Now, save the game and go to the door and press the Button A. Snifit will say something, then Bowser will come out and get upset. Then he'll move back and try to knock down the door. Run with him to take him down and you'll be in the main room. Snifits will beat in princess and her
various accessories will be scattered throughout the room. Snifits will take the ones they can find between the banks. Now, go to each of the Snifits had, go up to Booster and jump on his head and take the crown. Jump down and talk to
Booster and give him the items. Then the Princess will freak out because Bowser is with you, then an argument breaks out about who gives who a kiss: Mario, Bowser, or Booster? If you took the princess will kiss you! After the kiss is resolved, Mario, Bowser
and Princess begin to leave the chapel, and Chef Torte and his apprentice come with the cake wondering why everyone is leaving. He's upset. Start a fight with you. Check out the Bosses section of the guide to learn to beat them. After beating them and their cake, Booster and Snifits will leave Marrymore and Mario and the group will
leave the room. In the waiting room, Raz and Raini and their guests are standing around waiting. Then they all go into the chapel now that Booster's gone. Now, get out of the overworld screen, you will automatically go back to the Mushroom
meet the whole party and hear their stories, and then the Princess decides to stay at the Mushroom Kingdom. When you can control Mario again, leave the princess will call you and float from the castle window with her parasol. Talk to her and Mallow will suggest visiting Frogfucius again
for help. The Princess will then join your party (Level 9, 100 Exp. to the next level)! Leave the Mushroom Kingdom and head for Mormoloc Pond, head directly to the gray stone/switch and stand on it. Jump over tadpoles to the island with Frogfucius. Talk to Frogfucius and he'll tell you
that a stellar piece has been seen on Star Hill. With this information, skip the tadpoles and leave Madpole Pond and go, then go up to the flower and press A. It will make the nearby giant star open. Go through the door of the stars and you'll be in the first area of
Star Hill. Geno will explain what's going on at Star Hill. When it's finished, go left and down and through the now open
star door to reach the second area. In this much larger room, go left and down a little and activate the first flower. Then go up and left to the next flower. Head right and down to the next flower, then go straight up to the last flower. Now,
go left and enter the door of the stars to reach the next room. In this final area, go straight down to the first flower. Then go up and left to the fourth flower, then go right and down to next flower. Now go up and to the right and you'll find the fourth star track! After Mario
pretends, go down and right to the last flower, then go left and through the door of the stars to leave Star Hill. Now go to Seaside Town. Seaside Town and talk to the person with the stun mushrooms to get a room for free. When you wake up, go
downstairs and save your game at Save Point, then leave the Inn. Now, go to the back of the city and go down the steps of the house and he will ask you to retrieve a star piece that has fallen into the sea. Then go upstairs and talk to the frog that's sitting there. He's going to talk to
you, then he's going to try to sell you some stuff, which you can only buy with Frog Coin. Since prices are high and most things is useless, do not buy anything. Now, go back up the stairs and get out of the house, then get out of town and head for the sea. Sea --- The first thing to do when you enter this area is jump to the ground and talk
to Shaman to get a chance to buy some useful things. Buy Sailor Shirt for Mario, Sailor Pants for Mallow, Sailor Cape for Geno, Hurly Gloves for Bowser, and Mushrooms, and maple syrups if you need them. Now, take the path behind the counter to the rescue point, but don't
save it yet. Now, make your lineup have Mallow and the Princess in him with Mario. Also remove all armor and accessories from the three in your chest to get
the Super Star. Now run through the room and kill every Zeostar there, then go down and enter the next room. Defeat a few Zeostars in this room, if you so you get back to The Save Point with all your experience and Super Star still in
the treasure box! Continue taking Super Star, killing Zeostars, then letting you die until your party is at least up to level 14 or 15. When you are finally ready to progress, continue along the path. When you have a choice to go left or right, go straight to that room. Take the flower, the coin frog, and the recovery mushrooms from the chests,
and then climb over the crates to the Rescue Point. Save the game, then leave the room and go down and take this path to the room And in that room, go through it and take the path that goes left in that room. In that room, go down and into the water, then swim in the
whirlpool to get to the bottom of the Then go up and into the other room and let the current bring you to the surface. Then jump out and hit the nearby chest to get a Mushroom Max. Now leave the sill and go left and down in the next room. Now you're next to a lake infested with Bloobers swimming around. Jump into the water and go into
a whirlpool to get to the bottom, then go left and down until you reach a sunken ship. Jump on the crow's nest on top of it, and then press down on the camera on the right and save the game there. Then jump back over the
blocks and get out of the room, and go through the other door. In that room, go up and right and go through the door of the next room. There, go down the right ladder behind one of the Allev Rats that go down the stairs as well. That way, you get to the very bottom without having to fight any of them. Then jump on the lower blocks, then
on the larger blocks and hit the chest until it clears to get 10 coins. Now, go to the next room and go down and left. There are rooms unless you're reading this guide because these rooms have puzzles in them. When you solve them, you get a clue about what
password is in a further room in the ship. Anyway, go on and into the next room. Descend to the lower area and defeat the dry bones there. Then, while he's all crashed up, run into the little alcove and hit his chest as fast as you can to get all 10 coins from it. Fight and defeat the dry bones again, then talk to Shaman and buy some
supplies if you need them. Go through the door and head right and up to the other side of the room. Defeat Greaper guarding the door, then go through it there and enter the next room. In this room, you'll see a bunch of barrels to the right. Jump on top of the barrel pile and you will cause a barrel to fall to the floor. Jump on that fallen
barrel while facing the right to run it. Keep it moving until it rolls on the switch, then jump on the other switch. Get the recovery mushroom and read the clue if you want, then save the game and put Geno and the Princess in your party. Then go to the next room. You'll see 6 blocks; When you sit under each one, a bunch of letters appear on
the screen. For the first block, choose p, for the second, choose e, for the third, choose a, for the fourth, choose a, for the fourth, choose r, for the door and press A. You'll tell the password, which is pearls, and the door will open and a tentacle will signal you to enter
When you enter, you will be put in a battle with King Calamari and his eight tentacles. Read the Heads of guide to learn to beat it. After the battle, you end up in a room with a trampoline. Down there, walk out the door and enter the next room. Here, jump on the blocks, then on the higher edge and go through the door at the top of the next
room. In this room, run up and right when no bullets come and you'll be safe. If a bullet hits you, you'll fall to the lower level and you'll have to leave the camera and get to the next room. Go down the stairs just behind an Alley Rat, so you don't have to fight
them, then enter the next room when you get to the bottom. Go up and left to 2 barrels stacked in the corner. Stand on them and jump on the larger platform and empty 2 chests to get a whopping 200 coins! Now, go up and through the door next to the barrels to the next room. In this room, you will find an exact copy of Mario that does
whatever you do. Either walk left and down right past him or go up to his face and try to talk to him to fight his true self: a Greaper and other undead enemies. Then go out the door and into the other half of the room you were in and go left and down into the next room. Here, stand along the wall and go up and defeat the dry bones, then
walk behind the blocks to find a hidden camera. Hit your chest there to get a Frog coin, then get out of the stairs to get a recovery fungus, then save it at Save Point and put Mallow in your party. Now go to the other side of the block wall and hit the other chest to fight Hidon,
the chest monster. Defeat him using Mario Super Flame's attack. Once defeated, you will receive the Safety Badge. equip Mario. Now, go through the door of the next room. Jump into the water and swim in the whirlpool to reach the bottom of the sunken area. Now, go down
and into the next room and take the Frog coins along the floor, then go back through the door you came and back into the other room. Now, go upstairs and try to jump over the Zeostars or fight them if you want. Once you get to the bottom of the stairs
go to the next room. In this room, you will see a bunch of barrels on the left and right side of the submerged room. Go behind the barrel pile to the left and through the hidden door to a secret room. Hit your chest to get the safety ring, which you should equip on the Princess, then get out of the room. Now go to the pile of barrels on the right
and jump to the top of it. Up and to the right and jump up the barrels there and then jump out of the water and through the door to the next room. In this room, a bunch of Bandana Reds will stop and fight you. Have Mallow use a Thunderbolt attack or two to delete them all! When they run up the stairs, hit the chest they left behind to get
the mushroom recovery, then run the stairs to the right. Reinforcements will flow down the stairs, not only to find a couple Bandana Reds at the top. They will throw a barrel down the stairs and Mario will dodge, leaving him hit Bandana Reds below.
