## Citavo Quality

Drink a cup. Feed a child. That's the idea behind Citavo Organic Coffee's efforts to benefit both coffee-farming families and at-risk children around the world. Organic production helps protect the health of coffee producers and the surrounding environments by eliminating chemicals used in production, while Fair Trade certification ensures coffee producers a guaranteed living wage. Sysco stands behind these principles by donating to children's charities dedicated to feeding, clothing and educating children in coffee-growing countries. Sysco is proud to support these humanitarian efforts and to run a business that's invested in the future success of these children, and in a better tomorrow.

# SYSCO EARTH PLUS

*Responsible. Effective. Safe.*

**Sysco's Earth Plus** is a line of biodegradable disposable and paper products. Just as effective as original cleaning solutions, these products have been updated and improved to be in line with the U.S. Environmental Protection Agency's Design for the Environment (DfE) program, which is a voluntary EPA program that seeks and promotes innovative products and the technologies and practices that lead to better, more environmentally friendly usage. Earth Plus is perfectly in line with this program, and is just one of the ways Sysco demonstrates environmental stewardship every day.
