

DISRUPTION

CLIMATE.  CHANGE.

PREMIERES SEPT 7TH

A PF PICTURES PRODUCTION

SYNOPSIS

DISRUPTION tells the story of the greatest crisis mankind has ever faced and the movement rising to fight it by weaving together commentary from the most recognized voices analyzing climate, politics and society today with behind-the-scenes footage of the efforts to organize The People's Climate March - the largest climate rally in history.

Featuring James Hansen, Naomi Oreskes, Van Jones, Bill McKibben, Chris Hayes, Senator Sheldon Whitehouse, Naomi Klein, Rajendra Pachauri, Justin Gillis, among others - DISRUPTION makes plain the urgency of the present by laying bare the science behind the terrifying tipping points we are threatening to trigger, the failure of our political process to prevent these catastrophes and the need for a popular movement to challenge these realities.

Drawing on insights into the power of popular movements to change the character of society from veteran organizers responsible for the most significant political demonstrations of the last half century, DISRUPTION documents the first steps of the fateful battle to bend the course of history.

WHY DO WE DO SO LITTLE, WHEN WE KNOW SO MUCH?

DIRECTORS STATEMENT

We could not imagine a more important story than the climate crisis and the movement fighting to meet it.

HISTORY OF CLIMATE CHANGE

CO₂ PPM

Denis Hayes served as national coordinator for the first Earth Day in 1970 which saw over 20 million citizens (1 in 10 Americans) take to the streets to demand a sustainable environment in the largest political rally in American history. He directed the National Renewable Energy Laboratory in the Carter Administration and served as chair of the Energy Foundation and the American Solar Energy Society.

Leslie Cagan's renowned career in activism began with the anti-war movement in the 1960s and has covered organized campaigns across a broad range of social issues including racial equality, gay rights, women's liberation and abortion rights. She organized the 1982 Nuclear Freeze Protest where one million people demonstrated in New York City's Central Park against nuclear weapons. She is the former national coordinator of United for Peace and Justice and former chair of Pacifica Radio.

Naomi Klein, an award-winning journalist and syndicated columnist, is author of the bestselling titles *The Shock Doctrine: The Rise of Disaster Capitalism* and *No Logo: Taking Aim at the Brand Bullies*. A member of the board of directors for 350.org, her writing has appeared in *The New York Times*, *The Washington Post*, *Newsweek*, *The Los Angeles Times*, *The Globe and Mail*, *El Pais*, *L'Espresso*, *The New Statesman*, and elsewhere.

Senator Sheldon Whitehouse (RI-D), elected in 2006, is co-chair and co-founder of both the Bicameral Task Force on Climate Change and the bipartisan Senate Oceans Caucus. His "Time to Wake Up" speech is given weekly to promote urgent action in addressing the climate crisis.

Van Jones, CNN's Cross-Fire host, is a globally recognized, award-winning pioneer in human rights and a clean energy economy. Author of *The Green Collar Economy* and *Rebuild The Dream*, Jones served as the green jobs advisor in the Obama Administration. He is a distinguished visiting fellow in the Program in Science, Technology and Environmental Policy at Princeton.

Naomi Oreskes, professor of the History of Science at Harvard University, is an internationally renowned historian of science and author. Her opinion pieces have appeared in *The Washington Post*, *The Los Angeles Times*, *The Times* (London), *Nature*, *Science*, *The New Statesman*, *Frankfurter Allgemeine* and elsewhere. She is the author of numerous titles including *The Collapse of Western Civilization: A View from the Future* and *Merchants of Doubt*, *How a Handful of Scientists Obscured the Truth on Issues from Tobacco to Global Warming*.

Dr. Heidi Cullen serves as the chief climatologist for Climate Central - a non-profit journalism organization. A member of the American Geophysical Union, the American Meteorological Society, the Society of Environmental Journalists and the NOAA Science Advisory Board, she is a visiting lecturer at Princeton University and a senior research fellow at Wharton. Dr. Cullen served as The Weather Channel's first on-air climate expert.

Ricken Patel is co-founder and executive director of Avaaz.org, the largest global political web movement in history with nearly 40 million members across the globe. Ricken was voted "Ultimate Gamechanger in Politics" in 2009 by *The Huffington Post* and was named a Young Global Leader by the Davos World Economic Forum. He has worked for the International Crisis Group, the Rockefeller Foundation, the International Center for Transitional Justice and was the founding Executive Director of ResPublica.