Now, climb the stairs again and enter the next room. Bandana Reds won't be happy to see you, so they'll give you access to Jonathan Jones' room. Before entering, change Mallow for Bowser and fill the FP with maple syrup. Now, go into the room and
Jonathan Jones will say he won't give you the star, then he'll get up and fight you. Learn to beat it by reading the Bosses section of this guide. After he's defeated, he'll give you the fifth stellar piece! Once you can control Mario again, go right and through the door, then jump on the trampoline to get out of the sunken ship. Now, go back to
Seaside Town. Seaside Town ---------- When you return to Seaside Town, you'll face the fake Eder and the other bad guys with mushrooms. They're going to ask you to give them the starpiece you just won. Give it to them when they ask, then they'll run. Stop in the Han and save your game, then head to the left end of the city. Switch
Bowser for Mallow so your party consists of Mario, Mallow, and Princess before entering the next area. Take the path to the next area and you'll catch their escape, causing them to give up disguises and turn into Yaridovich. To learn to fight Yaridovich, read the bosses part of
this guide. After you get it, take the key that came up and go back to the city. Then go downstairs and open the locked door and enter the shed. All people will thank you and the Elder will give you a Box of Flowers because you do not hesitate to give Yaridovich the star when you were confronted to save the city. Now, go to the upper left
corner of the city and enter the Old Man's house. Talk to the Elder and he'll tell you about the Earth. After he finishes talking, he leaves the house and descends the stairs. You will see a long building to the east in the middle area of the city. Insert the middle door into the building to enter the weapons/armor store. Buy Shell
Troopa for Mario, Ribbit Stick for Mallow, Double Punch for Geno and Umbrella for Princess. Now leave the store and go downstairs and leave town for Land's End. Land's End. Land's End downstairs and leave town for Land's End. Land's E
yourself. that ledge. Go up and to the right and into the next area. In this section, go up and to the right and you'll land in a ditch and 3 Chows will pop out. Jump out of the hole and fight Chows for experience, then continue up and right to the next area. Here, you
have to jump from platform to platform to platform all the way to the other side. There are also Geckots who are walking around on these platforms. When one falls, another is shot there by cannons to one side. Fight all the Geckots in your path and when you reach the end, go to the next area. In this part, you will have the choice of either going the
upper path or the lower path to the right. Take the bottom path to the right and take it to the next section of this area. Go left and up and you will see a cave in the wall. Jump into it and hold up to get inside the cave, follow the path to the left and up. Then go right and down the stairs and take the path to the next room. Go left
and up and jump over the block in your path. Continue up to the barrels and jump on the top barrel to make it fall to the lower level. Then drop down to the bottom edge and jump on the trampoline to be sent back to Kero's sewer. Kero Channeling, you'll be on the high edge you couldn't get
during your first visit here. Jump to the left edge and hit your chest to get Cricket Jam. Then leave the area and head to Mormoloc Pond. Morboloc Pond through the tadpoles and talk to Frogfucius. Give him the Cricket Gem
and he'll give you 10 frog coins for the gift. Now, get back across the pond and leave Mormoloc Pond and return to Land's End. Land's End the area where you can take the upper or lower routes. This time, use red flowers to go the upper path. Once you get
to the top, go to the next area. You'll get to the next area. You'll get to the very beginning of Sky Bridge and go to the next area. You will end up in a desert located in the middle of nowhere. First, talk to the mouse and he'll give you directions about
getting to Monstro City, then he'll leave. Now save the game to Save Point, then go right and jump into the left spin. When you get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area, you have to start trying to get to the next area.
whirlpool that the ant has come out of. Face Face in each area until you reach a cave. As in Sunken Ship, put Mallow and the Princess in your party and remove all their armor and accessories. Now save your game at Save Point and descend to the bottom edge and hit your chest to get the Super Star. Then defeat the Geckits and go to
the next room. Run through this room, as well as defeat some more Geckots, as well as 4 Chows. Go to the next room and fight with more Geckotis, then drop the hole. By now, your invincibility should have worn out, so jump behind the boxes on the left and talk to the shaman hiding there. Pay him 400 coins for another star, and then hit
his chest to get another Super Star. Jump back over the boxes and run around the room and defeat all the Geckotis in the room to gain a lot of experience, maybe even win a level. Now take the path right into the Temple of Belome and have any enemies inside defeat your party, so start back in the cave again. Repeat the process with
the stars until you are at level 19-20, and then play for real in the Temple of Belome! Temple of Belome ------- When entering this place, descend the stairs and turn the corner and continue on to the next room. In this room, there are three heads on the wall. Talk to the shaman against the wall and pay him 50 coins to have his
fortune said. He will make you hit the 3 heads in any order you want, and then read the scroll that appears above a platform after it has hit them all. First, hit the ends in every possible order: Left + Center + Right: You'll have a 50/50
chance of getting either a recovery fungus or a Yoshi Cookie. Left + Right + Center: You will get a Yoshi cookie. Center + Left + Right: You have to fighting either 3 Chows or 1 Shy Away. Right + Left + Center: 66.6% of the time, you get 100 coins. In 33.3% of the time
you'll get a frog coin. Right + Center + Left: You will get 100 coins. After hitting the ends in the order you choose, go up and jump on the larger edge and go to the next room. In that room, go to the valve behind the room, then to the next room, you'll do
everything lucky that you have to do. When the door opens, enter the next room and down the stairs. Then, continue to the right and up to the next room. In this room, you'll find another head on the wall. Hit your head and read the scroll that appears; If it says, Mmm, I'm so hungry! I wish I had something food! Go in the elevator and the
next room. If the scroll says, I'm sorry, I don't accept visitors after my bedtime. exit the room, then go to Belome to fight him.
Read the Bosses section to learn to beat it. When Belome leaves, go through the open gate now into the next room and go down to the right and enter through the first door. Talk to Monstermama and she'll tell you to go upstairs and see her star.
Go upstairs and talk to the star and he'll sing a song you can sing in Melody Bay. Now, go downstairs and talk to Monstermama again. Then he'll understand that the next place to look could be in the sky. She'll call Sky Troopas, led by Sergeant Flutter.
She will ask that they help Mario scale rock into Land's End so he could get to Bean Valley. After leaving and Monstermama allows you to leave, exit the room and enter the next room. Talk to Thwomp inside 7 times, so he beats the key on the outside edge on the ground where you can get to it. Leave the room and take the Temple Key,
then go left and up to the trampoline. Jump on it to go back to the Temple of Beloom. Temple of Beloome -------When you enter the temple again, go to the room where you fought with Belome and jump on the trampoline there, then go left in that room in the elevator room. Go into the elevator and hit your head against the wall and
read the scroll. If it says, I'm sorry, I don't accept visitors after my bedtime. Go back to the elevator and the next room. If it has the other message printed on it, leave the room and turn around. In the new room, talk to Belome and give him the Temple Key. He's going to eat it, then he's going to disappear so you can clean that room! In that
room, you can collect 8 frog coins, 4 flowers, royal syrup, a Max fungus, and a fire bomb. Take all the loot, then leave the room and go back into the elevator and enters the next room. Go up and into the next room, then down the pipe
back to Monstro Town. Monstro Town. Monstro Town ------ Now that you're back in Monstro Town, go down and to the right and enter luck, talk to
Goomba again to buy things. Buy Courage Shell and Spiked Link for Bowser. Then leave the store and continue down and to the right and you will see a hole in the ground. Drop in it and save the game to hidden Save Point. When you're done doing this, go up. and enter through the top door to enter Jinx's Dojo. You're going to meet
Jagger. Jagger. Bowser's old troops. Then Jagger will tell him he joined Jinx's Dojo. Then go to Jagger and talk to him and he'll challenge you to a fight. Fight him with almost everyone in your party because he's not too tough. Just use a bunch of regular timed attacks on him and he'll be finished pretty quick! After you beat him, Jinx will
appear in the room and challenge Mario to a duel. Since this part is not necessary for you to continue in the game, I recommend that you come back after you get lazy Shell gun to make these fights a little easier. When you return to fight Jinx, read the Chiefs section to learn how to take Jinx in all 3 fights. Once you've got it, you'll get the
Jinx Belt, which you should equip Bowser. When you're done here, leave the dojo and save your game before you set off for the cliff and Bean Valley. Now, go all the way to the trampoline and jump on it to enter the Temple of
Beloma until you're in underground caves again with Geckits. (There are no enemies in the temple, except Mokura if you catch him, so it's very easy to get through here!) When you're back in the caves, there will be a lot of Geckotits out there, so try to get them around to the trampoline in the lower left of the room. Jump on it and get
through that room to get to the next room. Now, go through the next room and into the room after it, jump on the crates, on you'll be back in the desert. Go up to the next area and you'll see Sky Trooper fly on the screen and unfold along the cliff side.
Since this is also a mini-game, I gave information on this part in this section, so look in the Mini-Games section if you go for prizes. Otherwise, just get to the top of the cliff and Sergeant Flutter will give you a reward depending on how fast you did it (see Mini-Games section for details). Then jump up and take the path up and out of Land's
End and go to Bean Valley. Bean Valley. Bean Valley ---------- When you first enter Bean Valley, go up and to the right and go down the pipe on the right and go to the next area. In this room, you will see five pipes with shrivelled plants and a Shy Away
watering them. When Shy Away waters one of the plants, it will come alive for you to fight. After you defeat a plant, you can go down the pipe in a room below. It is in this area you can access the hidden Grate Guy's Casino (see section guide for more details). Otherwise, there is nothing of real importance to do, so go up to Save Point.
Once you've there, rearrange the party so mallow and the Princess are in your group, then go to the next room. In this area, you will see a shrivelled plant in the pipe and a Shy Away will fly and water. When the plant comes to life, jump on it to get into a fight against it. As always, check the Sefi section for information on beating
Megasmilax. After you beat him, Shy Away will fly away, dropping a note nearby. Read the note and take the attached seed. Now, go down the pipe to the right and into the next room. In this room, go under the block and hit it and a bean will come out and grow up to the sky. Then hit the block again and Mario will jump up and climb the
grain stalk into the clouds. When you get to the clouds, go left and jump on the vine and climb it. Once at the top, jump up and right on the next area. In the next area, climb up to the yellow vine at the top, and then jump left and down to grab on
to the next vine. Climb the vine, then hold the Y and jump left and down slightly, so you grab the next vine hold, then climb that one to the top, then drop off the left side and maneuver so that it lands on top of the yellow one below
and to the left of you. The next jump is quite difficult to make, so it might take a little time for you to get it right. Hold Y, and then jump left and press down gently, so you grab hold on the very bottom of the vines in the next area. Hit 2 chests here to get the rare scarf and a Frog coin, then drop down the hole to the next
area. In this small room, hit 2 chests here to get 2 flowers, then drop down the hole to reach a smaller area in the clouds. When you land, jump on the trampoline (the one with the smiley face) and you will enter Nimbus Land! Nimbus Land!
