Annual Math Vantiga

Paying the annual Math vantiga is not mandatory. But it is a sacred duty of every bhanap who is gainfully employed. Math depends on the vantigas for sevas performed for daily, viniyogas and maintenance of all sacred samadhis and math facilities. Even though the vantiga can be given at any time during the fiscal year, the members are requested to remit their annual vantiga preferably in the beginning of the year. Those who are not certain whether they have paid their vantigas can call the Sabha Treasurer Vinayak Shanbhag (email: vvshanbhag@yahoo.com or ph: 905-286-4896) at any time .

We have remitted all the vantiga collected so far to the Math. It is hoped that the members will pay their 2010-2011 and 2011-2012 vantigas as soon as possible.

Chitrapur Saraswat Census

The first Census of our Community was attempted in 1896, under the inspiration and patronage of the Late Shri Shamrao Vithal Kaikini and its results were published in the “**Chitrapur Panchang**”. The next Census was taken in 1912, after Kanara Saraswat Association came into being in 1911. The subsequent censuses were taken in more comprehensive scope and details in 1922, 1932, 1945, 1956, 1971, 1991 and 2001. These census, like most others were restricted to gathering primarily demographic & social characteristics of population. The KSA is embarking on a mission of conducting Census of Chitrapur Saraswat Community as a Centenary Year Project by not only retaining usual demographic focus but also partake of a Household Consumer Expenditure Survey.

The results derived will help KSA to yield not only demographic data but also understand social and economic problems faced by community so that appropriate steps can be taken to plan our activities for progress & well being of community. We are taking help of Sabha Pratinidhis of Chitrapur Math and other well wishers in their voluntary capacity to reach out to each Households in Areas where Chitrapur Saraswats have strong presence. And in other areas where members of Chitrapur Saraswat Community have very small presence or residing abroad, we want to reach out to them through our website www.kanarasaraswat.in There are two separate Census Forms uploaded on website one for Chitrapur Saraswats residing in India which containing 6 parts and another for Chitrapur Saraswats residing out of India which contains only one part. I appeal every Bhanap to participate in this historic census by uploading Form from KSA website and start filling immediately. You may send soft copy to our email id census@kanarasaraswat.in.

Its our hope that most people have filled out their census report and sent by mail or forwarded online. If you have not already sent the census information, please send the information as soon as possible.

Sponsor-A-Student Program

Dear Friends:

Since 2005, Chitrapur Heritage Foundation has supported Shri Chitrapur Math and Srivali Trust in Shirali in their cultural preservation projects including a Green Energy Project. This support is made possible through generous donations of our Bhanap community members like you.

Last year, your generous donation helped CHF organize a workshop on renewable energy for students of Srivali High School and also helped fund a Microfinance Program of Srivali Trust's Parimochana Project that provides microloans to Chitrapur community members to start and nurture small businesses.

This year Srivali Trust has requested, and CHF has agreed to provide, financial support for their Sponsor-A-Student (SAS) Program to help deserving students attend Srivali High School that has consistently seen a graduation rate that exceeds 95% every year for the past three years.

CHF has committed to support 100 students every year for the next three years. At a funding level of \$250 per student per year., CHF will need to raise \$25,000 per year to fulfill the dream of 100 students to attend Srivali High School. While we have already raised the first tranche, our goal is to raise \$50,000 for this SAS Program for academic years 2011-12 and 2012-13.

We hope you will join us once again in reaching our fund-raising goal of \$50,000 for the SAS Program.

Srivali Trust is currently constructing a new school building and will need new computer lab, sports equipment, and a new outdoor playing field complete with annual landscaping service. Should you wish to separately fund new school construction, computers for the computer lab, a solar PV system for the computer lab, sports equipment, etc., please let us know and we will provide additional information.

Your donation of \$250 per student per year will help Srivali High School to sustain the school's operating expenses that includes midday meals, student uniforms, school supplies, teacher and staff salaries and utilities and maintenance costs of the school.

To send your generous donation, please send a check payable to Chitrapur Heritage Foundation to:
