Applicants are categorized in two ways;

1. Categorizing may be performed automatically via the application form. The application form may be set up to automatically categorize applicants if a particular response is selected. Alternatively,
2. Applicants may be manually categorized by recruiters. Check with your SuperUser if you are not sure if your applicants are being categorized.

## Quick Reference Guide – Adding events to a calendar

What you need to do	What you will see
<p><b>STEP 1: Manage events</b> Click <b>Manage events</b> from the right hand navigation menu.</p>	 <p>The screenshot shows a white box with the heading "Events" and three blue links: "New event", "Manage events", and "My events".</p>
<p><b>STEP 5: Events calendar</b> The events calendar will be displayed. From here you can search for events and view timeslots by clicking the <b>Timeslots</b> tab.</p>	 <p>The screenshot shows a web interface with a navigation bar at the top containing "New event", "Print events", and "Print events with bookings". Below this is a "Calendar" section with tabs for "Events" and "Timeslots". A search bar is present with the text "Show search criteria". A date selector shows "Friday 11 Nov 2011" and a "Go" button. A list of timeslots is displayed, including "8 am", "9 00", "10 00", and "11 00".</p>
<p><b>STEP 6: Click the calendar icon to add event into calendar</b> Clicking the calendar icon allows you to export event details into your email calendar. <b>NOTE:</b> You will find this icon next to every event that appears on the Timeslots tabs of the Manage events page</p>	 <p>The screenshot shows a context menu with three options: "Bookings", "Edit timeslot", and "Edit".</p>
<p><b>STEP 7: Open details of calendar</b> Once you have clicked the calendar icon the Do you want to open or save this file pop up will display. Clicking <b>Open</b> will show open the details of the event in the email calendar format. Click <b>Save &amp; Close</b> to save the file into your email calendar. <b>IMPORTANT:</b> For appointment time zone information to be displayed correctly in your calendar, a location must be specified for each event venue, and a time zone must be linked to each location. We have designed a report to help you check that your settings are correct. In the <b>Additional reports</b> section</p>	 <p>The screenshot shows a "File Download" dialog box with the question "Do you want to open or save this file?". It displays the file name "4c7e9978-daec-4311-98fc-083c61ee3de4.vcs", the type "vCalendar File, 840 bytes", and the source "adminuat.pageuppeople.com". There are "Open", "Save", and "Cancel" buttons. A warning message at the bottom states: "While files from the Internet can be useful, some files can potentially harm your computer. If you do not trust the source, do not open or save this file. <a href="#">What's the risk?</a>"</p>

of the **View reports** page, select the **System settings > Events > Venues** report.
