Hodder Singapore

In January 2016, Hodder Education acquired select titles from the Pearson Singapore Schools' list, with a clear mission: to improve the range of resources available to support schools throughout Singapore.

Hodder Education are one of the largest and most experienced educational publishers, building our expertise in publishing for over 100 years. In 2015, we celebrated our 25 year anniversary of working with Cambridge International Examinations, who work with the Singaporean Ministry of Education to develop the O and A Level exams.

To make sure that we can continually improve the support we provide, we opened our new Singapore office to respond quickly and effectively to the wide range of ever-changing needs across the country. Through our local team we aim to provide schools in Singapore with access to the best range of print and digital resources, all tailored to support the national curriculum.

Globally, we have published for almost every subject and at every learning level, providing resources to schools in over 140 countries worldwide. Our expertise will allow us to provide the best support available to schools in Singapore, and help them deliver and develop the world-class practice that has made Singapore a global leader in education.

All About English: Grammar

Lower Secondary • Book 1
978-981-06-2686-0

Lower Secondary • Book 2
978-981-06-2687-7

Based on the latest English language syllabus from the Ministry of Education of Singapore, **All About English: Grammar Series** helps you gain a solid foundation on essential grammatical items, structures and rules.

These books build your proficiency in grammar through many systematic, easy-to-follow lessons designed for progressive learning. Each lesson instils correct usage and develops awareness of common and developmental errors. Extended Learning Points impart relevant tips to refine your understanding of the lesson at hand. Exercises test and reinforce grammar proficiency at the word, phrase, sentence and text levels.

Ideal for self-study and classroom use, these books will help you sort through important grammar issues.

All About English: Grammar Editing

Lower Secondary
978-981-06-3767-5

Upper Secondary
978-981-06-3630-2

All About English: Grammar Editing is designed to help students achieve success in the editing section of the 'O' Level examination paper. Students will learn how to identify and correct errors in the context of the text. They will also encounter a wide range of passages of varying degrees of difficulty. The book is divided into two parts:

Part I comprises a list of the various types of errors students will find in a passage as well as tips for tackling the passage. A worked example is also provided.

Part II comprises editing practices which are divided into three distinct categories — basic, intermediate and advanced. Each category has 10 passages. These categories provide a progressive approach to mastering the skills needed for the identification and correction of grammatical errors in a range of texts.

Detailed explanations can be found in the answers section to strengthen their understanding of grammar and the types of errors found in texts.

Secondary English

Longman English Series Grammar

Secondary One
978-981-06-1196-5

Secondary Two
978-981-06-1197-2

Lower Secondary English Series: Grammar is carefully designed in accordance with the latest English Language syllabus to help students understand the underlying grammatical structure of English and master its usage. Adopting the text type approach to help teach grammar in context, this book highlights various grammar items and their usage in relevant text types.

Clearly explained notes together with examples to illustrate the use of each grammar item are provided. The exercises and revision exercises are systematically structured to reinforce students' understanding of grammar rules.

Longman Grammar In Context

Secondary 1
978-981-06-2347-0

Secondary 2
978-981-06-2361-6

The **Grammar in Context** Series is specially designed to guide secondary school students in their mastery of grammar. Each book focuses on the use of specific grammatical items and structures in realistic contexts. Through the notes and exercises, students also learn the specific characteristics of different types of texts.

Features of the books:

- Provide concise notes to guide students in their understanding
- Help students master grammar in realistic context
- Contains comprehensive exercises with suggested answers for better guidance.

Secondary English

Comprehension

All About English: Comprehension

Upper Secondary
978-981-06-3434-6

All About English: Comprehension (Upper Secondary)

covers all three sections of the comprehension paper, in line with the new syllabus and examination format. The visual texts and comprehension passages have also been selected for their relevance and currency and cover a range of writing styles and issues. Questions are also modelled on the new examination format implemented in 2013.

Part I provides an analysis of the various types of questions and the targeted skills and answering techniques in the three sections. A glossary on understanding literary devices is included to help students tackle questions, which focus on the use of language for impact.

Part II comprises worked examples for Sections A, B and C. Each worked example provides a guide on how to tackle each question, the contextual information surrounding the question and the specific key words or phrases that students need to consider. Notes are also provided to help students make connections between the information in the text and the requirements of the question.

Part III contains practice passages for all three sections. To guide students in completing the practices, the purpose of each question is set in bold for Section A and the different types of comprehension questions have been highlighted for Sections B and C.

All About English: Understanding Visual Texts

Upper Secondary
978-981-06-3653-1

This book explores a variety of visual texts and different types of questions students might encounter in Paper 2, Section A of the English Language 'O' Level Paper (Syllabus 1128). In this section, students answer questions based on a visual text. They will need to demonstrate their understanding of visual and textual elements through their answers. For instance, can they explain how images and words used contribute to or influence the message in the visual text? The multimodal experience of viewing a visual text requires a unique set of skills for interpreting and evaluating visual and textual cues. Students and teachers will find this book easily accessible through its clear annotations and concise explanations. Proposed answers and explanations for the questions will also be provided.

In this book, students will learn to read and analyse visual texts using signposts such as Purpose, Audience, Context and Culture (PACC), and explanations of visual text features. They will also learn how visuals and written text work together to convey a specific message. Students will also be familiarised with various types of examination questions and answering techniques. Through guided explanations and worked examples, students will be equipped with the necessary skills to approach this section of the examination.

Secondary English

Composition

All About English: Complete Guide to Composition Writing (3rd Edition)

This guide is based on the latest syllabus by the Ministry of Education. It introduces students to various text types and provides guidelines on how to write each text type. Ample examples are given and exercises are included to ensure that students understand what is presented in each chapter.

The first 9 chapters of this book will give students the opportunity to focus on models of different text types, and help them improve their writing. The final chapter provides them with useful tips and strategies for working under examination conditions, and how to assess their own writing based on common marking guidelines. Armed with this knowledge, students can then challenge themselves with the sample papers provided.