```

is standing outside Nimbus Castle. You will see a person named Valentina coming out and stating that the king is seriously ill. Then she introduces Prince Mallow into the castle, go to the Tool Shop to the left. Buy the

```
Fuzzy Shirt and Mega Glove for Mario, fuzzy pants and sticky glove for Mallow, Cape Fuzzy and Tun by hand for Geno, and fuzzy dress and war fan for the princess. Now leave the shop and go down and left to the inn. Go and stay overnight, then when you wake up, save your game at Save Point, then leave the Inn. Then go left, then up
and right to Garro's studio and go inside. Go to the statue. Statue. He looks like Mallow and press A and Mallow will run out of the studio and try to get into the castle, but the guards will kick him out. When he's done, he talks
to Garro again and he'll make Mario look exactly like a statue, then he'll bring Mario and one of his statues to the castle. The guards think Mario is an intruder, but Garro lies and has passed by again. He tells Valentine that the
statue of Mario is a new masterpiece that he created just for her. Now go left and into the next room and stand still on the pedestal. When the
dodo comes, you have 2 options; whenever he tries to peck you, or you let him peck you. If you want to have some experience, let Dodo nibble on you three times, then he'll come back and the battle will begin. If you have to fight, just use regular timed attacks because he's certainly not that strong, and it's not worth putting him in the
Bosses section because he's too simple! If you don't want to fight him, jump every time he nibbles at you. Eventually he will leave; Then you go to the next room. Take a right and go through the door of the next room. In that room, go down the hall and into the
next room. Hit the chest to get a recovery fungus, then go to the next room, and then down the stairs. Jawful fight standing against the wall because it's hard to get around him pretty fast. Beat him, then he walks
into the next room and talks to all the people there. One of the people will give you a jar of flowers. Now, talk to the guy on the left door. He's going to tell you he was a security guard in the castle. When they ask you if you want a key, say yes and they'll give you Castle Key 1. Now save the game if you want, then leave the room and head
up the stairs and left to the next room. Go through this room, then into the next room, go to the right and defeat the Heavy Troopa in front of the middle door. Use the key to the castle you have to unlock the door and to the next room where you will find a giant giant egg Shy Away again. Shy Away will see you, then try to run away, but the
door she's trying is locked! Now, go to the egg and talk to her and agree to play with her. You will enter into a battle against Birdo, take Castle Key 2, which comes out of the egg and use it to unlock the door from the back of the room. In the next room, defeat
Pinwheel (fan) so you don't get blown off the edge, then try not to get hit by Jawful when you poke his gun out at you and enter the next room. In the next room. Bowser will decide he should break down the door, but Mallow stops him at the last
second saying that if King Nimbus is indeed in that rest room he should not make noise by breaking the door. Then Shy Away flies down the hallway. Follow him to the next room and defeat heavy troopa in front of the door. Then enter the throne room. You'll find Valentina with
Dodo by her side, and then Shy Away comes and tells her that Mario has arrived. She doesn't know what a Mario is, so he describes it to herself, then realizes it's the statue That Garro brought earlier today. Then Mario comes forward and Mallow says that he is the real Prince. Valentina gets upset and leaves through a back exit, and then
Shy Away and Dodo follow her. So follow them all into the next room. Save your game, then try and avoid Bluebirds, and then sit under your chest and jump up to reveal a hidden platform. Jump on the platform, then hit your chest to get the Super Star.
Leave the platform and run straight up and up, defeating the Bluebirds along the way and run to the next room. Run ahead, beating the two bluebirds there and trying to hit Dodo while he shakes if you have time. If you run out of time and you have to fight him, beat him like you did in the statue room by hitting him with a bunch of regular
attacks timed until he leaves. Now continue in the hallways and go through the clouds until you reach the lower cloud where the two guards block a path to the hot springs. Jump on the trampoline, and then make sure
you have Bowser in the 2nd place of your lineup and princess in the third, then jump on the smiley girl trampoline to get to Nimbus Land again. Valentina will run to the castle, but a lot of people will stop her and ask her, making her upset. Then will appear and run up to and a fight will begin. To learn to beat Valentina and Dodo (when he
appears), read the Sefi section. After you've beaten them, they'll throw a key from the sky and Mallow will take it and run into the castle and unlock the door where King Nimbus was resting. He will start to pour out because Mallow cries, then the rain stops and signals Mario to enter. In the throne room, the King and Queen Nimbus will
meet with everyone in your group. They'll tell you that a starpiece has fallen into the nearby Barrel volcano. Then, after you can take control again, leave the throne room and walk down the hall to the room where the door was locked and go inside. Talk to the guy who gave you Castle Key 1 earlier on stage and he'll tell you he's got his job
as a security guard. He's going to give you a jar of flowers this time. Now, leave the room and walk down the hall and get into the house over there. You'll find Croco in the house. Go to him and talk to him and he'll run away and give up the Signal Ring. Pick up the ring and equip it
with someone; When equipped, you can hear a tone when you are in a room with a hidden chest! Now, get out of the house and walk along the edge of the clouds to the lower left corner of the room and go to the Han. Save
your game, then get out of the Han and lower the hole to the right of Nimbus Land. Before heading to the springs and in Barrel Volcano, jump on the trampoline on the bottom right to get out of the area and head to Rose Town. Rose Town, head directly to the back end of the city and you will find a new
path located behind the Item Store. Take the path to a home; enters the house and talks to the old gardener. While talking to him, you'll give him seeds and fertilizer, making him become very excited! Then he will plant the 2 items in the giant pot on the table and a bean stalk will grow out of it. Jump on the table, then on the beans and
climb it out of the house and into the clouds. There, hit the 2 chests to receive lazy Shell Armor and Lazy Shell Armor and Lazy Shell Armor on if you want. Now, get back on the stem and get out of the area, then get down and leave Rose Town. Now,
return to Nimbus Earth to begin your journey to the volcano. Nimbus Land ------------ When you get back to Nimbus Land, get down into the hole that is straight up from the exit trampoline. Talk to the guards over there. Now they'll allow you to pass because they realize Mallow is the real Prince. Go to Hot Springs if you want to restore
HP/FP, then go right and walk off the edge of the cloud; you'll fall in the Barrel Vulcan ------- Since this area is quite long but simple, I'm not going to be giving a walkthrough camera on this stage because it will be a waste of time! Instead, I'll just get detailed in areas where you can get items or do other things. From the
beginning, go down to the next room; In this room, you'll see a bunch of small platforms in the lava. Carefully skip them at the right edge and enter the next room. Hit 2 chests there to get 2 flowers, then leave the room and jump back over the platforms and jump on the steps and head to the next room. When you reach a camera with a
chest at the entrance, hit the chest to get its element, then continue and hit the next chest to get what it contains. Take the path to the next room and defeat the fireball enemies, then enter the next room and defeat a pair of Oerlikons (spiky-shelled enemies). Then
jump to the higher edge and defeat Corkedite while you're invincible. Continue through the area until you reach a room where you will see a coin frog in lava. To get it, just hold Y and jump straight at it; It might take a few attempts to make. In the next room, reach the end of the arc itself. You'll see a frog coin on top of the high arch and you
can't get to it by jumping. To get it, enter the next room, then return to this room, and then jump into the lava. He'll send Mario so high that he'll reach the doughnut, then jump to reach the Toad Coin in the air. Go through this room and jump on the next
doughnut edge you see. Then jump to reach another Frog coin in the air, then continue to the next room, save your game at Save Point. Then take the path to the top of the other room. Defeat Stumpet by standing there, then take the path to the next room.
Continue through that room and the next room, you'll see another Stumpet. Defeat that one and any other enemies out there if you want the experience, then continue through the next room until you get to the mushroom guy, Hinopio, sitting there. Talk to him and he'll bring you to Hino Mart. At the next
counter, sit and rest at Han's (You're in for a treat now!). Then, at the last counter, buy the fire shirt for Mario, fire pants for Mallow, Firehead for Geno, Fire Shell Bowser, and the fiery dress for the princess. Now, leave the store and save the game in the next room, then make sure Mallow is in your party. In the next room, skip the
doughnut bridge above the lava on the other side, then next room. In this room, you're going to have to fight Dragon Tsar and Zombone. Read the Bosses section to learn to beat them continue through the following couple rooms.
Go over the bridge that appeared after you beat the Dragon Tsar. In the next room, you will find the star; as Mario is about to reclaim it, it disappears! Axem Rangers will see you, then disappear again. Now jump on the edges in the next area and
climb on all the edges until you get to the end. Before you jump on the trampoline at the end, make sure Mallow and the Princess are in your party, then jump on it. You'll end up outside the volcano with Axem Rangers. Then the giant flying axe known as Blade will appear and the rangers will jump on board. Then Mario will jump on,
Once there, Mallow will tell King and Queen Nimbus that the group has a sixth star. Then it is said that the last place to look for the final star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star. Then it is said that the last place to look for the final star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star. Then it is said that the last place to look for the final star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star is inside Bowser's Keep. The King and Queen Nimbus that the group has a sixth star is inside Bowser's Keep.
other trampoline from Nimbus Land and head to Moleville. Moleville. Moleville. Hoad to Tool Shop and talk to the mushroom guy there and he'll try to sell you a few different items. When you give the article #3: Metal plate, buy it from him for 300 coins. Equip this item on princess as her best weapon in the game! Now, leave the
store and get out of Moleville and return to Nimbus Land. Nimbus Land. Nimbus Land ---------- As before, jump on the trampoline smiley do and go up and go to Garro's house. Pass by the house and Mario and Mallow will move on. The bus will then go away
and head to Bowser's Keep for the last two areas of the game. Bowser's Keep, you should immediately put Bowser in your fight, because whenever he's present in a fight against most of the enemies here, they run! Now, go through the first rooms while you avoid or fight Terra Cottas, and then
enter the third room. Run over the first bridge and fight or beat Gu Goombas, then jump over the bridge second and insert the next room. Here, just run By avoiding or fighting with enemies here, except Gu Goombas and Malakoopas. Follow the path until
it breaks up; When it breaks up take the left path and hit the chest to get a recovery fungus. Now, continue on the right path and go through the door of the next room. In this room there are 6 doors, each with
its own challenge. There are 2 puzzle courses, 2 battle courses, and 2 action courses. You have to get through 4 of the 6 courses to continue through the castle. Also, the courses to continue through the castle. Also, the courses you encounter behind each door are random, so you won't get the same course at the same door every time. Since this is a pretty large area, I'll be more
descriptive of this part in the Mini-Games section because it's actually a type of mini-game. After you pass through this area, save your game again in the next room. Now go to the next room and Magikoopa will show up and fight you. To learn to beat it, read the Bosses section of this guide. Once you've beaten him, he'll become good
again and create a gold treasure box that has an endless supply of coins inside. When you're done supplying coins, walk through the left door and you'll meet Croco again. Talk to him and buy the hero shirt for Mario, the princess. Now,
leave the room and go through the right door to the next room. In this room, go straight while avoiding thwomps falling from the ceiling and bullets flying towards you to avoid the fight. Once you're through this room, you'll go through the next room and you'll see the two chandeliers again. Mario will jump aboard one of the chandeliers and
engage in battle against Boomer. Read the Bosses section to learn to beat it. After Boomer sinks, Chandeli-Ho will bring Mario and his group to Bowser's roof. At the top, you will land on the roof and you will be swallowed
inside the sword to reach the Gate between the two worlds. Gate ---- When you land at the beginning of the Gate, Bowser will stop the group for the last leg of the journey. When you can take control again, go straight to the next
room. In this room, go right and up and jump on the screw to make it Keep jumping on it to make it go to the other edge, then get off and go to the next room. Here, jump on the screw and jump repeatedly to reach the other side.
