

Welcome to the world of Survival Enterprises!

We help the "tigers" amongst you to survive better. We believe that if given the knowledge and the choice, you will choose those things that lead to your optimum health and survival.

Regardless of where in this world you live, we are constantly under economic, & political attack, not only from our own governments, but from giant corporations who want us totally subservient to their whims. Every day we hear of new atrocities our politicians plan, which effect our ability to buy the nutritional products we want.

You CAN take back control of your health - - you simply need to make the right choice. Survival Enterprises is the right choice.

We can help you.

**INFINITY NUTRITIONALS**

When we started Survival Enterprises over 30 years ago, we couldn't find the potency, quality and bio-availability we required in nutritional products, so we took it upon ourselves to design a line of products we'd be proud of.

After undergoing complete laboratory testing and approval, we then test the product ON OURSELVES!

As I tell customers: "If we live through the testing, then it qualifies to be included in the **INFINITY** line of nutritionals." We're still alive, and we take **INFINITY** products on a daily basis.

**INFINITY** nutritional products are the highest quality, most powerful nutritional products available. If you want the very best, choose **INFINITY**.

## 10 WATT SIERRA WAVE SOLAR PANELS

The Sierra Wave Solar Panels efficiently generate solar energy from the sun for free! Use it to directly charge electronic devices such as cell phones/smart phones, MP3/iPods, GPS, flashlights, lanterns, cameras and battery storage devices.

The outer Nylon material is weatherproof and provides durable protection to the solar cells. The complete unit can be attached to a backpack for charging while hiking, laid on the dash of your vehicle, hung in a window, nailed to a tree and even stretched on a rope in the sun. A chaining feature allows 2 of these to be connected to increase energy production to 20 watts! Your smaller devices can be put into one of the two attached zippered pouches to charge. Multiple devices can be charged at once.

- High quality monocrystalline solar cells
- Durable Nylon outer shell
- Multi-Voltage Power Port Hub that allows for 5V USB, 6V, AND 12V-15V power output options
- Cig Lighter adaptor to use any device that has a 12V DC cig lighter plug
- Power Port Hub provides power regulation protection to your electronic devices.

## RFID BLOCKING SLEEVES FOR CREDIT CARDS & ID CARDS

If you have a credit or debit card that can be used in close proximity or touch a payment screen, then you have an RFID tag embedded in it. An RFID (Radio Frequency Identification Device) is a tiny radio circuit that sends your credit card/ID card information when it gets within the proximity of a reader.

These sleeves act like a "faraday cage" (electrical field blocking assembly), and blocks all RFID readers. Your data is private and invisible. Each sleeve fits one credit card.

## EMERGENCY SURVIVAL FOOD TABS

A weeks supply of food in a bottle the size of a GI canteen! Invented in the 1960's for the Air Force. Compressed protein powder (milk based). Chewable tablets (malt or chocolate flavored). Will store 10 to 25 years if sealed.

You should have one in every GOOD (Get Out Of Dodge) emergency bag - in every vehicle - at work - at school - anywhere you might need food in a clinch.

Back in the 1960's the Federal Government was searching for a food source that could be used in specialty situations. The objective was to find a product that would provide the best possible nutrition in the smallest possible volume. A tablet was perfected and is now used widely as an emergency food. Basically, it's compressed protein powder.

Twelve 3.9 gm. Survival Food Tabs contain: Fat 25%, Protein 9%, Carbohydrates 58%, Iron 18 mg. (as Ferrous Fumarate), other minerals, 2% (from milk solids), and there are approximately 20 calories in a 3.9 gram Survival Food Tab.

Ingredients: Non-fat dry milk solids, sucrose, vegetable oils (including sunflower and/or safflower oil), natural and artificial flavors, sodium ascorbate, vitamin E acetate, niacinamide, ferrous fumarate, zinc gluconate, calcium pantothenate, potassium chloride, manganese glucomate, pyridoxine hydrochloride, riboflavin, thiamine hydrochloride, vitamin A palmitate, vitamin D3, folic acid, potassium iodine, cyanocobalamin.

25+ Year Shelf-Life - 180 tablets per bottle

The Tabs have been produced and packaged to last at least 10 years, and have been tested at over 25 years. We've accomplished this in several ways. We have compressed the tablets with thousands of pounds of pressure with our specialized tablet presses. Oxygen and moisture, the arch enemies of food, cannot penetrate the tablets to destroy the ingredients. We put extra vitamins and minerals in the Tabs to assure potency. The specially designed opaque plastic bottle has a screw top lid which, in addition, is sealed to protect its contents.

