SURVIVAL GUIDE

WASTELAND 7

Nuclear holocaust has rendered most of the planet a desert wasteland. Radiation levels are incalculable. TEAMS

There are three distinct teams fighting throughout the Wasteland. Each faction has their own motivations and ideas on how the Wasteland should be explored, and ultimately, conquered.

Uniform requirements will be strictly enforced. Vest color does not matter. Team uniforms are defined by shirt/top color and pattern.

Harlem Militia

Uniform: MultiCam/Desert Tan/Atacs patterns **(NO black vests, rigs, or plate carriers)**

A paramilitary organization from the Southern section of the Wasteland

Facebook: <https://www.facebook.com/groups/326116444205014/>

Charity: The California Academy of Science

Hudson Rangers

Uniform: All green and woodland patterns **(NO black vests, rigs, or plate carriers)**

A survivalist group from the Northwestern section of the Wasteland

Newhaven Mercs

Facebook: <https://www.facebook.com/groups/879151305448299/>

Charity: The Intrepid Sea, Air and Space Museum

Non-Faction Players (NFPs)

Non-faction players act as antagonists, allies and guides throughout the Wasteland. Some characters will aid you, for a price. Some character's sole motivation is to destroy you and your entire faction.

The Enclave

The Enclave are a unit of heavily armed soldiers, using almost indestructible Power Armor Suits. The Enclave are generously paid for their allegiance to The Master.

Mutants

The mutants are a human race that could not escape the effects of the nuclear fallout. They are loyal to The Master, and will stop at nothing to rid the Wasteland of interlopers.

Vault Dwellers

The Vault Dwellers have been living in seclusion for the past 100 years. They possess very unique medical abilities, but are scared off very easily.

The Merchant

The Merchant is a self serving, mysterious character. He takes pride and joy in providing the best possible deals on ammunition, equipment and supplies in the entire Wasteland.

The Master

The Master is a shadowy figure, controlling the Wasteland from a secret location. No one has ever seen The Master, and reports on his or her whereabouts never lead to capture and prosecution.

ABOUT

Inspired by the video games **FALLOUT**[®] and **WASTELAND 2**[®], this event will feature unique rules designed to simulate the experience of leveling up and survival/scrounging in a post-apocalyptic world. Teams will compete to earn donations for their respective charities:

The California Academy of Science, The Exploratorium, and the Intrepid Sea Air and Space Museum.

WHAT TO EXPECT

Operation:Wasteland is a sci-fi variant of a MilSim airsoft game. All factions start with limited ammunition and must find extra ammo on the field or trade bottle caps for more from the Caravan or The Merchant.

Teams must find Rad-X Boxes and hoard them in their HQ. The team with the most Rad-X Boxes at the end of the game will be the winner. Teams may attempt to raid other teams' HQ for their boxes and supplies.

GAME PLAY

Each phase of Operation:Wasteland will have specific rules of engagement and authorized weapons. Each phase will also have tasks, missions and objectives that must be completed before leveling up the phases.

PHASES

Phase I “Level 1”

*Pistols, shotguns, bolt action rifles and muzzle loaded AEGs. Event supplied **BLACK** BBs only.*

Objective: Secure a Vault for your faction to use as a Base of Operations and Storage Center. Vaults are NOT respawn points. The collection and storage of Rad-X boxes will begin in this phase.

Phase II “Level Up”

*Magazine fed AEGs permitted. Semi-auto operation. Event supplied **BLACK** BBs only.*

Phase II will include the majority of the tasks and missions.

Phase III “Advanced Mode”

Personal BBs and full-auto operation permitted

Phase III will bring the episodes unfolding in Operation:Wasteland to a climax. The power grid must be destroyed and The Master must be eliminated.

 - b. Find bottle caps or loot them to trade from the CARAVAN

5. GAME PHASES

The game will be split into 3 distinct phases to simulate the “leveling up” similar to an RPG video game. This provides a unique spin on normal airsoft game play and requires a higher standard of maturity and intelligence.

5.1. Phase 1 “Level 1”

Players restricted to the most basic weapons with lower FPS and ammo capacity. All guns semi auto mode. Bonus mission to gain AEG magazines early.

- a. Semi-only gas pistols with standard length mags.

- c. Springers (pistols, shotguns, etc.)
- d. AEGs loaded through the muzzle, without magazines

5.2. Phase 2: “Level Up”

- d. Body Armor rules come into effect

6. BB HITS

 - a. Hits on DISABLED weapons count as a body hit
- 6.5. When hit by gun, rocket, grenade, mine, etc. players should immediately:
 - a. Call “Hit!” and seek cover
 - b. When out of the line of fire, wave your red rag above your head vigorously, then tie it around the front sight of your gun.

Expect to be hit multiple times while getting your red rag – don’t get mad, **GET BEHIND COVER**. Please keep in mind most players cannot hear you while firing their weapon. Your red rag is the primary signal of being hit. Red ball-caps are not acceptable substitutes for red rags.