When you reach the edge, continue directly on the next bolt and reach the next ledge while avoiding the Joke Pickers flying around and the next screw repeatedly to reach the other side, then head to the next room. In this room, go to the green! Switch on the
floor and jump on it to make an open path in the upper right corner of the room while trying to avoid Ameboids (unless you want to fight them). Take the path to the next room, hit in the chest to get Ultra Hammer if you want (if you get it and Mario has the Lazy
Shell gun, don't equip the hammer!), then jump on the trampoline to land on the screw. Jump on the screw to move along, then jump on that until you reach the edge, then get off and jump on the trampoline to the room below. In this room, you will see a giant alarm clock, but before you
get near it, make sure Mallow and the Princess are in your party if they are not already. Now go up to the clock and Ding-A-Lings from above will ring and a battle will begin against Countdown and Ding-A-Lings. Read the Bosses section to learn to beat them. After beating them, jump on the trampoline to the next room; When you land in
the next room, go to the next room. In that room, go right and up and jump on to the conveyor belt and try and avoid the Made Axem Rangers car and drop down to it, but this time walk under the larger conveyor belt and get on the
square platform. Ride it to the other square platform and jump on that one and ride it to the other side. Get down at that point and jump on to the conveyor belt above and try to avoid the Machine Made AxeM Rangers, then continue up and to the next room. In the next room, you will see conveyor belts to the left with cars made them
enemies coming off them. When you try and run past the belt, the arrows will fall and you will be amazed enough to have to fight whatever comes off the belt! Now, make your way to the next room. Go through the next room and fight Li'l Boos floating
around if you want, then continue on the square platform. He climbs up the platform, then goes down the other side and continues through the way, you will more than likely fight a made Bowyer machine. Defeat it, then continue
to the top and head up and left. Try to jump jump The Made Axem Rangers car like you're going through the zigzaging path. Then go up some more conveyor belts steps to the top, then head to the next room. Here, save the game and make sure the group is completely healed, then take the path to the next room. Sit on the block in the
middle of the room and wait for a car made Yaridovich fall on you. Defeat him, then the block will break, revealing a hole. Get down the hole and you'll get into a fight with Domino and Cloaker. Read the Heads section of the guide to learn how to beat them. After they are defeated and you end up in a new room, take the left way in the
factory area. Go straight and you'll run into Clerk, the first of 4 enemies before your final meeting with Smithy. Defeat the Registrar and his servants, then buy some supplies from him and continue to the next room.
Continue until you reach Manager; defeat him and his servants, then continue to the next room. In this room, go straight until you meet the warden. Fight and defeat him and continue to the next room. Go straight and you'll meet with the factory boss and Gunyolk and you'll have to fight
them. Read the Bosses section to learn to beat them. When it's done, go back to a room and save your game there. Then go to the room you were in. Make sure bowser and Princess are in your group and that you're all at least up to level 25-27, then jump on the green! switch in the center of the room. A crane will come and catch you,
and then you'll automatically jump on one of the huge pipes to Smithy's View. The group will ask him to give back the last star, but he suggests you give him all your stars. Then the group will jump in and into the final battles with Smithy. As always, read the Chiefs section to learn to beat it in both phases of the battle. After you've defeated

Nobody Likes Me. HP Wiggler: 120 Strengths: N/A Weaknesses: Thunder Thoughts: I'm just a helpless wiggler... ZEostar HP: 90 Strengths: N/A Weaknesses: Thoughts of Fire: Oh, I Can't Support It! Bosses -= -==-=Hammer Bro (x2) Found: HP Way Mushroom: 50 Strengths: Jump Weaknesses: N/A Thoughts: N/A Strategy: It's
pretty easy to defeat 2 Hammer Bros in battle. The easiest way to fight them is to focus on one of them at a time. You because they only take a small amount of HP away from you. Defeat the first Bro using a timed jump attack, then a regular timed
attack. The remaining brother will then use The Valley Up to make his defense stronger. To beat this brother, do 2 timed Jump attacks, then continue to make regular timed attacks until he is defeated. Croco (Round 1) Found: Bandit's Way HP: 320 Strengths: Sleep Weaknesses: Thoughts of Fire: God, I'm Good! Strategy: To defeat
Croco, have Mario cast Fire Blind, and have Mallow defend, heal, or use honey syrup when FP runs low and Mario can no longer throw Blind Fire. When Croco has under 100 hp left, he will use a strange fungus to recover some of his HP. Continue to slap him with blind fire attacks until he gives the coin back and runs away forever. Mack
Found: HP Kingdom Mushrooms: 480 Strengths: Fear, Poison, Sleep, Silence Weaknesses: Thunder Thoughts: Boing, Boin
when needed. Keep attacking until they're defeated. Belome (Round 1) Found: Kero Sewer 500 Strengths: I Just... I want to sleep. Strategy: You should be at level 6 by now, so it won't be hard at all to beat this guy! To defeat Belome, have Mario make timed Jump or Super Jump attacks Mallow
makes timed Thunderbolt attacks. After a while, Belome will eat the whole Mallow and will usually try to turn Mario into a scarecrow when he is alone. Since you have the Trueform Pin, you won't be affected! Keep attacking him until he spits out Mallow and disappears from the sewer. Bowyer Found: Forest Maze HP: 720 Strengths: Fear
Poison, Sleep, Silence Weaknesses: N/A Thoughts: What's with these people? Strategy: Bowyer will make 3 squares symbolizing the A, Y and X buttons appear in front of him. Whenever he pulls one arrow and hits a button, you can't use that button until it hits another arrow. To defeat Bowyer, have Geno attack or use Geno Beam, use
Mario Clocked Super Jumps or regular timed attacks, and Mallow makes regular timed attacks or heal. Keep doing that until Bowyer is defeated. Croco (Round 2) Found: HP Moleville: 750 Strengths: Sleep Weaknesses: Thoughts of Fire: Ooh! I'm fine, I Strategy: Beating The Croco this time is a little harder than it was in the
Bandit Way because he has stronger attacks and more than twice as much HP. Also Mario's Fire Globe doesn't hurt him as much anymore. To beat it, have Geno make regular timed attacks or Super Jumps, and Mallow makes regular timed attacks or heals when needed. About halfway through the
fight, he'll steal all your items, making it harder for you. Keep on pummeling him with attacks until he gives you the items back, then runs away! Punpinello Found: HP Moleville: 1200 Strengths: Jump, Fear, Poison, Sleep, Silence Weaknesses: N/A Thoughts: Yeeha! I see we're already famous! Strategy: Punpinello is not really too hard to
defeat because he almost never attacks, but he has a bunch of bombs coming into battle to explode at will, dealing some damage to whoever they hit. You should also be at least up to level 7 or 8 before you fight him. To beat Punpinello, have Mario make regular timed attacks, Geno makes regular timed attacks or use Geno Boost, and
have Mallow cast Thunderbolt to hit all the bombs and Punpinello. Once you reach about 400 hp, you will shout bob-ombs to help him. Continue to attack as before until it reached about 400 hp, you will shout bob-ombs to help him. Continue to attack as before until it reached about 400 hp, you will shout bob-ombs to help him. Continue to attack as before until it reached about 400 hp, you will shout bob-ombs to help him.