The Survival Tabs have been on Mt. Everest Expeditions. They were on the Great Australian Bicentennial Camel Race. The Alaskan Helicopter Search & Rescue Team packs them! Hunters, Backpackers, Pilots, Yachtsman, Survivalists and other outdoorsmen, who use them as emergency food rations as well as an energy pick-up food supplement. They are also popular with long-distance truck drivers who don't (or can't) want to stop to eat.

Many schools, being mandated to store food for their students in case of storms, can stock days worth of these in a closet, as opposed to a warehouse for MREs! Survival Food Tabs are a perfect lightweight, emergency food ration for use in survival kits -- and a vast improvement over candies and other quick-energy "fixes" that are currently used.

Every vehicle should have at least one of these Survival Tabs bottles in it as emergency food. The bottle weighs less than a 7 day supply of other foods, is easy to carry (fits into standard canteen holder), lasts (unopened) for decades (when opened, you should eat within 6 months), and is more cost-effective than any other survival, emergency, instant food supply in the world.

## CONCENTRATED IONIC MINERALS

Our bodies are made of the same basic minerals the earth is made of. Minerals are essential to physical and mental health. They are a basic part of all cells: blood, nerve, muscle, bones, teeth, brain and soft tissue. Although your body can manufacture some vitamins, it cannot make minerals. Thus a deficiency of minerals is more common than a deficiency of vitamins.

Some minerals are essential to regulate the fluid balance of our bodies, while other minerals work with the enzymes that catalyze biochemical reactions, aid energy production, nerve transmission, muscle contraction and metabolism of food. Minerals contain no calories or energy in themselves, but are necessary for proper metabolism. Specific minerals address specific functions in the body. Without the proper type, amount and particle size of these minerals, they will not be used properly by the body, and could become toxic.

Each individual mineral supplement creates a specific effect and addresses a specific region within the human body. Guidelines are on our website or you can do your own research on the internet to determine exactly which mineral you wish to use.

Our mineral compounds are ionic (nano-particles) and created in triple-purified reverse-osmosis water, and use the purest form of each individual mineral available in the world.

These are the **CONCENTRATED IONIC LIQUID MINERALS** available: *Each bottle is 16 ounces*

**NON ELECTRIC WATER PURIFIERS**  
since 1837

Gravity-fed water purifiers were invented at the request of the Queen of England in 1837. Through the next 176 years, these have kept their simple concept (pour river, stream, pond, lake or other water source) into the top chamber, and the ceramic filters would take out impurities, bacteria and virus, and make the water that dripped into the lower chamber safe to drink.

All our filters are cleanable (toothbrush) and usable for thousands of gallons. Doulton filters kill 99.99% of all known bacteria, virus, parasites, fungus and prions, and remove chlorine, foul taste & odor. The standard **Ceramic** filters are silver impregnated, making them anti-microbial. The new **CeraMetix** filters have the standard benefits PLUS they remove fluoride, arsenic and lead.

**FREE SHIPPING TO ALL 50 STATES**

**SAWYER MINI PERSONAL WATER FILTER**

Personal water filters for camping, hiking, backpacking, Emergency, Survival and "Boil Water" orders.

Sawyer uses hollow fiber membrane technology, as used in kidney dialysis. The high number of those tiny tubes and their significant surface area allow the filter to have one of the fastest flow rates available in the world.

The membranes are sturdy enough to withstand back washing, which allows the filter to be cleaned and reused for 100,000 gallons or more. At 7 log (99.99999%) the filter attains the highest level of filtration available today.

**REUSABLE AND CLEANABLE!**

The Sawyer MINI Water Filter is rated to 0.1 micron absolute, weighs only 2 ounces, and filters up to 100,000 gallons! Reliable and easy to use.

The MINI can be attached to the included collapsible drinking pouch, inline on a hydration pack, on a standard soda bottle, or use the included drinking straw. Like all Sawyer filters, a proper back washing can restore up to 98.5% of the filter's flow rate. That means no expensive cartridges to replace, ever.

## CBD OIL

The "newest" nutritional product, used for over 10,000 years!

Cannabidiol - **CBD OIL** - is from the Industrial Hemp plant (not the Marijuana plant) It has significant nutritional benefits, but does not make people feel "stoned" and can actually counteract the psycho-activity of THC (the psychoactive ingredient in marijuana).

**CBD OIL** is an option for patients looking for relief from inflammation, pain, anxiety, psychosis, seizures, spasms, and other conditions without the disconcerting feelings of lethargy or dysphoria, or negative and dangerous side effects of opioids.