7. BODY ARMOR

- 7.1. Hard Helmets will absorb (1) BB hit for the player
 - a. Subsequent hits to the helmet will count as a direct hit to the player
- 7.2. Plate Carriers will absorb (1) BB hit for the player
 - a. Subsequent hits to the PC will count as a direct hit to the player
- 7.3. NERF and plastic shields will absorb (1) BB hit but subsequent hits count as arm hits
- 7.4. The player will get back behind cover, wave their hand and yell "Hit: Helmet!" or "Hit: Vest!"
- 7.5. The player will simulate being STUNNED and refrain from action for 30 seconds and then return to play
- 7.6. Hits to vest straps, belt, neck, face or other areas not fully covered by body armor count as a normal hit.
- 7.7. When hit by multiple BB's in a burst, the armor will take only (1) of the hits, so the other hits count

8. BLEED OUT

- 8.1. After waving your dead rag, sit or lay down in the field for a 3-minute BLEED OUT period simulating a CRITICALLY WOUNDED soldier.
 - a. CRITICALLY WOUNDED may not stand. They must sit down or take a knee.
- 8.2. CRITICALLY WOUNDED players may either yell or radio for a STIMPAK
- 8.3. CRITICALLY WOUNDED players may warn teammates of immediate danger but may not engage in communication (ie. "Be careful, there's enemy inside." Is O.K. but "There's a sniper about 100ft to the left of that tree. Flank him to the right." Is NOT)

9. LOOTING

- 9.1. During your BLEED OUT enemy players may loot your body (simulated).

 - b. You MUST give them all of your BB's in bags, magazines and speedloaders.
 - c. They may not ask you to toss your ammo or ITEMS to them.
 - d. Dead players may NOT keep ITEMS and bagged ammo.

10. STIMPAKS (STIMS)

Adrenalin/endorphin boosters, which negate the effects of a player's wounds. STIMPAK can be used to 'heal' CRITICALLY WOUNDED players when ingested. STIMS are scenario ITEMS which the player must actually consume (unless the player is diabetic)

- 10.1. Player must drink the entire packet and stow the empty (don't litter)
- 10.2. Player will stow their bandage and return to play

11. KIA (KILLED IN ACTION)

After 3-minutes (without a STIM) a CRITICALLY WOUNDED player becomes KIA

- 11.1. KIA players will assume a non-combative posture and quickly remove themselves from any direct fire proceed in the most direct route to their team's RESPAWN
 - a. Players should put a red rag on their head and tuck it into their goggle strap
 - b. Players should sling or stow their weapons
- 11.2. DROPPING LOOT.
 - a. Any Rad-X boxes, spare BBs or other scenario ITEMS must be dropped in or on the nearest structure or man-made object (eg. Barrel, crate, etc.)
 - b. If no man-made object can be found, the player must find the nearest live player (enemy or friendly) and hand over their LOOT and spare ammo.

12. RESPAWN

- 12.1. Players must wait a minimum of 1-minute at SPAWN before returning to play.
- 12.2. Dead players will organize themselves into (4) man squads to return to play
- 12.3. If after 10 minutes, IF there are less than 3 players are available at SPAWN, the available players may return to play.
- 12.4. Respawning players, their guns and body armor return to full function.
- 12.5. Player may not use SPAWN areas for cover
- 12.6. Players may not engage in combat within 30ft of SPAWN
- 12.7. Players may NOT bring Rad-X boxes, bagged BBs or other scenario items into their SPAWN; those items must be left in the field.

13. NFPs (Non-Faction Players) SPECIAL RULES

 - a. MUTANTS take (3) BB hits before they BLEED OUT

- 13.3. Players may not follow dead NPC players and must allow them space to respawn

14. 15' MINIMUM SAFETY DISTANCE

There will be no 'bang-bang' rules for close range engagements

- 14.1. Players should exercise good judgment and sportsmanship and refrain from shooting live players closer than 15ft away by taking a few steps away before firing.

15. SURRENDER

- 15.1. Players who catch an enemy unaware and 'Dead to Rights' may ask them to "SURRENDER" to let them call themselves hit without actually being shot.
- 15.2. Enemy players who agree to SURRENDER will raise both hands up and then conduct themselves as if they were hit and CRITICALLY WOUNDED
- 15.3. Players may NOT fake a surrender or change their mind once they raise their hands
- 15.4. Enemy players who do NOT SURRENDER may be fired upon with care

16. PARLAY

- 16.1. If two players surprise each other closer than 10 feet in their forward arc, one should call "PARLAY" and allow both players back off until both players are behind cover. This is a safety call to avoid point blank exchanges.
- 16.2. Calling "PARLAY" is not mandatory but shows you are exceptionally honorable.

17. GRENADES and RPGs

Grenades are problematic weapons in airsoft; players must exercise both caution and patience. Be prepared to remind/educate your target of grenade rules

- 17.1. Hand grenades must expel a gas or BB to have effect
 - a. Dud grenades that fail to go off, do NOT have an area effect
- 17.2. Hand Grenades used outdoors have a 15ft area effect, so that any players within 15ft of an exploding grenade are considered automatically hit.
- 17.3. Players with hard cover between them and the detonated grenade are protected from the blast

19. MELEE WEAPONS

To keep with the theme, padded Nerf weapons rubber knives and foam throwing knives may be allowed, but only by mature players as airsoft games are not SCA or martial arts competitions.

- 19.1. Items must be approved by GM or Field Safety Staff
- 19.2. A hit by a Melee weapon will be treated as a BB hit in regards to CRITICAL WOUNDS and BODY ARMOR