battle. Booster / Snifit (x3) Found: Booster Tower HP: (Booster) 800 (Snifit) 200 Each Strengths: (Booster) Sleep (Snift) N/A Weaknesses: (Booster) This is like achieving you're out without On! (Snifit) Minimum wage for THIS WORK?! Strategy: This is an optional battle because you don't have to fight it
to continue through the game. First you fight his 3 Snipers. Fight them one at a time to have Mario, Bowser, and Geno using regular timed attacks timed They're all gone. Then Booster will start to fight you! Have Mario do a bunch of timed Super Jumps on him while the others just attack or heal if necessary and he will be finished in no
time! Grate Guy / Knife Guy Found: Booster Tower HP: (Grate Guy) 700 Strengths: (Grate Guy) Fire, Sleep (Knife Guy) Fire, Slee
should focus on one by one. Have Mario use his regular timed attack, Bowser uses regular timed attack, and Mallow throws Thunderbolt to hurt Grate Guy will sit on Grate Guy's head and attack from there. Keep attacking and they'll fall to the ground and one of them will disappear if you
hurt that guy enough. Keep attacking the guy left until he's defeated. Bundt / Raspberry Found: Marrymore HP: (Bundt) 900 (Raspberry) 600 Strengths: Fire, Thunder, Ice, Fear, Poison, Sleep Weaknesses: Jump Thoughts: Congratulations! Strategy: You should be at about level 9 before you fight this boss. The battle begins with the two
cooks and the cake. While the chefs deal minimal damage with their attacks, focus on the cake with Mario, Geno, and Bowser. After a few rounds of attacks, the cake will light up and the real battle will begin! Every time you hurt Bundt, a candle goes
out; Every time Bundt hurts you, a candle is rekindled. Keep attacking Bundt as much as you can with regular timed and jump attacks until all the candles are out and Bundt disappears, leaving Raspberry with Super Jumps and regular timed attacks from everyone until Snipers and Booster appear again. Snifits
will feed the cake booster and that will end the fight. King Calamari Found: Submerged HP Ship: 800 Strengths: Fear, Poison, Sleep, Silence Weaknesses: Thoughts of Fire: My Ship! SCRAM! Strategy: In this fight, you will have to fight 2 sets of 3 tentacles, then Calamari and 2 tentacles. Have Mario cast Super Flame, have Geno cast
Geno Boost on the party, and attack the princess or heal. Tentacles will get someone out of your group, then make them scared, reducing your stats. Princess's Group Hug or Therapy could fix that so you don't have to worry at all about their attacks. When you get to King Calamari, have Mario cast Super Flame on him and Geno either
cast Geno Boost on Mario or attack. Since you've thrown Geno Boost on Mario enough times, it will make his Super Flame Stronger, weakening and finally defeating Calamari much faster! Jonathan Jones Found: Submerged HP Ship: 820 Strengths: Sleep Weaknesses: N/A Thoughts: Whoa! It's all over. Strategy: Fighting Jonathan Jones
and his It's very easy if you're at about level 12 or 13 and you know how to win without breaking a sweat! First, have Mario either make regular timed attacks or cast Super Flame on Johnny, while Bowser and Princess focus on fighting with the 4 servants. Have Bowser and the princess defeat all but one of the servants; Prevent the 1-to-1
battle between Mario and Johnny from happening later in battle! Now, put the whole party to focus only on Jonathan and ignore him on a single minion. Continue to attack until Jonathan is defeated and his shark servant disappears. Yaridovich (Mirage) Found: Seaside Town HP: (Yaridovich) 1500 (Mirage) 500 Strengths:
(Yaridovich) Fear, Poison, Sleep, Silence (Mirage) Fear, Poison, Sleep
regular timed attacks, Mallow makes timed Shocker attacks, and the princess heal, because his attacks take a lot of HP away from the party! Continue to attack, Mallow makes timed Shocker attacks, and the princess heal, because one's fake thoughts are different and only
has 500 hp. Once you find out who's fake, continue your attacks on the real Yaridovich. Keep attacking until his mirage subsides and you defeat him! Belome (Round 2) Found: Belome (Round 2) Found: Belome again in the Temple
of Belome, he has much more HP and a new bunch of moves. They could eat someone at your party, spit it out, then create a clone of theirown, attack the Princess or heal. When Belome makes clones of your boys, you either fight them or you focus on Belome.
don't think you should fight clones, because their attacks don't have much damage. Continue attacking Belome until it disappears again, then defeat any clones that are there and the battle will end! Jinx (Round 1) Found: Monstro Town HP: 600 Strengths: Fire, Thunder, Ice, Fear, Poison, Sleep, Silence Weaknesses: N/A Thoughts: You're
just a beginner! Strategy: The first fight with Jinx is not so hard because he has no very powerful attacks to be careful for yet! To beat him, have Mario hit him with Shell Lazy, Bowser hit him with regular timed attacks, and the princess should attack or heal if someone is seriously injured. Halfway through the fight, Jinx will use The Vale up
to defend the defense. Keep hitting him with timed attacks until you kick him. Jinx (Round 2) Found: Monstro Town HP: 800 Strengths: Fire, Thunder, Ice, Fear, Poison, Sleep, Weaknesses: N/A Thoughts: Sympathy!? Not from me! Strategy: In the second fight against Jinx, it tends to be a little harder than the first match was. The
reason is because he has 2 new moves: Quicksilver, which is a powerful attack, and Silver Bullet, which is pretty much a kill-to-impact attack, unless you try to block it just hits! He also has 200 hp more, so the fight could take a little longer to win. Beat him by having Mario and Bowser make regular timed attacks and the princess should
heal. When he does the Vale Up thing again, keep attacking until you win! Jinx (Round 3) Found: Monstro Town HP: 1000 Strengths: Fire, Thunder, Ice, Fear, Poison, Sleep, Silence Weaknesses: N/A Thoughts: Ooh! I'm going to hurt you! Strategy: Now this is a real fight! Jinx has all the moves he had in the second fight, plus another:
Bombs Away, which can take hundreds of HP away at once, erasing this character! To beat him this time, have Mario and Bowser use regular timed attacks as before while Princess heals the group. When Jinx's Not Vale Up, it really gets annoying to fight him because your attacks don't do as much and he has 1000 hp this time! Continue
to slap him with Mario Lazy Shell and Bowser's gun until Jinx is defeated once and for all! Culex / Earth Crystal / Crystal Fire / Crystal) 3200 (Fire Crystal) 1800 (Wind Crystal) 800 Strengths: (Culex) Ice, Fear, Poison, Sleep, Silence (Crystal) 2500 (Water Crystal) 1800 (Wind Crystal) 800 Strengths: (Culex) Ice, Fear, Poison, Sleep, Silence (Crystal) 1800 (Wind Crystal) 1800 (Wind 
Earth) Jump, Fear, Poison, Sleep, Silence (Crystal Fire) Fire, Fear, Poison, Sleep, Silence (Crystal Fire) Fire, Fear, Poison, Sleep, Silence (Wind Crystal Water) Ice, Fear, Poison, Sleep, Silence (Wind Crystal Water) Ice, Fear, Poison, Sleep, Silence (Wind Crystal Water) Fire, Fear, Poison, Sleep, Silence (Crystal Water) Ice, Fear, Poison, Sleep, Silence (Wind Crystal Water) Fire, Fear, F
Crystal) I don't like being woken up! (Crystal fire) I have to suck tonight! (Water Crystal) Get me back underground! (Wind Crystal) Whhhhhhoooo... Strategy: In my opinion, this is the hardest fight in the game! We strongly recommend that you are at least level 25-27 before even trying to fight Culex. You have to fight and beat Culex, but
you have to put with his 4 crystals, each with powerful attacks as well. The best way to win is to erase the crystals first, then take Culex. You should be the Earth Crystal. Destroy it by having Mario use regular timed attacks, Mallow using special Shocker, and the
princess should heal. After you destroy this crystal, you should focus your on the Fire Crystal is destroyed, you should go after the Water Crystal. Water. This crystal of having Mario make his regular
timed attacks again, Mallow attacking him with regular timed attacks, and the Princess should still be healing the group. When you break that crystal, you should attack and destroy the last crystal, which is the Wind Crystal. It has the smallest amount of HP in crystals, but it has great defense, so it might take a little longer to beat it fast. To
beat him, have Mario use his regular timed attacks or Ultra Jumps, Mallow use regular timed attacks, and the Princess should heal. When you finally destroy the crystal, you should go after Culex. Now that he's alone, Culex is easy because he has no real attack. Defeat him by having Mario, Mallow, and the Princess use regular timed
attacks until he is defeated. When you bat it, you get the Quartz Charm accessory. Megasmilax / Smilax Found: Bean Valley HP: (Megasmilax) 1000 (Smilax) Fear, Poison, Sleep, Silence Weaknesses: Ice Thoughts: (Megasmilax) I was a child of water! (Smilax) Turn your
eyes! Strategy: When you enter this battle, you will fight against a single Smilax. Beat him with regular timed attacks from Mario, Mallow, and the princess. After you beat it, Shy Away will water the plant and you will have to fight 2 Smilaxes. Beat them quickly by using Mallow's Special Snowy. When they leave, Shy Away will come back
and wet it again, making you fight 3 Smilaxes together. Beat them with another snowy attack and Shy Away will fly over again and water it. Now, you should have your attacks directed at Megasmilax. Have Mallow cast Snowy, Mario makes regular timed attacks, and attack the
princess or heal when needed. Continue attacking Megasmilax and Smilaxes until they are defeated. Birdo / Shelly Found: Nimbus Land HP: (Birdo) 777 (Shelly) 500 Strengths: (Birdo) Fire, Fear, Poison, Sleep, Silence (Shelly) Fear, Poison, Sleep, Silence (Shelly) Fear, Poison, Sleep, Silence Weaknesses: N/A Thoughts: (Birdo) I just love life! (Shelly) Slows down! Strategy:
When you enter this fight, you will first have to fight Shelly. She's not fighting you, so it's a breeze that destroys her. Use regular attacks on Birdo. When Birdo starts pulling a single egg at you at a time, have 2 out of 3 guys defend
while other attacks. If a single egg hits one of the guys defending itself, it will bounce back and land in front of Birdo. Now resume the attacks and have someone hit the egg with an attack, so as to explode, dealing 80 hp of damage to Birdo! Keep attacking until Birdo is defeated. Valentina / Dodo Found: HP Land: (Valentina) 2000 (Dodo)
800 Strengths: (Valentina) Ice, Fear, Poison, Sleep, Silence (Dodo) Sleep, Sleep, Weaknesses: (Valentina) N/A (Dodo) I'm hungry... Later! Strategy: At the beginning of this battle, Dodo will come grab the middle character in your lineup and bring them to another area to fight that
person. That person should be Bowser if you're reading the walkthrough part right in front of this boss. Have Bowser make regular attacks on Dodo. After you beat Dodo, he'll fly back to Valentina and you'll see the battle with Valentina, Mario and the Princess. Have Mario use regular timed attacks while Princess attacks or heals when
needed. After a few rounds of battle, Bowser will return, making it a 3-to-2 fight! Keep attacking Valentina and ignore Dodo because if you beat him again. Keep fighting until Valentina and Dodo fly, defeated. Dragon Tsar / Zombone Found: Barrel Vulcan HP: (Dragon Tsar)
1400 (Zombone) 1800 Strengths: (Dragon Tsar) Fire, Sleep (Zombone) Fire, Ice, Fear, Poison, and Sleep Slabiclets: (Dragon Tsar) Ice (Zombone) Hey! We're not done yet! Strategy: When you enter this battle, you should definitely have Mallow in your party
because its special does not help very much. Beat Dragon Tsar to have Mario make regular timed attacks, Mallow use his special snowy, and the princess should heal or attack. When you delete his HP, the Dragon Tsar will sink into the lava and Zombone will appear. To beat Zombone, have Mario use regular timed attacks, Mallow
should use special Shocker, and Princess should heal. Keep attacking Zombone until it sinks into the lava forever. Axem Black / Green / Pink / Red / Yellow / 400 (Red) 400 (Red) 800 (Yellow) 600 (Axem Rangers) 999 Strengths: (Black) Fear, Sleep (Green) Sleep, Silence
(Red) Ice, Sleep, Silence (Red) Fire, Fear, Sleep (Yellow) Thunder, Poison, Sleep (Axem Rangers) Fear, Poison, Sleep, Silence Weaknesses: (Black) You're the timing stinks! (Green) Are we done here? (Roz) Red, wrong position! (Red)
It's all your thumbs today! (Yellow) We look good! (Axem Rangers) It's a hand-to-hand combat! Strategy: Axem Rangers are not really too hard to beat if your party is made up of Mario, Mallow, and Princess. Your first target is Axem Pink because it heals the rest of the rangers, plus it's the weakest of them all. Just have Mario and Mallow
use a regular timed attack, while Princess attacks or heals when other rangers get you After Pink is beaten, you should then go for Axem Black. Beat Axem Black to have Mario make his attack regularly timed, Mallow use Shocker and the princess heals. After
you beat Black, you should take Axem Yellow. This time, have Mario either do a regular attack or use his Special Snowy, and the princess heal. When Yellow while Mallow attack, Mallow attack, Mallow attack, Mallow attack, Mallow attack, or use His Special Snowy, and the princess heal.