Scientific and clinical research - much of it sponsored by governments - underscores **CBD's** potential as a treatment for a wide range of conditions, including: arthritis, diabetes, Multiple Sclerosis, chronic pain, schizophrenia, PTSD, depression, epilepsy, Parkinson's, Fibromyalgia, Chron's Disease, Insomnia, Autism, Irritable Bowel Syndrome, Migraine Headaches, anxiety (in both humans and animals), and many more syndromes

**CBD OIL** has been used to handle antibiotic-resistant infections, to reduce blood sugar levels, reduce nausea and vomiting, reduce seizures and convulsions, reduce inflammation, reduce risk of arterial blockages, inhibit cell growth in tumors and cancer cells, treat psoriasis, used to manage psychosis, suppresses muscle spasms, relieve anxiety, promote bone growth, reduce intestinal spasms, inhibits nervous system degeneration.

**CBD OIL** has demonstrable neuro-protective and neurogenic effects, and its anti-cancer properties are currently being investigated at several academic research centers in the United States and elsewhere. There are over 50,000 medical studies world-wide that PROVE the effectiveness of CBD products on human (and other mammals) ailments. It does all this with NO SIDE EFFECTS and is legal in nearly all states.

**SEEDS OF LIFE** is the best source for U.S. grown & processed **CBD OIL**. All our **CBD** products (oils and capsules) are 100% organically grown, extracted from Industrial Hemp using Co2, non GMO and *GROWN IN THE U.S.A.* We have no middlemen, no MLM pricing - we deal directly with the farmers!

## WHY ARE SEEDS OF LIFE CBD OILS THE BEST?

Plants in the genus "Cannabis" (Cannabis Sativa and Cannabis Indica) have over 750 individual nutrients in them. THC is one. CBD is another. Cannabis Indica is the hybrid version (created thousands of years ago as an anesthetic and hallucinogenic - high in THC). The version that humans have used for well over 10,000 years is the Cannabis Sativa strain.

For true effectiveness in health use, CBD products MUST be "full spectrum" (having ALL their 750+ nutrients included). Many CBD products are made from CBD "isolate". This is a "degraded" product that ONLY has CBD, and none of the other 749+ nutrients.

CBD ISOLATE is water soluble. It is added to everything from bottled water to topical pain creme to vape (smoking) products to cheap tinctures. Most of the products using the degraded CBD ISOLATE do not even conform to the Federal Fair Packaging and Labeling Act, so you actually have no idea what you're taking.

They will use certain words to describe these degraded products:

"NO THC"  
"THC FREE"  
"PURE CBD"  
"CBD ISOLATE"  
"WATER SOLUBLE" (True CBD is an oil & does not mix with water)

These products offer low-level, limited and short-term health benefits. They will work for some people, but the effects will disappear within two to four weeks of using it. They are dangerous as they will degrade and lose their potency within a short time.

In the states that have legalized recreational marijuana, the vendors take 4 to 6 various essential oils, mix them up, add 25 to 200 mg of CBD Isolate, and call it "CBD Oil", or they extract their CBD from the marijuana plant (which is high in THC), which is illegal in many states.

Many people have been confirming the fact that CBD oils based on the marijuana plant are causing nausea, headaches, disassociation with reality, affects their vision, and simply acts as an anesthetic and puts them to sleep.

For optimum effectiveness, CBD products MUST use all the plant nutrients of the HEMP plant (there are over 750 phyto-chemicals in the hemp plant). These other nutrients work in a "synergistic" manner with the CBD. This is called a "full spectrum extract", meaning ALL the plants original nutrients are intact and in the mixture. THC will be there (along with all the other 749+ nutrients), but in such a low level that a pee test won't pick it up.

Anyone with the money can have a "private label" product and start selling it to the needful public. Unfortunately, too many unscrupulous sellers have popped up all over the U.S. Some U.S. sellers fraudulently claim "organic", there are NO ORGANIC CERTIFICATIONS for CBD products.

Many of these low quality CBD ISOLATE products are promoted by their sellers in a Barnum & Bailey huckster manner, claiming both outrageous results and prices. Even multi-level marketing scams are popping up.

One seller near us actually charges over \$100 for a 1/3 ounce bottle of a cheap vape mixture! He is the most expensive in the US (so far). It pays to learn all you can about ANY product you want to buy.

**SEEDS OF LIFE** CBD oils and capsules are FULL SPECTRUM products, using the complete nutritional makeup of our special HEMP plants. Our hemp plants are grown on two farms: one in Colorado and the other in Kentucky. The CBD and all nutrients are extracted using a Co2 extraction system, which allows all of the nutrients to remain intact.

**SEEDS OF LIFE** CBD products are the best and safest in the U.S.
