Certification of Origin of Swiss Wood

The «Certification of Origin of Swiss Wood» guarantees the Swiss origin of the wood used. It communicates the values positively connected with Switzerland towards its forests, their characteristics and processing methods. It also makes a firm statement about the important environmental issues and the general high standard of conditions surrounding the sustainability and use of Swiss Wood. All wood, which grows in Swiss forests and is processed in Switzerland or in the principality of Liechtenstein, is eligible to use the Swiss Origin logo. Although at least 70% of the wood must come from Switzerland, for products that require mixed sources of wood, it is possible for some of the wood (max 30%) to come from sources outside of Switzerland. However this is only permissible if the wood comes from comparable forestry production regions, and is equipped with a fully traceable, controlled certification of origin. The utilization of the logo is available to all companies in the wood industry and associated business. However, a prerequisite to using this logo, is a fully documented system of inspection, and complete traceability through all process of the business. For more information please go to

## Swiss Quality

Kronoswiss® is here for you: In order to constantly produce our first class products, we will only use materials sourced from carefully selected environmental and replenishable sources. In obtaining our CO<sub>2</sub> reduced certification and in keeping with our companies philosophy Kronoswiss® products have achieved the lowest possible CO<sub>2</sub> values. Our commitment to the environment knows no bounds, and this is demonstrated through Kronoswiss® being one of the first chipboard manufactures to obtain FSC® status in 1997\*. Our environmental core beliefs and commitments now and in the future, differentiate us from our competitors. Swiss Quality demands an ongoing review and updating of all the tests and controls (ISO9001, ISO14001), so that we can confidently achieve our commitment to our customers and the environment.