When Red is finally beaten, he will retire to the giant head thing in the back (Axem Rangers), who shoot the powerful breaker beam attacks, Mallow use his Special Shocker, and the Princess should heal the party whenever The Breaker Beam hits. Keep attacking
until it disappears and Axem Rangers gives up the star and sinks into the lava! Magikoopa Found: Bowser's Keep HP: 1600 Strengths: Poison, Sleep, Silence Weaknesses: N/A Thoughts: That's... my child? Strategy: Magikoopa is quite easy because he does not really attack; he just calls other creatures to protect him from attack and
fight for him. To beat him, they only have Mario, Bowser, and the princess use regular attacks timed on him. When he calls another enemy disappears, continue to attack Magikoopa until it is defeated. Boomer Found: Bowser's Keep
HP: 2000 Strengths: Fear, Poison, Sleep, Silence Weaknesses: N/A Thoughts: It's Everywhere Now... Strategy: You will fight Boomer, have Mario and Bowser use regular timed attacks while the princess heals. Halfway through the
fight, Boomer will use Vigor Up to reduce his defense and raise another statistic. With the defense down, I continue to slap him with timed regular attacks and eventually he will be defeated. Exor / Left Eye / Right Eye) 300 (Right Eye) 500 (Neosquid) 800 Strengths: (Exor)
Thunder, Fear, Poison, Sleep, Silence (Left Eye) Thunder, Sleep (Right Eye) Thunder, Sleep (Neosquid) Sleep Weak Points: (Exor) N/A (Left Eye) Jump, Fire (Neosquid) N/A Thoughts: (Exor) Must mow the lawn soon. (Left eye) I can't see anything! (Right eye) I have an astigmatism! (Neosquid) I'm so lonely...
Strategy: Now you have to fight the giant sword on the top of Bowser's Keep and defeat him! Your main target is Exor, but his defense, Left Eye, Right Eye, and Neosquid prevent him from doing any damage. First, have Mario and Bowser take out his eyes while the princess heals. After sending your eyes into a daze for a while, focus on
Exor. Have Mario and Bowser use regularly timed on her while the Princess keeps the party going. After a few turns when they are in a state of dizziness, attack Exor. Repeat this process until Exor is defeated and goes into
filing indefinitely! Countdown / Ding-A-Ling (x2) Found: HP Gate: (Countdown) 2400 (Ding-A-Ling) 1200 Strengths: (Countdown) Jump, Thunder (Ding-A-Ling) Ice Thoughts: (Countdown) We are in overtime! (Ding-A-Ling) Wake up with your
heads asleep! Strategy: When you're fighting this boss, it's good to have Mallow on your team, because his specialties are great against them. Your main target for the time being should be Countdown because it is best to get it out of the way first. To beat the clock, have Mario use his regular timed attack, have Mallow expressed Shocker,
and the princess should heal the group whenever attacked. After you delete Countdown, you should go for 2 Ding-A-Lings on top of the watch. You should focus your attacks on one bell at a time. Have Mario use his regular timed attacks, Mallow threw Snowy to hit them both, and the Princess should continue to heal. After you destroy a
bell, go after the one just like the previous one. Continue using Snowy and Mario's regular attack until he is defeated. Domino / Cloaker) 1200 (Mad Adder / Earth Link) 2500 Strengths: (Domino) Sleep, Silence (Cloaker) Fear, Poison, Sleep, Silence (Mad Adder) Fear,
Poison, Sleep, Silence (Earth Link) Fear, Poison, Sleep, Silence Weaknesses: (Domino) Fire (Cloaker) N/A (Mad Adder) N/A (Mad Adder) I'm alive and kicking. (Link Earth) What a royal pain! Strategy: In this battle, there are 2 parts, as well
as 2 different modes you can enter the second part of this battle. In the first part, you should focus on Domino's defeat. To beat him, have Mario use regular timed attacks, and the Princess should heal. After defeating Domino, Cloaker will move back and the party will go back with him to see him attach to
the top of a giant snake, Earth Link. (If you chose to beat Cloaker first, you'll fight Mad Adder instead of Earth Link.) You should just focus on defeating the giant snake. Do this by which Mario and Mallow use their regular timed attacks while the princess heals. Cloaker or Domino will attack you from the tip of the snake, but you should
ignore them. Attack the snake until Domino or Cloaker disappears and the snake no longer moves. Factory Chief) Thunder (Gunyolk) Fire Weaknesses: (Factory Chief) Thunder, Ice (Gunyolk) Thunder Thoughts: Thoughts: Chief) Who dares to fight
me?! (Gunyolk) If we're beaten, the boss is alone! Strategy: In this battle, you should focus on Gunyolk first before you fight with the factory boss, because you can use the attack or Ultra Flame, Bowser use his regular timed
attack, and the Princess should keep the group alive. After you destroy Gunyolk, you should go after the factory boss. Beat him by having Mario and Bowser use regular timed attacks while Princess heals or attacks if the group goes well. Keep hitting the factory boss until he's defeated. Smithy / Melting / Shyper (Part 1) Found: HP Gate:
(Smithy) 2000 (Melting) 1500 (Shyper) 400 Strengths: (Smithy) Fear, Poison, Sleep, Silence (Melting) Fire, Fear, Poison, Sleep, Silence (Shyper) N/A Thoughts: (Smithy) Eh?! That's not bad! (Topitory) I wash after every meal! (Shyper) Ooh! It's going to
be fun! Strategy: There are 2 sides in this fight against Smithy. In the first part, you have to fight Smithy and Melter (you don't have to fight Melter if you don't have to fight Amithy creates. To beat Smithy here, have Mario use his regular timed attack with Lazy Shell gun, Bowser use regular timed attacks with Drill Claw gun
(if you have it), and Princess should heal because Smithy has some powerful attacks. After a while, the Melter will spit out a stain like the substance and Smithy will throw it into a Shyper that will attack you. Defeat Shyper if you want, then keep hitting Smithy. After you take Smithy's 2000 HP, you'll hear a loud noise. Some of Smithy's
```

```
spades will fall and scream at him, and then the place will shake. Eventually, the floor will fail and the group, and Smithy will begin. Smithy (Body / Furnace Head / Tank / Toaster / Treasure / Wizard) (Part 2) Found: HP Gate: (Body) 1000
(Furnace Head) 8000 (Tank Head) 8000 (Toaster Head) 8000 (Treasure Head) 8000 (Wizard Head) 8000 (Wizard Head) 8000 (Wizard Head) Fear, Poison, Sleep, Silence (Toaster Head) Fear, Poison, Sleep, Silence (Toaster Head) 8000 (Treasure Head) 8
(Wizard Head) Fire, Thunder, Ice, Fear, Poison, Sleep, Silence Weaknesses: (Body) N/A (Oven Head) Ice (Head Of Tank) Thunder (Toaster Head) Nothing can hurt me! (Tank head) Don't shock me! Not! (Toast head) thing is not good at all!
(Treasure's head) What's hidden inside?! (Expert head) Good magic, bad defense. Bad. In the second and last part of this battle, you will have to defeat Smithy by attacking his many different heads. The total amount of HP for all combined ends is 8000 hp, not 8000 hp for each single head. You can also attack his body; After you exhaust
its 1000 HP, you can't move for a few turns, making it so Smithy can't change heads during that time. To beat Smithy, have Mario and Bowser use their regular attacks timed on the head while the Princess attacks the body to try and disable or just heal the party. Stick with the use of only regular attack during this battle because it is only a
waste of FP to use the special that the various heads are weak against. Keep attacking the head until the treasure's head finally appears. At that point, Smithy shouldn't have much hp left, so keep attacking him until he explodes, leaving the last star behind and completing the game! -=-==9. Weapons -= -=-== Mario==== Hammer

Armor 100 = Factory= Toad's Shop ----------- Item Type Coins ---- ---- Mid Mushroom Item 10 Max Mushroom Castle for the first
time. When you meet Toad there, he'll start talking to you; wait until he stops at the door, then jump on the ledge above the door. There, jump up from there and take the frog coin out of your chest. (Note: This is the only moment in the
game that you can get this hidden chest. If you screw up and you wanted it, you're going to have to start a new game.) 2. (Flower): (This may
take a little while before you can get this!) While you're in the basement of the item store, wait until the mushroom guy walks to the nearest corner, jump on your head, then jump straight up while still in the corner to reveal your chest. =======The Way of the Bandit===4. (Kerero
Cola): In the second area of the Bandit Way, where you have to jump on red soldering flowers to jump on the larger edges, reach the exit of the area of another red flower. Jump on the flower and wait until you are facing directly to the right, then jump to the right. You should hit your chest and take its contents in one shot!