Chris Hayes hosts "All In with Chris Hayes" on MSNBC. His essays, articles and reviews have appeared in *The New York Times Magazine*, *Time*, *The Nation*, *The American Prospect*, *The New Republic*, *The Washington Monthly*, *the Guardian*, and *The Chicago Reader*. His first book, *Twilight of the Elites: America After Meritocracy*, was published in June 2012.

Rajendra Pachauri serves as chairman of the IPCC, the panel on whose behalf he accepted the Nobel Peace Prize in 2007, and director general of The Energy and Resources Institute. Dr. Pachauri was the founding director of the Yale University Climate and Energy Institute. He has been awarded the "Padma Vibhushan," India's second-highest civilian honor, for his services in the field of science and engineering.

CAST (CON'T)

Dr. James Hansen, formerly director of the NASA Goddard Institute for Space Studies, is adjunct professor at Columbia University's Earth Institute, where he directs a program in Climate Science, Awareness and Solutions. Dr. Hansen is best known for his testimony on climate change in the 1980s that helped raise awareness of global warming. He is a member of the U.S. National Academy of Sciences and has received numerous awards including the Sophie and Blue Planet Prizes.

Justin Gillis covers environmental science with a special focus on climate change for *The New York Times*. A former Knight Science Journalism fellow, he was honored with the John B. Oakes award for Distinguished Environmental Journalism for his ten-part series titled "Temperature Rising," which examined the fundamental tenets of manmade climate change.

George Marshall is one of the leading European experts in climate change communications. The founder of the UK's Climate Outreach and Information Network draws, he has over 25 years in the environmental movement, including senior positions for Greenpeace US and the Rainforest Foundation.

Yeb Saño, climate change commissioner for the Philippines, advocates for an urgent international response to save island states from the effects of global warming. Prior to his appointment as the climate change commissioner, Saño was the head of the Climate and Energy Program of the World Wildlife Fund Philippines.

Senator Barbara Boxer (CA-D) is the first woman in US history to chair the Senate Environment and Public Works Committee. She also chairs the Senate Committee on Ethics, making her the only Senator to preside over two committees simultaneously. She has received numerous awards for her environmental work.

Bill McKibben is an author and environmentalist. A founder of 350.org, his 1989 book *The End of Nature* is regarded as the first book for a general audience about climate change and has been published in 24 languages. The Schumann Distinguished Scholar in Environmental Studies at Middlebury College and a fellow of the American Academy of Arts and Sciences, he was the 2013 winner of the Gandhi Prize and the Thomas Merton Prize. *Foreign Policy* named him to their inaugural list of the world's 100 most important global thinkers.

Keya Chatterjee is a senior director for Renewable Energy and Footprint Outreach at the World Wildlife Fund. Her commentary on climate change policy and sustainability issues has been quoted in media outlets nationwide, including *USA Today*, *The New York Times*, *Fox News*, *The Associated Press*, *The Washington Post*, and *NBC Nightly News*. She has also served as a climate change specialist at the United States Agency for International Development (USAID) and worked at the NASA Earth Science Enterprise.

John D. Sterman is the Jay W. Forrester Professor in Computer Science and the Director of the System Dynamics Group at the MIT Sloan School of Management. He has pioneered the development of "management flight simulators" of corporate and economic systems, which are now used by corporations, universities and governments around the world.

PF Pictures endeavors to use film as a tool for social action - platforms to discuss the most important issues of the day.

An award-winning directing and producing team, Kelly and Jared have worked across Europe, Asia and the Americas. Titles include:

Their films have served as the cornerstones of outreach & educational initiatives in partnership with organizations including Solve for X, Rock the Vote, The National Council for the Social Studies, mtvU and the National Association of Secondary School Principals.

The US State Department Public Speakers Program, the John Adams Institute and The JFK Institute have programmed screening campaigns incorporating SPLIT: A DIVIDED AMERICA and SPLIT: A DEEPER DIVIDE which foster dialogue about democracy in cities around the world including Beijing, Berlin, Madrid, Istanbul, Amsterdam, Taipei, Ankara, Bern, Barcelona, Munich, Paris and Valencia, among others.

Projects currently in production include REQUIEM FOR THE AMERICAN DREAM - an unflinching look at America's staggering concentration of wealth through the eyes of Noam Chomsky – and the short-form series LUMINARIES in partnership with the New York Times exploring vanguard visionaries seeking to change the world through innovation.

Without Struggle, There Is No Progress.

- Frederick Douglass