======Rose Town ====== 5. (Frog Coin): In Rose Town, enter the store of items and get on top of the shelf against the back wall. Run to the corner to reveal the chest. 6. (Frog Coins): Go to the house with the switch inside, which makes the stairs outside appear and
disappear, then go up to the second floor inside. Jump on the bed and you'll jump up, hitting the chest above you. ====== 7. When you are part of the first section to make the chest appear. 8.
(Frog Coin): After jumping on the trampoline and exiting the first underground section in the forest, go diagonally to the left of the hub you get to the section where there are 7 stumps, go down the lonely stump at the very end. Get behind
the sleeping Wiggler and jump right behind him to reveal his chest. 10. (Flower): In the area with the 7 stumps, enter first in the right row. Walk diagonally down to the left and go to the lighter area. Jump up in the middle of it to make your chest visible again! 11. (Empty): Back in the area with 7 stumps, go down the second row in the left
row. Go diagonally up to the left towards the smaller lighted area and stand up so that you are slightly up and to the right of the area. Jump in there and make your chest appear empty. 12. (Red Essence): After passing the Rescue Block before taking the path to the next area, head to the right of the exit and jump around. You'll make your
chest appear when you find the right place! ======Pipe The Last======13. (Frog Coin); In the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where there are six pipes row, each with a Piranha installation comes out then, go down the section where the s
edge. Now it's time to start counting tiles on the edge! From the beginning of the edge, count until you are on the 4th tile, then jump up to reveal the chest, but you will have to go a little further this time! From the beginning, count to tile 8a, and then jump
to that point to make this chest visible! ========Yo'ster Isle ========Booster Pass =======15. (Frog Coin): When you exit Pipe TheRup, you should see a rescue block nearby. Jump over it to get behind it, then jump straight back there to reveal your chest and take Frog Coins inside. =======Booster Pass =======16. (Flower): From the
beginning of Booster Pass, head straight, then left when the path does not. Jump on the low edge with green plants on it, then continue and jump over it to reveal your chest. 17. (Candy Rock): Continue until the first area of Booster Pass until you reach the path to the next section.
back wall to reveal the chest. 19. (Frog Coin): Continue through the tower for a bit until you enter the camera that you could have accessed just by jumping on the teeter-toter below with Thwomp. A few Snifits should fall from the ceiling with parachutes into this room. Go through this room until you see a path that goes into the wall just on
the side of the stairs. Go as far as you can, and then jump up to open your chest. 20. (Goodie Bag): When you arrive in the room with a rescue block and a few edges in the air, jump from the smallest edge to the largest, but do not jump on the edge with the chest above yet! Instead, jump on the visible chest, and then jump over it to make
the other chest appear! 21. (Mushrooms): In the same room you found the last chest in, reach the other end of the room from the lowest edge and the path to the next room. Stand on lighter colored tile in the corner and jump to reveal the chest. ======Marrymore ======22. (Frog Coin): Enter the Marrymore Inn and check the usual
room, not the suite. When you're in the room, jump on the closet, then up to the top of the library. Jump out of there to make a block and
chest appear! Now, go and jump around so you get the clone to the middle of the room under your chest. When he's there, jump on his head, then in his chest! =====24. (Red Essence): In the first section of Land's End, jump into the cannon and get you on the yellow platform that moves up and down. Stand at the top
corner of the platform, then, when you reach the highest point, jump straight from the platform and you should find the chest, 25. (Kerero Cola): In the second section, jump into the cannon and pull yourself out of it and land close (if not in) the hole in the ground. Stand right in front of the hole in the direction of the cannon and jump up; a
platform will appear. Drop back down the edge towards the cannon, and jump into the cannon, and jump into the cannon. Wait until it's aiming towards the platform you just revealed, then pull yourself out and land on it. When you do, it will start to move; from there, jump to the top of the high edge. Sit on the left side of the edge and jump up to reveal the chest. 26.
(Frog Coin): In the section where you can jump to the larger edges through red soldering flowers, or follow the right path and pass through blue flowers, or follow the right path and pass through blue flowers. While you're in the air, you should hit the chest; Just make the jump again
to claim the currency inside! 27. (Frog Coin): When you find and enter the cave in the cliff that leads to Kero sewer, go through the first part of it until you see the big steps you have to go down. In the little alcove where Chow was, jump around in it until you hit the chest. =====Temple of Beloma ====== 28. (Frog Coin): In the temple area
after choosing your wealth, jump on the ledge above the stairs going down. Jump to the highest edge, and then walk towards your chest, and then jump again to reveal your chest. 29. (Frog Coin): After you go down the stairs, you will pass a corner on the left side of Mario
===== 31. (Frog Coin): From the beginning of Bean Valley, insert the pipe to the right. When you show up, head to the left pipe. Walk to the end of that path and jump in there to reveal your chest. 32. (Kerero Cola): In the section where there are five pipes, each with
an indoor Piranha plant, leads Shy Away to from the bottom right; after he Shrivelled plant, defeat the most lively piranha! Go down that pipe and follow the plates so you did it back to the pipe vault, and then from under the visible chest, walk down corridor 5 or 6. Jump up when you stop
and your chest should appear. 33. (Red Essence): Back in the area with the five pipes, repeat the process with Shy Away, but this time lure it to the most right pipe. Defeat that Piranha, and then go down the pipe and while standing against the wall to the right, head diagonally up and right toward the yellow stairs. When you reach the
corner before you reach the stairs, jump up to make your chest appear! =======Nimbus Land =====34. (Frog Coin): When you get to Nimbus Land, enter item Shop. Jump up the boxes in the back of the room at the top, then hold Y and jump off the top box towards the trader. You should hit your chest in the air while you jump. 35.
(Frog Coin): In Nimbus Castle, arrives at the 3-door hall. Go to the left door; You should see a bird cage next to her. Sit behind the cage and jump straight up to find the next room, lower the stairs until you reach Jawful (enemy with a large fork).
Defeat him, then stay where he was and jump; chest will appear! 37. (Frog Coin): From the spot you jumped to reveal the last chest, turn around and walk right into the black area, which is empty space! Follow the path until it finally ends and you can't go anywhere else, and then jump up to reveal this chest with yet another Frog coin! 38
(Frog Coin): After defeating Birdo, go through the back door of the room. Go through the room, then, when you're right next to it, jump on your chest to make your chest above appear with another Frog coin! ====Gate===39. (Mushrooms): Go through the gate until you reach
you can access the game on the menu screen. You can play a simple shooting game and have fun. I'm not sure, but I think you'll win a prize of some kind if you get a really high score! =====The Midas River=====The Midas River====The Midas River=====The Midas River====The Midas River=====The Midas River====The Midas River=====The Midas River====The Midas River=====The Midas River=====The Midas River=====The Midas River====The Midas River=====The Midas River====The Midas River===The Midas River=
river. In the first section of this curse, you are sent down the river and you will have to press b to try to swim a little upstream. There are 36 coins in total, including 4 Frog coins in this area. Once you get to the bottom, you'll move on to barrel jumping part of the course. There are 64 total coins that you can accumulate in this area and you
course. Once you reach the end, the mushroom type will add up the amount of coins you have on the river and grant you with Frog Coins depending on the number of coins you have. If you can get 100 coins in one attempt, you will get a bonus of 5 Frog Coins along with the reward. Here's a list showing how much Frog Coins you get for
Gold Goomba +3 points, Spikey -1 point. Take at least 20 points the first time you play and you get a flower tab. Break Hi Score again and you get a Frog coin. You will earn a frog coin every time you break the hi score afterwards. =====Mushroom
Derby=====At Yo'ster Isle, you can compete Boshi and other Yoshis (only if you beat Boshi once before) using Yoshi. You can only participate if you're all out. The controls for racing are actually easy when you look at them, but they can get pretty
annoying when you don't go with the model. When the music starts, alternate pressing A and B with the rhythm to make Yoshi go. When you win, the cookies you've bet and what the odds are against you. After saving the children of Moleville, go to the top of the mountain and speak with the
mole next to the large arrow pointing to the hole. You could pay 10 coins just to go in the mine cart, or you can bet 30 coins back as a prize! In the first section of the race, it's in a Mod 7 perspective with the camera behind Mario at all times as you
navigate through me. In the next part, you'll get a side scroll view. In the third part, it returns to 7 perspective mode. Finally, in the final part, it goes to side-scrolling viewing. Collect mushrooms during the course and use them on straight-aways to go faster by pressing X. Apply the brakes pressing A when you're doing turns tightso as not to
fall off the track! ======Booster Hill=======This mini-game is only open after you've beaten Yaridovich. Go to Seaside Town at the Beetles Are Us store, and buy a Beetle Box. Then go up the hill and run and catch the flying cockroaches. Like race with Booster on the hill, jump on barrels to move closer to the cockroaches, but
if a barrel hits you, you retreat a little. Here's a list of how many coins you get for catching a certain type of cockroach: The Male Beetle Coin = 1 Frog Coin ====== Sky Bridge====== In Land's End, you'll be on an edge connected to the other edge of a series of platforms that fall if you sit on them
for a time called Sky Bridge. Talk to Shaman there and pay him 5 coins to try your luck on the bridge to earn coins and/or Frog coins. You do it, you for a time called Sky Bridge. Talk to Shaman there and pay him 5 coins to try your luck on the Expert Trail, where, if you do it, you like to the other side, you will earn back 5 coins, the special route where, if you make over you have 8 coins, or the Expert Trail, where, if you do it, you
will earn a Frog coin. De Once you make it over, you will be given the option to try again to get double prize, and then you can try again to double that amount! ======= In Land's End where Sergeant Flutter and his paratroopers dispatched themselves to help you reach Bean Valley, you can play this mini-game
anytime. All you have to do is jump from shell to shell at the top of the mountain and talk to Sergeant Flutter to get a prize. If you can get there under 12 seconds, you'll get the Troopa Pin. Reach the top within 11.49 seconds and you'll get a
Frog coin as a prize. Finally, if you can get there under 11 seconds, which is difficult to do, you will earn 5 Frog coins! =====The 3 moldy fears =====The 3 moldy fears for the lights in the room. Mario
will run to bed and lie across the bed and go to bed. During the night, the 3 Moldga Fears: Big Boo, Dry Bones, and Greaper will appear and surround the bed. They will give you clues as to where each flag is hidden.
Then, when they disappear, wake up and leave the room. Flag locations are: Dry Bones Flag: Mario's Pad (inside Pipe House, check bed) Greaper Flag: Rose Town (check behind the rose wooden sign at the entrance) Big Boo Flag: Yo'ster Isle (check between O and A in objective on the track) Once you find all the flags, go back to
Monstro Town and go to that room with the bed and turn off the light and go to bed. The 3 fears will return and give you the Phantom Medal for their game, but it's an optional task you can try if you want. In Monstro City, you will find that the third door is closed. To open
it, you'll need the Shining Stone. To get the stone, go to Moleville and into the house north of the Tool Shop and talk to the little mole that runs the Purtend Store. Give him the fireworks to take the Shining Stone. Now, go back to
Monstro Town, go to the sealed door and press A to unseal it. Then go down and right and into the hole to save your game, then make sure Mallow and the Princess are in your party and are at least level 25-27. Now, walk through the unsealed door and you'll meet Culex. Accept his challenge to a fight, then you will enter into a battle
against him and the 4 crystals. To learn how to win, read the Heads section of this guide. When you win, you will receive the Charm ===Grate Guy's Casino can only be accessed via a secret exit from Bean Valley. First, go go Booster Tower and get through it until you meet Knife Guy. Talk to him and
play his quessing game and win 10 times to get a bright card that allows you to enter the casino. Now head through Bean Valley until you reach the plant when The Waters Shy Away it. Then go down the pipe and get to the end of the Chomp Chomps room. Stand in
the corner next to Chomp Chomp and jump up 3 times to make a platform and another path appear. Jump on the platform and take the path of Bean Valley and head to Grate Guy's Casino. Once inside, you can play a few different games. You can play Blackjack and try to win a Frog coin. You could play slots in the corner by paying 10
coins and try to get 3 matching pictures; If you win, you get a frog coin. This game is difficult to win, though. Finally, you can talk to Grate Guy and play his Look the Other Way game to win 100 times in this game, you get the Star
Egg. ======The 6-door challenge ===== In Bowser's Keep, there is a room where you come across 6 doors, each with its own courses. Here, I'll go into more details about each of the courses: Battle Course 1 ------ End Prize: Star Gun
Fight 1: Gu Goomba (x5) Fight 2: Malakoopa (x2), Tub-O-Troopa (x1) Fight 3: Orbison (x2), Li'l Boo (x2) Fight 4: Sling Shy (x5) Fight 7: Orbison (x1), Amanita (x2) Fight 8: Greaper (x2), Reaper Joke (x1) Fight 9: Pyrosphere (x3) Fight 10: Lakitu (x3) Fight 11: Shaman
coins inside, and the object of this game is to make sure you don't get the 21st coin. Dr. Topper and Mario take turns taking 1 to 4 coins from the chest until it becomes empty. There is no real information I can give you except this: count the number of coins taken from the chest and never leave the end turn on 16 or 17 coins, because Dr.
Topper can easily take 3 or 4 coins, leaving 21. After you defeat Topper in this game, you'll be brought to the next room. In the second room, you'll see a bunch of switches on the floor. The goal of this game is to make it so that all the switches are depressed. Each switch that jump on triggers switches on all sides of it and make them go
down. Here, I will show you to win it easily: 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 Step on switches 2, 8, 15, and 9 to win this game and go to the next room. In this final room were. Dr. Topper will tell you that you have to kick the cannonballs
over each other until there are only 1 left. Every time you hit each other, the one you hit disappears. Dr. Topper will remove the cannonball #3 for you at first, the ball kick #1 right to space #3. Then the kick ball #4 left in space #2. Then the ball kick #11
up space #3. Then the ball kick #5 right at #7 space, then kick the ball #16 up space #6. Then the ball kick #3 down to #11 space #11. Then the ball kick #2 down to #10 space #8. Then the ball #16 up space #8. Then the ball kick #10 right to space #12. Then
the ball kick #8 down to #16 space, then kick the ball #13 right to space #15. Finally, the kick ball #16 left in space #14 just leave one left and win the game! Puzzle Course 2 ------ End Prize: Rock Candy In this room, you will meet Dr. Topper and he will ask you a bunch of trivia questions while you sit on a platform. The platform will
move up a space every time you get a correct answer, but will decrease 2 spaces when you get the wrong one. Here's the list of questions that Dr. Topper can possibly ask you: 1. The boy getting his picture taken at Marrymore can't wait until that season? Answer: Ski 2. What technique does Bowser learn at level 15? Answer: Crusher 3.
```

What's the name of the head of the Submerged Ship? Answer: Johnny 4. Why is Hinopio in charge at the counter? Answer: Sky Troopas 6. What does the Red Essence do? Answer: Gives you power 7. What does Belome like to turn people into? Answer: Scarecrows 8. What is

the 4th selection on the Menu screen? Answer: Dota 9. What did Carroboscis turn into? Answer: A carrot 10. Who is the leader of the Axem Rangers? Answer: Red 11. Which monster doesn't appear in Booster Tower? Terrapin 12. What color are the curtains in Mario's house? Answer: Blue 13. Johnny loves that drink?... Answer: Currant juice 14. Booster is what generation? Answer: 7.25. Where was the third starpiece found? Answer: 30 minutes 27. What words does Shy Away use when she sings? Answer: At dae dah ~ 28. What color is Dodo's beak? Answer: Red 29. The boy from the inn in Mushroom Kingdom was playing with... What? Answer: Toadofsky 31. Is he calling the chef at Marrymore? Answer: Torches 32. What does Birdo come out of? Answer: An eggshell 33. How much does it cost... costs a female cockroach? Answer: 1 coin 34. How many petty officers does Croco have? Answer: 3 35. is it called Jagger's sense? Answer: Younger brother 38. Yaridovich what is it? Answer: A boss 39. What do Culex, Goomba and Jinx have in common? Answer: They live in Monstro Town In the second room of Puzzle Course 1, Dr. Topper brings you into a room with numerous barrels to the pile. Then it'll give you 10 seconds to count how many barrels are in that pile. When you do it has to, it will turn off the lights and turn on again, adding a lot of barrels to the pile, then it will give you 20 seconds to count them all and say the answer. When you're right, go to the last part of the course! In the final room of Puzzle Course 1, you will see 4 creatures standing next to a wall. Dr. Topper will tell you that they competed in a triathlon; Now he'll ask you to talk to each of them to listen to their stories. Remember their stories, then go see Dr. Topper again; He'll make you talk to each of them in the order in which they won. Here, I will tell you what each said and who is in what place: Place 1: I exceeded [the name] on my bike, and [name] was never able to pass me. 2nd place: I fell to 4th place during the bike race, but eventually ended up in the same place as I did in the swimming costumes and cycling events, but the other 2 beat me to the marathon. 4th place: I came in 3rd for swimming. Action Course 1 ------Super Slap In the first room of this course, you will that there seems to be no way to get over the lava. There are hidden path and jump to see where there is land for a quick second. Keep jumping through this room to the door at the end. Hit the coffers in the room to get a royal syrup, horror bomb, ice bomb, and a rock candy! Now, go through the door at the end of the next room. In the second part of this course, there are a bunch of square platforms moving back and forth above the lava. You have to jump on one, then the next when you get close enough to it. Try and hit all the coffers in this room to get a fire bomb, a Max fungus, a flower, and a very useful item: The Red Essence! Now, go through this room at the door and go through this course, you must simply reach the top without being hit and go through the door next to Kong chained to finish the course. Action Course 2 ------ End Prize: Sonic Cymbals In the first room of this course, you will see a series of platforms moving up and down above the lava. You have to just jump over them on the other side, so pass the first one down next to the lava, then go from there. When the last platform is low enough, jump on it to go up to a high edge, then go down and left to the chest. Hit your chest to get a Kerero Cola, then ride it back down to the bottom. Now jump on the edge and go through the door of the next room. In the second part of this course, there is a cannonball on the ground, as well as a pair of Bob-ombs walking around. You have to jump on the cannonball and walk on it, so you can get to the peginning of the room. Then jump on the cannonball and get across the room while hitting your chests along the way to get 2 flowers, a Max mushroom, a Pick Me Up, and a Rock Candy. At the end, jump into the first platform, the other one rotates around it. Pass through the room making the you play at Melody Melody Star Creator (starcreator(at)iuno.com); For his trivia guestions/answers from the 6 Doors Challenge in Bowser's Keep, Marshmallow (m. mallow (at) hotmail.com); For his information on what you will get after beating each course in the 6 Door Challenge, Strider Hirvu (echo three98 (at) hotmail.com); To tell me how much you get for selling your wallet instead of giving it to the guy in Mushroom Kingdom.
